

Jawaharlal Nehru University

52nd Annual Report
(1 April 2021 to 31 March 2022)

Prof. Santishree Dhulipudi Pandit

Vice Chancellor, Jawaharlal Nehru University, New Delhi

Message

From

the Vice Chancellor

Jawaharlal Nehru University is pleased to release its Annual Report for the year 2021-2022. Jawaharlal Nehru University has been consistently rated as one of the top institutions in the country, and we are proud to have delivered the best talent in different fields. The University continues to attract the best students in the country. We are exceptionally selective at all levels. We have been successful in securing highly competitive research funds and witnessing the effects of our concepts and research on society.

Our academic members are among the best in the nation and are renowned around the world for the calibre of their research, curriculum development, and teaching. They also make a significant contribution to the growth of the country by being involved with numerous decision-making organizations and offering important direction and advice on both technical and policy-related issues. In the past year, many of them have received accolades and prizes, and have been elected as Fellows of numerous professional national and international associations.

University has made noteworthy and commendable improvements in its national and international rankings. Our University has been granted Graded Autonomy, secured ranked #2 by NIRF 2022, and NAAC Accredited A++ grade (the highest grade by NAAC).

During the year 2021-2022, our academic members have published 141 books, 312 chapters in books, 1027 papers/articles in Journals and 1624 participation in seminars/conferences/workshops, 1535 Lectures delivered (Outside JNU), awarded 337 Research Projects.

JNU has granted recognition and accreditation to six Defence Institutions and 17 Research and Development Institutions across the country over the years. JNU faculty also participate in the academic bodies of these Institutions.

The report provides many activities and achievements undertaken by the University.

We thank the Ministry of Education for its generous support. We further express our gratitude to the students for their excellent conduct and their efforts to enhance campus life while personally thanking the Chancellor and members of the Executive council, Academic council, Deans, chairpersons of different centres as well as all of our colleagues, for their support and encouragement.

To achieve the University's objectives of excellence in teaching and research as well as societal impact, we look forward to cooperating with our stakeholders.

Jai Hind!

Santoshree Pandit

HIGHLIGHTS

HIGHLIGHTS

Jawaharlal Nehru University, established in 1966, is a fitting National Memorial to Pandit Jawaharlal Nehru, a great statesman and visionary, and the first Prime Minister of India. Formally inaugurated on 14 November 1969 by Shri V. V. Giri, the then President of India, the University laid down the following objectives for itself:

to disseminate and advance knowledge, wisdom and understanding by teaching and research; and by the example and influence of its corporate life to promote the study of the principles for which Jawaharlal Nehru worked during his life-time, namely national integration, social justice, secularism, a democratic way of life, international understanding and a scientific approach to the problems of society.

Towards this end, the University was entrusted with the task of:

- fostering the composite culture of India through the establishment of such departments or institutions as may be required for the study and development of the languages, arts and culture of India;
- taking special measures to encourage students and teachers from all over India to join the University and participate in its academic programmes;
- promoting awareness and understanding of the social needs of the country in the students and teachers and prepare them for fulfilling such needs;
- making special provision for integrated courses in humanities, social science and science and technology in the educational programmes of the University;
- taking appropriate measures for promoting interdisciplinary studies in the University;
- establishing such departments or institutions as may be necessary for the study of languages, literature and life of foreign countries with a view to inculcating an international understanding and holistic perspective amongst students; and
- providing facilities for students and teachers from various countries to participate in the academic programmes and activities of the University.

Given below are details of activities of Schools, Centres and other bodies of the University from 1 April 2021 to 31 March, 2022.

THE SCHOOLS

The University was envisioned as an institution essentially for post-graduate teaching and research. The Academic Advisory Committee of the University had originally planned that the University would be broadly structured into Schools, each with constituent Centres. Today the University has fourteen Schools:

- School of Arts & Aesthetics
- School of Biotechnology
- School of Computational and Integrative Sciences
- School of Computer and Systems Sciences
- School of Engineering
- School of Environmental Sciences
- School of International Studies
- School of Language Literature and Culture Studies
- School of Life Sciences
- Atal Bihari Vajpayee School of Management and Entrepreneurship
- School of Physical Sciences
- School of Sanskrit and Indic Studies
- School of Social Sciences
- School of Indian Traditional Music and Dance

It also has the following eight Special Centres:

- Special Centre for the Study of North East India

- Centre for the Study of Law and Governance
- Special Centre for Disaster Research
- Special Centre for E-Learning
- Special Centre for Molecular Medicine
- Special Centre for Nanoscience
- Special Centre for the National Security Studies
- Special Centre for Systems Medicine

DEFENCE RESEARCH AND DEVELOPMENT INSTITUTIONS

JNU has granted recognition and accreditation to the following prestigious institutions across the country. This has added to the true national character of the University. Representatives of these institutions serve on various academic and statutory bodies of JNU. Similarly, JNU faculty also participate in the academic bodies of these Institutions.

Defence Institutions

- Army Cadet College, Dehradun
- College of Military Engineering, Pune
- Military College of Electronics and Mechanical Engineering, Secunderabad
- Military College of Telecommunication Engineering, Mhow
- National Defence Academy, Pune
- Indian Naval Academy, Ezhimala, Kerala

Research and Development Institutions

- Centre for Cellular and Molecular Biology, Hyderabad.
- Centre for Development Studies, Thiruvananthapuram.
- Central Drug Research Institute, Lucknow
- Central Institute of Medicinal and Aromatic Plants, Lucknow
- Institute of Microbial Technology, Chandigarh
- International Centre for Genetic Engineering and Biotechnology, New Delhi
- National Institute of Immunology, New Delhi
- Inter-University Accelerator Centre, New Delhi

- **22 December, 2021**
- **8 February, 2022**

During the year under review the Executive Council deliberated upon various administrative and academic matters and took important decisions. It also considered and approved action taken by the Vice-Chancellor on matters of urgent nature in exercise of the powers conferred upon him in terms of the Statutes/Organic. The Council also approved the action taken by the Vice-Chancellor in approving the recommendations of various Selection Committees for faculty and non-teaching appointments.

Academic Council

The Academic Council is the top academic body of the University and is inter alia vested with the powers to propose establishment of Departments, Special Centres and specialized laboratories to the Executive Council. The Academic Council is also vested with the powers to recommend to the Executive Council the creation and abolition of teaching posts, their classifications, draft ordinances on admissions and examinations, appointment of examiners and fixation of their fees, conferment of honorary degrees and proposals for instituting fellowships, scholarships etc. The Academic Council is further vested with the power to recognize diplomas and degrees of other Universities/Institutions, appoint Committees for admission to the University, make arrangements for the conduct of examinations, fixing dates for holding them and declaring results of various University exams etc.

Academic Council Meetings

- **17 August, 2021**
- **12 January, 2022**

During the year under review, the Academic Council in its meetings co-opted members from various institutions, nominated faculty members/experts on the Boards of Studies/ Special Committees of various Schools / Special Centres and received factual data for admissions in 2019-2020.

FINANCE COMMITTEE

The Finance Committee is a statutory body of the University. It considers the Budget and Expenditure proposals, all proposals for new/additional posts, accounts of the University, the Audit Report and all other financial and accounting matters. Its recommendations go for approval of the Executive Council.

Finance Committee Meetings

UNIVERSITY BODIES

The Legend

A university stands for humanism, for tolerance, for reason, for the adventure of ideas and for the search of truth. It stands for the onward march of the human race towards ever higher objectives. If the universities discharge their duties adequately, then it is well with the Nation and the People.

This visionary statement by the first Prime Minister of Independent India on the occasion of the diamond jubilee celebration of Allahabad University on 13 December, 1947, reflects the great importance that Jawaharlal Nehru attached to university education in India. He firmly believed that universities could play a crucial role in shaping and strengthening the life of a nation by inculcating in their students the cardinal values in which he believed.

As a fitting tribute to his vision, Jawaharlal Nehru University was established in 1966 under the JNU Act, 1966 (53 of 1966). As a further mark of respect, the University was formally inaugurated by the late Sh. V. V. Giri, the then President of India, on the birthday of Panditji on 14 November 1969, which also coincided with the birth centenary year of Mahatma Gandhi.

The University's objectives are:

to disseminate and advance knowledge wisdom and understanding, by teaching and research; and by the example and influence of its corporate life to promote the study of the principles for which Jawaharlal Nehru worked during his life-time, namely national integration, social justice, secularism, democratic way of life, international understanding and a scientific approach to the problems of society.

The uniqueness of JNU is evident from its basic philosophy, policies and programmes which are spelt out and embodied in the University Act. Accordingly, the University has always striven to evolve such policies and programmes of study as would be a qualitative and distinct addition to the national resource base in higher education instead of reflecting mere quantitative expansions of the existing facilities. The University thus has been concentrating on programmes that are of relevance to national progress and development. In this regard, the University has taken the following initiatives:

- A conscious effort has been made to promote ideas of national integration, secularism, scientific outlook, cosmopolitan and humanistic approach towards life.
- The national character of the University has been maintained by selecting students and faculty from all regions of the country.
- An interdisciplinary approach to teaching and research has been promoted in recognition of the fact that knowledge is indivisible and, accordingly, a structure of Schools and Centres of teaching has been established.
- The emphasis on teaching and research in non-conventional areas has ensured that duplication of facilities available in other universities is avoided as far as possible.
- Care has been taken to establish a model School of Language Teaching and Research in Indian as well as foreign languages with well-equipped language laboratories and Centres, where the study of the literature, culture and civilization of the countries concerned becomes feasible and effective.
- A system has been evolved whereby main academic decisions, such as the courses to be taught, their content and the methods of evaluation, are taken by the teachers themselves.
- Admissions are made entirely on merit through an open all-India Entrance Examination, held at 113 cities across the country.
- In accordance with the policy of the Government of India, the University provides reservations in both students' admissions.
- There is a liberal provision for merit-cum-means scholarships/fellowships. Students as well as faculty members are provided with financial support to undertake field trips in connection with their research both within the country and abroad.
- Participation in exchange programmes with universities/institutes abroad is encouraged to promote international understanding. The University has signed Memoranda of Understanding with a large number of foreign universities and institutions.
- A Grievance Redressal Committee has been set up to promote cordial relations between the students and the University administration.

The University was envisioned as essentially a post-graduate teaching and research institution. Presently, the University is structured into fourteen Schools:

1. School of Arts and Aesthetics
2. School of Biotechnology
3. School of Computer and Systems Sciences
4. School of Computational and Integrative Sciences (earlier School of Information Technology)
5. School of Engineering
6. School of Environmental Sciences
7. School of International Studies
8. School of Language, Literature and Culture Studies (earlier the School of Languages)
9. Atal Bihari Vajpayee School of Management and Entrepreneurship
10. School of Life Sciences
11. School of Physical Sciences

ADMISSION PROCESS

Admission to various programmes of study is regulated by policy and procedure approved by the Academic Council of the University from time to time.

The approximate number of seats available in each programme of study is decided by the Academic Council on the recommendations of the Centres/Schools concerned.

Reservation in admissions: The University provides (15% for SC and 7.5% for ST,) 27% for OBC 10% for EWS category and 5% for the person with disability. Over and above the intake fixed for each programme, 15% of seats are also reserved for foreign nationals, (except Ph.D. programme). Of this quota of 15%, upto 7.5% of seats are reserved for those appearing in the entrance examination and the remaining 7.5% for candidates applying from abroad whose cases are considered in Absentia. The ratio is interchangeable if necessary.

Admission Notice: The Admission Announcement for admission to various programmes of study at UG/COP, PG & Ph.D. level is published separately in appropriate media by JNU/NTA for information of prospective candidates.

Written test: The written test for admission to various programmes of study is held at various centres all over the country. A question paper of three hours duration is set for each programme or each set of programmes of study. The tests are spread over four days, with two sessions of three hours on each day. Admission is made purely on merit, taking into account the candidate's performance in the written examination and the viva-voce, wherever prescribed.

Eligibility requirements for appearing in the entrance test: The eligibility criteria (for both general and reserved category candidates) for appearing in the entrance examination are formulated as per the guidelines laid down by the University in this regard. Candidates who are appearing in their respective qualifying examinations are also permitted to appear in the entrance examination. In the event of selection, however, their admission is subject to their passing and securing the prescribed percentage of marks in the qualifying examination and submission of all documents, including the final marksheet of the qualifying examination at the time of admission. The last date for admission to any programme of study is 10th February, 2021 and no admission is permitted thereafter.

Viva-voce examination: Candidates seeking admission to Ph.D., programmes are required to appear for a viva-voce examination which is assigned 30% marks for Ph.D, all candidates who have secured a minimum of 50% marks for General & EWS Category and 45% marks for SC, ST, PWD and OBC Category Candidates in the written examination are invited for viva voce.

Selection of candidates: Separate merit lists are prepared for General, EWS, SC, ST, PWD and OBC candidates and foreign nationals for each course/programme of study. Final selection of candidates is made on the basis of their *inter se* merit in their respective categories based on their performance in the written test and viva-voce examination (wherever prescribed) and the score of deprivation points (wherever applicable).

Registration: The candidates who are selected for admission are required to complete all registration formalities within the time schedule drawn up by the university.

University Bodies

The University has certain regulatory bodies responsible for its functioning. These include the University Court, the Executive Council, the Academic Council and the Finance Committee.

**SCHOOL OF ARTS &
AESTHETICS
(SA&A)**

SCHOOL OF ARTS AND AESTHETICS

School of Arts and Aesthetics (SA&A)

The School of Arts and Aesthetics offers post -graduate degree courses (MA, M Phil and PhD) in the theoretical and critical study of cinema, visual and the performing arts. Unlike other schools of fine art, theatre, dance and media studies that teach the practice of the arts (painting, dancing, filmmaking) this is a Humanities School that offers an advanced- level of training in history and criticism of the arts, producing a cadre of scholars, critics and historians of the arts.

The School's pedagogy and research takes into account new ways of thinking about culture using a wide array of critical and theoretical approaches. Students are introduced to a range of research methods that combine archival, ethnographic, theoretical and cultural approaches and are encouraged to explore the interface between theory and practice. For this, the faculty encourages students to visit museums, exhibitions, and monuments and to attend festivals of theatre, film, dance and music. The school frequently hosts interactive sessions with eminent scholars and practitioners from within the country as well as from overseas. It leads research oriented field-trips to and site-seminars at archaeological sites and monuments as well as to document rituals and performances. The school has a number of media labs in which classes are held.

In general the MA course offered by the School is cross-disciplinary. A range of core courses first offer an introduction to the visual, cinematic and performing arts, which are followed by core courses that focus on the history of these fields in India. Optional courses allow for a more intense engagement within the MA with particular areas or methods. The Ph.D programme offers a specialized focus in each of the three disciplines viz. Cinema Studies, Theatre and Performance Studies, and Art History and Visual Studies.

However, the lockdowns on account of the pandemic and the inability to be able to teach classes physically has been exceptionally challenging for disciplines in which the very basis is a physical interaction with rituals, spaces, artworks and performers. The faculty modified its pedagogy in all sorts of ways to compensate for this loss and the Board of Studies recommended its innovative strategies to tide over the exigencies.

Over the years the School has also built up a valuable and expanding library and archive of photographs, audio and video recordings. This proved to be an invaluable back-up during the period when online instruction was the norm. Almost all teaching is multi-media to help students maintain live contact with performance, visual art and film. Students are encouraged to undertake their own field trips, and for this they are taught documentation methods, they are taught to curate exhibitions in the art gallery, to organize film festivals on specific themes and observe performance practices. The School continues to enrich the cultural environment of the University and the larger cause of the art studies. Through its degree programmes, research output, conferences, seminars, popular and scholarly publications, curatorial and performative projects and its alumni who are working in innumerable arts institutions and centres of learning, the School of Arts and Aesthetics has made a mark in the fields both in India and abroad.

**SCHOOL OF BIOTECHNOLOGY
(SBT)**

School of Biotechnology (SBT)

Jawaharlal Nehru University (JNU), New Delhi was one of the first six Universities in India to initiate a Postgraduate teaching and research programme in the field of Biotechnology in 1985. Since 1985, it was running as the Special Centre for Biotechnology (CBT) under the joint sponsorship of the University Grants Commission (UGC) and the Department of Biotechnology (DBT), Ministry of Science & Technology, Govt. of India. To begin with, it was started to initiate Biotechnology education programme with an impetus to generate a workforce that could turn into a substantially trained pool to meet the country's demands. Considering the growth of Biotechnology at an international level, its applications in general spheres of life and the significant contributions made by the faculty of the Centre for Biotechnology, the Executive Council of JNU resolved to elevate the status of the Special Centre for Biotechnology to that of a School of Biotechnology (SBT) in 2006. Over the years, Biotechnology programme at JNU has established itself as a leading academic programme both from the teaching and research point of view. School of Biotechnology has ranked at number one position in the country consistently over many years by Biospectrum Bangalore. The faculty members of the School of Biotechnology are internationally recognized for their contribution to basic and applied aspects of Biotechnology research.

Research Specializations Offered

- Infectious Disease Biology
- Immunology and Vaccine Development
- Cancer Genetics, Genomics, Epigenomics, Molecular Pathology, Multi-omics data integration
- Functional Genomics of the Complex Diseases (i.e. Type2 Diabetes, Obesity, Dyslipidemia, etc).
- Oxygen Biology & Microenvironment
- Transcription Control and Gene Regulation
- Protein Stability, Conformation and Folding
- Protein Aggregation and Amyloid Fibril Formation
- Bioprocess Monitoring and Modelling of the Recombinant Cultures; Metabolic Engineering and Scale-up of the Recombinant Proteins
- Molecular Biophysics, Structural and Computational Biology
- Biochemical Engineering (Bioprocess Simulation)
- Bioprocess Engineering
- Bio-organic and Bio-conjugate Chemistry
- Nanobiotechnology, Microfluidics and Biosensor Development
- Biophotonics
- Biological Big Data Analysis, Genome Science and Technology, Computational Biology
- Virus Mediated Signal Transduction
- Molecular Cell Biology
- Optogenetics, Cilia Biology and Ciliopathies
- Molecular and Cellular Biology of Rare Genetic disorders
- Metagenomics and Bioremediation
- Plant Molecular Biology and Plant Biotechnology
- Synthetic Biology and Genome Engineering

Research Facilities

School has excellent “state-of-the-art” research facilities for training in the modern areas of biological sciences. These include:

- Central Instrumentation Facility (CIF)
- Computer Lab for Computational Biology, Simulations and Bioinformatics
- Biosafety Level 3 (BSL3) Facility
- Biosafety Level 2 (BSL2) Facility
- Recombinant Product Development Facility
- Protein Production, Purification and Characterization Facility
- Spectroscopic Facility

- Microcalorimetric Facility
- Microscopic Facility
- Animal Cell Culture Facility
- Plant Tissue Culture Facility
- Algal Culture Facility
- BD FACSAria Fusion Flow Cytometer and Sorter (4Laser, 16 Colors) for Cell Analysis

Students Achievements: (04)

- Ms. Geetika Verma received a European Molecular Biology Organization (EMBO) short-term fellowship award to carry out advanced research using Mass spectroscopy in the area of “Hydrogen Deuterium Exchange (HDX) and Fast Photochemical Oxidation of Proteins (FPOP): Higher Order Structural Characterization of Alpha-Synuclein and its Familial Mutants at the Astbury Centre for Structural Molecular Biology, University of Leeds, UK., November, 2021 – January, 2022.
- Dr. Dushyant Kumar Garg, working as an ICMR Research Associate received a prestigious University of Fribourg, Switzerland, Vice Chancellor’s postdoctoral mobility grant to carry out research work on “Deciphering nanostructure formation by a low complexity domain of TDP-43 protein in different physico-chemical conditions”, 2 September – 1 December, 2021

Future Plan

School aims to excel in both teaching and research based on the latest developments in the field. We are in the process of implementing new course curriculum based on DBT curriculum and our strength in different specialized areas Biotechnology. School is also planning to upgrade PhD course work from the coming academic session. We aim to secure funding from different government and CSR agencies for high end instrumentations like mass spectrometry, imaging, next-generation sequencing etc. Further we would like to upgrade our current research infrastructure. The new building of SBT has been planned which we are expecting to get soon. School also aims to initiate the following:

- Campus wide electives: In future we plan to launch a new campus wide course (10- 15 hours per semester) for JNU students of other disciplines to learn biotechnology. For example, a JNU student of humanities may take elective course in biotechnology.
- Outreach Program: SBT faculty members would continue to reach out to the grassroot level (various schools and colleges) and offer lectures, hands on sessions and group discussions
- Establish a prestigious Academia and Industry Chair
- Encourage spin offs to generate revenue and novel avenues of employment

School of Computational and Integrative Sciences (SCIS)

The **School of Computational and Integrative Sciences (SCIS)**, Jawaharlal Nehru University, presently has two academic groups dedicated to the areas of **Computational Biology and Bioinformatics** on the one hand and **Complex Systems** on the other. The overarching objective of the School is to develop and apply computational methods and techniques in different subject domain cutting across disciplines, with a special interest in the broad area of life sciences. Research investigations are carried out in theoretical, experimental and translational aspects of the chosen problem. This mission is reflected in the diverse faculty profile of the school which comprises researchers from the fields as varied as Genomics, Computational Biology, Plant Biology, Complex Systems, Bioenergy, Statistical Data Analysis and Modelling, Theoretical and Computational Chemistry, Petri nets and Graph Theory, Mathematical Biology, Computational Radio Frequency and Microwave, Antenna applications for Biomedical application. The integrative and interdisciplinary mode of teaching and research of the school is unique in the University system.

Programmes of Study

- Teaching and research programs in **Computational Biology** involve undertaking research, development, and application of computational tools and approaches in expanding the use of biological, agricultural, medical, behavioural or health data, including those to acquire, store, organize, archive, analyze, or visualize such vast data. In addition, research programs focus more on the development and application of data analytical and theoretical methods, mathematical modelling and computational simulation techniques to the study of biological, behavioural, and social systems.
- The School runs core courses in **Complex Systems** which will study the behaviour of mathematical, physical, living and social systems, identify patterns that underlie these inter-related systems, and examine properties such as emergence, evolution, network, structure and dynamics of these systems in a competitive environment.
- Taking note of the data explosion and emerging advanced machine learning approaches SCIS initiated an ambitious Post Graduate Diploma in Big Data Analytics in Bioinformatics to augment the needed human resource in this new area. This short term academic programmes are designed to keep pace with technological advances and societal needs.

The teaching and research programs are supported by good computational and communication infrastructure. School manages a centralized facility for high-performance computers, consisting of computer clusters with multiprocessor nodes, large-memory nodes and GPUs to facilitate specialized research. The school takes pride in being among the country's best institutions in imparting high-value employability-related skills to its students such as in genomics data analytics, molecular simulations, data science and financial modelling and simulation.

We have set-up a small scale experimental facility to validate theoretical predictions and test innovative ideas as a small scale. These test beds are part and parcel of the school and seemingly drives our innovative idea.

The School organizes International conferences, seminars/symposiums regularly for the benefit of the academic community. Faculty of SCIS also has great collaboration with industry in their research and development efforts. Similarly SCIS has several MoUs with leading Universities of the world to provide exposure collaboration and cooperation for faculty and students in a mutually benefited way.

Academic programmes of the School

- Ph.D. programme in Computational and Integrative Sciences
- M.Sc. programme in Computational and Integrative Sciences
- Post-Graduate Diploma in Big Data Analytics (Biological big data)

School of Computer & Systems Sciences (SC&SS)

The School of Computer and Systems Sciences was established in 1975. It is among the first few institutions in the country to offer degree in Computer Science & Technology. The School offers Masters and Research programs leading to degrees in MCA, M.Tech in Computer Science and Technology, M.Tech in Statistical Computing, MPhil and Ph.D. in the areas of Computer and Systems Sciences. The school attracts the very best and most talented students from all over the country. The large number of applicants for admissions to the research programme of the school clearly indicates the prestige, reputation and popularity of the programmes offered by the school. This trend is also prevalent in the case of admission seekers from neighboring and other foreign countries. Besides the teaching and research programmes of the School, the School has been engaging methods and ways to stimulate research further and enhance the learning skills of the students by organizing weekly research seminars and National Seminar-Cum-Technical Festival for students from across India.

School of Engineering (SoE)

The School of Engineering is a young and promising School established in 2018 within Jawaharlal Nehru University. The School offers one of a kind, Five-Year Dual Degree Program B.Tech + M.Tech/MS in Engineering and Master's specializations in several aspects of Social Science, Humanities, Science and Technology. The mission of this new School is to produce a new brand of Engineers, one who is aware of the world around them and is able to leverage interdisciplinary skills to solve socially relevant problems.

Currently, students taking admission in School of Engineering, JNU in the following dual degree programs:

- B.Tech. in Computer Science and Engineering and M.S/M.Tech. in Social Sciences/ Humanities/ Science/ Technology (4 year + 1 year)
- B.Tech. in Electronics and Communication Engineering and M.S/M. Tech. in Social Sciences/ Humanities/ Science/ Technology (4 year + 1 year)

The five-year dual degree is one of the very few programmes in the country where the student would acquire skills in technology and its application to aid the sustainable development of society. In the dual degree program, the students will acquire the necessary foundational skills through the designed core/elective/optional courses in the areas of technology, basic science, humanities, social sciences. This will build the basic competencies to pursue a master's degree from amongst a spectrum of options available, subsequently.

The dual degree program is novel in the sense that it extends an opportunity to the students, especially in their fourth and fifth year of the program to involve themselves in projects/dissertations and courses in humanities, international studies, sciences, languages, linguistics, and social science. Not only will this allow an acquaintance with the frontier areas, but it will also make the students more sensitive towards their socio-economic and environmental responsibilities. The programme would emphasize further that generating returns for society and the larger community is indispensable. With such an engaging and holistic learning approach, students will have the opportunity to become better problem solvers.

New Courses

The School of Engineering introduced the following new courses:

S.N.	Course Name and Code	Concerned Faculty	Offering School
1	Introduction to cyber threats (elective course in CSE)	Dr. Ankit Chaudhary	School of Engineering
2	Introduction to CS (PhD course work course)	Prof. Ruchir Gupta, Dr. Ankit Chaudhary, Dr. Prerana Mukherjee, Dr. Mukesh Kumar Giluka, Dr. Rajkumar Krishnan	School of Engineering
3	Introduction to Electronics (CSE, ECE, 2nd semester, 3 credits)	Dr. Ayushi Barthwal,	School of Engineering
4	Embedded Systems (ECE, 7 th semester, elective course, 4 credits)	Dr. Varun Saxena,	School of Engineering
5	Wireless Communication (ECE, 6 th semester, 4 credits)	Dr. Mukesh Kumar Khandelwal	School of Engineering
6	Deep Learning (CSE, 7 th semester, 4 credits)	Dr. Prerana Mukherjee	School of Engineering
7	Game Theory (CSE, 7 th Semester, 4 credits)	Prof. Ruchir Gupta	School of Engineering
8	Bioinformatics (CSE, 5 th semester, elective course)	Dr. Mukesh Kumar Giluka	School of Engineering
9	CAD Models for Microstrip Antennas (For Ph.D. coursework in ECE)	Dr. Mukesh Kumar Khandelwal	School of Engineering

The School updated the syllabus of the following UG courses:

S.N.	Course Name and Code	Concerned Faculty	Offering School
1	IPR & Law	Dr Reeta Sony	Centre for Studies in Science Policy

Accomplishment of Students

Student Name	Enrollment number	Achievements
Sidharth Kumar	19/11/EC/044	1. Qualified Gate 2022 with AIR 1694
Asjad Ahmed Khan	19/11/EE/005	1. Selected as an Outreachy Intern under the Eclipse Adoptium organisation. Outreachy is one of the biggest open-source programs in the world. 2. Selected for MLH Fellowship. MLH Fellowship is an international open source program.
Hrithik Singla	19/11/EE/053	1. Qualified Gate with AIR 2388 2. Won the innovation sprint challenge organised by AIC JNU 3. Completed the EYRC 2021 challenge and emerged as 12 th rank in 550 teams. Team members include: (1) Amanullah Asad 2019 batch, (2) Hrithik Singla 2019 batch, (3) Swastik Pal 2020 batch, (4) Nabanil Mitra 2020 batch
Akshay Singh		1. Secured 2nd place in the JNU Fresher's Badminton tournament
Vinay Kumar	20/11/EC/022	1. Secured 2nd place in boys' doubles Freshers' badminton tournament (13 Dec 2021 - 15 Dec 2021)
Amanullah Asad	19/11/EE/016	1. Qualified Graduate Aptitude Test in Engineering (GATE) in Electronics and Communication stream with All India Rank 1929 2. Awarded certificate of completion in the 10 th edition of the E-Yantra Robotics Competition organized by the Indian Institute of Technology, Bombay. Achieved rank 12 th out of the 100s of teams. 3. Won the Innovation Sprint contest organized by AIC-JNUFI in association with FORGE Accelerator. 4. Won the first prize at Coding Competition organized by MIDAS, IIIT-Delhi.
Divyansh Singh	20/11/EC/057	1. First position in Hack-A-Web Hackathon conducted by Manit Bhopal. Won a cash prize of 50k and swags and courses of worth 10k.
Rohit Kumar Mahato	20/11/EC/030	1. Qualified for round 1A of Google Code Jam 2022.
Harsh Kumar	21/11/EC/053	1. Designed a screensaver using OpenGL and python Designed a snake game in python
Premlata Nishad	18/11/EE/013	1. Organized three work shop on Assistive Technology and invited (I) IIT Delhi based Startup Assistech to demonstrate DotBook (II) Ottobock to demonstrate their assistive devices (Prosthetic Limbs, Blade Prosthetic, Caliper and Motorised Wheelchairs). (III) Saksham Foundation to demonstrate assistive devices for visually impaired people.
Swastik Pal	20/11/EE/029	1. Awarded certificate of completion at the end of the e-Yantra Robotics Competition (eYRC 2021-22). Team was ranked between, 11-30. 2. Google Kick Start 2021 Round G rank 2659. Google Kick Start 2022 Round A rank 4928.
Prateek Yadav	20/11/EC029	1. Won first place in 48hrs E Summit Hackathon organized by the NIT BHOPAL 2. Got in Grand Finale of Toycathon organized by Indian Govt 3. Got in finals of Innovation Sprint organized by AIC JNUFI

Future Plans

Following are the future plans of School of Engineering:

School will establish research laboratories to run M.Tech and Ph.D programs successfully in

- M.Tech in Computer Science Engineering
- M.Tech in RF & Microwave
- Seeking for constructing the School's building, more classrooms and laboratory rooms will be constructed with other infrastructure facilities (HEFA loan approved)

School of Environmental Sciences (SES)

The School of Environmental Sciences (SES) was founded in 1974. The School is one of the well known international centres of environmental research. The School has a vision to enhance global visibility and leading role in environmental policy making by means of modern education, research, awareness and futuristic policies through nurturing the best young minds. The school is inter-disciplinary in nature having physics, chemistry, biology and geology as four academic areas. However, faculty are carrying out research on various fields such as climate change, global warming, acid rain, air quality, arsenic in water, carbon sequestration, bioaerosols, river systems, landfills, geochemistry mapping, biodiesel, glacier melting, toxic metal accumulation, microwave radiation, nanotoxicology, sustainable development, Himalayan ecosystem, agro-ecology, remote sensing water decontamination, Biochar use in soil fertility and carbon sequestration etc. across academic areas. The School has a number of collaborations with national and international organizations.

The School is having various co-curriculum activities and is recognised as one of the Environmental Information System – Resource Partner (ENVIS-RP) by the Ministry of Environment, Forest & Climate Change (MoEF&CC), GoI.

In addition, faculties have received various national and international awards.

Conferences Organized by the School

- Webinar on the occasion of World Environment Day, 5 June, 2021
- Webinar on the occasion of International Yoga Day, 21 June, 2021
- Webinar on the occasion of International Day of the Tropics, 29 June, 2021
- Online lecture on Issues & Challenges in Information Security, 16 July, 2021

School of International Studies
(SIS)

School of International Studies (SIS)

The School of International Studies is engaged in teaching and research of international relations, international politics, international trade, international law and area studies. It offers three post-graduate-level courses, and M.Phil/Ph.D programmes. The three M.A. programmes are administered at the School level, while those who wish to pursue their M.Phil and Ph.D can join any of the thirteen Centres within the School. Admission to these programmes is based on a rigorous entrance test and selection process.

The School has a highly qualified faculty that specializes in various fields. The faculty draws its inspiration from the highest traditions of scholarship set by the School and the JNU at large. Recently, the SIS has opened new programmes like Energy Studies and Human Rights.

The SIS was established in 1955 and is one of the oldest schools of the University. The School is highly multi-disciplinary in its approach. The SIS has been a pioneer in establishing international relations as a distinct academic discipline and advancing knowledge of other regions as part of Area Studies, to Indian and foreign students. The SIS has acquired national and international reputation as a centre of advanced learning.

In its very early years, the School focused exclusively on research with the PhD programme being at the core of its academic activities. However, subsequently after becoming a part of JNU in 1971-72, the School added M.Phil curriculum to its academic programme. Later in 1973-74, the School started offering a two year MA (Politics: International Studies) programme, which was further strengthened by offering an MA programme in Economics (with specialization on World Economy) at the Economic Division of the Centre for Studies in Diplomacy, International Law & Economics in 1995-96. The School started offering two year MA (International Relations and Area Studies Programme) from Monsoon Semester 2015-16.

Over the years, admissions have become fiercely competitive with the School attracting the brightest minds from India and abroad. The School has, as on 31 March 2021 awarded 1789 Ph.Ds and 4515 M.Phil degrees.

Admissions to various academic programmes at the School are supplemented by financial assistance (details available at JNU website). Further, a number of our M.Phil/PhD students also qualify the UGC/JRF, RGF, MANF fellowships.

Presently, the School has 101 faculty members: 40 Professors, 23 Associate Professors and 38 Assistant Professors, one Emeritus Professor and two Documentation Officers. The faculty strength is further supplemented by several prestigious Chairs being instituted at the School (Appadorai Chair, Nelson Mandela Chair at CAS, Jean Monet Chair at CES and Chairs in Environmental Law and Space Law). The faculty of the School, by advancing pedagogical and applied knowledge, has established global reputation in their respective areas of expertise. It is also a matter of pride that several of our faculty members are on important government and non-government bodies and famous think-tanks while others constantly engage with public discourses and civil society issues.

The School also engages with issues of contemporary relevance by organizing regular national and international seminars, workshops and symposia on various aspects of area studies, bilateral relations and themes relating to study of international relations.

The School also publishes a referred quarterly journal, *International Studies*, which publishes original research articles on international relations and area studies. The journal, from its inception in 1959, has been publishing original research articles and has received international recognition. The School is known for the large number of seminars and workshops that all the Centres organize on multiple issues and themes. A large number of dignitaries, academics and others visit the School regularly.

The School had UGC sponsored/ funded Area Studies Programmes like Gulf Studies in CWAS, Centre for Russian & Central Asian Area Studies Programme in CRCAS, European Area Studies Programme in CES, Francophone Area Studies Programme in CAS and Centre for Inner-Asian Studies. Foreign languages like Arabic, Japanese, German, Russian and others are taught in the various Centres.

The School has 13 Centres and 2 special programmes and offers the following M.A./M.Phil/Ph.D. programmes

1. American, Latin American and Canadian Studies

2. European Studies
3. International Legal Studies
4. International Trade and Development
5. Chinese, Japanese and Korean Studies
6. International Politics, International Organization, Diplomatic and Disarmament Studies and Political Geography
7. Comparative Politics and Political Theory
8. Russian and Central Asian Studies
9. South Asian Studies
10. Indo Pacific Studies
11. Inner Asian Studies
12. West Asian Studies and
13. African Studies

The profiles of the Centres contain a detailed description of the M.Phil/Ph.D programmes and other academic activities being undertaken at the respective Centres

- M.A. Politics (International Studies): The M.A. in Politics (with specialization in International Studies) at the School remains one of its flagship and most popular programmes, offering core and optional courses based on discipline and areas studies. Presently, with an intake capacity of 121 students [87 male and 34 female], the programme is being run by faculty from all the Centres of the School.
- M.A. Economics (with specialisation on World Economy): Male: 12, Female: 28, This programme is run by the Centre for International Trade and Development (CITD). A detailed description of this programme of study is given under the profile of CITD.
- M.A. (International Relations and Area Studies) started from Academic Session 2017-18. Student admitted- Male: 19, Female: 31: Total: 50. This programme offers core courses in IR and Courses on Area Studies offered by all Centres/ programme of the School. This is the first full- fledged Area Studies Masters programme offered in India.

About the Centre

Centre for African Studies

The Centre for African Studies is an interdisciplinary centre for study of Africa. It aims at promoting African studies as an academic discipline for advancing knowledge and understanding of African affairs through inter-disciplinary perspective. It brings together scholars having an active interest in Africa from all over the country and abroad. The Centre has two major programme of studies- M. Phil. and Ph.D. It also offers courses for the M.A. programme offered by the School of International Studies. The teaching and research programme of the Centre has been designed to cover both the traditional as well the contemporary issues relating to the region.

The current academic curriculum of the Centre focuses on the following thrust areas: regional organizations, government and politics, state and civil societies, ideologies, governance, Diasporas, bilateral relations, issues of development and foreign policy of major African countries. Besides this the Centre has its own research focus on Global engagement with Africa.

To facilitate the development of research, training and interaction with scholars from abroad, the Centre holds a Nelson Mandela Chair, funded by ICCR, through which visiting faculty from African countries are invited every semester. The visiting faculty participates in various programmes and activities of the Centre.

Seminars and conferences are organized regularly by the Centre in order to strengthen its academic programmes by facilitating exchange of views among scholars. In pursuance of its aim, the Centre is involved in several academic outreach programmes on African affairs involving Indian academic institutions. It hosts the permanent secretariat of African Studies Association of India (www.africanstudies.in), which is an apex academic association of Indian Africanist coming from all disciplines and from all Indian Universities and academic institutions.

UGC Area Studies Centre on African Studies

The Centre had a UGC Area Studies Programme on Africa. It provided funding support to faculty for field visits to Africa and supports academic activities like research seminars, and publications.

Centre for Canadian, US & Latin American Studies

The Centre for Canadian, US & Latin American Studies (CCUS&LAS), consists of three programmes on Canada, United States and Latin America. The Centre offers these three Ph.D. programmes in addition to several elective courses for the Masters' programmes of the School. The evolution of the Centre can be traced as far back as 1955 when the Department of American History and Institutions was established as part of the Indian School of International Studies intended to stimulate interest in the North American affairs. It became a part of Jawaharlal Nehru University in 1970. Along with studies on the United States of America, Latin American Studies started as a full-fledged programme in 1971 and Canadian Studies was formally launched in 2001.

All teaching faculty are engaged in teaching, research, guidance, participation in conferences and seminars both in India and abroad, organizing special lectures, round tables and discussions. They give lectures at various government institutions, such as Foreign Services Institute, New Delhi, Army War College, Indore, and Academic Staff Colleges of various other universities in India. The Centre has several activities involving the students including academic discussions on their research areas and seminars. There are a total number of **60** students enrolled in the Centre for this year.

Centre for Comparative Politics and Political Theory

The Centre, which began as a Programme with a faculty of two, was recognized as a full Centre for Comparative Politics and Political Theory, in the School of International Studies, in 2008. CCPPT currently has 6 faculty members – 1 Professors, 1 Associate Professor and 4 Assistant Professors.

In 2016, Centre for Comparative Politics and Political Theory began an M. Phil. programme with 10 students. The Centre offers Six M. Phil/Ph.D. Courses including the course on Research Methodology. CCPPT regularly holds 2 Research Workshops (in Monsoon & Winter semester) each for Ph.D. and M.Phil. students annually. Currently the Centre in the 2021-22 academic year has thirty five (35) Ph.D. Students and four (4) M.Phil students.

Centre for East Asian Studies

The Centre for East Asian Studies was initially established as a Centre for Chinese and Japanese Studies, it subsequently grew to include Korean Studies as well. The students of the Centre are drawn from various social sciences and humanities such as History, Political Science, Economics, Sociology, International Relations and Chinese, Japanese and Korean languages. The key objective is to impart an interdisciplinary knowledge and understanding of the foreign policy, government and politics, society and culture and political economy of the respective areas. Students can explore new and emerging themes such as East Asian regionalism, the evolving East Asian Community, the rise of China, resurgence of Japan and the prospects for reunification of the Korean peninsula. Additionally, the Centre lays great emphasis on enhancing language skills. The academic curriculum covers various dimensions of modern and contemporary East Asia -China, Japan and Korea – one of the most dynamic and significant regions of the world today. A total number of 86 students are currently registered (about 49 in Chinese Studies, 20 in Japanese studies and 17 in Korean Studies) in the MPhil and PhD. Programmes.

Scholars in the doctoral programme of the Centre specialise in the areas of their interest related to the East Asian region. Several students of the Centre have been recipients of prestigious research fellowships awarded by the Chinese, Taiwanese, Japanese and Korean Governments. Besides, the research scholars of the Centre also avail scholarships offered by the Japan Foundation, Nippon Foundation, Korea Foundation and the Academy of Korean Studies. The fellowships offered by the Nehru Memorial Museum and Library and the Indian Council of Cultural Relations also enable scholars of the Centre to conduct their field works and research in the East Asian countries. Over the years, the Centre has considerably expanded its international collaborations and networks and is well positioned to promote multidisciplinary studies and research on East Asia.

There are nine faculty members in the Centre. Each faculty member specializes and teaches courses in an area of his/her interest in the region. Dr. Sudhakar Vaddi has joined the Centre in January 2020. Several distinguished faculty who taught and mentored the young research scholars include late Prof. Gargi Dutt, late Prof. P.A.N. Murthy, late Prof. G. P. Deshpande, late Prof. Naranarayan Das and late Prof. R.R. Krishnan and late Prof. K.V. Kesavan. Besides, Dr. Madhu Bhalla, Prof. H.S. Prabhakar, Prof. Lalima Varma taught at the Centre in the Korean, Chinese and Japanese Programmes during 1994-2019. The faculty members of the Centre supervised 85 Ph. D. theses,

(Chinese Studies 47, Japanese Studies 29, and Korean Studies 09) and 179 MPhil. dissertations (Chinese Studies 98, Japanese Studies 58 and Korean Studies 23) till date.

Several students of the Centre have been recipients of prestigious research fellowships awarded by Japan Foundation, Mombusho (Ministry of Education, Government of Japan), Saburo Okita Memorial fellowship, Nippon Foundation, Korea Foundation, Korean Government Scholarship (up to 4 years) under the India-Korea Cultural Cooperation Agreement, Academy of Korean Studies Scholarship, Nehru Memorial Fellowship, China Government Scholarship (up to 4 years) under the India-China Cultural Cooperation Agreement, and Fellowship from the Chinese and Taiwanese Governments. Besides, students receive fellowships from the Indian Council of Cultural Relations. Apart from the scholarships for higher studies and research available at the University level, offered by the University Grants Commission, (Government of India) the Rajiv Gandhi Foundation and the Nehru Memorial Fund, there are a number of scholarships are available specifically for area studies research.

Centre for European Studies

The Centre for European Studies is a multi-disciplinary department in the School of International Studies which aims to promote teaching, research, and outreach activities that improve the understanding of Europe, the European Union and Indo-European/India-EU affairs. The Centre became functional in 2005. It was an outcome of the larger restructuring exercise initiated by the School in 2004 following which it came into existence by merging the West European Division of the erstwhile Centre for American and West European Studies (CAWES) and the East European Division of the erstwhile Centre for Russian, Central Asian and East European Studies (CRCA&EES). The Centre for European Studies aims to develop a pool of experts on Europe. Every year, the Centre admits about twelve to fifteen students in its M.Phil. Programme. Currently more than 60 students are on the rolls of the Centre for the MPhil/Ph.D. programme and are pursuing research on wide ranging issues of security, economy, European integration, society and politics. The main objective of the programme is to prepare candidates for inter-disciplinary doctoral research on Europe. The M.Phil./Ph.D. research in the Centre is of high-quality, both in academic rigour and relevance. Since the research in the Centre is interdisciplinary in nature, efforts are made to expose students to other social science subjects which go beyond their parent disciplines. Learning of at least one European language (apart from English) is a critical component of the research programme of the Centre. A one year language course is compulsory for all students. From July 2014 the Centre has introduced French language course in addition to German which had been offered since 2005. In the newly emerging globalizing international environment, the emphasis is given to broad social science concepts along with specific European issues. Apart from empirical research on Europe, students are also encouraged to develop skills in broader theoretical research and analysis. The Centre has also identified the Nordic region as a focus area of research/teaching and a joint course on Contemporary Issues in the Nordic Region is being offered along with two new focus areas: the Baltic region and the Mediterranean region. The Centre has got recognition from the European Union and has been awarded 3 Jean Monnet Chairs held by Prof. Gulshan Sachdeva and Prof. Ummu Salma Bava and Prof. Bhaswati Sarkar. It also has been awarded two Jean Monnet modules held by Dr. Sheetal Sharma and Prof. Bhaswati Sarkar. The Centre was awarded the **Jean Monnet Centre of Excellence 2018-2021 making it the Second Centre in India to get this distinction.**

Centre for Indo-Pacific Studies

The Centre for Indo-Pacific Studies (CIPS) was established in 2013, emerging from the previous Center for South, Central, Southeast Asia and the Southwest Pacific Studies. While the traditionally it focused on Southeast Asian countries, Australia, New Zealand and the Pacific Island Countries; the Southwest Pacific, it was felt that the emerging larger Indo-Pacific region needed to be extensively studied. The Centre had a number of distinguished faculty members such as Prof P K Das, Prof B D Arora, Prof Baladas Ghoshal, Prof Manmouni Kaul, Prof Ganganath Jha and Prof G V C Naidu who are now retired.

The objective of the Centre for Indo-Pacific Studies is to cover historical and contemporary facets of Southeast Asian and Pacific Island countries, with an interdisciplinary approach. Each scholar can choose his/her topic of interest from within the region. The academic calendar of the Centre provides M.Phil/Ph. D courses with two semesters of classes and two/six semesters for the completion of their dissertation respectively. The Centre tries to coagulate the issues thus researched and attempts for an intervention into the Indian policy making structures through seminars by calling distinguished delegates from academia and the government from the region.

The introduction of many issues of importance was done by the faculty from time to time to make the Centre deal with significant aspects of IR, both as a discipline and as practice. The vibrancy of the Centre is due to the

intermingling of issues and challenges on the one hand and the history, politics and diplomacy, traditional and non-traditional security on the other. The very fact that the Indian and the Pacific Oceans have become the centre of gravity for trade and balance of power that the methods of cooperation, confrontation, conflict and engagements has brought in the interplay of bilateral, trilateral, multilateral and interestingly the multilateral arrangements to the fore. Colonial and post-colonial issues entangled with security and diplomacy brought in various new topics of study to the Centre.

The Centre has students from many Southeast Asian countries in regular courses of M.Phil /Ph. D. i.e., from Cambodia, Thailand, Vietnam, Indonesia. The students also participate in national and international seminars and have been the recipients of national and international scholarships to Japan, Australia, and to the ASEAN (Association of Southeast Asian Nations) countries and participated in think tank delegations with India Foundation to China, National Maritime Foundation to Thailand to name just a few.

Centre for Inner Asian Studies

The Centre for Inner Asian Studies is engaged in teaching and research on the five Central Asian Republics of Kazakhstan, Kyrgyzstan, Tajikistan, Turkmenistan and Uzbekistan; Inner Mongolia, Tibet and Xinjiang autonomous regions of China; Trans-himalayas, Mongolia and Afghanistan. All the academic activities at the Centre, including teaching and interdisciplinary research, have been designed to study and analyze history, society, politics, economy and security in addition to the contemporary developments in different regions/countries covered by the Centre and relate them to Indian experience and policy. The faculty in the centre are trained in political science, history, geography, language and culture. The Centre has two Professors, one Associate Professor and two Assistant Professors. It has a regular Ph.D programme that attracts bright students having diverse background from across the country. Currently, the total number of students enrolled in the Centre stand at 60. All the faculty members offer courses to Ph.D scholars and two M.A. programmes of the School. The Centre has an in-house library developed through its Area Studies grant by the UGC.

The faculty members have contributed immensely to the Centre's academic pursuit through high quality publications in the form of articles, research papers and chapters in edited volumes, both at national and international level. They have participated in various national and international seminars, conferences and workshops and presented papers, chaired sessions and acted as resource persons, panelists and moderators. They have also occupied positions as members of boards and committees in national and international academic institutions, organizations etc., besides being on the Editorial Board of reputed journals. Students of the Centre have been active in publishing research papers and participating in national and international seminars and conferences.

The Centre has, thus, made successful efforts to carry out research and academic mandate of the University.

Centre for International Legal Studies

The Centre for International Legal Studies conducts advanced studies and research on a vast compass of issues and challenges in the various sub-disciplines of public international law: Theories of International Law, International Human Rights Law, International Humanitarian Law, International Criminal Law, International Refugee Law, International Environmental Law, International Dispute Settlement, International Courts and Tribunals, International Trade Law, International Economic Law, International Energy Law, Intellectual Property Rights, Law of the Sea, International Water Law, International Maritime Law, International Air and Space Law, International Institutional Law. Legal research at the Centre has contributed to the articulation of the Indian approaches to International Law and also to the concerns of developing countries. It has also contributed to the development of the Third World Approaches to International Law. Through its critical engagement with mainstream scholarship and theoretical frameworks, the Centre aspires to contribute to a deeper understanding of the theoretical premises and biases of International Law today.

Centre for International Politics, Organisation and Disarmament

The Centre for International Politics, Organization and Disarmament (CIPOD) is one of the oldest as well as largest Centres of the School of International Studies (SIS). The Centre came into existence when the Indian School of International Studies (ISIS) merged with JNU in 1970. Its core was an amalgamation of International Relations and the Commonwealth studies departments at ISIS. The functional core of the department became the International Organization programme at JNU and was integrated into newly created CIPO - rechristened later as CIPOD. The

specialized focus of the Centre's programmes has evolved over the years and represents the emerging priorities in the academic world as well as a certain vision about the world that needs to be nurtured for the benefit of future generations of scholars.

There are four distinct but interlinked programmes of study within CIPOD:

- International Politics (INP)
- International Organization (ORG)
- Diplomacy and Disarmament (DAD)
- Political Geography (POG)

These programmes of study are unique in their nature and achievements by focusing on politics, theory, organizations, diplomacy, disarmament, security, and geopolitics.

CIPOD has a large pool of expertise in international relations and is one of the leading Centres of teaching and research in the discipline. It works diligently and collectively with the aim of setting new pedagogic standard in the discipline. CIPOD faculty members have earned wide recognition in their respective areas of expertise through publications and teaching both within and outside India, memberships of editorial boards of reputed journals and other academic bodies, and participation in international conferences and seminars.

The Centre has an illustrious set of alumni, working in universities, academic institutions, think tanks, civil services, media, international organizations and the voluntary sector, spread across India and abroad, bringing laurels to the Centre and the University.

In the reporting year, the Centre had 151 M.Phil. and Ph.D. students. During the year, the Centre admitted into the Centre's Ph. D. Programme: 12 in INP, 06 in ORG, 14 in DAD and 03 in POG.

Centre for International Trade and Development

The Centre for International Trade and Development (CITD) was established as an independent Centre in the School of International Studies, Jawaharlal Nehru University in July 2005. Prior to this the Centre was known as the International Trade and Development (ITD) division as part of the erstwhile Indian School of International Studies, which integrated with the newly established Jawaharlal Nehru University in the early 1970s as the School of International Studies.

Over the last 50 years ITD has created a niche for its elfin teaching and research in international economics and economic development. The first head of ITD was the renowned economist, the late Professor A K Dasgupta. He was succeeded by our distinguished colleague Professor Ashok Guha, who was the guiding force of ITD since 1963, until his retirement. He continues to be involved in the teaching programmes of the Centre. Former distinguished faculty include B.S. Minhas, Subimal Mukherji, Partha Dasgupta and others. Stalwarts in the field of economics such as Nobel Laureates Sir John Hicks and James Meade, Robert Baldwin, and Richard Baldwin have visited the division to deliver lecture-series.

Initially ITD was primarily geared towards research, running very successful M.Phil and Ph.D programmes for several decades. In 1995, we introduced a unique MA programme in Economics (with specialisation in the world economy), keeping in mind the changing economic environment of India and its integration with the world economy. The curriculum has been designed with a clear emphasis on merging global. This MA programme has proved to be highly successful, and is one of the most popular MA Economics programmes in the country.

CITD is perhaps the only economics department in the country focusing exclusively on international economics and economic development as its main areas of teaching and research, specializing in areas like trade & investment technology, environment & natural resources, health & nutrition, finance, law & economics, poverty, inequality, and education.

The Centre is served by distinguished faculty trained at top ranking universities of the world. Faculty strive to maintain highest academic standards in teaching, and produce high quality, cutting-edge research and regularly publish articles in the leading academic journals of their field. Faculty members have been conferred with various honours, awards and distinctions for their academic and professional contributions.

Our graduates are well established in the academic world in India and abroad, holding positions of great responsibility in the government, international organizations and the corporate world.

The Centre runs a discussion paper series for early dissemination of research results, which is recognised by Ideas/Repec. To expose students to recent developments in the discipline of economics and provide a stimulating research environment, the Centre also conducts weekly seminars and organizes Conferences on select themes.

The Centre received an endowment from the Ford Foundation in 1993. This enabled the centre to provide scholarships to students, to maintain its own well stocked library and to appoint a Ford Fellow from time to time, who participates in its teaching and research activities.

The Centre remained active during the Covid lockdown period. Faculty and research students actively published papers and participated in several webinars. Teaching was successfully conducted in an online mode and new and innovative teaching methods were adopted.

Centre for Russia and Central Asian Studies:

The Centre for Russian and Central Asian Studies is the premier department in the country engaged in teaching and research of the Eurasian region which includes Russia, the Central Asian Republics, states in South Caucasus, Baltic countries, Ukraine, Belarus and Moldova. The region is important because it lies in India's extended neighbourhood and has become strategically very important in recent times. India has strong ties with the states of the region historically, strategically and for economic and geopolitical interests.

The Centre, previously known as the Centre for Soviet and East European Studies, was the largest area studies centre in the country. Since its inception in 1975, the primary aim of the Centre has been to foster interdisciplinary research on issues pertaining to this region by bringing together scholars, trained in diverse social science disciplines. The Centre has an excellent community of scholars specializing in disciplines ranging from Political Science, International Relations, History, Economics and Sociology to Russian Language and Literature. The Centre encourages interdisciplinary thinking and promotes opportunities for meeting, interaction and exchange of views with scholars from India and abroad. In terms of facilitating academic interaction, the Centre regularly organizes international/national seminars, round table discussions, talks and lectures.

The Centre has a regular Ph.D programme and also offers specialize courses for two M.A. programmes of the School of International Studies. The international seminars organized by the centre has brought together large number of scholars from India and abroad to deliberate on issues of common interest. The academic networks that have been build in the process has resulted in valuable linkages between the Centre and several leading institutions in the former Soviet space. The Centre faculty has produced a large number of research publications that add to the generation of Indian perspectives on various issues relating to politics, society, economy and foreign policy of the states in the Eurasian region. It has fulfilled the original ideas inherent in the creation of Area Studies Programmes in the country i.e. interdisciplinary research, and development of knowledge based on independent and in-depth research in the field of Area Studies. Through field-works and interaction with scholars and policy makers in post-Soviet countries, the faculty members and research scholars have provided diverse perspectives on various aspects of post-Soviet development.

The Centre has a library-cum-reading room created entirely out of its own resources and those of individual faculty member's contributions, without any fund support from outside. It has a collection of about 1,200 books and journals, including some rare ones. From the Area Studies grant, the Centre has procured books on diverse themes such as economy, political system, society, culture, energy security, terrorism, geo-politics and foreign policy. These books mainly relate to Russia and the Central Asian Republics and are available in the reference section of the main Library of the university.

The Centre has also been inviting foreign scholars as visiting faculty from post-Soviet countries, some of whom have spent a month each as visiting professors, while others have come for shorter duration and have delivered lectures in the Centre.

Centre for South Asian Studies

The Centre for South Asian Studies is one of the oldest centres of the School of International Studies, Jawaharlal Nehru University (JNU), New Delhi, India. The importance of the centre is self-evident by the fact that lies in the South Asian region. The centre has the privilege of having widely known faculty members. The centre also takes pride in the fact that it has directly participated in the foreign policy making exercise in the country as two of its former faculty members Late Prof Bimal Prasad and Prof Emeritus Sukh Deo Muni served as Ambassadors to Nepal and Laos respectively. The centre has organised a range of national and international seminars, round tables, symposia and workshops with regional and international experts, policy makers, academicians and civil society members. The centre has hosted and conducted projects for various Ministries, Indian Council for Social Science Research, University Grants Commission, Asian Development Bank, Ford Foundation, International Development Research Centre, Regional Centre for Strategic Studies, USAID, United Nations High Commissioner for Refugees, UNESCAP and many other national and international bodies. The Centre for South Asian Studies covers studies and research on a range of aspects of 8 countries. All the academic activities including teaching and interdisciplinary research have been designed to objectively study and analyse history, politics, foreign policy, security, societies, economies, environment, regional cooperation/integration and contemporary affairs in different regions/countries covered by the Centre. The Centre has focused on academic pursuits that have strong intellectual value, deeper social relevance and wider national and international utilities and policy dynamics. Its programme of studies has attracted bright students having diverse background from various parts of India and also from other countries. It has evolved into a full-fledged institute of academic excellence, much admired by students, frequently consulted by the national governments and eagerly sought after by international organizations and other academic institutions. The profile of the students who have completed their studies from the Centre does show that a large number of them have joined premier academic and research institutions and equally handsome numbers are in the national and state civil services. Many of the students have done exceedingly well in media and non-governmental organizations, other tertiary sector activities and national and regional politics. The importance of the Centre has become more critical and vital both in the context of large scale transformation in the global scenario and also within the countries that have been traditionally covered and studied by the Centre. There are immense opportunities for academic inquiry triggered by these new developments.

Centre for West Asian Studies

The Centre encourages inter-disciplinary research on a wide range of themes and issues pertaining to history and culture of the region, political, economic and social systems, foreign policy-making and behaviour, inter-and intra-state conflicts, geo-political changes and challenges, terrorism and national/regime security, social movements including feminism, role of religion in politics and ethnic/sectarian assertions, Indian diaspora and India's West Asia policy. Given its embedded complexity, the region provides a unique setting wherein the disciplinary boundaries of International Relations (IR) and Area Studies (AS) overlap. It is, indeed, the testing ground for positivist as well as post-positivist theories and approaches. Apart from offering BA and MA Courses, the Centre also organizes regular seminars, conferences, special lectures and workshops.

- The CWAS continues to be an active centre for research and teaching. A total of 87 students were registered for the various teaching programmes in this period, 09 for M.Phil. and 78 for the Ph.D. programme of the Centre during the period of the annual Report.

Human Rights Studies Programme

The Human Rights Studies Programme (HRSP) is engaged in teaching and research in human rights with the objective of identifying the newer claims /conflicts in the sphere of human rights, and the determination of new rationalities/approaches to sustaining a peaceful co-existence of all life forms. Through its Ph.D. Programme, the HRSP promotes critical and interdisciplinary research on human rights topics of domestic, regional, and international importance. It offers introductory and advanced level courses to students under the Ph.D., M.A., and B.A. Programmes. These include Theory and Practice of Human Rights, Disability Human Rights Law and Policy, Globalization of Human Rights, Foundation Course on Human Rights, Cross-cutting Themes and Concepts in Human Rights, and International Human Rights Law and Vulnerable Groups. The Programme also organizes an Annual Human Rights Day Seminar/Webinar for young scholars engaged in research on human rights and related agendas.

Energy Studies Programme

The Energy Studies Programme in the School of International Studies (SIS) at the Jawaharlal Nehru University (JNU) aims to foster excellence in teaching and research on issues related to international and domestic energy politics and policies. With an interdisciplinary approach being one of the cardinal elements, the Programme promotes the integration of academic and policy research expertise on international relations, geopolitics, international economics, international law and area studies. The Energy programme began in the year 2014 and is still in its infancy with two core faculty members and seven adjunct faculty members from other centres with proven area expertise in energy and international relations. Faculty members with a wide range of expertise in academic areas pertaining to international studies enrich the curriculum of the Programme.

As a flagship programme of the legacy of the School of International Studies of Jawaharlal Nehru University, Energy Studies aims to be recognized as a leading institution among the global academic community through furthering excellence in teaching and research in the areas of energy. The faculty members of the programme contribute regularly to academic research as well as current affairs on energy. Apart from regular academic and research activities, the faculty members are involved in a wide range of activities in the media and public policy arena on both domestic and international platforms to facilitate better knowledge sharing and informed policy-making.

Future Plans

Centre for Canadian, US & Latin American Studies

Committed to upholding highest standards of research, the Faculty of the Centre have been updating their course content regularly. Extensive discussions took place this year to revise all courses being offered at the Ph.D. level. These discussions have been institutionalized at the Centre level to make it an annual. New courses at the Ph.D. level are to be introduced this year which has been passed by the Centre Committee on contemporary issues in Latin America and the Caribbean (which is a domain course) and Brazil in global affairs. During the pandemic online seminars and lectures by international academics and diplomats were being held. The Centre plans to continue to hold international online seminars/ discussions annually including one for the students at the national / international level. Interaction virtually with esteemed scholars/professors will be continued. Weekly webinars amongst faculty and students within the Centre will continue to be held. Centre faculty expects to engage with the media and other universities as subject experts and resource persons in order to engage public opinion. Centre also plans to renew the Memorandum of Understanding/ Agreement of Cooperation with Universities in Canada, US and Latin America and establish new ones with identified universities in these areas. Centre will also invite experts for discussions from major strategic and academic institutions of India. Publications in newspapers and journals is being targeted for outreach to the larger community.

Centre for African Studies

Apart from continuing high level of research and teaching on African Studies, the centre plans to expand its global engagement and outreach.

Centre for Comparative Politics and Political Theory

The Centre for Comparative Politics and Political Theory offers researchers the opportunity to specialize in Global Political Thoughts and Practices. The unique vision of Comparing Western political theory with political thoughts and practices from the Non-western world (global south) makes CCPPT a pioneering Centre for research in South Asia.

Training its researchers to compare and analyze political practices in the global south from the perspectives of Non western philosophies is one definitive future research-plans of the Centre.

Keeping in mind the imperatives of ‘blended-modules’ of teaching and research, CCPPT has specific plans to operationalize its Seminar room as a ‘future-venue for combining offline and online mode of conferencing’ and for holding of workshops with external and international academics. In this regard the Centre will have to depend on the Dean of the School for allocating the required budget for installing Audio-visual and hi-speed internet facilities in the seminar room.

Centre for Indo-Pacific Studies

The Centre will evolve more methods of study, renew the Wednesday seminars and have more projects collaborating with the regional countries and other Universities in India and abroad.

Centre for Russian, Central Asian Studies:

- Drawing on the best practices of the online teaching platforms across the world, the Centre endeavours to make digital engagement an important component of the teaching mode in the Centre as an additional tool supplementing class room teaching practices. This would enable students to remain connected with the learning process even during vacations, weekends and holidays, thereby overcoming the constraints of geographical distance and other related challenges.
- Digital engagement has opened a floodgate of opportunities, one of which would be to organize lectures of retired senior teachers of the Centre and School, on a regular basis, on themes of international relations and other related disciplines. The profound scholarship of the stalwarts in the field will be tapped through this mode and students would thus gain valuable exposure and knowledge in the process.
- Create an online resource base specific to the specialization of the Centre. The resource base would draw upon, not just the resources available globally on Eurasian studies but would also include the Centre's own contribution in the field through time bound quality publication of articles, books, monographs and commentaries.
- Introduce New Courses in the Area Studies field in alignment with the overall Foreign Policy vision of the country. India's approach to the Eurasian region and to the individual countries in the region will be an important component of the new courses. The idea clearly is to be pioneers in the field through credible research and publications.
- To introduce specialized courses in areas such as: Energy Security, Gender studies, Environment, Migration and Demographic issues, with special focus on the Eurasian region.
- Ensure high standard publication showcasing the original contribution of the Centre in the field of Eurasian Studies through primary data generated from extensive field studies.

Centre for East Asian Studies

- New Education Policy for PhD students
- Creating an environment for innovative research programme
- Centre plans to organized Seminars, Workshops and Conferences by East Asia besides the M.Phil/PhD presentations, synopsis and others as per the Academic Calendar of the Centre.
- Visiting Fellow from Japan, Korea and China

Students Awarded Degrees (SIS)

School of Language, Literature & Culture Studies (SLL&CS)

Established in 1969, it is one of the founding blocks of the University, the School of Language, Literature and Culture Studies (SLL&CS). It is one of the premier institutions in the country in the field of learning languages and pursuing higher studies and research in linguistics, literatures in various languages, and culture studies. Its global reputation has earned it place as one of the five degree-awarding partners of the prestigious Erasmus Mundus Joint Doctorate in “Cultural Studies in Literary Interzones” of the European Union, and one of its constituents, the Centre for English Studies, has been repeatedly adjudged as one of the top 100 departments of literary studies in the world. Furthermore, all the Centres of the School, and the School itself, have active international collaborations with leading universities of the world through AoC-s and MoU-s. SLL&CS has twelve centres: Centre of Arabic and African Studies (CAAS), Centre for Chinese and South-East Asian Studies (CCSEAS), Centre for English Studies (CES), Centre for French and Francophone Studies (CFFS), Centre of German Studies (CGS), Centre of Indian Languages (CIL), Centre for Japanese Studies (CJS), Centre for Korean Studies (CKS), Centre for Linguistics (CL), Centre of Persian and Central Asian Studies (CPCAS), Centre of Russian Studies (CRS), and Centre of Spanish, Portuguese, Italian and Latin American Studies (CSPILAS). Besides, the School also has a well-equipped Language Lab and Multimedia Complex (LLC). The different units of the School offer a variety of programmes in diverse subjects. There are Certificate, Diploma, and Advanced Diploma of Proficiency programmes in foreign languages like Bahasa Indonesia, Italian (currently not on offer), Mongolian, Portuguese and Pushtu, and also in Urdu language and Mass Media in Urdu. The School offers BA (Hons.), MA and MPhil/PhD programmes in foreign languages like Arabic, Chinese, French, German, Japanese, Korean, Persian, Russian and Spanish. The School also offers MA and MPhil/PhD programmes in English, Hindi and Urdu literature, and in Linguistics. Apart from these, SLL&CS offers MPhil in Portuguese, and MPhil/PhD in Hindi Translation, and in Tamil. Besides, the School also offers optional courses in Greek, Hebrew and Turkish languages. Over and above these existing programmes, the School has a Kannada Chair, and currently vacant professorial positions in Bengali, Assamese and Marathi, and there are concrete developments towards establishing a Chair of Odiya. Besides these formal programmes, a variety of Tool/Optional courses are offered within the School, which promote interdisciplinarity. The School also is at the spearhead of the highly successful Remedial Course in English under the Linguistic Empowerment Cell to all students of the University who need to increase their competence in the language for academic purposes. Besides teaching and research activities, the School also publishes its own journal, Journal of the School of Languages (JSL), which started publication in the seventies and has over the years published significant research on literatures, languages, culture studies, comparative studies, and translation that cut across language boundaries. Besides, some constituent units of the School have their own publications, like the CRS has its journal Critic, and the CSPILAS has its journal Hispanic Horizon. SLL&CS produces the very best scholars in the fields of language teaching, linguistics, literature and culture studies, as well as internationally acclaimed translators and interpreters. Members of the School, while providing directions and visions to their respective Centres and the School in general, have also distinguished themselves nationally and internationally by the quality and range of their individual research, publications and other achievements.

New Courses

Centre for Arabic and African Studies

The Centre of Arabic & African Studies offers B.A. (Hons.) M.A. and Ph.D. Programmes in Arabic. It also offers four tool courses on History and Culture of the Arab World and two optional courses on Modern Hebrew Language & optional courses in Arabic and COP/DOP certificate/Diploma courses in Hebrew Language. The faculty members apart from participating and presenting their valuable papers in the national and international conferences and symposia have extensively contributed articles and write ups to various leading magazines and journals of Arabic Studies and edited volumes being published in India and abroad.

In addition to all this, the Centre has produced a good number of M.Phil and Ph. D scholars. Most of the research works done by our scholars have been well appreciated by the external experts and were recommended by these experts for publication. During the period under report 05 Ph.Ds and 00 M.Phils were awarded to different scholars.

Their scholarly interventions during students’ viva voce examinations and other academic interactions and their guidance of students in and outside the class room proved to be very useful for the students. Unfortunately, due to commitments at home they could not continue their presence at our Centre.

Centre for French and Francophone Studies

The CFFS offers BA (Hons.), M.A. and M.Phil/Ph.D. Programmes in French (M.Phil. discontinued from the 2021). The Centre pursues multidisciplinary research on the cultural, socio-economic and political reality of France and Francophone (French speaking) countries. Major thrust areas of the CFFS include Language learning as well as research in French and Francophone Literature, Interpretation, Translation, Linguistics, Language Didactics, and Culture Studies. The Centre celebrated the Golden Jubilee year of its establishment in 2021. All the activities were dedicated to the 50 years of establishment of the Centre.

The list of New Courses (regular or remedial) introduced by the Centre:

A regular 04 credit Ph.D. level course “Research Area Specific Study” was introduced (proposed by Prof. Sushant Kumar Mishra)

Centre for Indian Languages

The Centre of Indian Languages was established in 1974 with a view to undertake socially relevant and intellectually provoking research and higher studies in Indian Languages. An implicit benefit of having such a Centre was to promote the interdisciplinary approach and comparative perspective in the study of Indian languages & literatures in accordance with general orientation of JNU and SLL&CS. This perspective has been a motivation behind the course content, teaching methodology and academic orientation of the Centre over the last four decades. The acute limitation however had been the fact that the CIL had been forced to confine itself only to Hindi, Urdu and Hindi Translation for long time, thus virtually reducing itself to a Centre of selective North Indian Languages. However, the situation has now taken a better form with the inclusion of Tamil programme and Centre also established a chair in Kannada & a chair in Odia. The sanction of two positions in Bangla, The establishment of chairs in Marathi is almost in final stage. Efforts are on to establish chair in other Indian languages too. The proposal of School of Indian Language and Literature & Culture Studies is under the consideration of the Academic Council of the University; if it comes through will be a step in the right directions.

Adikabi Sarala Das Chair of Odia Studies has introduced basic Odia classes of three months duration for the students of various departments. The classes began on 5th February, 2018 and continuing till date. Classes of two hours duration were taken on Monday, Wednesday and Friday. This intensive course helped total number of 15 students in understanding basics of Odia language.

Presently Centre of Indian Languages is offering M.A. in Hindi & Urdu, M.Phil./Ph.D. courses in Hindi, Urdu, Hindi Translation, Tamil, Kannada a new Odia Chair in introduced in CIL, ADOP Mass Media (Urdu)/COP(Urdu)/Tool/Optional in Hindi Urdu & Beginners courses I&II for Foreign Students and altogether there are around more than 456 students and research scholars registered under various programmes and course offered by the Centre as indicated below:

Centre for English Studies

In maintaining its long record of excellence, the Centre was ranked amongst the 151-200 best departments of English Language and Literature in the world by QS World Universities Ranking, 2022, being the highest ranked Humanities department in India: [<https://www.topuniversities.com/university-rankings/university-subject-rankings/2022/english-language-literature>]

Centre for French and Francophone Studies

The Centre celebrated the Golden Jubilee year of its establishment in 2021. All the activities were dedicated to the 50 years of establishment of the Centre.

Collaboration with National & International Institutions

- The Centre has been actively involved in collaborations with universities both in India as well as abroad.
- Among the ongoing foreign collaborations, the following may be cited:
- Collaboration with the Ministry of International Relations, Government of Quebec.

Centre for German Studies

- **Guite, Mercy Vungthianmuang**, Observer at the National school of Drama for admission to the three years Diploma Course in Dramatics, 18 February, 2022
- **Naithani, Sadhana**: Invited to review book manuscripts for:
 - Cambridge University Press, UK.
 - Routledge Publishers, India
- **Naithani, Sadhana**: Invited to review Journal Articles for:
 - Journal of the School of Languages, JNU.
 - Cultural Analysis (online Journal), University of California, Berkeley.
- **Padhye, Priyada**, Attended Faculty Development Programme on “Design, Develop and Deliver Online Courses”, organized by National Institute of Educational Planning and Administration, 14 – 18 June, 2021
- **Padhye, Priyada**, Moderator in the International DoktorandInnenkolloquium der Community of Practice Interculturalism and Literary Theory by the Bergische University, Wuppertal, 10 April, 2021
- **Sharma, Abhimanyu**, Attended Faculty Induction Programme at Human Resources Development Centre, JNU, New Delhi, India, 6 September – 4 October, 2021
- **Stadler, Michael**, Moderation of the panel “Representation of the ‘Other’ in Media, Culture, Literature & Politics”, at the online conference “Subaltern and Subdued Voices in Literature and Society of Girls”, College Akampat, Department of English, 21 – 22 February, 2022
- **Stadler, Michael**, Organization and Moderation of bi-weekly online workshops (‘PhD Peergroups’) for PhD students from Germany and India on subjects such as time management, academic work, digital tools, work-life balance, creativity, problem solving, etc. March, 2022 – June, 2022: Together with Prof. Dr. Carmen Ulrich (University of Wuppertal), Christina Rath (DAAD Lecturer at Pune University) und Dr. Jan-Helge Weidemann (DAAD Lecturer at Delhi University)
- **Stadler, Michael**, Moderation of a panel at the online conference “Internationales Doktorand*innenkolloquium in the context of CoPIT, 14 – 15 March, 2022

Future Plans

Centre for English Studies

The Centre tried to carry out all its academic activities in spite of the pandemic and the lockdown, but in realizing how unprepared it was for the same, its future plans include investing more on online teaching learning resources, to be able to excel even more in the future, with the changing circumstances.

Given the nature and range of academic engagements at CES, we envision becoming a Special Centre for English and Cultural Studies, with autonomous and interdisciplinary linkages with foreign and Indian languages as well as other disciplines in the humanities and social sciences.

We see the further strengthening of our research programmes as an important priority. Our plans include (a) strengthening the dissertation component at the MA level through the introduction of courses and training modules in research methods and academic writing, (b) organizing research workshops for MPhil and PhD students at regular intervals to introduce them to new areas and methods of research, and (c) creating a forum for regular presentations by PhD students to peers and faculty on their work in progress, to which specialists in their areas may be invited. This will give them valuable feedback and also allow them to share their work, and for the Centre to be apprised of the range of research being carried out.

We also look forward to further international collaborations with adequate students' mobility, so that our researchers can get exposed to the international best practices of research in their field. We also have future plans of promoting and subsidising students' publications through funds received by the Centre, to make the massive and path-breaking research output of the Centre more visible

Centre for French and Francophone Studies

- To develop further the sub-Saharan francophone component in the courses offered at Postgraduate level.
- To develop courses on subtitling & dubbing in films.
- To promote interdisciplinary research at M. Phil/Ph. D level.
- To promote interdisciplinary research in collaboration with other departments in the University and outside.
- To develop a translation database in collaboration with the end users.
- To promote intercultural studies.
- To develop courses related to Indic studies in French and Francophone countries.
- To develop courses as per the NEP 2020.

Centre for Japanese Studies

- Up gradation and development of new courses.
- Introduction of online courses.
- Introduction of course on Business Japanese
- Introduction of new courses on Japanese Culture, History, Society, Soft culture diplomacy, Indo-Japan relations etc.

Centre of Persian and Central Asian Studies

- Course in Tazik and Kyrgyz languages will be introduced.

**School of Life Sciences
(SLS)**

School of Life Sciences (SLS)

During this reporting period, the country was still on a lockdown due to the Covid-19 pandemic and this did not allow us to have physical interactions and also slowed down many activities. The physical classes for the final year MSc students were initiated by September/October. The MSc and PhD sem I students (2021 batch) are still having online classes. Despite that, the academic program has run very well and is in accordance with the University calendar. The School has made substantial all-round progress in teaching and research. This year 19 of our students obtained Ph.D. degree while 22 of them have submitted their theses and are awaiting their viva-voce examinations. In the year 2021, we had 30 new students registered for MSc and 20 for PhD programmes. The students and faculty members of the School published 120 papers in peer-reviewed journals, in addition to book chapters and books. Currently, the faculty of the School have 47 ongoing projects from various funding agencies. The School has funding under the DST-FIST II and UGC-CAS (DRS-I) under GOI programmes and have acquired new equipment for its Central Instruments Facility (CIF).

The School received the 2nd release from the Department of Science & Technology, GOI under the DST-FIST II programme for purchase of two high-end equipment/facilities for its Central Instrument Facility, SLS. The competitive grant proposal submitted by SLS to the Department of Biotechnology, GOI for funding under the DBT-BUILDER programme was approved by the DBT and the School received the first installment of the grant to initiate activities that would strengthen the teaching and research infrastructure in the School.

The Ph.D. programme of the School has Five research groups (Table below) for admission of Ph.D. students, which help attract talented students and funding to the School.

Research Group		Topics
No. Code	Group Name	(For a detailed list, see SLS website www.jnu.ac.in/sls)
I GONH	Plant Biology; Virology; Biotechnology	Epigenetic regulation of geminivirus pathogenesis, Molecular basis of plant-virus interactions; Molecular Plant Physiology, Plant pathogen interaction, systemic acquired resistance in plants; Crop biotechnology, Functional genomics of abiotic stresses; Plant immunity, Genomics-assisted genetics and breeding, Fungal effectors and their host targets; Plant developmental biology; Comparative and functional genomics, Metabolic engineering and System Biology of plants.
II GTWH	Microbiology; Infectology	Yeast Molecular and Cell Biology; Membrane transporters and drug discovery; Antibiotic resistance; Microbiome as therapeutics; ESBL and AMR among the Gram negative ESKAPE members; Stress adaptation pathways, cell wall and adhesion processes in <i>Candida albicans</i> , screening of compound libraries for antifungal therapy; Molecular Parasitology, Vaccine development against human pathogens, Antibody engineering. Membrane proteins functional characterization and structure.
III GTRH	Genetics; Cell & Molecular Biology; Developmental Biology; Immunology	Genomic Biology of Repetitive DNA and Noncoding RNAs, Cytokines, Transcription Factors, Cell signaling and Disease; Mesenchymal Stem Cells from Bone Marrow and Regenerative Medicine; Molecular Aging; Transcription, chromatin and gene regulation, Nutrient stress regulation of <i>Candida albicans</i> pathogenesis, skin biology and melanogenesis; Developmental programmed cell death in <i>Dictyostelium discoideum</i> with emphasis on starvation-induced autophagy; Epigenetics and Chromatin remodeling; Gene Regulation; Nuclear Receptor signaling in human physiology and diseases. Molecular mechanisms of Intracellular protein traffic during mast cell inflammatory responses in allergies, pathogen challenge and cancer
IV GFOH	Animal Physiology; Neurosciences and Systems Biology; Radiation and Cancer Biology	Brain ageing and Mechanism of Action of Anti-ageing Drug in Rats; Modulatory Effects of Phytochemicals on Carcinogenesis and Genotoxicity in mammalian cell culture and Mouse Models, Tumor Angiogenesis; Regulation of p53 and related genes in cancer cells. Effect of synthetic compounds/drugs/phytochemicals on cell cycle

		regulation of cancerous and non-cancerous cells. How to overcome tamoxifen resistance in breast cancer cells? Molecular mechanisms and targeting therapeutic strategies on Alzheimer's, Parkinson's Disease & Depression; Therapeutic strategy on Parkinson's Disease; Neural and Molecular Mechanisms of sleep and its function. Learning and memory and Synaptic plasticity; Radiation and cancer therapy
V GFIH	Biochemistry; Biophysics; Bioinformatics; Nanobiology	Macromolecular crystallography on human disease related proteins, Rational structure-based Drug Design and Vaccine Development; Structural and functional studies of novel <i>E. histolytica</i> proteins, Plant-virus protein interactions and their structural studies; Biochemistry of GPI anchor biosynthesis, regulation and function in <i>Candida albicans</i> ; Protein aggregation and prevention by selected natural compounds and engineered nanoformulations, Development of novel biomaterials for biomedical applications.

The School continuously is trying to further strengthen its teaching and research activities along these five research groups. As part of our regular feature, the School makes minor changes in the curriculum and courses for M.Sc. and Ph.D. programmes by adding newer areas of biology.

Profile of the School

The School of Life Sciences (SLS) came into existence during 1970-71 and has been a premier department in the country undertaking inter-disciplinary research and teaching in Life Sciences.

The School has been reaching out to all parts of the country to pick students and has tried all possible methods of communication with the students including class-room interactions, examinations, quizzes, seminar presentations, reading and summarizing of research papers, undertaking original research projects and conceptualizing and convening of conference on current topics in the field etc., in order to ensure maximal reception of information by the students. In the recent past the teaching and communication is in an "Online" mode except for MSc (2020 batch) students. The student-teacher interactions, classes, presentations, meetings etc has been successfully conducted in this mode. The students have also taken examinations (quiz/assignments, mid-term and end-term) in this mode or offline for students who are in campus. Needless to say, there was no compromise in teaching and course content. With the main focus on CELL AND MOLECULAR BIOLOGY, SLS has built reputed research programmes in the areas specified in the Table above, employing microbes, plants and animals as model systems for these studies.

Faculty-wise list of specific research areas

S No	Name of the Faculty	Specialization
1.	Dr. Abhisheka Bansal	Molecular Parasitology
2.	Prof. Ajay K. Saxena	Macromolecular crystallography on human disease related proteins, Rational structure-based Drug Design and Vaccine Development
3.	Prof. Alok K. Mondal	Yeast Molecular and Cell Biology
4.	Dr. Amal C. Mondal	Alzheimer's Disease, Parkinson's Disease, Depression and its molecular mechanism & Therapeutic Strategies
5.	Prof. Ananda K. Sarkar	Plant developmental biology
6.	Prof. Arun S. Kharat	Microbiology, Applied Microbiology/ Biotechnology/ Antimicrobial Agents/ Medicinal Plants – Anticancer/ Antimicrobials
7.	Prof. Ashis K. Nandi	Molecular Plant Physiology, Plant pathogen interaction, systemic acquired resistance in plants
8.	Dr. Ashu Bhan Tiku	Radiation and Cancer Therapeutics
9.	Prof. Ashwani Pareek	Crop biotechnology, Functional genomics of abiotic stresses.
10.	Prof. Atul K. Johri	Vaccine development for Group A & B Streptococcus and other infectious agents using reverse vaccinology approach. Membrane proteins functional characterization and structure, Antibiotic resistance. Antibody engineering. Microbiome as therapeutics.
11.	Prof. Birender Nath Mallick (now superannuated)	Neural regulation and function of REM Sleep

12.	Prof. Deepak Sharma	Brain ageing and Mechanism of Action of Anti-ageing Drug in Rats
13.	Prof. K. Natarajan	Transcription, chromatin and gene regulation, Nutrient stress regulation of <i>Candida albicans</i> pathogenesis, skin biology and melanogenesis
14.	Dr. Karunakar Kar	Protein aggregation and prevention by selected natural compounds and engineered nanoformulations. Development of novel biomaterials for biomedical applications.
15.	Dr. Neelima Mondal	Regulation of p53 and related genes in cancer cells. Effect of synthetic compounds/drugs/phytochemicals on cell cycle regulation of cancerous and non-cancerous cells. How to overcome tamoxifen resistance in breast cancer cells?
16.	Dr. Nirala Ramchiary	Genetics and Genomics of Capsicum species
17.	Dr. Niti Puri	Molecular Mechanisms of Regulated Exocytosis from Mast Cells; Intracellular Protein Traffic in Immune Cells
18.	Prof. Pramod C. Rath	Genomic Biology of Repetitive DNA and Noncoding RNAs, Cytokines, Transcription Factors, Cell signaling and Disease; Mesenchymal Stem Cells from Bone Marrow and Regenerative Medicine; Molecular Aging
19.	Prof. Praveen K Verma	Plant molecular biology and fungal genetics
20.	Prof. Rana P. Singh	Modulatory Effects of Phytochemicals on Carcinogenesis and Genotoxicity in mammalian cell culture and Mouse Models, Tumor Angiogenesis
21.	Dr. Rohini Muthuswami	Chromatin Remodeling, Epigenetics
22.	Prof. Samudrala Gourinath	Structural and functional studies of crucial pathway proteins from gastric infections organisms (<i>E. histolytica</i> and <i>H. pylori</i>).
23.	Prof. Shweta Saran	Developmental programmed cell death in <i>Dictyostelium discoideum</i> with emphasis on starvation-induced autophagy.
24.	Dr. Sneha Lata Panwar	Role of mitochondria and GPCR-like proteins in <i>Candida albicans</i>
25.	Prof. Sneha S. Komath	GPI anchor biosynthesis, regulation and function in <i>Candida albicans</i>
26.	Prof. Supriya Chakraborty	Molecular Biology of Plant viruses, host-virus interaction, Gene silencing
27.	Dr. Sushil K. Jha	Neurophysiology of Sleep, Learning and Memory
28.	Dr. Vikas Yadav	Cell and Molecular Biology; Nuclear Receptors and Transcriptional Regulations of Metabolic Vascular Syndrome
1.	Prof. R. Madhubala, Dr. A.S. Paintal Distinguished Scientist Chair of ICMR	Cellular and Molecular Biology of <i>Plasmodium falciparum</i> , <i>Leishmania</i> , Cancer: Drug Targets and Applications

Atal Bihari Vajpayee School of Management and Entrepreneurship (ABVSM&E)

Atal Bihari Vajpayee School of Management and Entrepreneurship (ABVSME) began its journey in 2018, and in July 2019 the first batch of Masters of Business Administration (MBA) students joined the school. The teachers and the students have made their unique contributions to these first few steps of ABVSME towards achieving excellence. The School has been built on an extremely strong foundational ethos.

ABVSME seeks to bring holistic learning, thereby nurturing capable and value-driven individuals who will create a better world.

The goal is to leverage the opportunities for our MBA students, Ph.D. Scholars & Staff. We are committed to expertise in different areas under one roof and developing multidisciplinary research, that solves the present age business & social problems.

Management education plays a key role in most of the systems and institutions, whether related to education, health, hospitality, or manufacturing. In the fast-moving and technology-driven world of today, even religious and family affairs need management consultation on various occasions. However, to meet the existing and emerging challenges, the management education has to be designed innovatively and in consonance with the dynamics of the field. At present, most of the management schools are either stand-alone educational institutions or are part of a university system.

A management institute based in a university like JNU has the advantage of offering a more comprehensive understanding of management and entrepreneurial principles. The programs at ABVSME prepare students for critical transition in society. ABVSME also seeks to nurture entrepreneurial talent that has the life skills required to lead a path to success.

The ABVSME offers excellent opportunities for the students to get the industry perspective by regularly inviting thought leaders from the industry. In addition, at ABVSME, we foster strong industry collaborations and partnerships. These collaborations will create tremendous employment and research opportunities and bridge the gap between academia and industry.

Today when our nation is putting every effort to empower its youth, the need of management skills and entrepreneurship assume immense significance. ABVSME aims to carve out a niche for itself and provide opportunities to our youth to get quality education and training in the field of management and entrepreneurship. ABVSME is now ready to welcome its fourth batch of MBA as well as the third batch of Ph.D.

The following are the various academic programmes of ABVSME:

Existing Programmes

- Master of Business Administration (MBA)
- PhD. in Business Administration
- M.S. in Management (in collaboration with School of Engineering)

Proposed Programme

- Diploma program in Entrepreneurship

Other Programmes

- Management Development Programme (MDP)
- Faculty Development Programme (FDP)
- Quality Improvement Programmes (QIP)

Pedagogy

- Computational Thinking
- Structured lectures and teaching, with high modern methodology
- Guest lectures by the experts in the field
- Panel discussions involving eminent academics and industry leaders
- Participation in workshops & seminars
- Case studies & hands-on training sessions
- Project assignments
- Role playing
- Business games
- Industry visits

Conferences/Workshops /Webinars organized by the School: (08)

- Online workshop for Research Scholars on “Econometric Analysis of Time Series Data Using EViews”, 2 – 4 June, 2021
- Webinar on “How Media Shapes Behavior”, by Prof. Dheeraj P. Sharma, 14 June, 2021
- Webinar on “Entrepreneurship for USD 5 Trillion Economy by 2024-25”, by Mr. James Joseph, 11 August, 2021
- Webinar on “Love Your Ego and Defend It”, by Prof. Monika Srivastava, 1December, 2021
- Webinar on “The Entrepreneurial Manager”, by Dr. Deepak Kumar Srivastava, 20 January, 2022
- Webinar on “Decoding the Budget 2022-2023”, by Prof. Anil Kumar, 2 February, 2022
- Webinar on “Start-up as a new Entrepreneurial Opportunity”, 19 February, 2022
- Digital national conference on “Sustainable Social Innovation for Rural Integration”, 23 March, 2022

Accomplishment of Students

The following are the achievements of the students of ABVSME:

Post Doc Fellows (ICSSR)

- **Sharma Aditi D.**, Participated in an online faculty development Program on “Innovative Approaches for Sustainable Professional Growth in Higher Education”, organized by KCC Institute of Legal and Higher Education, 2 – 7 August, 2021
- **Kumar Subhash**, Participated in “Role of e-Governance Initiatives in Economic Stability and Financial Growth: A Review, 3rd International Finance Conference 2022, Centre for Management Studies (CMS), Jamia Milia Islamia, New Delhi, India, 29 – 30 March, 2022
- **Kumar Subhash**, “Entrepreneurship Development by Indian Industrial Training Institutes: An Empirical Analysis”, national seminar on “Women Entrepreneurship and Start Ups: A Gateway to Self-Reliant India (International Women’s Day, 8 March, 2022)”, Department of Management Studies, Bhagat Phool Singh Mahila Vishwavidyalaya, Khanpur Kalan (Sonipat), 8 March, 2022

Ph. D. (2021)

- **Aarti**, Presented the paper titled “A Bibliometric Analysis of Global Research Trends on Women and Financial Inclusion”, at the ISDSI-Global Conference 2021: Leading business in a FLUID world held at Indian Institute of Management Nagpur, 27 – 30 December, 2021
- **Aarti**, Participated in AICTE Training and Learning (ATAL) Academy Online Advanced FDP on “Research Methodology on Applied Econometrics”, at National Institute of Industrial Engineering, Mumbai, 22 – 26 November, 2021
- **Aarti**, Participated in Online conference on “Sustainable Social Innovation for Rural Integration”, organised by ABVSM&E, JNU, 23 March, 2022
- **Kaushik Akash**, Participated and completed three days online workshop on “Econometric Analysis of Time Series Data using EViews”, organized by Atal Bihari Vajpayee School of Management and Entrepreneurship, JNU, 2 – 4 June, 2021
- **Kaushik Akash**, Presented the paper titled “Flexible Work Arrangements: A useful HR practice for Millennials”, at national seminar on “Impact of Artificial Intelligence in Modern Education System”, organized by Mewar Institute of Management, Ghaziabad, 24 – 26 March, 2022
- **Kaushik Akash**, Participated in online conference on “Sustainable Social Innovation for Rural Integration”, organized by ABVSM&E, JNU, 23 March, 2022
- **Suri Ankit**, “Education 4.0- Scientific Mapping using Bibliometric Analysis”, at ISDSI- Global Conference 2021: Leading Business in a FLUID World, held at Indian Institute of Management Nagpur, 30 – 31 July, 2021
- **Suri Ankit**, AICTE Elementary FDP on “Time Series Analysis”, at Institute of Management Studies, Banaras Hindu University, 26 – 30 December, 2021
- **Suri Ankit**, “Econometric Analysis of Time Series Data Using EViews”, at Atal Bihari Vajpayee School of Management and Entrepreneurship, Jawaharlal Nehru University, 2 – 4 June, 2021
- **Bhawna**, “A systematic review and bibliometric analysis of blockchain application in consumer service”, at international Software Product Management Summit on Building Safe, Secure and Smart Digital Products & Platforms, IIM Bangalore, the paper was awarded as the “Best Research Paper”, 21 – 22 January, 2022
- **Bhawna**, Attended workshop on “Structural Equation Modelling using SMART PLS-3”, organized by Research shiksha, India, 17 – 22 May, 2021
- **Bhawna**, Participated in three days’ workshop on “Econometric Analysis of time series data using EViews”, organized by ABVSME, JNU, 2 – 4 June, 2021
- **Bhawna**, Participated in one-week Faculty Development Program on quantitative data analysis organized by Dept. of Business Administration, University of Lucknow, 13 – 17 July, 2021
- **Bhawna**, Attended webinar on NVIVO-CITAVI software organized by Numerical analytics, 19 – 23 July, 2021

- **Bhawna**, Attended one-week international Faculty Development Programme on “Exploring Research Resources and hands-on Structural Equation Modeling”, organized by Management Education and Research Institute, 3 – 9 August, 2021
- **Bhawna**, Participated in the webinar on “Entrepreneurship for USD 5 trillion economy by 2024-25”, organized by ABVSME, JNU, 11 August, 2021
- **Bhawna**, Attended workshop on “Art of Writing a Research Paper”, organized by Banarsidas Chandiwala Institute of Professional Studies, Dwarka, 26 August, 2021
- **Bhawna**, Attended six-day online workshop on “Advance Structural Equation Modelling”, organized by research cell, DME in collaboration with research shiksha, 23 – 28 August, 2021
- **Deepthi, B.**, Presented a paper titled “Role of business research in changing technological world”, in 4th International conference on “Recent Trends in Business and Entrepreneurial Venture”, 27 – 28 November, 2021
- **Deepthi, B.**, Presented a paper titled “Assessing the barriers to the Adoption of Industry 4.0 technologies in the Indian MSME Sector”, and organized by International Society for Data Sciences IIM Nagpur, Innovation-Global conference 2021: Leading business in a fluid world, also Chaired the session in the same conference, 27 – 30 December, 2021
- **Prasad Shivani**, Participated in three-day online workshop organised by ABVSME, JNU on “Econometric Analysis of Time series Data using EViews”, 2 – 4 June, 2021
- **Prasad Shivani**, Participated in online conference on “Sustainable Social Innovation for Rural Integration”, Conducted organised by ABVSME, JNU, 23 March, 2022
- **Sharma Yogesh and Rajeev Sijariya**, Presented a paper titled “Analyzing the role of digital transformation in businesses and government and their interdependence: A study during Covid-19”, 1st Pritam Singh Memorial (PRISM) Conference 2021 organized by OP Jindal Global University, 17 – 19 November, 2021
- **Sharma Yogesh, Suri Ankit, Rajeev Sijariya, and Jindal Lokesh**, Presented a paper titled “Education 4.0 – Scientific Mapping using Bibliometric Analysis”, ISDSI-Global Conference 2021 organized by IIM Nagpur, 27 – 30 December, 2021

Ph.D. (2022)

- **Meenakshi, Hem Ritu Verma**, Published a paper titled “\$ 5 Trillion Emerging Indian Economy :A Road Map of Central Bank”, Asian Journal of Management, Vol. 12, Issue-03, July – September, 2021 , ISSN 0976-495X (Print), 2321-5763 (Online)

MBA Students

- The MBA’ 21 students of ABVSME, JNU won 1st Prize in D-Crypto Competition as part of team “The Finance Trines”; Competition organized by D-Street Society, Shri Ram College of Commerce, University of Delhi as part of their Annual Fest “Bullzire 2021”. Awarded on 23 April, 2021. (Team members: Amrit Mohapatra, Gaurav Kumar Gupta, Ashish Chaurasia)
- The MBA’ 21 student of ABVSME, JNU Amrit Mahopatra won 1st Prize in an article writing competition organized by Indian Institute of Foreign Trade, Kolkata for their magazine “In FINEeti-Budget Edition 2021”. - Topic “Impact of Atmanirbhar Bharat Production Linked Incentive Scheme on the Manufacturing Sector”. Awarded on 14 April, 2021.
- The MBA’ 21 student of ABVSME, JNU Amrit Mahopatra won 1st Prize in an article writing competition organized by Vivekanand Education Society Institute of Management Studies and Research for the competition “VARNAN - The Blog Writing Contest”. Topic of the article: “Financial Management in times of COVID-19: Bailout lessons”. Awarded on 12 April, 2021

Future Plans

Building Industry Interface

A paradigm shift that is now underway seeks to promote new patterns of collaboration among industry consortia and university. At ABVSME we would like to bridge the gap between business school and industry. With the competent faculty we would be able to remove barriers for the interaction and the possible conditions for sustainable interaction from both academic and industry perspectives.

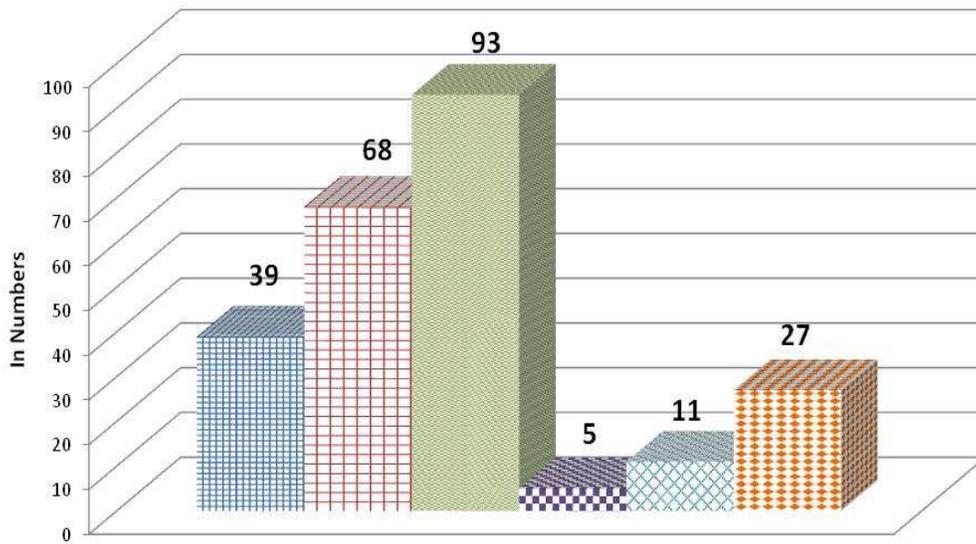

Global Collaboration

The changing global landscape of management education indicates that the future will demand much more if business schools are to support development goals, increase access to management education, develop more innovative curricula, share in the development of instructional resources and monitor and project the emerging needs of business organizations. At ABVSME, we wish to weave the core tenets of collaboration and innovation, facilitated through a quality-focused program and strategy.

School of Physical Sciences (SPS)

The School of Physical Sciences (SPS) is one of the leading departments in India both in terms of teaching and research. SPS has three major branches of science (Physics, Chemistry, and Mathematics) in the same department and this provides a natural habitat for collaborative research in interdisciplinary areas. SPS offers Ph.D. and M.Sc. degree programs in all three disciplines (Physics, Chemistry, and Mathematics). Very recently, the school has started an M.Sc. program in Chemistry (in 2017) and Mathematics (in 2019). Since the inception of the School of Engineering, the faculty of SPS has been teaching the basic (theory and laboratory) courses in Physics, Chemistry, and Mathematics in the B. Tech program of the School of Engineering. Most of the laboratories are well-equipped with state-of-the-art research instruments. The school has state-of-the-art computing facilities and well-equipped laboratories for Physics and Chemistry. SPS has a well-established Library with a good collection of books and journals in all three subjects. In M.Sc. programs, SPS offers traditional core courses in each subject, in addition, the focus is given to offering specialized courses to students as elective courses to enrich their knowledge in specific domains. SPS offers well-designed M.Sc. laboratory courses including traditional and modern experiments. In terms of research, SPS is one of the leading Schools where the faculties have made noteworthy contributions to the traditional disciplines of Physics, Chemistry, and Mathematics, as well as to the areas at the interface of these subjects.

The faculty of SPS continues to publish research papers in reputed journals and present their work in both national and international conferences and seminars. The faculty and students regularly publish research papers in top international journals and their publications have received extensive citations in the scientific literature. During the past year, 95 peer-reviewed research papers, 16 chapters in books, 12 conference proceedings and 01 patent were published by SPS faculty and students.

The research emphasis of the Physics group has been on topics in Condensed Matter Physics, Chemical Physics, Disordered Systems, High Energy Physics, Mathematical Physics, Laser Physics, Neutrino Physics, Non-equilibrium Statistical Mechanics, Nonlinear Dynamics, Statistical Biophysics, Quantum Chaos and String Theory. Active research is also being carried out in the areas of Complex Fluids, Superconductivity, Magnetism, Semiconductors, Spintronic Materials, Thermoelectrics, Photovoltaics, Plasma Astrophysics, Quantum Optics, Quantum Information Science, Mesoscopic Systems, Polymers, Bio and Nano Materials, Thin Films, Quantum Dots, Strongly Correlated and Frustrated systems, Topological Materials, High entropy alloys, Magnetocaloric Materials and Materials for Nuclear energy applications.

The Chemistry group is active in the areas of Synthetic Organic Chemistry, Inorganic Chemistry, Physical Chemistry Especially Supramolecular Chemistry, Glycochemistry, Crystal Engineering, Ultrafast Spectroscopy, Materials Chemistry, Biophysical Chemistry, Bio-inorganic, Bio-organic Chemistry, Medicinal Chemistry, Peptide Chemistry, and Structure-Based Drug Design.

The Mathematics group has been working in Number Theory (Algebraic and Analytic), Elliptic Curves, Ergodic Theory and Dynamical Systems, Probabilities on Groups, and Operator Algebras.

The research and teaching contributions of SPS have been recognized and acknowledged. Many of the faculty members are invited as speakers/chairs of sessions at conferences, both at national and international levels. Many of our students have gone on to become faculty and scientists in leading institutions and laboratories within India and abroad. The faculty and students regularly publish research articles in top international journals and their publications have received extensive citations in the scientific literature. Some faculty members have received prestigious awards and have been elected fellows of reputed scientific academies. A large number of eminent researchers across the country and world have visited the SPS and delivered many talks in concurrent subject areas of Physics, Chemistry, and Mathematics.

In recognition of the excellence in the teaching and research program at SPS, the UGC has been continuously supporting the SPS since 1994 through various schemes such as DRS-COSIST and DSA. Apart from the UGC support, SPS has also received major funding from the DST under the FIST program in 2002, 2007, and 2013 which has been successfully implemented and completed. It is also worth mentioning that SPS faculty members have attracted considerable individual support through research projects from IFCPAR-CEFIPRA, CSIR, DST, DBT, NBHM (DAE), UGC, etc. SPS has received large amounts of research funds from various funding agencies at the national and international levels.

A large number of eminent researchers across the country and world have delivered many talks in concurrent subject areas of Physics, Chemistry, and Mathematics.

Conferences Organized by the School: (05)

- Celebration of 111th Birth Anniversary of Prof. S. Chandrasekhar, by organizing Two Day National Conference on “Chandra’s Contribution to Plasma Astrophysics”, 19 – 20 October, 2021
- Online Symposium on “Current Trends in Non-Equilibrium Physics (CTNEP 2021)”, 22 – 26 November, 2021
Organizers: Prof. Satyabrata Patnaik and Dr. Rabindra Nath Mahato
- Online Course on Basics of High Performance Computing was organized by Prof. Manish K. Kashyap of the School and Sh. Ashish Kuvelkar (Senior Director, HPC-Tech) of C-DAC, Pune. April 19 – 30, 2021
- SPS March Meeting 2022 focussed on “Recent developments in Quantum optics and Quantum Information”, 28 – 29 March, 2022
- Online lecture series on “National Education Policy 2020: Implementation Challenges and Path Ahead”, organized Prof. Manish K. Kashyap of the School of Physical Sciences, JNU, New Delhi & Prof. P. K. Ahluwalia, Indian Association of Physics Teachers (IAPT) 19 February – 2 April, 2022

Visitors to the School

The School of Physical Sciences runs a regular and vibrant seminar program with around **19** talks in all during the academic year 2021-2022. Many eminent visitors were invited by the school who presented seminars on diverse topics in areas of Mathematics, Chemistry and Physics.

Detailed list of Seminars during 01 April, 2021 – 31 March, 2022:

- Dr. Mahesh Kumar, IIT Jodhpur, “III-Nitride transistors based heavy metal ion sensors for smart water quality analysis”, 9 June, 2021
- Dr. Rajendra Singh Dhaka, IIT Delhi, Cobalt based Heusler alloys for spintronics and magnetic refrigeration applications, 24 June, 2021
- Dr. Pijus Kumar Sasmal, School of Physical Sciences, Jawaharlal Nehru University, “Metal-Based Anticancer and Antimicrobial Agents”, 25 June 2021
- Dr. Kuntal Manna, IIT Delhi, “Metal-Organic Frameworks for Heterogeneous Base-Metal Catalysis”, 30 June, 2021
- Dr. Mukesh Kumar, IIT Ropar, “Solar-Blind Photodetectors”, 1 July, 2021
- Dr. Ashim Kumar Pramanik, SPS, JNU, “Exotic Phenomena in Low Dimensional Iridates with Strong Spin-Orbit Coupling”, 16 July, 2021
- Dr. Arijit Kumar De, IISER Mohali, “Optical trapping with femtosecond pulses: Excitements, challenges and opportunities”, 28 July 2021
- Dr. Sachin Dev Verma, Department of Chemistry, IISER Bhopal, “Pump-Probe Microscopy: Visualizing Charge Carriers at their Natural Timescale and Molecular Lengthscale”, 30 July, 2021
- Dr. Sayan Bagchi, NCL Pune, “Visualizing Ultrafast Molecular Processes Using 2D IR Spectroscopy”, 11 August, 2021
- Dr. Kanishka Biswas, JNCASR, “Nanostructured Thermoelectric Energy Conversion”, 18 August, 2021
- Dr. Sunil Singh Kushwaha, CSIR-National Physical Laboratory, New Delhi, “III-nitride nanostructures growth and characterisations for energy application”, 25 August, 2021
- Dr. Ronny Thomale, Würzburg University, Germany, Room temperature quantum spin Hall effect, 1 September, 2021
- Dr. Poonam Mehta, SPS, JNU, “The Neutrino Frontier in Particle Physics”, 3 September, 2021
- Dr. C. Malla Reddy, IISER Kolkata, “Crystal engineering of adaptive smart materials: from mechanical bending to self-healing”, 8 September, 2021
- Dr. Joyee Ghosh, Department of Physics, Indian Institute of Technology Delhi, “Entangled Photons for Quantum Communication”, 10 September, 2021
- Dr. Venu Gopal Achanta, Director, CSIR-National Physical Laboratory, New Delhi, “Metamaterials and their applications”, 20 October, 2021
- Dr. Pawan Kumar Kulriya, SPS, JNU, Radiation-tolerant ceramic for nuclear energy, 20 October, 2021
- Dr. Himanshu Aggarwal, BITS Hyderabad, “Exploring the Metal-Organic Framework Space for Sensing and Energy Applications”, 27 October, 2021

- Dr. Deepak Chopra, IISER Bhopal, “Applications of Charge Transfer Cocrystals in Materials Science”, 2 March, 2022

Accomplishment of students:

Research students in SPS have been actively involved in the teaching and learning program of the school. The students are engaged as Teaching Assistants for various courses which helps them strengthen their base. The students are encouraged to participate in the schools/conferences/workshops which are relevant in their respective areas of study both at national and international levels. Some of the students have received fellowships/grants for participating in schools/conferences/workshops. Additionally, our students have been selected for postdoctoral and regular positions at some of the reputed institutions both in the country and abroad. The details under each category are given below:

Faculty positions:

- **Dr. Jogesh Rout** (*former PhD student of Dr. Poonam Mehta*) selected for Lecturership position in a government degree college in Orissa.
- **Dr. Manoj Prajapati** (*former PhD student of Prof. Riddhi Shah*) selected for faculty position at the Department of Mathematical Sciences, P. D. Patel Institute of Applied Sciences, Charotar University of Science and Technology (CHARUSAT), Changa, Anand 388421, India (from October 2021)

Postdoctoral positions:

- **Dr. Alok Kumar Yadav**, (former PhD student of Prof. Riddhi Shah) joined University of Delhi as a post-doctoral fellow in 2021.
- **Dr. Avinash Kumar Singh**, (former Ph.D. student of Dr. Sobhan Sen and Dr. Pratima Solanki, SCNS) has been offered Postdoctoral Research Fellowship to work at Department of Electrical and Computer Engineering, University of Houston, Texas, USA.
- **Dr. Jagdees Kumar**, (former Ph.D. student of Prof. Kedar Singh) has joined as a postdoctoral fellow at SKKU University, Korea since January, 2022.
- **Dr. Manoj Prajapati**, (former PhD student of Prof. Riddhi Shah) visited IIT Jodhpur during Apr – June 2021.
- **Dr. Shravan Kumar**, (former PhD student of Dr. Pritam Mukhopadhyay) received **Alexander von Humboldt** (AvH) Post-doctoral Fellowship, University of Wuerzburg, Germany.
- **Dr. Sudhir K. Keshri**, (former PhD student of Dr. Pritam Mukhopadhyay) joined University of Albany, New York, USA as a Post-doctoral Fellow.

Schools/Conferences/Workshops/Seminars attended by the students:

- **Debamita Chatterjee**, Attended the Pre-CIMPA lecture series on hyperbolic geometry, organized at DST-CIMS, BHU, 12-22 December 2021, Online.
- **Debamita Chatterjee**, Attended the Visitor Programme Lecture Series by IWM (Indian Women in Mathematics) on “Introduction to singularities on an algebraic variety”, is by Prof. Ishii Shihoko, University of Tokyo, August, 2021, Online.
- **Deepika Sardana**, Participated in “International Symposium on Recent advances in Self Assembled Materials and Supramolecular Chemistry”, organized by Guru Nanak Dev University, Amritsar, 19 March, 2022
- **Deepika Sardana**, Participated in “RSC-IISER Desktop Seminar” organized by IISER Thiruvananthapuram, 2 – 4 May, 2021
- **Deepika Sardana**, Participated in “ACS Spring Meeting 2021: Macromolecular Chemistry: The Second Century” organized by American Chemical Society, 5 – 16 April, 2021
- **Deepika Sharma**, Attended the IWM mini course on Approximate Solutions of Operator Equations and Eigenvalue Problems by Prof. Balmohan V. Limaye, 20-21 November, 2021, Online.
- **Gurmeet Singh**, Poster presented in “3rd Indian Materials Conclave (IndMac) and 32nd Annual General Meeting of MRSI”, organized by Indian Institute of Technology, Madras, 20 – 23 December, 2021
- **Lav Kumar Singh**, Participated in 3-day international conference on recent trends in mathematics, Hansraj college (Delhi), 22 – 24 December, 2021, Online
- **Mahinshi**, Participated in the Indian Women and Mathematics (IWM) Annual Conference 2021-2022, Banasthali Vidyapith, Department of Mathematics & Statistics, 28 – 30 January, 2022, Online

- **Mahinshi**, Attended the AFS-II (Annual Foundation School-II), Shiv Nadar University, 29 November, 2021 – 8 January, 2022, Online
- **Mahinshi**, Participated in the IWM Regional Workshop on Research and Opportunities, Department of Mathematics, IIT Patna, 4 – 5 December, 2021, Online
- **Mainpal Singh**, “Synthesis and Characterization of Topological Superconductor SnTaS₂”, P. Saha, V. Nagpal, S. Patnaik. “65th DAE-SSPS 2021”, 17 December, 2021
- **Mainpal Singh**, “Aspects of topological superconductivity in SnTaS₂”, P. Saha, V. Nagpal, S. Patnaik. “APS March Meeting 2022”, 17 March, 2022
- **Mainpal Singh**, Attended APW-RIKEN-Tsinghua-Kavli workshop 2021 “Highlights on condensed matter physics”, 21 – 23 October, 2021
- **Mainpal Singh**, Attended VORTEX 2021 conference, 27 May – 3 June, 2021
- **M K Kumawat**, Attended and presented work on “Synthesis of boron carbon nitride (BCN) by thermal annealing of hBN in graphitic environment”, (work with Tanmay Mahanta, Sanjeev Kumar and Tanuja Mohanty) 65th DAE solid state symposium 15-19 December, 2021, BARC, Mumbai, India
- **Oddharak Tyagi**, Participated in the Invisibles 21 school jointly organized by the Horizon 2020 Marie Curie ITN network HIDDEN, which continues the series of “Invisibles” events started in 2012 (Horizon 2020 Marie Curie ITN network Invisibles, Horizon 2020 Marie Curie ITN network Elusives and the Horizon 2020 RISE network InvisiblesPlus) held in the online mode, 12 April – 7 May, 2021
- **Oddharak Tyagi**, Participated in the DUNE Neutrino Interaction School 2021 through online mode, 7 June - 10 July 2021.
- **Oddharak Tyagi**, Presented a talk on “Sterile Neutrinos and the 3+1 mixing matrix”, in the Virtual School of Flavor Structure of the Standard Model jointly organised by IISc Bangalore, IIT Kanpur, Institute of Physics, Bhubaneswar and IIT Kharagpur, 30 August - 12 September, 2021
- **Pallavi Saha**, “Effect of Excessive Mn doping on Electrical Properties of Skyrmonic MnSi”, V. Nagpal, S. Patnaik, “65th DAE-SSPS 2021”, 17 December, 2021
- **Pallavi Saha**, APW- RIKEN-Tsinghua-Kavli workshop 2021 “Highlights on condensed matter physics”, 21 – 23 October, 2021

Future Plans:

The unique coexistence of three major science streams in SPS has facilitated collaborative and interdisciplinary research programs in the School. The primary focus would be to attract (both collective and individual-centric) research grants in interdisciplinary areas of science that resonate with the priority areas advertised by the funding agencies of the Government of India. After the successful implementation and completion of the FIST grant from DST, SPS will be applying for the next phase under FIST. SPS had requested for an extension of UGC-DSA for a period of one year.

Several new colleagues have joined SPS during the past two years. The immediate requirement would be expansion in terms of space and infrastructure. This will facilitate faculty to host multiple research grants in their respective areas of expertise. In order to strengthen the existing academic programs (such as PhD and MSc in all the three branches of science at SPS), the main focus would also be to enrich the M.Sc. laboratories where students learn by performing experiments. The SPS has recently started M.Sc. programs in Chemistry and Mathematics, and we would like to expand those programs as well.

One of our major goals would be to strengthen academic collaborations with institutes within the country and abroad. In this direction, we are requesting for an extension of the MoU between Homi-Bhabha National Institute (HBNI) and JNU for a period of five years beginning this year. This will allow for enhancing the collaborative activities (via visits of faculty members and research staff and joint supervision) between any of the research institutes in the country funded by Department of Atomic Energy (DAE) and our university. We wish to highlight that with the implementation of New Education Policy (NEP) 2020 and accessibility to online programs, the MoU between HBNI and JNU naturally allows for credit transfer for courses taken by students and can play a significant role in enhancing the cooperation and collaboration between any of the research institutes (which are constituent institutions of the HBNI) in the country funded by Department of Atomic Energy (DAE) and our university. Moreover, the Dean,

SPS is in discussion with the Director of CSIR National Physical Laboratory, Prof. Achanta Venugopal for formalizing an MoU which could allow collaboration between JNU and NPL. We have had preliminary discussions on the possible topics where both institutions can benefit from this collaboration.

To keep the students engaged and motivated, more emphasis will be laid on organizing focused Online Webinar Series in addition to Conferences and regular seminars on specialized topics and invite eminent speakers to deliver the lectures.

SCHOOL OF SANSKRIT AND INDIC STUDIES

School of Sanskrit and Indic Studies (SS&IS)

The School of Sanskrit and Indic Studies (संस्कृत एवं प्राच्यविद्या अध्ययन संस्थान) was created by upgrading the Special Centre for Sanskrit Studies to a full-fledged school on 18 December, 2017. The earlier special School was set up in 2001 with the following goals -

- Negotiate between, and bring together, through interactive projects, the traditional scholars/scholarship and the mainstream university scholars/scholarship
- Undertake maintenance and preservation of heritage texts and manuscripts
- Constitute and expound theoretical framework from the primary intellectual texts of the Sanskrit tradition, and
- Extend and validate the classical theories by applying them both to contemporary Indian reality (modern Indian languages, literature, etc.) and to contemporary European Languages and literature (to reverse the existing data-theory relationship between the Indian academy and the Western academy and to recover theory status for the Indian thought),
- Undertake comparative research in Indian and Western traditions of thought in linguistics, literary and cultural theory, philosophy including philosophy of language, metrics and prosody, sociological thought, polity, gender, and ethnic studies and culture.

The School of Sanskrit and Indic Studies (SSIS) currently has M.A., M.Phil., Ph.D. programs and five Certificate of Proficiency (CoP) courses in Sanskrit, Pali, Sanskrit Computational Linguistics, Yoga Philosophy and Vedic Culture. The school is planning to start several new courses and programs soon.

About the Centre

Centre for Economic Studies and Planning

CESP has been a premier centre for teaching and research in Economics in India since its inception in 1973. Its drive for excellence has been based on a conscious aim of providing an objective environment for education and research in the subject, straddling all major intellectual traditions. The Centre actively encourages critical and independent thinking, respect for facts, and logic. These have been combined with recognition of the need to adopt a constructive approach to the development of the subject within each tradition, the need to represent alternative traditions in a faithful manner, and the need to be useful to society. There is continuous effort to combine theory, history, quantitative methods and field study, in the curricula.

The Centre's faculty actively engages in research both in the realms of abstract economic theory, development, and socio-economic history, and the formulation, evaluation and criticism of economic policy. Over the last four and half decades, the efforts of the faculty have been honoured with awards and recognition both from within the academic community and outside, in India and abroad. Yet the most eloquent testimonial to their efforts has been provided by the Centre's alumni, who have, by any yardstick of collective achievement, made meaningful and valuable contributions as part of a wide range of professions. Whether as members of faculty in some of the best known academic and research institutions in the country and abroad, as members of the administrative services and public sector organisations, as officers and economists in the financial and banking sector including the country's central bank and the World Bank, or as members of private sector organisations including research organisations and the media, and as leaders in the country's politics, our alumni continue to serve society at large, and provide the Centre with the motivation to build on its past achievements and scale even greater heights in the future.

Centre for Philosophy

The Centre for Philosophy has been growing since the time we started our M.A. programme in 2013. In 2018-2019 we received the sixth batch of M.A. students. The Centre has already been effectively running its M.Phil/Ph.D. research programs since 2005-06. We have been able to consolidate our teaching program further by adding more optional courses for the students to choose from and thereby enabling them to build up their specialization in area of study of their choice. The programs of the Study have been so designed that they focus on engaging with problems and concerns of philosophy cutting across traditional and narrow disciplinary boundaries. There is a special emphasis on the methodological interface for generating new knowledge whether basic or applied. Besides Metaphysics, Epistemology, Ethics and Logic, we have introduced courses on Culture and Multiculturalism, Justice, Philosophy of Mind, Philosophy of Language, Philosophy of Social Sciences, Phenomenology, Social & Political Philosophy, Cognitive Science and Contemporary Indian Philosophy. We have had several visiting faculties in the Centre, who have contributed immensely to the academic activities of the Centre. In the last academic session, there were many foreign scholars who visited the centre. The Centre had one visiting professor and one guest faculty in the last year.

In the last academic year, the centre has organized a large number of talks by renowned scholars of both national and international repute. The Centre has been endeavoring to promote teaching and research in philosophy with its distinct position as a foundational discipline keeping a close connection with other disciplines in the Humanities and the Social Sciences.

Centre of Social Medicine and Community Health

The Centre of Social Medicine and Community Health had academically a successful year. The process for restructuring of courses has made considerable progress. All faculty members have published in leading international and national journals. Their papers have been accepted in prestigious peer reviewed conferences. Several faculty members have lectured extensively outside the University. Besides the regular teaching and research activities, collaborative academic activities and research projects were undertaken by the faculty members. Several distinguished scholars contributed to the Centre's activities and several students' publications appeared in journals and books. The Centre's Documentation Unit was upgraded, with substantial addition of books and automation. The Documentation Unit was upgraded, with substantial addition of books and automation. New collaborations were initiated with the Tampere University, Finland and the National Institute of Epidemiology, Indian Council of Medical Research, Chennai.

Exim Bank Library

The Exim Bank-JNU Economics Library has built up an important collection of books and journals over the past decade, enabled by generous grants from the Exim Bank of India. On the basis of an MOU signed on 30 October, 2013, the Exim Bank has also offered scholarships to M.A. students in CESP.

On 10 August, 2018, the said MOU was renewed for a period of five years, 2018-19 to 2022-23. As per the current MOU, the Exim Bank offers three scholarships to MA students in the second year of study. The scholarships are to be awarded to the two top meritorious students as well as to the topper among the students in the reserved categories (SC/ST/OBC/PWD) in MA at the end of the first year of MA. The scholarship amount is Rs. 81,250 per annum per student.

For the academic year July 2020 to June 2021, (1). **Mr. Anshuman Singh**, (2). **Miss Sonia Sebastian** (3). **Miss Arshiya** was recommended for the scholarships.

Departmental seminars organized during 2021-22

A number of departmental seminars were held in the Centre over the period 2020-21. The list of seminar is provided below:

Sl. No.	Name of the Seminar	Date
1	Young Scholar Seminar	22.11.2021

Centre for Studies in Science Policy

The Centre is listed as one of the Top Science and Technology Think Tanks in "2020 Global Go to ThinkTank Index Report" (of the TTCSP, University of Pennsylvania, USA). CSSP secured 10th global rank in the category of Top S&T Think Tanks in 2021. CSSP also secured 65th rank in the category of Best University Affiliated Think Tanks, and 65th rank in the category of Best Use of Social-Media and Networks.

Future Plans

Centre for Economic Studies and Planning

CESP has established itself as a premier centre for teaching and research in Economics. In the coming years, the Centre plans to further strengthen its teaching and research programmes.

CESP has been recognised as a Centre for Advanced Studies by the UGC under its SAP/DSA scheme. The CAS funds are used for purchase of books and databases, for obtaining technical services, for fieldwork, for holding conferences and seminars, and for upgrading infrastructure.

CESP currently maintains a data repository. While datasets from major official sources like the Census, NSS and CSO are included in the repository, there are significant gaps. Also, subscription to other important databases for international trade and finance, corporate affairs etc, some of which are commercial databases, need to be obtained. All of this would require considerable resources.

Finally, in an increasingly integrated world, it is important to forge ties with other universities to facilitate programmes of research collaboration and faculty/student exchange. CESP has already initiated the process and hopes to accelerate progress on this front.

Centre for Philosophy

- The Centre for Philosophy plans to apply for the UGC Special Assistance Programme (SAP) with a thrust in contemporary Indian Philosophy.
- The Centre also plans to set up International collaborations with universities abroad in order to facilitate student and faculty exchange programs.
- With relation to development of syllabi the centre for philosophy plans to introduce new courses especially in the areas like Classical & Contemporary Indian Philosophy and Applied Philosophy which are not adequately represented in the Centre at present.
- The centre plans to explore possibilities of collaborations with Management and health care Institutes with special reference to Moral Philosophy & Applied Ethics.

Centre for Political Studies

The Centre plans to have frequent events like Webinars/Wednesday Seminars/Talks, etc. by the scholars in the field. The Centre is completing its 50 years of existence; we are organising specific programs to mark the occasion. The Course Revision is underway at the xFaculty level with the emerging challenges in the discipline to be incorporated.

Centre for the Study of Social Exclusion and Inclusive Policy

Once the regular finances are available for this scheme we wish to develop the Centre into School which will combat the very idea of Social Exclusion.

Centre for Women's Studies

- The Centre is planning to develop an interdisciplinary M.A. programme that introduces students to both theoretical and empirical concepts in the field of study.
- Building the infrastructure of the Centre.
- Expanding as a Resource Centre in the field of Women's Studies in terms of books and films.
- Refresher Course

Centre for Studies in Science Policy

- The Centre is in the process of setting up a 'South Asia Hub on Frugal Innovation Research', in collaboration with the Centre for Frugal Innovation in Africa (CFIA), and Erasmus-Leiden Delft Universities in the Netherland.
- The collaborative research in the areas of Responsible Research and Innovation (RRI) Framework, Sustainability Studies, UN Agenda 2030 (Sustainable Development Goals), has been given priority to align with the international research agendas.
- The Centre is planning to establish an Infographics Laboratory to promote information visualization and research data analytics; and also, to undertake advanced research in the areas of scientometrics, altmetrics, and new age research evaluation metrics. This Infographics Laboratory will be very unique within the Indian higher educational institutions. We are also very keen to collaborate with research institutions and research networks in the Global South to make use of this Lab for preparing various reports. The scientometric and altmetric studies will also be undertaken to measure national and regional progress in different branches of STEM (science, technology, engineering and mathematics) subjects as these are the foundations of the industrial and corporate world.

Centre for the Study of Law & Governance (CSLG)

The Centre for the Study of Law and Governance (CSLG) adopts a multidisciplinary approach to framing research and teaching on the relationship between law and governance. The study of governance, in its various forms and at different sites, is central to several contemporary issues: reforms of public institutions and public law; the creation and establishment of procedures and rules that lead to greater efficiency, transparency and accountability; and the challenge of making governance more inclusive and participatory through the strengthening of democracy and civil society. The programme's inter-disciplinary focus is distinct from mainstream social science approaches to governance or law in its attempt to explore how practices of law and governance are embedded in political, economic, social and historical process, how practices of governance are dispersed over various sites ranging from the government, bureaucracy, judiciary, community and family, the socio-legal processes that deter or provide access to justice; and notions of govern mentality, sovereignty and rights in specific politico-jural regimes.

While the Centre's academic programme produces scholarly research on law and governance, it also seeks to translate theory into practices of governance by initiating debate, sharing research and encouraging dialogue between the academia, government, civil society and NGOs at the local, national and global levels. In the decade since it came into existence, CSLG has developed at least three attributes that make it a distinctive part of the intellectual landscape. First, the Centre is explicitly inter-disciplinary. Second, the Centre has developed a reputation as a location where academic rigour can be meshed with reflection on policy and advocacy. Third, the Centre has become a focal point for understanding the links between the formal legal framework and governance in practice.

Since its inception, CSLG has initiated a renewed interest in looking at how practices of governance get stabilized through law and how these practices open law to further contestation. CSLG is the only academic space in India, and possibly one of the few academic spaces in the world, to have directed intellectual energy towards bringing together an inter-disciplinary focus on the relationship between law and governance.

The agenda of public policy through an examination of doctrinal law remains incomplete without interrogating the socio-legal processes that embed the practices of governance. CSLG has moved away from the conventional methods of looking at black letter law to using economic and sociological approaches to law in order to redress lacunae in legal research per se in India. The manifold agendas of legal reform and public policy in India remain impoverished in the absence of substantial socio-legal research in many areas of law that impact the everyday life of Indian citizens.

Special Centre for E-Learning (SCE-L)

The newly created 'Special Centre for E-Learning (SCEL)' at Jawaharlal Nehru University aims to develop and offer online courses with an aim to bring its expertise and high quality education system to those who miss out for the university's competitive entrance examination, and because of its limited on-campus space. The online courses are planned to be offered in large numbers and multiple disciplines, ranging from Certificate to Undergraduate and Post-graduate degrees, where interested students from even the remote regions of the country will get an opportunity to virtually attend the classes taught by the best faculty; access JNU's vast intellectual resources; participate in the discussion forums; take test and earn a JNU degree.

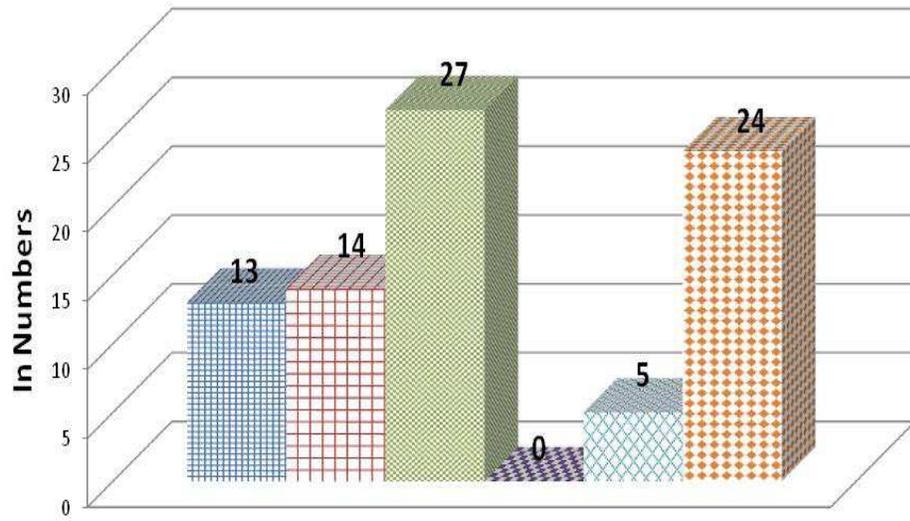

In order to fulfill the laid down conditions and the quality parameters specified under the University Grants Commission (Online Courses or Programmes) Regulations, 2018, SCEL plans to develop the infrastructure, appoint academic and administrative staffs, maintain and administer the Centralised Data Base of all the online Courses or Programmes, work for effective coordination among the faculty members offering online courses, admission branch, evaluation branch and Communication and Information Services at JNU.

Future plans

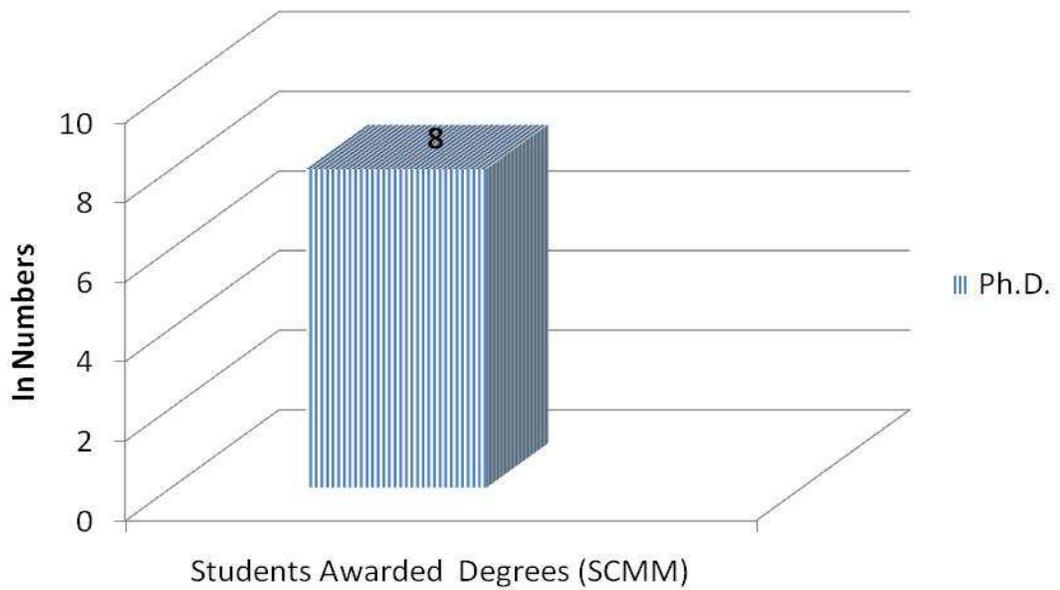

- To start new online courses
- Collaborate with other partners to create an Industry-Academia interface

Special Centre for Molecular Medicine (SCMM)

Molecular medicine is a promising area of biomedical sciences that aims to understand the molecular determinants of human health and diseases and apply this knowledge for the prevention, diagnosis and treatment of the diseases. The Special Centre for Molecular Medicine (SCMM), established in 1999 at JNU, has pioneered research and education in India and is imparting Master (Post-Graduate) and Ph.D. (Doctoral) level training in various fields of molecular medicine. The centre aims to accomplish its goal through offering innovative and collaborative basic and clinical research programmes. Ever since its inception, the Centre has undertaken many collaborative research activities with reputed national and international medical research institutions.

The objective of SCMM is to foster teaching and research activities in the study of human diseases using advanced tools of biochemistry and molecular and cell biology. SCMM conducts academic programmes for the training of young scientists (both clinical and non-clinical) who are keen to pursue a career in basic medical research. The academic programmes have been designed for non-clinical biologists/chemists, with sufficient knowledge to deal with medical problems, to enable them to develop and deliver product/processes to the society; and for clinicians with a basic clinical degree, who are keen to understand modern biology and chemistry at the molecular level, to enable them to apply this knowledge for drug development. For successful implementation of these objectives, SCMM offers M.Sc. and Ph.D. programmes of study.

The faculty members of the centre are pursuing teaching & research activities in the following thrust areas of molecular medicine in which the Centre offers the basic and clinical sciences students opportunities to pursue Ph.D. degree:

- Metabolic disorders such as cardiovascular diseases, role of iron in insulin resistance related pathogenesis, neuro degenerative disorders like Parkinson and Alzheimer diseases, and endocrine-related cancers.
- Nuclear receptors in health and diseases: to study underlying molecular mechanisms of nuclear receptors functions with special reference to VDR, THR, RXR, ER and AR. Involvement of PXR and CAR in drug metabolism and hepatic cancer. Role of nuclear receptors as drug targets in metabolic disorders and endocrine-related cancer.
- Cell adhesion and signaling, Cell polarity and tissue patterning, Diseases associated with cell-cell junctions including rare diseases like Retinitis pigmentosa type 12 and modulation of cellular junctions by pathogens.
- Infectious and non-infectious diseases: hepatitis C, Leishmaniasis, Helicobacter pathogenesis, Candidiasis, Inflammatory Bowel Disease, Pathobiology of innate immune dysfunction, DNA replication and cell cycle regulation of medically important pathogens: *Helicobacter pylori* and *Plasmodium falciparum*, application of codon-shuffling against *Mycobacterium tuberculosis* and *Plasmodium falciparum*, *Mycobacterium tuberculosis* and drug resistance, Enteropathogenic *E.coli*.
- Chemical biology, radiation biology and cell signaling; development of novel synthetic methodology for drug development and study of their mechanism of action based on genomics and proteomics against radiotherapy; cancer; development of antibiotics for gyrase resistant strains targeting topoisomerase 1A gene in bacteria.
- Synthetic organic chemistry: Synthesis of biologically active heterocycles using novel methodology with transition metal catalyst.
- Designing /discovering codon shuffled de-novo peptide/protein inhibitors against essential/crucial proteins of pathogens. To study crucial host-pathogen interactions by designing codon shuffled de-novo peptide/protein inhibitors. Synthesis and selection of novel drug like de-novo peptide binders by codon shuffling method that may inhibit crucial host-pathogen interactions in Malaria and Tuberculosis diseases.
- Tuberculosis: Mechanism of latency and re-activation of TB disease. Immunotherapy of TB and immune mechanism of host evasion, mechanism of drug resistance. Drug discovery for the therapy of regular drug resistant TB, vaccine discovery.
- Diagnostics and medical proteomics, and mass spectrometry-based metabolomics. Selected students will have the option to choose their research area depending on their merit/aptitude and according to the vacancy available.

- The biochemical and molecular mechanism(s) of metabolic disorder-induced chronic inflammatory diseases including diabetic and cardiovascular complications, cancer, asthma and COPD through cutting edge research and discover and develop potential mechanism-based molecular medicine for clinical intervention and therapy.
- Cancer, cancer stem cell and noncoding RNA: characterizing the functional role of cancer-patient-specific genetic/epigenetic alteration, hemeobox genes and small non-coding RNA in cancer initiation and progression. Investigating the functional role of epigenetic factors and epigenetic marks in cancer, cancer stem cell, and adult stem cell ageing. Identification of cancer stem cell/cancer initiating cell. To discover the novel drug targets for cancer treatment.

Invited Lectures by Experts in the School/Centre.

- **Dr. Dinesh Mani Tripathi**, Department of Molecular and Cellular Medicine, .ILBS, New Delhi, delivered a lecture entitled “Hepatic Disease” in the Lecture Series on National Diseases of Importance, 10 March, 2022, in online mode.
- **Prof. Rakesh Yadav**, Department of Cardiology, AIIMS, New Delhi, delivered a lecture entitled “Cardiovascular Disease” in the Lecture Series on National Diseases of Importance, 24 March, 2022, in online mode.
- **Dr. Christoph Arenz**, Humboldt Universitat Zu Berlin, Institute of Chemistry, Berlin, delivered a lecture entitled ”Targeting sphingolipid metabolizing enzymes-potential treatment of Covid-19, malaria, leishmaniasis, hepatitis C and other infectious diseases”, 9 March, 2022, in online mode.
- **Dr. Amit K Bhattacharya**, Technical Promotion Consultant, Tissue Gnostics Asia Pacific Limited, Gurgaon, Haryana delivered, a lecture entitled “Tissue FAXS: possibilities with cytometry in the spatial context of the tissue”, 24 December, 2021, in online mode.

Ph.D. Degree Awarded: 08

- **Ms. Ayushi Chaurasiya** has been awarded Ph.D. degree on the topic “Deciphering the role of host NAD+ metabolism in *M. tuberculosis* and *P. falciparum* pathogenesis and designing novel inhibitors against necrotizing toxins” under the supervision of Prof. Anand Ranganathan, 28 June, 2021.
- **Ms. Zill E Anam** has been awarded Ph.D. degree on the topic “Fundamental and Applied Studies using de novo peptide inhibitor targeting gliding motility of *Plasmodium falciparum*” under the supervision of Prof. Anand Ranganathan, 29 June, 2021
- **Ms. Kirti Sad** has been awarded Ph.D. degree on the topic “Investigation into the Mechanisms of Action of Prochlorperazine as Radiosensitizer in Different Tumor Models for Cancer Radio-therapy” under the supervision of Prof. Vibha Tandon, 4 August, 2021
- **Mr. Raja Singh** has been awarded Ph.D. degree on the topic “Investigation into Multi-Drug Resistance in Bacteria: Development of Broad-Spectrum Small Molecule ABTI19b & ABTI16b Targeting Type IA Topoisomerases” under the supervision of Prof. Vibha Tandon, 5 August, 2021
- **Ms. Malabika Chakraborty** has been awarded Ph.D. degree on the topic “Functional Roles of Human microRNA in Pathogenicity of Malaria Parasite” under the supervision of Dr. Shailja Singh, 31 August, 2021
- **Ms. Ankita** has been awarded Ph.D. degree on the topic “Functional analysis of Phosphoglycerate mutase as an interacting partner of *Plasmodium falciparum* acetyltransferase GCN5” under the supervision of Prof. Suman Kumar Dhar, 20 December, 2021
- **Mr. Praveesh V.** has been awarded Ph.D. degree on the topic “A study on the design, discovery, and improvement of novel and existing antimalarial compounds” under the supervision of Prof. Suman Kumar Dhar, 7 January, 2022
- **Mr. Tarkeshwar Kumar** has been awarded Ph.D. degree on the topic “Elucidation of the GET trafficking machinery and tail-anchored proteome in the human malaria parasite *Plasmodium falciparum*” under the supervision of Dr. Souvik Bhattacharjee, 25 February, 2022

M.Sc. Degree awarded: 06

- **Mr. Vikalp Kumar** has been awarded M.Sc. degree on the topic “A study on the interaction of Nucleosome Assembly Protein NAPS with Histone Acetyltransferase GCN5 in *Plasmodium falciparum*” under the supervision of Prof. Suman K. Dhar, 30 June, 2021.
- **Ms. Srijita Roy** has been awarded M.Sc. degree on the topic “A study on the interaction of Nucleosome Assembly Protein NAPS with Histone Acetyltransferase GCN5 in *Plasmodium falciparum*” under the supervision of Dr. Dipankar Ghosh, 30 June, 2021.
- **Ms. Nidha Parveen** has been awarded M.Sc. degree on the topic “Cytokines and Chemokine profiling in Human Mesenchymal stem cells during Mycobacterium Tuberculosis Infection” under the supervision of Prof. Gobardhan Das, 30 June, 2021.
- **Ms. Juhi Kumari** has been awarded M.Sc. degree on the topic “Identification of the putative homolog of the Guided-Entry of Tail-anchored machinery component Get1 in *Plasmodium falciparum*” under the supervision of Dr. Souvik Bhattacharjee, 30 June, 2021.
- **Ms. Neha Rani Das** has been awarded M.Sc. degree on the topic “Generation of a human liver cell line stably integrated with Vitamin D Receptor and its response element: a tool for evaluation of small molecule modulators” under the supervision of Prof. Rakesh K. Tyagi, 30 June, 2021.
- **Ms. Athira M. Sarath** has been awarded M.Sc. degree on the topic “Generation of a stable cell line expressing Enteropathogenic *E. coli* effector Tir and identification of Tir-interacting proteins in epithelial cells” under the supervision of Dr. Saima Aijaz, 30 June, 2021.

Students Participations in conferences/meetings/workshops/symposiums

- Ms. Sheeba, a Ph.D. student, attended a “3rd National Biomedical Research Competition 2021”, organized by Society of Young Biomedical research Competition 2021, 6 – 10 December, 2021 through Online.
- Ms. Ayushi Chhabra, a Ph.D. student, attended a “3rd National Biomedical Research Competition 2021”, organized by Society of Young Biomedical research Competition 2021, 6 – 10 December, 2021 through Online.

Future Plan

Research: Special Centre for Molecular Medicine is planning to expand its scope in the frontier areas of ‘*Infectious Diseases and Non-infectious, Metabolic Disorders, Radiation Biology, Cancer Biology, Drug Design and Drug Discovery*’ with an approach towards studies on *Molecular targets, Molecular Diagnostics and Translational Research*’.

Teaching: SCMM is currently offering M.Sc. in Molecular Medicine and Ph. D in the relevant research areas as mentioned above. Pre-PhD course work covers modern areas of Molecular Medicine and state-of-the-art relevant techniques. SCMM will continue the current teaching programmes in future. Moreover, restructuring of both M.Sc. and pre-PhD courses have been initiated with the joining of new faculties at the centre.

Our faculties are excelling in the different areas of research and all of us are collaborating with different research institutions and hospitals in the areas of several major human diseases that are included but not limited to Malaria, Cancer, AIDS, Tuberculosis, Gastritis etc. The future research plans of faculties are given below:

Prof. Gauranga Mukhopadhyay (Retired on 31/01/2022)

Prof. Mukhopadhyay’s Laboratory is working on *H. Pylori* Cag type IV secretion system. The work revealed a novel CagI independent surface localization of Cag A. Since it has been established that CagX and CagT is surface exposed protein therefore they wanted to see whether CagX or CagT affecting surface localization of each other or not. Few *in vivo* experiments are also required to establish these facts. Following are the major objectives and future plans to ascertain all the facts:

- To find out the amino acid residue(s) responsible for the interaction of CagX and CagT.
- To find out the role of other region of CagX which is a matter of investigation. The biological significance of these new interactions may have the way for the development of new avenues of research in TFSS.
- Also it has been planned to define the role of other component of *H. pylori* TFSS to understand the specialized and well adapted functions in detail.

Prof. Chinmay K Mukhopadhyay

This Research Group is working on 'Infectious diseases and metabolic disorders'. Below are the main objectives for future research work:

- To study the role of iron in leishmania–macrophage interaction.
Objective: Iron is essential for survival and growth for both the host and pathogen. The objective of the current study is to understand the mechanism by which *Leishmania donovani* interferes the iron homeostasis of host macrophages for its survival benefit.
- To study the role of catecholamine stress hormones on cellular iron metabolism.
Objective: Adequate availability of iron is important for cellular energy metabolism. Catecholamines like epinephrine and norepinephrine promote energy expenditure to adapt to conditions that arose due to stress. To restore the energy balance epinephrine/ norepinephrine exposed cells may face higher iron demand. So far, no direct role of epinephrine/norepinephrine on cellular iron homeostasis has been reported. The objective of the current study was to explore the role of epinephrine/norepinephrine on cellular iron homeostasis.
- Brain iron homeostasis and neurodegenerative diseases
Objective: To study the regulation iron homeostasis in response to oxidative stress in neuronal and astroglial cells.

Prof. Rakesh K Tyagi

Nuclear Receptors in Health and Disease: Nuclear Receptor super-family is a large group of ligand-modulated transcription factors with 48 members presently identified in the human genome. Members of this family of receptors are involved in regulation of numerous physiological and patho-physiological processes and have enormous potential as targets for the treatments of diseases like cancer, diabetes, asthma and multitude of metabolic disorders. For better understanding, towards targeting of these transcription factors by small molecule modulators, some of our ongoing comprehensive research projects relate to nuclear receptors PXR, CAR, RXR, AR, SHP, VDR, THR etc. and, their regulation during normal physiological controls and diverse metabolic disorders. The major objectives and future plans of our research group are covering the follows topics:

- Role of xenobiotic receptors PXR & CAR in drug metabolism.
- Comprehensive studies on polymorphism and modulation of Vitamin D Receptor (VDR) and Thyroid Hormone Receptor (THR).
- Genomic bookmarking 'and inheritance of 'transcription memory' by nuclear receptors.

Prof. Suman K. Dhar

The research group is primarily focused on investigation in the areas of 'Infectious diseases' related to understanding DNA replication and Cell cycle regulation in two medically important pathogens: *Helicobacter pylori* and *Plasmodium falciparum*. Below are the future plans and objectives:

- Characterization of a putative replicative helicase loader Hp0897 and cell division protein FtsZ in *Helicobacter pylori* and screening of compounds for antibacterial activity.
- Role of human malaria parasite *Plasmodium falciparum* Histone Acetyl Transferase (HAT), PfGCN5 in parasite biology and its unique processing essential for parasite survival with a view to identify new target for therapy. Identification characterization of putative chromosomal replication origins and replisome proteins in *Plasmodium falciparum*.

Prof. Vibha Tandon

This research group is primarily focused on 'Drug Discovery' and 'Cancer Biology'.

The major objectives and future plans are as below:

- Development of radioprotectors for cancer therapy and elucidate their mechanisms of actions in normal tissues and cancerous tissues. The bisbenzimidazoles showed protection of normal cells and no effect on tumor in tumor bearing mice.
- Her group is trying to do the repurposing of drugs several. Drugs. She is trying to establish new small molecules as radiosensitizers.
- Design, Synthesis and Development of New Class of Antibacterials to Combat Multi Drug Resistance Mechanistic understanding. Her group has developed small molecules targeting topoisomerase IA a comparatively novel bacterial target to overcome the resistance generated due to mutations in gyrases and other DNA enzymes.

Prof. Gobardhan Das

The research group is primarily focused on 'Infectious diseases' related to understanding *M. tuberculosis* infections. The major objectives and future plans are as below:

- To study the molecular mechanism of susceptibility and resistance in murine models of *M. tuberculosis* infection.
- To compare the immunogenicity of virulent strain H37Rv and its mutant in macrophages derived from susceptible (BALB/c) and resistant (C57BL/6) strains of mice.
- To compare the T cell responses of virulent strain H37Rv and its mutant during *M.tb* infection in mice model.
- To study the molecular mechanism of activation of T helper subsets.

Prof. Anand Ranganathan:

Prof. Ranganathan's research Laboratory has invented the novel method of directed evolution of proteins called codon-shuffling. Using this pioneering method, our laboratory has discovered a completely *de novo* protein M5, that was able to disrupt the ICAM-1 dimer formation *in vivo*.

The major objectives of this research group are as follows:

- To study the mechanism of role of Host ICAMs in cell invasion by *Mycobacterium tuberculosis* and *Plasmodium falciparum*.
- To explore the possibility of an HCL2-attenuated *M. tuberculosis* strain as a viable vaccine candidate.
- To study the effect of a novel molecule on mycobacteria, and represents a viable starting point for developing potent peptidomimetics.
- To discover new molecules for TB therapy.

Dr. Souvik Bhattacharjee

Plasmodium falciparum causes the majority of malaria morbidity and mortality worldwide, with an estimated 781,000 deaths and ~200 million confirmed cases annually (World Malaria Report, WHO, 2014). The current front line drugs are artemisinins that are used in combination with longer acting antimalarials (sulfadoxine/pyrimethamine) in artemisinin combination therapy (ACT). Currently there is no vaccine against malaria and the recent development of clinical resistance of *P. falciparum* to artemisinin derivatives threatens malaria control and eradication strategies in implementation worldwide.

The major challenges of this research group are as follows:

- To understand the cellular functions of kelch propeller domain containing protein PfKelch13.
- To study the artemisinin-resistance (reduced parasite clearance rate and increased survival half-life in peripheral blood following ACT) through the use of reverse genetics at the parasite level and host modification at the cellular level.

Dr. Shailja Singh

Our research focuses on understanding of the molecular signal and machinery involved in invasion and egress of *Plasmodium falciparum* merozoites from host erythrocytes, involving multidisciplinary approach such as live cell imaging, molecular biology, cell biology and protein chemistry. Real-time light microscopic visualization of *in vitro* blood-stage egress in live parasites has played a special role in studies on signals regulating these processes. We have demonstrated for the first time a role of intracellular Ca²⁺ in regulation of egress of *P. falciparum* merozoites from schizonts. A sharp rise in intracellular Ca²⁺ just before egress, observed by time-lapse video microscopy, suggested a role for intracellular Ca²⁺ in this process. Chelation of intracellular free Ca²⁺ with chelators such as BAPTA-AM or inhibition of Ca²⁺ release with phospholipase C (PLC) inhibitors blocks merozoite egress. Interestingly, chelation of intracellular Ca²⁺ in schizonts was found to block the discharge of a key protease PfSUB1 (subtilisin like protease1) and Perforin like proteins from apical organelles of *P. falciparum* merozoites to parasitophorous vacuole (PV) and host cell membranes. This leads to inhibition of processing of PfSERA5 (serine repeat antigen5); block in parasitophorous vacuolar membrane (PVM) rupture and permeabilization and merozoite egress. A complete understanding of the steps regulating egress and invasion of *P. falciparum* merozoites may provide novel targets for synthetic biology approaches that block invasion and egress and limit parasite growth. We are now studying the role of effectors on signaling cascades in invasion and egress of *P. falciparum* merozoites.

Dr. Saima Aijaz

This research group is primarily focused on investigations to study mechanism(s) of regulation of Epithelial Tight Junctions in pathobiology.

The major objectives and future plans are as below:

- To investigate the mechanism(s) of regulation of Epithelial Tight Junctions in pathobiology
- To characterize of EspF-mediated TJ disruption by calcium switch assays.
- Functional characterization of the role of actin cytoskeleton in EspF-mediated TJ disruption

Dr. Dipankar Ghosh

This research group is focused on 'Infectious diseases' is primarily involved in the investigations on 'infectious biofilms'.

The major objectives and future plans are as below:

- To study the early host-microbe relationships in oral *Lichen Planus*
- To study the mechanism of pathobiology of MDR Nosocomial Bacterial Biofilm Infections.

Prof. Umesh Chand Singh Yadav

Prof. Yadav's group is engaged in the research to develop early diagnostic markers and mechanisms-based therapeutics for chronic inflammatory diseases including metabolic disorder-induced diabetic and cardiovascular disorders, cancers, asthma and COPD. The group has identified potential novel targets in endothelial dysfunction and macrophage foam cell formation induced by oxidized low-density lipoprotein, a 'danger' molecule elevated during metabolic syndrome. These molecular targets play initial and crucial role in the promotion of CVDs such as atherosclerosis. Further, the group has also identified role of MMPs in cigarette smoke extract-induced activation of EGFR/Akt/GSK3 β / β -catenin pathway that mediates epithelial-mesenchymal transition in airway epithelial cells leading to airway remodeling and lung dysfunction. The group has shown that small molecules derived from plants such as fisetin could ameliorate these inflammatory conditions.

The main focus of the future studies includes:

- Metabolomic alterations in air pollutant/ cigarette smoke extract-induced lung epithelial cells to assess and identify new biomarker and elaborate their role in lung dysfunction.
- Transcriptomic studies of cardiovascular cells (endothelial cells and cardiomyocytes) in the metabolic stressors induced atherosclerosis and cardiomyopathies.
- Proteomic and lipidomic changes in the different cancers to identify novel therapeutic targets.

Dr. Vijay Pal Singh Rawat

Dr. Rawat's is focused in the fields of cancer and stem cell biology with special focus on the epigenetics, molecular alteration and small non-coding RNA. Dr. Rawat's laboratory identifies and characterizes the functional role of these factors in cancer initiation, progression and normal stem cell biology. Our lab manipulates normal stem/progenitor cells using gene transfer or gene knockdown/knockout to assess the functional role of these factors in cancer initiation, progression and normal stem cell function using *in vivo* mouse models and *in vitro* stem cell assays. Using these models, we identify the molecular mechanism, cancer stem cell population and potential drug targets for the respective alterations (*PNAS, Blood, Leukemia, Cancer Cell, JCI and JEM*). We are currently, analyzing the functional role of epigenetic factors, miRNA and epigenetic marks in normal stem cell biology and in cancer development and its progression. Our lab expertise in establishing syngeneic and xenograft models to study leukemic initiating cell populations, immunotherapy agents and chemical agents for cancer treatment.

Current Areas of Research:

- Identify and characterize cancer-patient-specific genetic cancer, epigenetics, and molecular alterations and their functional role in acute leukemia initiation and progression.
- Identifying the functional role of early developmental genes and non-coding RNA in leukemia development.
- Characterization of the functional role of DNA demethylation enzymes and DNA epigenetic marks in leukemia and stem cell ageing.
- Identification the novel drug targets for cancer treatment

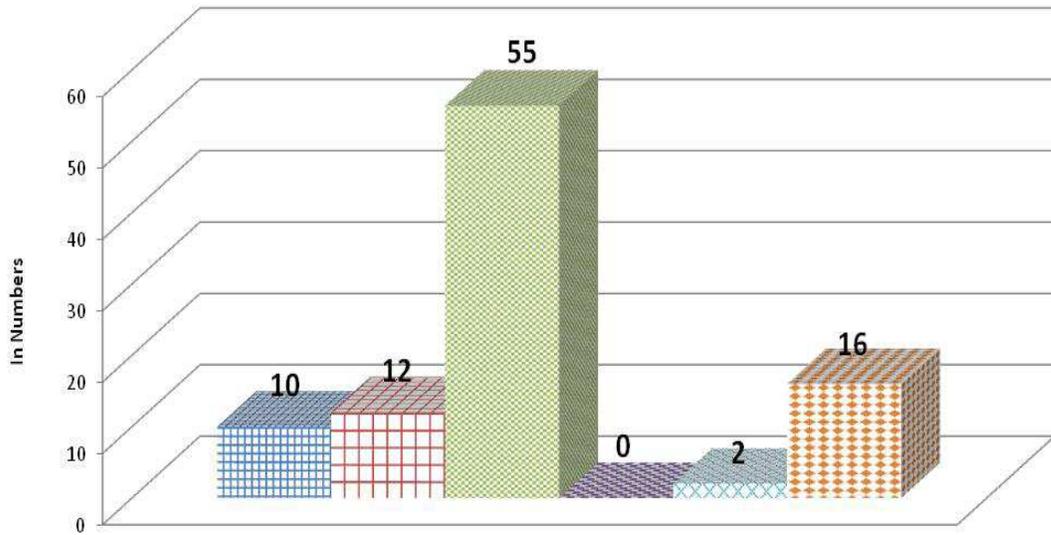

Areas of Specialization: Leukemia, Normal and Cancer Stem cell and Drug Screening

- Genetics/Epigenetics and molecular biology of cancer
- Establishing syngeneic and humanize mouse models of blood cancer
- Identification of cancer stem cell using syngeneic and xenograft models
- Establishing *in vitro* and *in vivo* assays for drug screening

Special Centre for Nano Sciences (SCNS)

SCNS is an inter-disciplinary research and teaching centre at JNU. The Nanosciences related research topics pursued currently include nanoscale interface, bio-sensors, spintronic, ferromagnetic nano-elements, ferroelectric materials, nano-composites, hybrid nanomaterials to name a few. The Centre has faculty members with background in Physics, chemistry, Electronics, Biology, Materials Sciences, etc.

The research agenda of SCNS involves synthesis, characterization and device development of nanomaterials. These include (i) magnetic nanostructures (nano-wires and nano-particles) based nano-devices (microwave monolithic nano-devices and magnetic sensors) fabrication, (ii) magnetic nano-particles for target specific drug delivery by radio-frequency-hyperthermia, (iii) semiconductor quantum dots, nanoparticles and nanocomposites for solar cells and biosensors, (iv) multiferroic and ferroelectric nanomaterials for capacitors, UV sensors, wireless actuators, infrared detectors, micro-electro-mechanical system (MEMS) devices, piezoelectric devices, ferroelectric nonvolatile random access memories (FeRAMs).. The fabricated signal processing devices are on-chip, light weight and hand held type use.

The central instrumentation facility of the SCNS has following important major instruments: SEM-EDX, XRD, DLS, AFM, UV-VIS spectrometer, Fluorescence spectrometer, Raman spectrometer and zeta potential instrument.

Sensors and biosensor are demanding for the clinical diagnosis and environmental contaminants detection. Different types of biosensors based on transducers and recognition elements can be fabricated for the desire analytes (mycotoxins cholesterol, glucose, LDL, urea etc.) detection. Electrochemical biosensors are promising techniques for early detection of diseases like cancer that can detect very low concentration (pg.) of biomarkers. Microfluidic biosensors also have increasing interest to integrate advanced biosensors into lab-on-a chip for multi-analytes detection. Besides these different nanomaterials are being used for water pollutants, pathogen detection and remediation of the heavy metals ions (lead and chromium) present in aqueous solution.

The central theme of Thin-film and electron microscopy research group is “Nanostructure - Physical property correlation in technologically important nanostructures using Transmission Electron Microscopy (TEM) and Scanning Electron Microscopy (SEM)”. Thin-film and electron microscopy laboratory has installed an RF-DC magnetron sputtering system in September 2016. In addition, thin-films and bulk materials of functional oxides are being synthesized using sol-gel spin coating and solid state synthesis methods. Lead-free ferroelectrics and ant biofilms are currently being investigated. TEM investigations are an integral part of the research which is carried out at AIRF of the university. Ion milling machine for preparing TEM samples has been installed at AIRF in November of 2016.

Research on Nano biotechnology and Nano medicine are being carried out involving synthesis of nano-based drugs for infectious diseases and study of their molecular mechanisms of action, investigations on nano-based: drug delivery, therapy, toxicity and fluorescent bio imaging labels for study of infectious diseases.

- **Kumar Vinod**, Organized one-day special lecture on “Flexible Nanoelectronics and Energy”, organized by SCNS, JNU, 20 September, 2021
- **Solanki Partima R.**, The ECS- JNU Student Chapter organized 1st webinar on “Gut Microbiota-derived Metabolites as Potential Biomarkers”, (Online) at SCNS, JNU, 13 January, 2022

Accomplishment of Students: (20)

- Fareen Zaidi, (Student of **Dr. Tulika Prasad**) Attended and presented poster “Non-toxic L-Phenylalanine doped carbon quantum dots: high performance photoluminescent agent for bioimaging”, in 1st International Conference on “Technologies for Smart Green Connected Societies (ICTSGS)”, organized by Yamagata University, Japan and The Electrochemical Society, USA in association with SPAST foundation and Associated Partner Institutions, 29 – 30 November, 2021
- Preeti Chand, (Student of **Dr. Tulika Prasad**) Attended and presented poster “Antifungal activity of ZnO Quantum Dots (QDs): Reactive Oxygen Species (ROS) mediated toxicity and response of ROS scavenger”, in 1st International Conference on “Technologies for Smart Green Connected Societies (ICTSGS)”, organized by Yamagata University, Japan and The Electrochemical Society, USA in association with SPAST foundation and Associated Partner Institutions, 29 – 30 November, 2021
- Itika Varshney, (Student of **Dr. Tulika Prasad**) Attended and presented poster “Nano-based Strategies against COVID-19: Prevention and Therapeutics”, in 1st International Conference on “Technologies for Smart Green Connected Societies (ICTSGS)”, organized by Yamagata University, Japan and The Electrochemical Society, USA in association with SPAST foundation and Associated Partner Institutions, 29 – 30 November, 2021
- Amit K. Yadav, Damini Verma, and Navneet Chaudhary, (Students of **Partima R. Solanki**), Received the Best Oral Presentation Award on 7th Edition of international conference on Nanotechnology for Better Living 2021 (NBL 2021) jointly organized by NIT Srinagar and IIT Delhi, India, 7 – 11 September, 2021
- Amit K. Yadav, (Student of **Partima R. Solanki**) Presented Oral talk on “Silane modified disposable ITO Electrode-based Biosensor for Sperm protein 17 detection as a Novel Cancer Biomarker”, in 1st International conference on “Technologies for Smart Green Connected Society 2021”, organized by Yamagata University, Japan, online globally, 29 – 30 November, 2021
- Amit K. Yadav, (Student of **Partima R. Solanki**) Best Oral Presentation Award and presented oral talk on “Fabrication of MIP-based sensor for detection of trimethylamine N-oxide as health-care biomarker”, on two-day international conference via Virtual Platform on Nanomedicine: Biomolecules for Human Health (NBHH-2021) Small Molecules, Big Opportunities!! Organized by Kirori Mal College, University of Delhi, under the aegis of DBT Star College Scheme, 27 – 28 September, 2021
- Amit K. Yadav, (Student of **Partima R. Solanki**) Presented oral talk on “A highly sensitive, label free and non-invasive molecularly imprinted polymer based electrochemical sensor for the detection of Gut microbiota derived trimethylamine N-oxide (TMAO)”, on “7th Edition of International Conference on Nanotechnology for Better Living 2021 (NBL 2021)”, jointly organized by NIT Srinagar and IIT Delhi, India, 7 – 11 September, 2021
- Damini Verma, (Student of **Partima R. Solanki**) Presented Oral talk on “Electrophoretically deposited reduced graphene-oxide-molybdenum trioxide composite based electrochemical sensor for determination of endocrine disruptor bisphenol A”, on “Two-Day International Conference via Virtual Platform on Nanomedicine: Biomolecules for Human Health (NBHH-2021) Small Molecules, Big Opportunities!!”, Organized by Kirori Mal College, University of Delhi, under the aegis of DBT Star College Scheme, 27 – 28 September, 2021
- Damini Verma, (Student of **Partima R. Solanki**) Presented Oral talk on “Development of green synthesized AgNps Anchored RGO nanocomposite based amperometric sensor for BPA detection”, in 1st International Conference on “Technologies for Smart Green Connected Society 2021”, led by Yamagata University, Japan Organized by SPAST Foundation and associated Partner Institutions, 29 – 30 November, 2021
- Damini Verma, (Student of **Partima R. Solanki**) Presented Oral talk on “Development of reduced graphene-oxide-molybdenum trioxide nanocomposite sensor platform for highly sensitive and selective BPA detection; an endocrine disruptor”, on “7th Edition of International Conference on Nanotechnology for Better Living 2021 (NBL 2021)”, jointly organized by NIT Srinagar and IIT Delhi, India, 7 – 11 September, 2021
- Navneet Chaudhary, (Student of **Partima R. Solanki**) Presented Oral talk on “Optical sensor comprising a novel green synthesized carbon quantum dots for determination of ciprofloxacin”, in international conference on “Advances in Biosciences and Biotechnology (ICABB-2022)”, jointly organized by Department of Biotechnology, Jaypee Institute of Information Technology, Noida, Uttar Pradesh, India, 20 – 22 January, 2022
- Navneet Chaudhary, (Student of **Partima R. Solanki**) Poster presented on “Designing and characterization of a highly sensitive and selective biosensing platform for ciprofloxacin detection utilizing lanthanum oxide nanoparticles”, on “7th Edition of International Conference on Nanotechnology for Better Living 2021 (NBL 2021)”, jointly organized by NIT Srinagar and IIT Delhi, India, 7 – 11 September, 2021

Students Awards/Honours/Fellowships:

- **Ravindra Meena**, Ph.D Student “Prime Minister Research Fellowship”, (PMRF) since 27-01-2021

- **Amit Kumar Yadav**, Ph. D student (Prime Minister Research Fellowship” (PMRF) since 27-01-2021
- **Dr Deepika Jamwal**, Ph.D student (Shastri Indo-Canadian Fellowship) since 7 February, 2022
- **Dr. Mohammad Perwez**, (National Post-Doctoral fellowship) since 02-03-2022
- **Shehreen Aslam**, (DST Inspire Faculty Fellowship) since 25-10-2021
- **Dr. Kavyashree**, (DST Inspire Faculty Fellowship) since 26-10-2021
- **Dr. Arun Barvat**, (Dr. D. S. Kothari Fellowship) since 01-12-2021
- **Dr. Anindita Das**, (Dr. DS Kothari Post-Doctoral Fellowship) since 01-10-2021

Any Other Information

- **Solanki Partima**, Electrochemical Society (ECS), US (location) -JNU Student Chapter approved by ECS Board of Directors, during the 240th ECS Meeting, 22 October, 2021
- **Solanki Partima**, (Non-executive founder member) established start-up LLP (3K NANO LLP; www.3knano.com) under AIC-JNU, New Delhi

Future Plans:

- SCNS future plan would be to fill all the vacant faculty positions where focus will be paid that most of the subject areas in these all subjects are covered by the faculties. More instruments will be arranged for M.Tech & Ph.D. laboratories for students. Since last three years SCNS is running successfully M.Tech program in two disciplines (Nanoscience and nano-electronics), and in future SCNS will approach AICTE for its recognition and approval. Research proposals as well as to submit the proposals to organize the seminars/conferences of national and international level aiming to strengthen the academic programs, Internships programs and to establish the collaborative research programs in Centre.

Special Centre for National Security Studies (SCNSS)

The Special Centre for National Security Studies (SCNSS), established in 2018, is one of the newest centres of the Jawaharlal Nehru University (JNU). The Centre is dedicated to studying national security issues in a comprehensive and holistic manner. It has a prime focus on analysing, comparing and theorising all security issues that concern India. As a super speciality hub of national importance on the domestic and external security issues of India, the Centre's core expertise revolves around examining, reflecting on and providing policy inputs and alternative policies to relevant government and security agencies of India. In dealing with national security issues, the Centre inclines towards examining them through the prism of Indian civilizational knowledge and its security traditions, with the sole objective of protecting India's vital national security interests and its territorial integrity and promoting world peace. The Centre is an interdisciplinary body combining social sciences and civilizational/cultural insights of India with latest emerging technologies in cyber, space, chemical, biological, nuclear, Artificial Intelligence (AI) and other related disciplines.

New Courses

Seven courses introduced for PhD programme. Details are as under:

Course No	Course Title	No of Credits	Name of Faculty
SN-701	Research Methodology for National Security of India	04	Dr Naresh Kumar Verma
SN-702	Domestic/Internal Security Studies of India	03	Dr Laxman Ku. Behera, Ms Aayushi Ketkar, Dr Naresh Kumar Verma, Dr Ankur Yadav, Dr Gaurav Tyagi
SN-703	India's External Security challenges	03	Dr Laxman Ku. Behera,
SN-704	Indian Strategic Thoughts and Military History of India	03	TBD
SN-705	Emerging Technology and National Security	03	Dr Gaurav Tyagi
SN-706	Studying India's Borders	03	Ms Aayushi Ketkar
SN-707	Non-traditional Security Studies of India	03	Dr Ankur Yadav
SN-708	Research and Publication Ethics	02	Prof Ajay Kumar Dubey, Dr Laxman Ku. Behera, Dr Naresh Kumar Verma

Conferences organized by the Centre: (03)

- Webinar and Discussion on "Recent Reforms in India's National Security Apparatus", Keynote address delivered by Dr Ajay Kumar, Defence Secretary, Ministry of Defence, Co-ordinated by Dr Laxman Kumar Behera with support of all SCNSS faculty, 2 June, 2021
- Panel discussion on "Taliban in Afghanistan: Implications & Strategy of India", Co-ordinated by Dr Laxman Kumar Behera with support of all SCNSS faculty, 31 August, 2021
- International symposium on "Taliban in Afghanistan: Implication and Strategy for the Region", Co-ordinated by Dr Laxman Kumar Behera with support of all SCNSS faculty, 4 September, 2021

Visitors to the Centre

- A Sudanese delegation comprising Dr Adil H.M. Ahmed, Asst Dir, Centre for Observing the Conflicts in Sahel & Mr Yousif E K Morry, Admin Attache, Embassy of the Republic of the Sudan interacted with SCNSS faculty, 17 March, 2022.

Accomplishment of Students

Journals:

- **Tiwari, Rahul**, Health Care System among the Gond Tribes of Tarandul Village, Chhattisgarh, India#2 (2021)

Participation in Conference

- **Prasham, S.**, Comparing Environment Policies of President Ronald Regan and President Donald Trump, Second Young Scholars Conference, Centre for Canadian, US and Latin American Studies, JNU, 5 October, 2021

Any Other Information

- The Centre submitted a report on “Defence and Security of India @2047: A Roadmap”, to the MoD on their request.
- The Centre has signed and MoU with Ministry of Defence for setting up of a Chair of Excellence in Defence and Strategic Studies.

Future Plans

Future plan include introduction of Masters programme and Diploma in national security.

SPECIAL CENTRE FOR THE STUDY OF NORTH EAST INDIA

Special Centre for the Study of North East India (SCSNEI)

Special Centre for the Study of North East India (SCSNEI), Jawaharlal Nehru University, New Delhi, was set up in the year 2018, upgraded from its earlier status as a Programme called North East India Studies Programme (NEISP). SCSNEI encourages employing interdisciplinary approaches to study the northeastern region of India.

Seminar organised by Center as per seminar series (2021-22)

- Seminar by Dr. Kaustubh Deka, Assistant Professor, Department of Political Science, Dibrugarh University, Assam on the topic “Blowing gas wells, coal mining in elephant reserves Nature, nation, nationalities: Northeast India as a resource frontier”, 16 April, 2021
- Seminar by Dr. Swargajyoti Gohain, Assistant Professor & HOD, Department of Sociology and Anthropology, Ashoka University, Haryana on the topic “Eco-friendly Buddhism: Anomaly or Adaptation?,” 16 July, 2021
- Seminar by Prof. Shahnaj Husne Jahan, Professor of archaeology; director of the Center for Archaeological, Studies and head of the General Education Department in the University of Liberal Arts on the topic “Cultural and Commercial Connections between Bangladesh and North East India”, 5 August, 2021
- Seminar by Dr. Jelle J. P. Wouters, Associate Professor in Anthropology and Sociology, Royal Thimphu College, on the topic “Desire and Delirium in Highland Northeast India”, 24 September, 2021
- Seminar by Kham Khan Suan Hausing, Professor and Head of the Department of Political Science, University of Hyderabad, on the topic “Indigeneity, territoriality and conflicts in Northeast India”, 5 November, 2021
- Seminar by Dr. Raktim Patar, Department of History, Gargaon College, Simaluguri, Assam on the topic “Maharja Prithu: The Unsung Warrior King of Kamarupa Who Annihilated Bakhtiyar Khilji”, 29 March, 2022

Jayashree Roy Annual Memorial Lecture:

- 10th Annual Jayashree Memorial Lecture by Prof. Swatahsiddha Sarkar, Professor, Centre for Himalayan Studies, University of North Bengal (NBU) on the topic “Epistemic Concerns of Himalaya and the Questions of Environment and Livelihood”, 22 March, 2022

NAMASTE Governor Acharya Awards Annual:

- Annual NAMASTE Governor Acharya awards 2020 Chief Guest Dr. Rajkumar Ranjan Singh Hon’ble Minister of State for Education & Minister of State for External Affairs, Govt. of India, 13 January, 2022

Any Other Information

There is Agreement of Cooperation between SCSNEI and National Commission for Scheduled Tribes, Govt. of India (NCST).

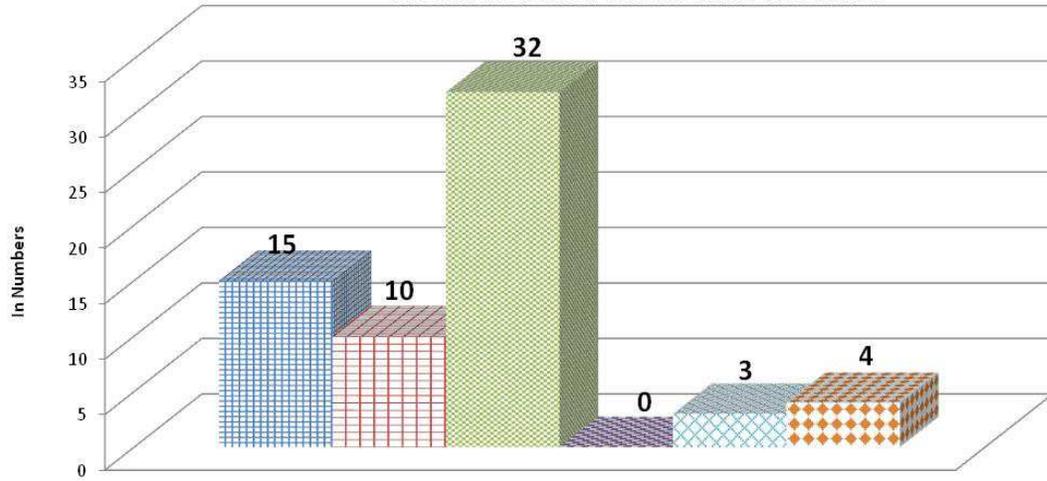

Future Plans

A Further step towards fulfilling the objective is to expand the collaborative works outside the confines of JNU – with other academic and research institutions in the country and abroad. SCSNEI seeks to explore and engage with scholars and institutions working on North East India and its neighboring areas.

Special Centre for Systems Medicine (SCSM)

Systems Medicine, an offshoot of biological sciences, includes computational biology, metabolomics, transcriptomics, phenomics, pharmacogenomics, integrated with biobanking, data analytics, and animal studies to provide a highly sophisticated delivery of diagnostic and prognostic technologies for improved health care.

The Special Center for Systems Medicine (SCSM) primarily focuses:

- On a joint Ph.D. program with Indian institutions and abroad.
- Onapostgraduate Diploma “short-term Certificate” and Master’s programs in the area of Systems Medicine.
- On systems medicine research, products, and services relevant to academia and industry.
- In organizing events, including training, workshops, conferences, and symposia for wider knowledge dissemination.

Research: At the SCSM, based on multidimensional molecular network presentations, novel and practical solutions will be generated for improved patient care for many diseases, including cancer. The critical unmet need is to connect molecular descriptors with their multidimensional correlations using large patient datasets to understand diagnosis and treatment outcomes better.

Teaching: Given the Systems Medicine emerging as a frontline area, there is a timely need to keep pace with developing customized and effective therapeutic solutions for complex diseases. At SCSM, the training program will comprise the following components :

- Advances in systems biology and bioinformatics
- Molecular basis of human diseases,
- Advances in genomics and transcriptomics, proteomics, metabolomics, immunomics, pathomics, etc.
- We will also focus on research ethics, regulatory compliance, I.P.R. and entrepreneurship, research methodology, lab techniques, manuscript writing and editing, critical analysis and presentation of research articles, and writing and defense of research proposal.

It is planned that, over time, Special Center for Systems Medicine (SCSM) will become a vehicle and a national hub for the development of India-specific clinical, molecular data and its integration and applications.

Profile of the Center

The SCSM is taking an interdisciplinary research teaching approach in the field of systems medicine. Currently, there are seventies concurrent faculties and nine adjunct faculties in the center.

Courses Offered:

The center has offered pre-Ph.D. courses of 16 credits in the monsoon semester.

Students:

Two students are enrolled in the Ph.D. program.

International Collaboration (IC)

The International Collaboration Office (ICO) aims at meeting the University's objectives at International level through coordinating and handling international relations activities. In line with international practices, the ICO has been working with University's faculty, staff and students as an innovative approach to ensure their engagement in the internationalisation agenda by taking into consideration wide input received from them. Such an approach has helped the ICO in implementing the internationalisation agenda of the higher education, which is also a focus area of National Education Policy (NEP), 2020. In recent years, the ICO has intensified its activities to build strong networking and connectivity at international level by not only dealing with matters relating to signing of Memorandum of Understanding (MoUs), Agreement of Cooperation (AoCs) and Student Exchange Agreements with International Universities/Institutes but also looking after all activities related to mobility/exchange of faculty and students of the University under various other programmes. In addition, the ICO facilitates JNU's participation in joint projects with partner universities/institutions.

The following activities have been carried out by International Collaboration Office during the period from 1 April, 2021 to 31 March, 2022:

AoCs and MoUs signed/renewed with Foreign Universities/Institutions:

AoCs

- Department of Media Studies, University of Bayreuth, Germany (Renewed)
- Tokyo University of Foreign Studies, (TUFS) Tokyo, Japan (Renewed)
- Faculty of Social Sciences, University of Dhaka, Bangladesh

MoUs

- Peter the Great Museum of Anthropology and Ethnography of the Russian Academy of Sciences (Kunstkamera), Saint-Petersburg, Russia

Inter-institutional Agreement between JNU and foreign Universities under Erasmus + mobility programme

- University of Kassel, Germany
- Tampere University, Finland

Student Exchange Programme under MoU and Short-term mobility under Erasmus+ programme with European Partner Universities:

Nomination of Outgoing JNU students under above programme (2021-22):

- One Ph.D student from Centre for Arabic & African Studies, SLL&CS has been nominated at Universidad Autonoma de Madrid, Spain under Erasmus+ International Credit Mobility Programme.
- Two Ph.D student (one from School of Sanskrit & Indic Studies and one from Centres for Study of Social Exclusion and Inclusive Policy of School of Social Sciences has been nominated for the **Fall Semester** 2022-23 at the University of Zurich, Switzerland under the Exchange Programme.
- Delegations from foreign universities visited JNU for the meetings with the Vice-Chancellor/ Rectors/Director IC from June 2018 – June 2020 during then Director IC and Director IC **to explore the possibility of academic cooperation and for signing the Agreements.**
 - H.E Mr Alejandro Simancas Marin, Ambassador of Cuba and Mrs Malena Rojas Medina, Secretary, Press and Culture visited at VC office, 21 March 2022.
 - A virtue meeting between Director IC and Ms Neha Khanna, Representative to India, Sciences Po, Embassy of France, 31 March 2022.

UGC- Human Resource Development Centre

The Human Resource Development Centre (formerly Academic Staff College), JNU is India's premier institution for the up-gradation of knowledge and skills of college and university teachers. An intellectual nerve centre, the UGC - Human Resource Development Centre at the Jawaharlal Nehru University was started in the year 1989. It has successfully completed 33 years and has emerged as a major meeting ground of teachers in the country.

Drawing upon the faculty of JNU as well as other prestigious institutions in and around Delhi, the HRDC, and JNU brings to its participants the cream of Indian scholarship as resource faculty.

The following main target groups have been identified for capacity building, knowledge enhancement and similar other programmes with the objective of a holistic approach focused on transformation of our institutions of higher education to a more facilitating academic environment conducive to innovations, creativity and quality advanced learning and research.

- Faculty members in institutions of higher learning engaged in teaching and research
- Teacher Educators
- Key non-academic functionaries in institutions of higher learning for better governance and to facilitate efficient use of various fast growing ICT resources and applications
- Researchscholars

As per UGC notification letter D.O.No F.12-12/2020(HRDC) dated 1st July 2020, this year all the courses have been conducted through online mode only. We received hundreds of applications for Faculty Induction Programme (in place of Orientation Programme), Refresher Courses and Short Term Courses from all over the country. The selection of participants for the various courses was thoroughly done by the screening committee for equal representation from every State, reaching to different segments of the society and the deserving individuals. Inaugural and valedictory programmes were organised for every course by inviting renowned personalities, Vice chancellors, Rector, Directors of Institutes etc. Interactive sessions with the Faculty trainees were done throughout the course to get their feedback and suggestions on their needs.

COORDINATORS AND RESOURCE PERSONS FOR 2021 - 2022

The HRDC, JNU has been fortunate in having the support and willing participation of some of the most distinguished scholars and public intellectuals of the country in all the programmes. Most of those who were invited have responded to our request to share their expertise with the participants. It is through their valuable cooperation that has made the HRDC, JNU, a very stimulating place for academic exchange. Apart from the different Schools and Centres of JNU, the HRDC, JNU gets its support from a number of institutions that cooperate with us by sending their distinguished scholars as resources persons. The academic environment and standard maintained by the HRDC, JNU attract the scholars in various fields to continue interactions with its participants.

Equal Opportunity Office

Jawaharlal Nehru University has been established by an Act of Parliament (53 of 1966). In order to ensure equal opportunity, the University has an Equal Opportunity Office (EEO), which was set up, perhaps, as the first of its kind in the country to aid and advise the students belonging to marginalized sections including the scheduled castes, scheduled tribes, other backward communities, minority communities, persons with disabilities, etc. pursuing various programmes of study at the University.

The terms of reference wherein the Equal Opportunity Office at the University may undertake activities are *inter alia* as under:

- To work out suitable programmes/schemes, including Remedial Courses, for improving performance of students from marginalized sections (whether at undergraduate, postgraduate, M.Phil, Ph.D. or other levels) and/ or to monitor the implementation of such programmes/schemes;

- To establish co-ordination with Government and other funding agencies (including Public Sector Undertakings/ Public Sector Banks) with a view to mobilizing financial and other resources required for educational empowerment of the students from marginalized sections;
- To provide information and act as a counseling-cum-guidance centre for students belonging to the marginalized sections, especially with regard to academic, financial and other matters;
- To help and create a socially conducive atmosphere for the growth of healthy inter-personal relations among students from marginalized sections and from various social backgrounds;
- To help and develop cordial inter-personal relationships between teachers and the students from marginalized sections for academic interaction and extra-curricular activities;
- To extend help/support to the students from marginalized sections to overcome problems and barriers emanating from discrimination at any level within its mandate;
- To organize or conduct seminars/ symposia/workshops/conferences/exhibitions, etc. from time-to-time on issues of contemporary significance for empowering, educationally and culturally, students belonging to the marginalized sections.

Access-Audit for Barrier Free Campus

An Access Audit of the entire campus had been carried out so as to make the academic, administrative and residential buildings and public places in the University campus accessible for the wheel-chair users and the visually impaired persons.

The University has been identified as a model higher education institution by the Department of Disability Affairs, Ministry of Social Justice and Empowerment, Government of India under the Scheme for Implementation of Persons with Disabilities Act (SIPDA) along with a grant-in-aid of Rs 8.51 Crores approx. for the execution of the first phase of work for creating a barrier-free environment, facilitating the University to make the requisite structural and other changes on the campus. Wherever possible, the Equal Opportunity Office has been assisting the University in the activities which are underway for creating such changes.

Steps towards Creation of a Barrier-Free Environment

Though certain measures (such as putting special ramps, disabled-friendly toilets, etc.) have been taken earlier in order to facilitate persons with disabilities, there were areas which necessitate further attention and improvement to make the University accessible for disabled persons. The ongoing activity under SIPDA to make the campus barrier-free is a major effort in this direction, making facilities for persons with disabilities which *inter alia* includes the following:

Ramps

- (i) Ramps have been provided in following hostels for physically challenged students:

a	Kaveri	b	Godavari
c	Periyar	d	Jhelum
e	Sutlej	f	Ganga
g	Koyna	h	Shipra
i	Brahmaputra		

- (ii) Ramps with tactile paving have been provided for physically challenged students:
- a. In all academic complex, School Buildings, Kaveri, Godavari, Periyar Hostels,
 - b. Pavement from North Gate to Admin. T-Point
 - c. Aravali Guest House, Aravali International Guest House, 24X7 Dhaba, Main Shopping Complex, Health Centre etc.

Lifts

Lifts have already been installed in various buildings of the University for facilitating the independence and mobility of the persons with disabilities. While certain measures have been taken in the past to make the lifts accessible to persons with disabilities, further steps, such as, installation of Braille Systems, voice systems, etc., were undertaken to make the lifts more disabled friendly.

Installation of lift(s):

- (i) Lift installation completed in:
Admin building, SSS-I, SSS-II, SSS-III, SES, SIS-I and SIS-II, SLL&CS-I, SLL&CS-II, Library Building, SLS, SC&SS
- (ii) Lift installation work in progress in:
Kaveri hostel, Godavari hostel, Periyar hostel, School of Physical Sciences, Centre for Law and Governance, Centre for Sanskrit Studies
- (iii) Lifts proposed:
HRDC (Old Academic Staff College) and JNIAS New Building

Toilets

A special measure has been taken to provide adequate lights in the toilets in the Schools and the Library to assist the students with low vision. Construction was carried out in the toilets on the ground floors in Koyana and Shipra hostels to make them more disabled-friendly. However, certain problems which are still being faced by students have been identified and efforts are underway to rectify such problems under the SIPDA scheme. Structural modifications in toilets in other areas of the campus are also underway for improved accessibility to persons with disabilities.

Construction of specially designed toilets for physically challenged students:

i.	Kaveri Hostel	ii.	Godavari Hostel
iii.	Periyar Hostel	iv.	Brahmaputra Hostel
v.	School of Life Sciences (East & West Wing)	vi.	Admin. Building
vii.	Social Science-I & III	viii.	SES Building
ix.	SLL&CS-I, II & III	x.	SIS- I & II
xi.	Centre for Sanskrit	xii.	Centre for Law and Governance
xiii.	SC&IS	xiv.	SPS
xv.	SCMM	xvi.	JNIAS New Building

ATMs

Two ATMs, touted as the State Bank of India's first 'real' disabled-friendly ATMs, have been installed at the University; one in the Poorvanchal Complex and the other near the Dr. B. R. Ambedkar Central Library building.

Most of ATMs are available with Ramp in this the campus.

Work in progress

- (i) Creation of Barrier free Campus including installation of barrier free lifts in Academic & Hostel Buildings.
- (ii) Construction of tactile footpath on right hand side from East Gate to Admin. Block at JNU.
- (iii) Construction of footpaths and repair of all the roads in the Campus.

Wheelchairs

Wheel Chairs are provide by Equal Opportunity Office to required students.

Blind Sticks for Visually Impaired Students

A significant proportion of visually impaired students pursuing various programs of studies at the University suffer from total blindness. As visually impaired students typically use blind-sticks for their mobility on the campus and in negotiating their way outside the campus, the Equal Opportunity Office purchased fifty good quality blind-sticks from Government e-Market and were distributed to the needy students (Visually impaired) of the University.

Dr. B.R. Ambedkar Central Library & Helen Keller Unit

To meet the special needs of the visually impaired students the following facilities have been put in place at the Dr. B.R. Ambedkar Central Library of the University in collaboration with the Equal Opportunity Office.

- a. A Unit named after Helen Keller (Equipped with 20 Desktop installed with screen reading software, CD Rack & Book Rack) is instituted at the ground floor of the Central Library building. It also provides special services using assistive technologies to the visually impaired students/ researchers of the university by providing E-Books, E-journals, Online Databases, Books, apart from providing scanning facilities on demand. The MAGIC software has also been installed on 5 Desktops for the low vision students/ researchers. Two Braille Embossers are capable of printing Hindi, English text, graphics and maps into Braille.
- b. The Helen Keller Unit is equipped with the following assistive technologies:
 - **Desktop Computers** **30**
 - **JAWS** **30 on each computer**
 - **Kurzweil 1000** **30 on each computer**
 - **Computer headphones** **30 to each Computer**
 - **HP flatbed scanners** **20 to each computer**
 - **LexCam Scanners** **02**
 - **Refreshable Braille Display** **02**
 - **Braille Embossors** **02**

This unit has been extended to different Schools/ Centres like. SSS-I, SSS-II, SIS, CSL&G and Sanskrit Centre. These software support features enabling the user to hear the e-text in different European languages, English and Hindi Language. The EOO has been working in collaboration with the Central Library to provide further support to the facilities at the library.

Certain additional facilities are made available to Visually Impaired students include the following:

Angle Daisy Player	90 to all Visually Impaired Students
Laptops	90 to all Visually Impaired Students
Wheelchairs	15 (for Physically challenged students)

Locker facility to all visually / physically challenged students on demand

The library organizes training and orientation programmes on the uses of assistive technology for the benefit of students to encourage the use of the technologies in day to day studies. The library is also a member of the Daisy Forum of India (DFI) and Bookshare.org to provide the e-text facilities to visually impaired students of the University.

Remedial Classes

The Centres/Schools conduct Remedial Classes for SC/ST/OBC (NC) minority community students as per UGC Scheme. The Centres/Schools have designated conveners. Students who need Remedial Classes are identified by conveners. The main objective of these classes is to make up the deficiency in the core subjects and optional subjects; improve academic skills; raise level of comprehension of basic subjects as well as to provide stronger foundation for further academic work; to strengthen their knowledge' skills attitudes in such subjects where quantitative and qualitative and laboratory activities are involved, so that the necessary guidance and training provided under the programme may enable the students to come up to the level necessary for pursuing higher studies efficiently and to reduce their failure and dropout rate. Time table for Remedial Classes is displayed on the notice Boards of Centres/Schools from time to time.

Welfare Activities for Students

Besides this, Equal Opportunity has purchased many books for the students, preparing for civil services, staff selection commission and UGC NET examination etc.

Equal Opportunity Office provide the space facility for SC/ST/OBC disable person for free coaching/lectures Audio/Video/Desktop (12) with projector facility in SC&IS building from 5 pm to 9 pm as per rule.

Equal Opportunity Office as Complaints Redressal Mechanism

The Equal Opportunity Office has been committed to fulfilling its mandate of maintaining social harmony among various sections of the University community. Whenever any case of social discrimination is brought before the Equal Opportunity Office, it is thoroughly investigated and examined and suitable action is recommended. Addressing of issues related to any social discrimination faced by students or staff at any level is amongst the principal objectives of the Equal Opportunity Office.

The Equal Opportunity Office wishes success to all the members of the University and is always available for assistance at the following address:

Complaints: During the period mentioned a total of report 08 complaints were received by EOO office 2 complaints were resolved and the remaining 6 are under process.

University Level Anti-Discrimination Committee

In order to further strengthen the mechanism of ensuring equal opportunity and to check cases of discrimination, the University has constituted the following committee.

1. Rector-I	Chairperson
2. Dean, School of Environmental Science	Member
3. Dean, School of International Studies	Member
4. Chairperson, Special Centre for Molecular Medicine	Member
5. Prof. Narendra Kumar, Centre for Political Studies/SSS	Member
6. Chief Advisor, Equal Opportunity Office	Special Invitee
7. Assistant Registrar (Academic)	Member Secretary

Anti-Discrimination Officer

The Chairperson of the Anti Discrimination Committee as shown above also act as Anti-Discrimination Officer

Prof. G. K. Chadha Memorial Fellowship for Differently Abled Students

The University has created an endowment fund of Rs. 5 lakhs donated by the family of the late Prof. G. K. Chadha, former Vice-Chancellor of JNU, for award of 2-3 fellowships to Master's level students with the highest percentage of marks.

Linguistic Empowerment Cell (LEC)

Linguistic Empowerment Cell (LEC) is a unique capacity building system evolved by JNU to empower the students, a very heterogeneous population, coming from different sections of the society and remote regions of the country. It caters to the linguistic needs of these students who may find it hard to cope with their regular programs in their respective schools and centres primarily for reasons of language. LEC runs courses in English, Hindi, Sanskrit and Indian Sign Language to the Indian and foreign students.

Institutional Ethics Review Board (IERB)

Institutional Ethics Review Board is functioning since September 2008; it offers assistance and guidance to researchers of JNU who need to work on Human Subjects and intend to table their proposals for 'ethical clearances'. Even though the need for ethical clearances for the intricate science and social science JNU researches on human subjects should have been a key requirement but it is still not a mandatory one at IERB to let the supervisors/Centre and School level Committees feel responsible for this primary ethical evaluation. However, the number of proposals routed to IERB have seen an increase in recent times, due to which the expert evaluation meetings have increased per semester. The JNU – IERB is one of those regulatory mechanisms which builds capacities for a more meaningful interaction on the ground and facilitate international standards in research and publications. In fact IERB, its constituent elements and all the panelists are aware of the fact that for the advancement of knowledge, real life experimentation based research must go on, which may on most occasions involve living beings both human and non-human. It is both an individual as well as an institutional responsibility to protect the biosphere, cause no harm through experimentations to any of its constituents, be it a human being or any other form of life, or even the fine balance of the ecosystem. Besides this, the Constitution of the country has set up many institutions which have established laws and Codes on data collection, data sharing, and information dissemination to protect national interests, intellectual property rights, creative copyrights and human dignity of marginalized and vulnerable communities and people. It is a collective responsibility of the researcher and the institution to balance the risk against benefits, try and minimize risk and maximize benefits through appropriate study design and appropriate research procedures and tools. This is where the institutional ethical committee plays a critical role, more as an advisory body with a multi-sectorial, multidisciplinary body of experts rather than just another administrative hurdle for the young enthusiastic scientists.

The Academic Council had its meeting on 17 August, 2021 and 12 January, 2022 and took several important decisions, including those to be placed before the Executive Council. The Finance Committee, at its meeting, approved the Revised Estimates for 2020 – 2021 and the Budget Estimates of the University 2021 – 2022 and other important financial matters.

A number of Selection Committee meetings were convened for recruitment of teaching and non-teaching staff during the period under report. 01 teaching and Nil non-teaching appointments were made during the period in various cadres.

A total of 19 teachers were granted sabbatical leave/EOL/Study leave or extension of leave to complete their doctoral research/accept employment/fellowship elsewhere etc. A total of 25 faculty members and 36 non-teaching employees retired/resigned from services during the period.

Estate Branch

- During the period 2021-2022, the House Allotment Committee of the University held meetings on 10/09/2021, and 17/09/2021 to discuss the various issues related to allotment of University accommodations. Campus Development Committee were held on 17/01/2022 and 29/03/2022 to discuss the issues relating to the campus development.
- The Executive Council at its 296th meeting held on 02/09/2021, vide Resolution No. 6.20, 6.23, 6.24, 6.25, 6.34 and 6.35 had resolved to approve the agenda items.

Public Relations Office

The Public Relations Office of the University issued a number of press releases on various activities, forwarded press clippings and other reports/information pertaining to JNU appearing in the press, as feedback to the University authorities. It also responded to public queries relating to academic as well as administrative matters and received important visitors and delegations to the University. Replies to written queries were sent to those who sought information regarding various aspects of the University functioning.

A bi-monthly journal *JNU News* is brought out by the Public Relations Officer. It is edited and published by the PRO on behalf of the University. The journal serves to bridge the information gap and tries to initiate and encourage a constant dialogue between various constituents of the University community as well as with the rest of the academic world. The Annual Report of the University was also prepared and published both in English and Hindi by the PRO Office.

Guest House

JNU's three guest houses Gomti, Aravali and Aravali International provided accommodation to approximately 1000 guests during the year under review. They included teachers and research scholars from various universities and educational institutions in India and abroad for collection of research material or other academic pursuits. Official guests of the University, guests of faculty/staff, parents of students and UGC guests were also provided with accommodation.

Rajbhasha Cell

For Translation (Hindi to English and vice-versa) and various Hindi related services, Rajbhasha Cell is established in JNU. It is headed by Assistant Director (OL) and assisted by Senior Translation Officer, Junior Translation Officer, Stenographer, Computer Operator and so on. Hindi Advisor, an honorary post to be deputed among Hindi Teachers of the University, advises the Cell for better implementation of Official Language Hindi among the university units. Currently, Dr. Malkhan Singh, CIL/SLL&CS is the Nominated Hindi Advisor.

Rajbhasha Cell acts under the administrative control of the Administration of JNU. It keeps on monitoring the implementation and the progressive use of official language of the union in the University & facilitates various schools/centres/sections/departments of the university to do office work in Hindi.

During the year under report, Rajbhasha Cell of the university undertook the following assignments/activities:

- **Quarterly Hindi Meetings:-**Rajbhasha Cell convened (01) Official Language Implementation committee meeting. During the year the this meeting was convened on 24.03.2022. University authorities and Officers upto the level of Assistant Registrar are its members. Assistant Director (OL) is the member secretary of this meeting. Hindi Translation Services and implementation of Hindi is the main job-work of the Cell. It also offers help/services to facilitate usage of Hindi on computers such as installing of Hindi software Unicode and in the E-Office. Rajbhasha Cell is a watchdog for Hindi implementation & Hindi related other services in the University.

Chief Proctor

Statute 32 of the Statutes of the University deals with maintenance of discipline among students of the University; all powers relating to discipline and disciplinary action in relation to students shall vest in the Vice-Chancellor. Statute 10(3) (a) states that there shall be a Chief Proctor appointed by the Executive Council of the University.

The Chief Proctor's Office has been in existence since 1986. The Proctorial Team consists at present of one Chief Proctor assisted by Seven Proctors (of which three are women Proctor). The Chief Proctor's office is responsible for maintaining discipline among the students of the University. In the execution of its duty of maintaining peace and harmony on the campus, it relies, by and large, on the philosophy of taking reformatory measures rather than punitive steps. In cases involving violation of disciplinary norms, however, appropriate disciplinary action is taken.

Legal Cell

The Legal Cell was set up in J.N.U around the year 2007. Earlier, the existing cases against the University were being dealt with by their respective concerned branches. There were no inter-linkages among the departments *vis-à-vis* the legal issues. After the formation of the Legal Cell, all the pending legal issues/cases with different sections were clubbed together and consolidated functioning happened through the empanelled legal counsels of the University. The Legal Cell therefore is a nodal point for all University related litigation, vetting of Memorandum of Understanding, tender documents and other legal documents.

The Legal Cell has been assisting all the stake-holders, viz. faculty, staff and students in the legal issues faced by them from time to time *vis-à-vis* providing legal advisory work like vetting of legal documents, draft agreements, MoUs, Tender documents and interpreting matters having potential of legal repercussions. The number of court cases dealt by the Cell from its inception are as under:-

S. No.	Particulars
1.	Total cases listed - 520
2.	No of cases Disposed of - 340
3.	No of cases Pending - 180

During the period under report, the number of fresh cases received and disposed of were as under:-

From 01.04.2021 TO 31.03.2022

S. No.	Particulars		
1.	Total cases listed	-	58
2.	No. of cases Disposed off	-	21
3	No. of cases Pending	-	37

180 cases are pending in the court as on 31.03.2022 including the 37 cases for the period 01-04-2021 to 31-03-2022.

The Legal Cell has been continuously monitoring the court cases and liaisoning with various departments of the University and legal counsels for legal compliances. It also continues to exercise constant liaisoning with Standing/Additional Standing Counsels of the University for feedback and compliance in matters of court cases and other issues also concerning interest of the University.

It is headed by the Superintending Engineer (C) with Civil, Electrical, Horticulture and Telephone Cell.

Towards the above, the following activities are under taken:-

- The planning, estimation and execution of new building works.
- Creation of new infrastructural activities
- Improvement and augmentation of existing facilities apart from addition/alteration.
- Major and minor/special repairs within the University.
- Maintaining essential services like electricity and water supply, sewer lines, Horticulture etc.
- Day-to-day maintenance of entire Campus, Staff Quarters, Academic Buildings, Guest Houses etc. apart from the development works.

Projects/Works Completed

- Construction of new underground water storage tank of one lakh litre capacity including pump near Central Library building in JNU Campus.
- Construction of existing footpath from Central School to North Gate of JNU Campus.

Projects in Progress

- Construction of North East Hostel (Barak Hostel) at JNU.
- Structural repair work of Ganga, Kaveri and Periyar Hostel Buildings in JNU.
- Structural Repair and Misc. works of Brahmaputra Hostel Building at JNU Campus.
- Construction of STP having capacity of 100 KLD.
- Construction of 200 KLD STP near Barak Hostel.

Projects under Submission for approval of Local Authorities:

- Construction of Saraswati Hostel (Shipra-II)
- Construction of School of Engineering & School of Management & Entrepreneurship at JNU.

Renovation and Up-gradation work Completed

- Renovation of bathrooms (Toilet Blocks) of Yamuna Hostel, JNU.
- Replacement of 70 watt/150 watt HPSV Street Light luminaries by LED street light luminaries in JNU Campus.
- Civil renovation of Dining Hall and Canteen of Gomti Guest House, JNU.

Any alumnus can get included in this directory by sending us details at alumniAffairsOffice@mail.jnu.ac.in
- Membership: Membership drive is being intensified. Letters reminders have been sent to the Deans and Chairpersons of all the schools and special centres to encourage the outgoing students to become members.
- Efforts are being made to make website interactive to all alumni.

Communication & Information Services (CIS)

JNU initiated efforts for setting up a campus-wide computer network in the academic complex of the university in the year 1996. Keeping options in mind for future expansions, the network was carefully planned, using fiber-optic cabling to connect all the major Academic buildings of the University. JNU decided that a separate centre was needed to look after Network Operations centrally and the Center was created in the name of Communication and Information Services (CIS) in the University.

The Communications and Information Services Centre was set up in February 1997 as an independent Centre headed by the Director. By May 1997, the site was ready, and it started functioning with a small workforce of select persons drawn from different departments of the Universities. In 2001, CIS became part of the School of Information Technology (SIT).

In August 2014, The Vice-Chancellor approved the re-structuring of Communication and Information Services (CIS) by merging the Technical and Computer staff working in CIS, E-Governance and University Computer Maintenance Cell (UCMC) for smooth functioning of E-Governance and network related activities as a separate Service Center for central ICT facilities of JNU.

The bandwidth has been rising gradually since right from the inception of CIS. In 2002, the Internet bandwidth of the campus was increased to 2 Mbps. This was made doubled in 2003, and tripled in 2004, and like this usage of Intranet bandwidth of campus moved up to 1Gbps in 2005. JNU has 10 Gbps of Internet bandwidth of each link coming from two different ISPs and integrated at our end to give seamless access from two ISPs. Presently, the University has the bandwidth of 10Gbps through National Knowledge Network (NKN).

CIS have the following groups:

Network and ICT infrastructure group:

At present, CIS had deployed about 44 km of Optical Fiber Cable (OFC) across the campus connecting all the academic complexes including the new buildings, all the hostels and other facilities through the optical fiber network connectivity. CIS also installed 2000 Nos. of Wireless Access Points for establishing the campus wide WiFi connectivity. The Network group supports the operational management services of both active and passive components of Network and Wi-Fi Services across the campus. The team also renders their service related to Firewall, Internet Service Provider and Internet management, network authentication system, Network Monitoring System, Domain Name System, which are the backbone activities of the campus network.

The group also maintains the VMs and Servers, which hosts about 36 support software / servers hosted for JNU intranet usages.

CIS launched the official website of the University, www.jnu.ac.in in 1997. Website is the front interface for all the important academic and administration information of the University. JNU implemented Content Management System based website, which consists of 120 micro sites of the University. This group put their best efforts for updating the information and provide services logically in the 24 x 7 monitoring of website functionality.

e-Governance Group:

The e-Governance Cell is formed in the year 2006 for the automation of administration and academic processes of the University. In the year 2011, the cell is merged with CIS. This group does the following software automation services and operational management activities:

Software Implemented through Government Sources:

- **eOffice Suite** of NIC: JNU has implemented successfully entire eOffice Suite since year 2015. This suite consists of eFile, eLeave, KMS, eTour, PIMS and SPARROW

- Monitoring and updating the data for 18 eSchemes of MHRD/UGC from time to time basis.
- National Academic Depository and Digilocker – uploading of the NAD portal data of JNU in coordination with CDSL till year 2019. JNU implemented NAD-Digilocker from the year 2021 as per the directions of MoE and UGC.

University Computer Hardware Maintenance Group:

University Computer Maintenance Cell (UCMC) under Communication and Information Services, Jawaharlal Nehru University has been established to provide hardware and software support to the end users of the University. This cell is also rendering and monitoring the end point solutions for various virus and malware threats.

Technical support is available between 09:00am - 05:30pm from Monday to Friday (except holidays).

Learning Management System, Video Conference and other related infrastructure Management group:

- Operations Management for Online Learning Management System based on Moodle open source framework
- Operations Management of Video Conference facilities deployed at various locations of the campus
- Operations Management of Net Meeting System, Online Viva Voce of M.Phil / PhD, Dissertation / Thesis
- Providing support for Audio-Video tools and online meetings of the University. This group has also taken care webcasting, streaming and recording of various events of the University.

The major activities performed by CIS during the period of Year 2021-2022:

- JNU Online Admission process, Students Registration, Assessment, Evaluation and Online Convocation of the University.
- Capacity Building and ICT Training to JNU community
- Strengthening and deployment of new Software in the University to meet its online requirements especially digital systems deployed during the covid19 pandemic to manage administrative and academic activities of the University.

CENTRAL FACILITIES

DR. B. R. AMBEDKAR CENTRAL LIBRARY

**UNIVERSITY SCIENCE
INSTRUMENTATION CENTRE**

**ADVANCED INSTRUMENTATION
RESEARCH FACILITY**

Dr B R Ambedkar Central Library

Dr. B.R Ambedkar Central Library is a nine-storey building and has a carpet area of about one lakh sq. ft. It is situated in the midst of the academic complex of the University and is the hub of all academic activities. All the Reading Halls are air-conditioned. Entire library is connected through LAN & WI-FI. All the Schools, Centers and Offices of the University are connected to Library through INTRANET.

The Central Library has a seating capacity for 1000 and facilitates the use of laptops or reading table. There is one reading hall open 24x7 which permits the use of personal books by the readers.

Reader Services

During the period under the report, there were 2894 new members registered including faculty, staff, and trainees of Academic Staff College. Library issued No Dues Certificates to 3330 users and had 6523 circulation transactions.

Resource Sharing/ Inter Library Loan (ILL)

Library issued 187 and received 104 books on Inter Library loan through DELNET

Procurement of Electronic and Print books:

Library procured 1152 print and 126 e- books. Further, it received 718 books worth Rs. 2,47,968.00 as gift. The collection has 26,000 + theses and dissertations which are accessible through OPAC.

Technical Processing of Books:

Processing section processed 448 (Purchased Books), 550 Gifted books, 1340 Old Govt. document Collection and 57 Exim Library books during the financial year of 2021-2022. The new, gifted records/books were added to the various collections of Library like Social Sciences, Sciences, Afro-Asian Languages, European Languages, Russian Languages and U.N. Documents Collection.

Subscription to Periodicals and Electronic Databases:

Dr B R Ambedkar Central Library subscribed to 01 Print Journal, 02 Print Newspapers, and 32 Online Databases. Besides, it provided access to 14 databases through UGC eSS- Consortia. The total expenditure on subscription of print/online journals and online databases for the year 2021-2022 was 235 Lack approximately.

Online Databases Subscribed by Dr. B. R. Ambedkar Central Library 2021-2022:

ACM Digital Library; China Academic Journals - (CAJ-Web Series F,G,H and J); CEIC Global Database + India Premium DB+ World Plus DB; CAS-Scifinder Academic Unlimited Access Plan; Cambridge Crystallographic Data Centre; EBSCO Academic Search Complete; EBSCO E-Book Academic; EBSCO-SocIndex; EBSCO Discovery Service; EBSCO-HBP Student Success Package; Artstor; Emerald 312 e-Journal Collection; Hein Online Academic Core Collection Database; <http://heinonline.org/HOL/Welcome> IOP Science Collection; Indiatat; Manupatra; PNAS Tier-4; ProQuest Academic Research Library; Newspaper Direct – Library Press Display; Prowess Database; Royal Society of Chemistry Gold – ESS Collection; Springer Nature includes Nature Chemistry, Nature Materials, Nature Microbiology, Nature Physics Journals; TAIR- Phoenix Bioinformatics; Turnitin- Originality Check; Grammarly Premium; EZproxy License; Science (AAA); SCC Online; Critical Collective. The Library is also having the perpetual access of ProQuest Historical Newspapers Times of India Archive; Society for Industrial and Applied Mathematics (SIAM) and South Asia Archive.

Online Databases available through INFLIBNET eSS Consortia during the year:

American Chemical Society (ACS); American Institute of Physics (AIP); American Physical Society; Annual Reviews; Economic & Political Weekly; Institute for Studies in Industrial Development (ISID); J-Gate Plus; JSTOR; MathSciNet; Oxford University Press ; Project Muse; Springer Link 1700 Collection and Nature Journal; Taylor & Francis; Web of Science.

EXIM Bank Library:

The Exim Bank – Economics Library specializing in the discipline of economics, was setup in July 2000 as a part of the JNU Library system. All the basic services like the On-line Public Access Catalogue (OPAC), borrowing, reference and photocopying facilities are provided by the Library to the users.

Digital Library System and Services

The Library is using Virtua, Integrated Library Management Software for housekeeping jobs in different sections viz. Processing, Periodicals, Readers Services, Humanities, Science Division and the Circulation for the Issue/Return. The users can check the availability of all the library resources and can download the full text of e-resources like theses and newspaper clippings etc. The total number of bibliographical records in library database is 5,79,241. The Digital library system has been strengthened with the following:

1. Total bibliographical records in Library Database	5,79,241
2. Number of data CDs in the collection	684
3. Total number of Desktops	
a. Cyber Library	145
b. Central Library (Office area)	150
4. Total Number of Servers	04

Library housekeeping operation

Library is in the process of completing migration of bibliographic and patrons data from VIRTUA ILMS to Koha ILMS (Open source software). The web OPAC of KOHA is now available at <http://jnucatalogue.jnu.ac.in:8000>

In-Out Management System

Central Library has developed In-Out Management System for patron attendance in library.

Helen Keller Unit

Dr. B.R Ambedkar Central Library is committed to providing equitable access to information to all. The Helen Keller unit has 20 computers installed with JAWS & Kurzweil software to help visually challenged students access computers and online resources; headphones, scanners, 02 Braille embosser are available; Hindi OCR software is installed in 02 computers. The unit has manpower to scan the reading materials for the visually impaired students. Further 95 Laptops & 85 Digital Voice recorders were distributed to visually impaired students of the University.

User Awareness Program on library and its services, knowhow of internet and its use, Hindi Typing were organized for the Visually Impaired Students.

Cyber Library

Cyber library is located at the ground floor and has 145 computers for the student community to access OPAC and the subscribed online resources.

Remote Access

Ezproxy-remote access has been provided to all registered users. It is an advanced authentication system which facilitates remote access to subscription-based content through single sign on facility.

Single Window Search

Central Library, JNU has implemented Web-scale Discovery Services (WDS), Ebsco Discovery services (EDS) which is known as single window search. This service integrates a number of resources and facilitates the users in accessing required information through a single search interface.

e-Procurement & GeM

During the year 2021, Central Library has all the store items are being purchased through GeM Portal. AMC of online UPS has been completed through e-Procurement.

TURNITIN:

To check plagiarism, all JNU faculty and M.Phil./PhD students have been provided with Turnitin accounts. The account for JNU faculty is created by Central Library. The faculty members are responsible for creating accounts for their research scholars. This facility is also available for the affiliated institutions of the university. Central Library has checked 2743 documents and provided the similarity reports generated through the software to scholars.

URKUND (OURIGINAL):

Central Library, JNU with the support of INFLIBNET also provided access to the Ouriginal (URKUND) anti-plagiarism software for JNU Faculty and Students. Central Library got generated 687 similarity reports through the software and provided them to scholars.

GRAMMARLY:

Dr. B R Ambedkar Central Library has subscribed to the Grammarly@edu Software/ Tool. It is an automated grammar tutor and revision support tool and works one-on-one with students to develop essential writing skills, reinforce proper revision habits and prevent plagiarism. One may upload drafts of one's writing assignments to Grammarly to receive immediate instructional feedback on over 250 points of grammar. An algorithmic and structured approach to text revision ensures that valuable learning moments are seized upon when proofreading. It is accessible through <http://www.grammarly.com> or a link given on library website.

Access to Online Newspapers and Press Clippings:

Library has an indigenous database of about 8 lakhs newspaper clippings which can be accessed through OPAC (Online Public Access Catalog). These news clippings which are from 21 newspapers, from 1974 onwards, have been categorized under 72 subject categories.

User Attendance System

Library has designed and developed system using Open Source Software for tracking entry of authentic users at the entrance. (<http://10.107.16.102/libatten>)

Digital Notice Board

Library has a Digital Notice Board which displays information pertaining to the university, forthcoming holidays, events, Library opening and closing timings.

Document Delivery Services

Library also provides research papers/articles on demand to the users. Around 300 Research Papers were provided to Faculty Members/Students.

Events Organized during 2021-2022

- e-Workshop on “Qualitative Research Methods and Anti-plagiarism software”, 25 May, 2021
- e-Workshop on “Research and Publishing Ethics”, 16 – 18 June, 2021
- Publishing workshop for Researchers, 24 June, 2021
- e-Workshop on “Literature Review and Use of NVIVO Software for Research Scholars”, 30 June, 2021
- National workshop (virtual) on “Research Methodology and Publication Ethics”, 12 – 14 August, 2021
- User Awareness workshop on “Web of Science and Endnote”, 29 October, 2021
- Five day national virtual workshop on “Research Methods, Tools and Plagiarism Detection Software”, 21 – 25 February, 2022

University Science Instrumentation Centre

PhD supervised/co-supervised

- Ms Bharti, Mewar University Rajasthan

Attended online BOG meetings

- As BOG member of ARCI Hyderabad on December 23, 2021

Member of Scientific Board

- Member Board of Governors, International Advanced Research Centre for Powder Metallurgy and New Materials (ARCI) Hyderabad.
- Member Technical committee. NSTU New Delhi

PhD Examiner/Paper setter

- Amity University, Gurugram
- Guru Nanak Dev University, Amritsar
- Punjab technical University, Jalandhar
- UPSC, Govt of India

Invited Talks/ Guest lectures by the Faculty

Prof. Shatendra K. Sharma, Director USIC delivered the following talks during the year of report

- “Applications of UV-Visible Spectroscopy”, Workshop on “Smart Materials”, jointly organized by Amity University Haryana, and National Sun Yat-Sen University, Taiwan, 29 September, 2021

Research Publications

- Study of Quantum Capacitance of Pure and Functionalized Nb₂C and Ti₂C MXenes for Supercapacitor Applications Electrochemical Society Transactions. 107 1751 (2022)

Advanced Instrumentation Research Facility (AIRF)

Advanced Instrumentation Research Facility (AIRF) is operational since 2008 and at present running more than 30 sophisticated state-of-the-art instruments (Annexure-1) with supporting sample processing facilities to support research scholars. It caters to the interdisciplinary applications in research not only to all the JNU Science Schools which includes- School of Biotechnology (SBT), School of Environmental Sciences (SES), School of Life Sciences (SLS), School of Physical Sciences (SPS), Special Centre for Molecular Medicine (SCMM) and Special Centre for Nanosciences (SCNS) but also to other academic research institutes and private companies/industries within and outside Delhi. AIRF supports inter-disciplinary academic and research activities by conducting regular workshops/webinars and trainings programmes. AIRF is presently headed by the Director - Prof. Sandeep Saxena, School of Biotechnology (SBT), JNU and Associate Director- Dr. Usha Mina, School of Environmental Science (SES), JNU. AIRF has two permanent faculty, eleven permanent staff and three temporary staff under DBT project to carry out day to day activities.

Objectives:

- To become internationally recognized Centre for Excellence in quality and innovative scientific service solutions in the field of inter-disciplinary research & development using state-of-the-art cutting-edge advance scientific instrumentation.
- To generate highly skilled manpower at postgraduate/doctorate level on high-end analytical instruments through peer interaction and direct instrument usages.
- To be source of ideas, innovation, research and development in the field of different high-end instrumentation techniques.
- To organize short intensive courses, conferences and seminars on sophisticated analytical equipments to develop the skill related to different instrumentation techniques which will be benefited to scientific community.

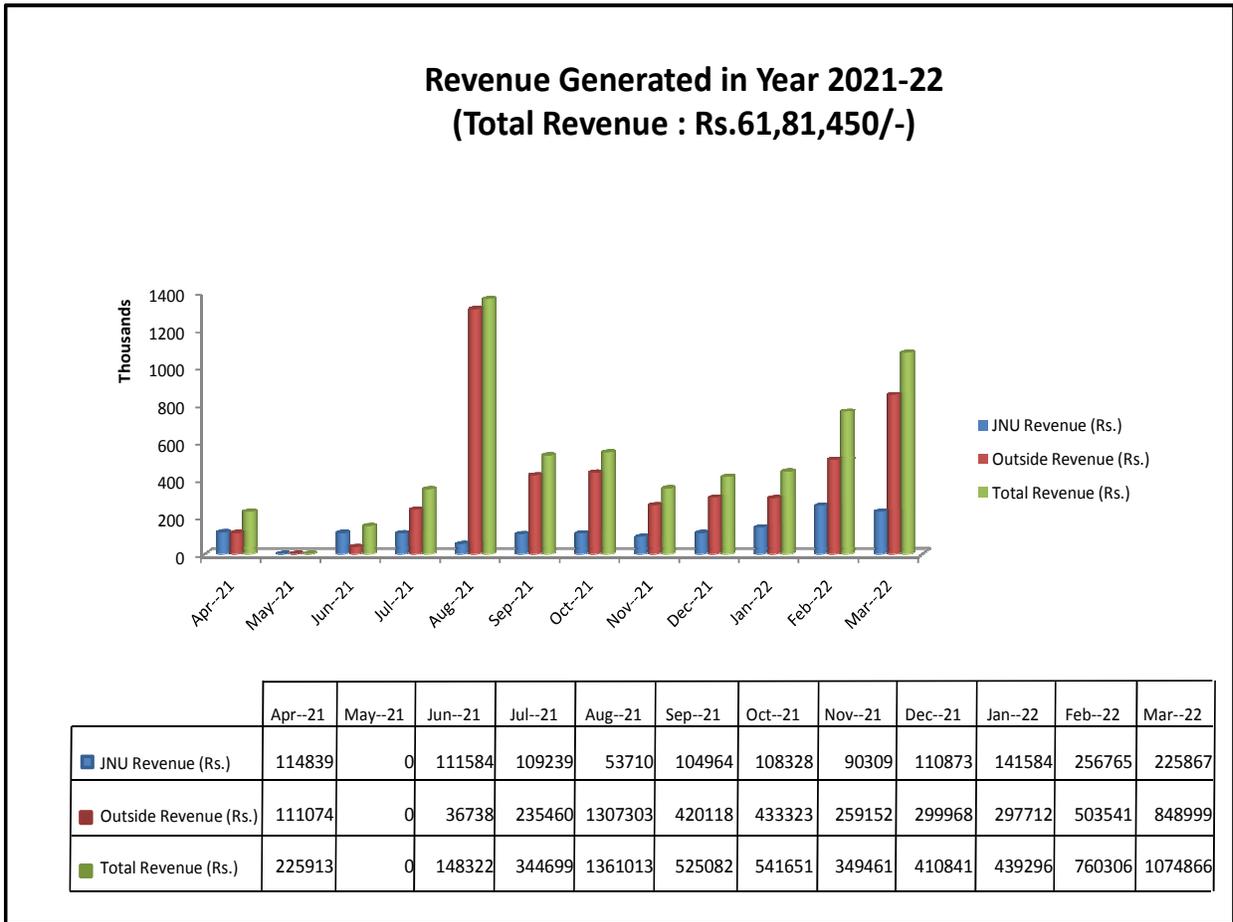

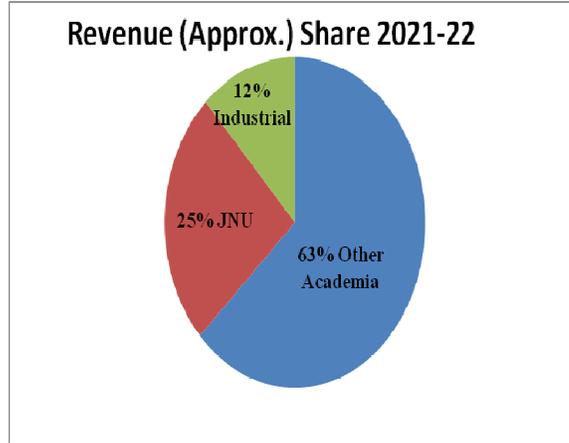

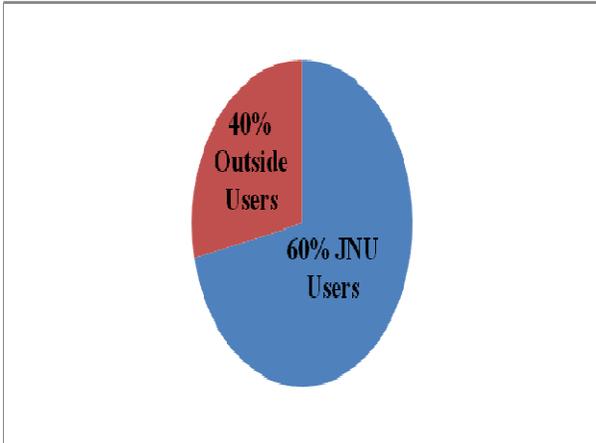

Achievements

Virtual Workshops and Training programmes

Workshops and training programmes have been conducted to create awareness among the research community for the effective utilization of research facility leading to the substantial increase in the number of efficient users. The virtual workshops and training programmes are conducted to provide efficient and trained professionals to maintain a pace in the development of research in the country. The increased manpower has helped in maintaining the smooth functioning of facility. During the past year the number of publications came out after usage of advance instruments of AIRF has improved substantially. The support through DBT-fund towards the maintenance of the sophisticated instruments has brought about a marked reduction in down time of the instruments and has henceforth substantially boosted the qualitative use of the facility. These efforts have motivated researchers to explore the facility and get benefitted by it during the pandemic time as well.

AIRF stakeholders and revenue

AIRF provided services to more than 2,500 users across India that includes JNU users. Among research scholars users are of postgraduate, Ph.D and postdoc research fellows. Outside JNU users are from the different government organization and institutes like IITs, IISERs, different CSIR labs, different central universities like Delhi University, Jamia Milia Islamia, Aligarh Muslim University, BHU etc and private research organization like Amity, Shiv Nadar University, etc. This facility is also used by the researchers from the different section of industry like pharmaceuticals industry, food industry, and industry from the different manufacturing as like automotive industry etc. Approximately Rs. 62 Lakhs revenue was generated.

Capacity Building

Training provided on different equipments to in-house staff. Instrument In charges are allowed to attend the training programme organized by company and different research institution.

Visitors

AIRF model has been visited by national and international visitors (restricted due to COVID- pandemic guidelines)

Grants

AIRF facility is supported by inhouse grants from JNU and DBT: JNU-DBT national training facility for state of the Art equipment used in biotechnology research.

Minor Equipments/Laboratory Facilities

- TEM & SEM Sample Preparation Laboratory
- Inverted Research Fluorescence Microscope
- Two Sample Preparation Laboratories with some Basic Facilities' equipped with refrigerated and non-refrigerated, micro-centrifuges, pH meters, weighing balances, ice machines, vortex mixers etc.
- Manual and Automatic Hydraulic Press for FTIR
- Semi Automatic 40Ton Hydraulic Press for XRF sample preparation
- Muffle Furnace (1400°C working temperature)
- Critical point Dryer
- Turbo Freeze Dryer with liquid nitrogen fed cold stage
- -80°C Deep Freezer
- -20°C Deep Freezer
- MQ Plant
- Incubator and Shakers
- Laminar flow benches
- Chemical hoods
- Speed Vac
- Sputter Coater
- Sonicator/Ultrasonic Water Bath
- Lyophilizer

Accomplishments of Research Fellows/ PhD students of Dr. Prasad Tulika, (03):

- Anam Rais (Student of **Prasad Tulika**,) Presented poster "Facile synthesis of nitrogen-doped, carbon quantum dots as multifunctional nanotracking agent", in 1st International Conference on Technologies for Smart Green Connected Societies (ICTSGS) organized by Yamagata University, Japan and The Electrochemical Society, USA in association with SPAST foundation and Associated Partner Institutions, 29 – 30 November, 2021
- Richa Singh (Student of **Prasad Tulika**,) Presented poster "Thickening of cell envelope as a mechanism of drug resistance in *Mycobacterium tuberculosis*", in 1st International Conference on Technologies for Smart Green Connected Societies (ICTSGS) organized by Yamagata University, Japan and The Electrochemical Society, USA in association with SPAST foundation and Associated Partner Institutions, 29 – 30 November, 2021
- Arvind Kumar (Student of **Prasad Tulika**,) Presented poster "Evaluation of impact of Concomitant Drugs in Human Plasma on LC-MS/MS based quantitation of Olmesartan and Hydrochlorothiazide", in 1st International Conference on Technologies for Smart Green Connected Societies (ICTSGS) organized by Yamagata University, Japan and The Electrochemical Society, USA in association with SPAST foundation and Associated Partner Institutions, 29 – 30 November, 2021

Research Guidance (2021-2022):

Year	Ongoing Ph. D. Students	Post doctoral fellow	Ongoing M. Tech.
2021-22	Four	One	One

- **Ph.D. Degree Awarded:** Richa Singh; Thesis Title: “Characterization of cell envelope fluidity and lipid mediated drug resistance in human pathogen, Mycobacterium tuberculosis”
- **Ph.D. Degree Awarded:** Arvind Kumar; Thesis Title: “Method Development and validation for estimation of Drugs in Biological Fluids by Liquid Chromatography Tandem Mass Spectrometry”
- **Ph.D. Thesis Submitted:** Preeti Chand; Thesis Title: “Systematic Investigation on ZnO Quantum Dots as antimicrobials and their molecular mechanism of action against fungal pathogen, Candida albicans”
- **M.Tech. (Nanoscience) Major Project- Dissertation Submitted:** Saurabh Kumar; Dissertation Title: “Development of Biocompatible, Fluorescent Carbon Dots to Combat Infectious Diseases”
- **M.Tech. (Nanoscience) Major Project- Degree Awarded:** Fareen Zaidi; Dissertation Title: “Study on Amino acid-based Fluorescent Carbon Dots: Microwave Synthesis, Characterization and Biomedical Applications”

Other Scientific and Academic Contributions:

- **Prasad Tulika**, , Teaching and Research Supervision of M.Tech. and Ph.D. students of Special Centre for Nano Sciences (SCNS), JNU as Concurrent Faculty.
- **Prasad Tulika**, , Courses Taught in 2021-22:

M. Tech.

1. Nanobiotechnology & Nanomedicine (NS 660) -*Theory*
2. Design and Synthesis of Nanostructures (NS 663) -*Theory*
3. Research Methodology and IPR (NS 654) -*Theory*
4. Practical courses (NS 655 & NS 671)

Ph.D.

1. Nanobiotechnology & Nanomedicine (NS 619) -*Theory*
2. Design and Synthesis of Nanostructures (NS 663) -*Theory*
3. Research Methods for Study of Nano-Bio Interactions [NS 626] -*Theory*

- **Prasad Tulika**, , Member of Panel of Experts for question paper setting of Special Centre for Nano Science (PhD-Nanoscience and M.Tech.- Nanoscience) for JNU Entrance Exam 2021.
- **Prasad Tulika**, , External Examiner for M.Tech. Dissertation of some students of Department of Biotechnology, Delhi Technological University in 2021
- **Prasad Tulika**, , Joint Secretary of Nano Molecular Society (Since November, 2016 till date i.e. 2022); Designing Annual Academic Activity Calendar for Nano Molecular Society.
- **Prasad Tulika**, , Member of Organizing Committee for NMS Webinar on COVID-19, 21 June, 2021
- **Prasad Tulika**, , Member of Organizing Committee for NMS Webinar on Novelty of Nanomaterials, 9 July, 2021
- **Prasad Tulika**, , Member of Organizing Committee of NMS Webinar on Electrochemical Biosensing Chips, 9 July, 2021
- **Prasad Tulika**, , Member of Organizing Committee for NMS Symposium on National Science Day, 28 February, 2022
- **Prasad Tulika**, , Part of team of Core faculty member for Live Imaging, Confocal and Fluorescent Microscopy, Gas Chromatograph Mass Spectrometer and Flow Cytometer Cell Sorter Laboratories, AIRF.

Number of students enrolled for Research Degrees under your supervision (specify degree): Arora, Kavita,

- Completed One Masters dissertation project (Ms. Kumud Bhardwaj, SCIS, JNU) 2021.

- Two Phd students (Mr. Ravi Shankar (2020-21) and Ms. Ashik Babu (2021-22)).

Faculty Research Projects

School of Arts and Aesthetics (SA&A): (10)

- **Dutt, Bishnupriya**, Travelling Matters, Materiality and Mediality, RA 2# Temporal communities, Freie University Berlin, 2018 – 2025
- **Bhaskar, Ira**, Jointly received with her Cinema Studies colleagues an EQUIP-ICSSR (EU-India Social Sciences and Humanities Platform) Research Project ‘FilmInd: The Indian film industry as a driver of new socio-economic connections between India and Europe’. This is a joint collaboration between Cinema Studies (CNS), School of Arts and Aesthetics, JNU, India; University of Basel, Switzerland; Novia University of Applied Sciences, Finland; the Slovenian Academy of Sciences and Arts and Adam Mickiewicz University, Poznan, Poland, 2019 – 2022
- **Bhaumik, Kaushik**, Jointly received with his Cinema Studies colleagues an EQUIP-ICSSR (EU-India Social Sciences and Humanities Platform) Research Project ‘FilmInd: The Indian film industry as a driver of new socio-economic connections between India and Europe’. This is a joint collaboration between Cinema Studies (CNS), School of Arts and Aesthetics, JNU, India; University of Basel, Switzerland; Novia University of Applied Sciences, Finland; the Slovenian Academy of Sciences and Arts and Adam Mickiewicz University, Poznan, Poland, 2019 – 2022
- **Dave Mukherji, Parul**, Indian Principal Investigator of the GRID-Gender and Intersectionality on India and its Diapora’s Heritage. This is a joint collaboration between SAA, JNU, India and University of Sussex and School of Oriental and African Studies, UK. It was largely funded by the Arts and Humanities Research Council, AHRC, UK and partly by the Indian Council for Historical Research, ICHR, India, 2021-22
- **Hariharan, Veena**, EQUIP-ICSSR research project ‘FilmInd: The Indian film industry as a driver of new socio-economic connections between India and Europe’ at Cinema Studies (CNS), School of Arts and Aesthetics, JNU. (This project is jointly co- helmed by JNU, India; University of Basel, Switzerland; Novia University of Applied Sciences, Finland; the Slovenian Academy of Sciences and Arts and Adam Mickiewicz University, Poznan, Poland, PI: Ranjani Mazumdar), 2019 – 2023
- **Jhingan Shikha**, Jointly received with her Cinema Studies colleagues an EQUIP-ICSSR (EU-India Social Sciences and Humanities Platform) Research Project ‘FilmInd: The Indian film industry as a driver of new socio-economic connections between India and Europe’. This is a joint collaboration between Cinema Studies (CNS), School of Arts and Aesthetics, JNU, India; University of Basel, Switzerland; Novia University of Applied Sciences, Finland; the Slovenian Academy of Sciences and Arts and Adam Mickiewicz University, Poznan, Poland, 2019 – 2022
- **Mazumdar, Ranjani**, Indian Principal Investigator of the EQUIP-ICSSR (EU-India Social Sciences and Humanities Platform) Research Project ‘FilmInd: The Indian film industry as a driver of new socio-economic connections between India and Europe’. This is a joint collaboration between Cinema Studies (CNS), School of Arts and Aesthetics, JNU, India; University of Basel, Switzerland; Novia University of Applied Sciences, Finland; the Slovenian Academy of Sciences and Arts and Adam Mickiewicz University, Poznan, Poland, 2019 – 2022
- **Prakash, Brahma**, “The Musical Mediation: Competitive and Collaborative Lives of Popular Music in North India”, (Ref: IMPRESS/ P683/ 2018-19/ ICSSR, Amount 15 Lakhs), supported by the IMPRESS-ICSSR, New Delhi (2019 – 21) Ongoing
- **Parameswaran, Ameet**, Created Digital archive of original sources of theatre/performance as part of “Democratising the Public Sphere: Alternate Imaginations of Nation and Society”, the International Collaborative project between Theatre departments from the University of Cologne, Germany, Jawaharlal Nehru University and Pontificia Universidad Catolica de Chile, Santiago, Chile, EduVenture Cologne (IVAC)—13 University of Cologne Virtual Exchange Projects in 2020/21, endowed by the German Academic Exchange Service (DAAD), October, 2020 – August, 2021
- **Sawant S.V.**, Currently engaged in research work as co-editor of a publication project for MoMA, New York and Asia Art Archive titled Modern Art in South Asia: Primary Documents, 6 September, 2021.

School of Biotechnology (SBT): (27)

- **Sharma Manoj K.**, (Co-PI) Identification and characterization of male meiocyte-specific promoters to facilitate germline-specific engineering in sorghum, DSTSERB (Rs. 440 lakhs) July, 2021 – July, 2024.
- **Tandon Ravi, (PI)**, "Identification and characterization of chikungunya virus specific CD8 T cell response in patients with acute chikungunya virus infection and its comparison with that of patients with chronic arthritis and recovered patients", (61/6/2020-IMM/BMS). ICMR(Rs. 35 lakhs) (2020-2023)

- **Tandon Ravi, (Co-PI)**, “DBT Network Programme on Anthrax Diagnosis and Control in India”, (BT/PR36327/ADV/90/280/2020). DBT (Rs. 100.61 Lakhs) (27.09.2021 – 27.09.2024).
- **Dr. Virendra Singh**, Start-up grant entitled “Identification of miRNAs Signature for Cervical Cancer” by University Grant Commission (UGC), New Delhi, India (10 Lakhs) (2021-2023)

Completed Projects: (02)

- **Arya Ranjana**, “Keratinase fingerprints guided drug repurposing to clear prion amyloid plaques” sponsored by DST, November, 2018 – November, 2021. (29.27lakhs).
- Policy and Research Planning for Synthetic Biology, Department of Biotechnology, New Delhi, **Dhar Pawan K., (PI)**, Dr. Balakrishna Pisupati (CoPI). Submitted 85-page foresight paper for developing Indian synthetic biology policy framework, 2021.

Un-sponsored Projects: (06)

- **Bhat Rajiv**, Stability, folding, and aggregation studies of recombinant human α -, β -, and γ -synucleins in the presence of small molecule and polymeric crowders and the effect of polyphenols on their aggregation and amyloid formation.
- **Bhat Rajiv**, Prevention of amyloid fibril formation in proteins by using structure stabilizing compounds using hen white and human recombinant lysozyme.
- **Tiwari Swati**, Mutagenesis of human UDP-Galactose epimerase and its effects on mammalian cell survival and proliferation (jointly with Dr. D. Choudhury, SBT)
- **Tiwari Swati**, Exploring linker structures between two ordered domains of the tumor- suppressor retinoblastoma protein (jointly with Rtd. Prof. Indira Ghosh, and Dr. Arnab Bhattacharjee, SCIS, JNU)
- **Tiwari Swati**, Role of an ERAD E2 in phagocytosis by mammalian macrophages
- **Rajala S.M.**, Oncolytic potential of recombinant measles virus in breast cancer cells.

School of Computational and Integrative Sciences (SCIS): (14)

- **Arora Kavita**, DRDO-ARDB funded project on “Development of novel epoxy resin/grapheme nanocomposite coating material for aircraft structures”, 2019 – July, 2021 (completed).
