HIGHLIGHTS

HIGHLIGHTS

Jawaharlal Nehru University, established in 1966, is a fitting National Memorial to Pandit Jawaharlal Nehru, a great statesman and visionary, and the first Prime Minister of India. Formally inaugurated on 14 November 1969 by Shri V. V. Giri, the then President of India, the University laid down the following objectives for itself:

to disseminate and advance knowledge, wisdom and understanding by teaching and research; and by the example and influence of its corporate life to promote the study of the principles for which Jawaharlal Nehru worked during his life-time, namely national integration, social justice, secularism, a democratic way of life, international understanding and a scientific approach to the problems of society.

Towards this end, the University was entrusted with the task of:

- fostering the composite culture of India through the establishment of such departments or institutions as may be required for the study and development of the languages, arts and culture of India;
- taking special measures to encourage students and teachers from all over India to join the University and participate in its academic programmes;
- promoting awareness and understanding of the social needs of the country in the students and teachers and prepare them for fulfilling such needs;
- making special provision for integrated courses in humanities, social science and science and technology in the educational programmes of the University;
- taking appropriate measures for promoting interdisciplinary studies in the University;
- establishing such departments or institutions as may be necessary for the study of languages, literature and life of foreign countries with a view to inculcating an international understanding and holistic perspective amongst students; and
- providing facilities for students and teachers from various countries to participate in the academic programmes and activities of the University.

Given below are details of activities of Schools, Centres and other bodies of the University from 1 April 2017 to 31 March, 2018.

THE SCHOOLS

The University was envisioned as an institution essentially for post-graduate teaching and research. The Academic Advisory Committee of the University had originally planned that the University would be broadly structured into Schools, each with constituent Centres. Today the University has thirteen Schools:

- School of Arts & Aesthetics
- School of Biotechnology
- School of Computational and Integrative Sciences
- School of Computer and Systems Sciences
- School of Engineering
- School of Environmental Sciences
- School of International Studies
- School of Language Literature and Culture Studies
- School of Life Sciences
- School of Management and Entrepreneurship
- School of Physical Sciences
- School of Sanskrit and Indic Studies
- School of Social Sciences

It also has the following five Special Centres:

- Centre for the Study of Law and Governance

- Special Centre for Disaster Research
- Special Centre for E-Learning
- Special Centre for Molecular Medicine
- Special Centre for Nanoscience

DEFENCE RESEARCH AND DEVELOPMENT INSTITUTIONS

JNU has granted recognition and accreditation to the following prestigious institutions across the country. This has added to the true national character of the University. Representatives of these institutions serve on various academic and statutory bodies of JNU. Similarly, JNU faculty also participate in the academic bodies of these Institutions.

Defence Institutions

- Army Cadet College, Dehradun
- College of Military Engineering, Pune
- Military College of Electronics and Mechanical Engineering, Secunderabad
- Military College of Telecommunication Engineering, Mhow
- National Defence Academy, Pune
- Indian Naval Academy, Ezhimala, Kerala

Research and Development Institutions

- Centre for Cellular and Molecular Biology, Hyderabad.
- Centre for Development Studies, Thiruvananthapuram.
- Central Drug Research Institute, Lucknow
- Central Institute of Medicinal and Aromatic Plants, Lucknow
- Institute of Microbial Technology, Chandigarh
- International Centre for Genetic Engineering and Biotechnology, New Delhi
- National Institute of Immunology, New Delhi
- Inter-University Accelerator Centre, New Delhi
- Raman Research Institute, Bengaluru
- National Institute of Plant Genome Research, New Delhi
- Bhabha Atomic Research Centre, Trombay, Mumbai
- Inter-University Centre for Astronomy and Astrophysics, Pune
- Translational Health Science and Technology Institute, Faridabad
- Lal Bahadur Shastri National Academy of Administration, Mussoorie

FACULTY

The JNU faculty like the student body is also representative of the diversity of our country. Approximately one third of the faculty members are female. The complete data is given in the table below

Present Strength (as on 31.3.2018)	599	Male	408
		Female	191
Professors	Associate Professors	Assistant Professors	
280	128	191	
Professors Emeritus	Honorary Professors		
24	04		

Academic Achievements

Besides evolving innovative programmes of study and courses, teaching, guiding and conducting research beyond the conventional bounds of their narrow areas of specialization, members of the faculty are engaged in writing and editing books,

contributing chapters to volumes, publishing papers and articles, organising and participating in seminars, conferences and workshops, delivering lectures and managing research projects. During 2017 – 2018 their combined output amounted to the following:

● Books	133
● Chapters in books	324
● Papers/Articles in Journals	1040
● Participation in Seminars/Conferences/Workshops	1959
● Lectures delivered (Outside JNU)	1086
● Research Projects	556

STUDENTS

The student community of the University is drawn from all parts of the country and is representative of the linguistic, religious, caste, and economic plurality of Indian society. The data in respect of 2017 – 2018 is given below.

<i>Gender Profile</i>		<i>Social Profile</i>		<i>Programmes</i>	
● Male	3927	● Scheduled Caste	1171	● Research (M.Phil, Ph.D/M.Tech, Ph.D/Direct Ph.D)	4594
		● Scheduled Tribe	611	● Graduate (MA/M.Sc./MCA)	2291
● Female	4155	● OBC	2577	● Undergraduate (B.A. Hons.)	1053
		● Physically Challenged	203	● Part Time (Undergraduate Level)	144
		● Others			
		● General	3192		
Total	8082	● Foreign Nationals	328		

During 2017 – 2018 following number of students completed their Graduation and Research from JNU:

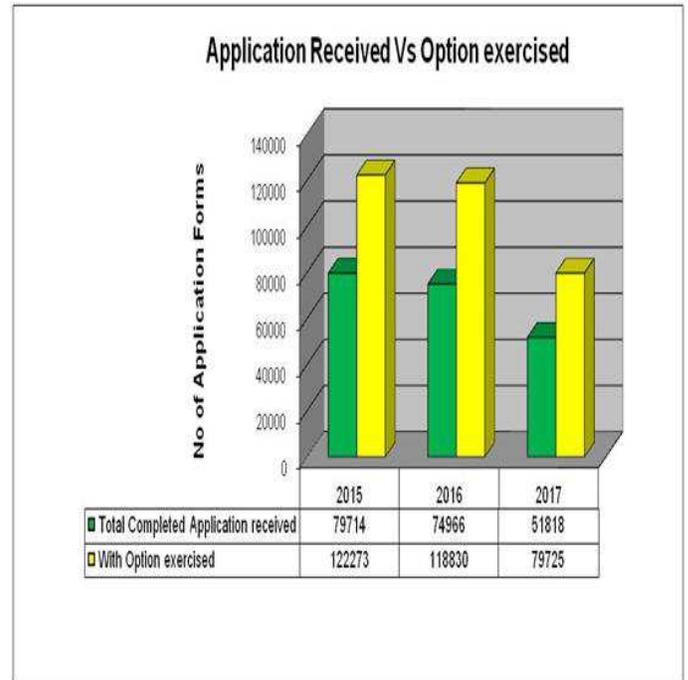

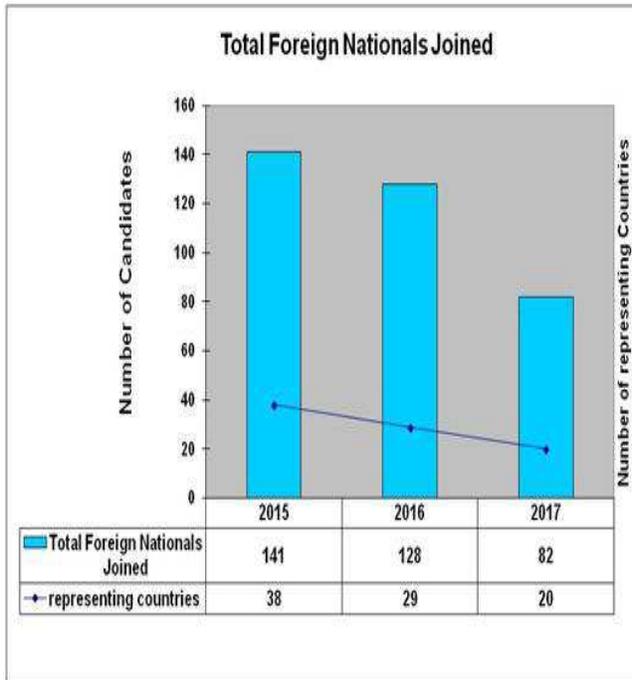

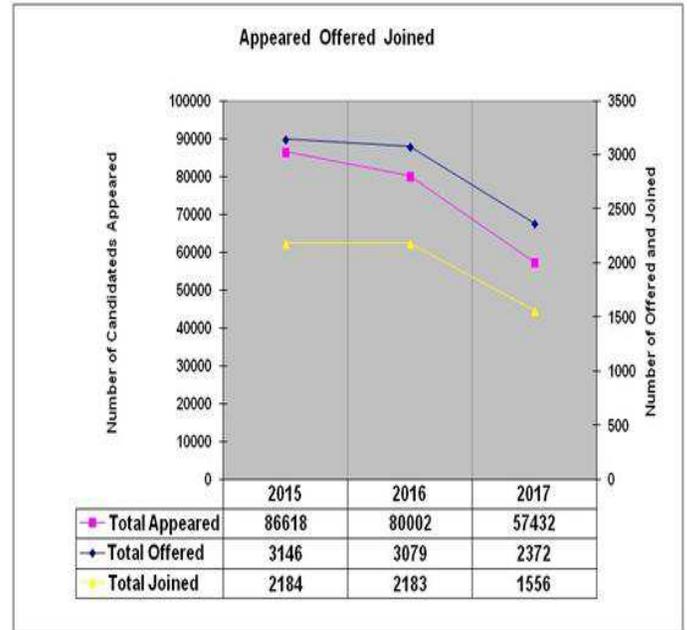

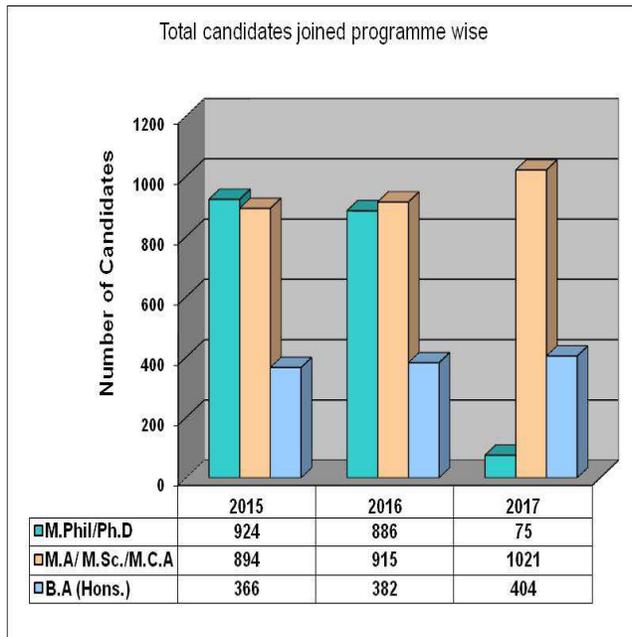

● Graduates	264
● M.Phil.	613
● Ph.D.	622

ADMISSIONS

The University admits students through an entrance examination which is conducted at 77 Centres in various parts of the country and at one Centre outside India, i.e. Kathmandu, Nepal. Admission announcements are made in all major national and regional newspapers in English and Indian languages. Admissions are made against a fixed number of seats in each programme of study, on the basis of merit in the admission test.

The University also conducts a Combined Entrance Test in M.Sc. Biotechnology, M.Sc (Agri.)/M.V.Sc, and M.Tech (Biotechnology) on behalf of 53 Institutes and Universities, including JNU.

Given below are graphs comparing admissions 2015, 2016, and 2017

UNIVERSITY LIBRARY

One of the indispensable infrastructural supports for an academic community is the library. The library is under major renovation and has become an intellectual hub for the campus. The library procured 1244 printed books and 30 e-Books worth Rs. 26,06,713.29/- and Rs. 1,70,036.00/- respectively. The library received 1663 books worth Rs. 7,45,822/- as Gifts/ Gratis. The library subscribed to 144 print and online Journals and 26 online databases. Besides this, the Central Library also got access to 13 databases from UGC Infonet Consortia.

UGC – HUMAN RESOURCE DEVELOPMENT CENTRE

Established in 1989, the Academic Staff College (renamed as the Human Resource Development Centre) has been conducting specific Refresher Courses for college and university teachers in International Relations, Social Sciences, Language & Literature Studies, Computer Sciences, Life Sciences, Environmental Sciences, Physics and Biotechnology. It also conducts Orientation Courses in Social and Natural Sciences.

Senior faculty members act as Course Coordinators and scholars from JNU and other institutes act as resource persons. Eight Refresher and Four Orientation courses were held during the current year.

ADVANCED INSTRUMENTATION RESEARCH FACILITY (AIRF)

The Advanced Instrumentation Research Facility (AIRF) was set up by the university with the state-of-the-art analytical equipments for research in Physical, Biological, Chemical and Environmental Sciences. The Time Resolved Luminescence/Fluorescence Spectrometer that is one of the analytical equipments of AIRF was installed in the facility in the reporting period and is in regular operation.

The instruments housed in the AIRF are Transmission Electron Microscope (TEM), Scanning Electron Microscope (SEM), Gas Chromatograph Mass Spectrometer (GCMS), Flow Cytometer and Cell Sorter, Circular Dichroism (CD) Spectrometer with Stop Flow, X-ray Diffraction (XRD), Surface Plasmon Resonance (SPR), Liquid Nitrogen Plant, TEM & SEM Sample Preparation Laboratory, Inverted Research Fluorescence Microscope, Manual Hydraulic Press for FTIR, Muffle Furnace, Mixed Signal Oscilloscope, Critical point Dryer, Turbo Freeze Dryer with liquid nitrogen fed cold stage etc.

UNIVERSITY BODIES

The regulating bodies responsible for the functioning of the University are the University Court, the Executive Council, the Academic Council and Statutory Committees such as the Finance Committee.

University Court

The Court is the supreme authority of the University and meets once a year, on a date fixed by the Executive Council, to consider a report on the working of the University during the previous year together with a statement on the receipts and expenditure, the balance sheet as audited and the budget for the next financial year. The Court is vested with the powers to review the acts of the Executive Council and Academic Council (save when these authorities have not acted in accordance with the powers conferred upon them under the Act, the Statutes and the Ordinances) and to exercise the powers of the University not otherwise provided in the Act or the Statutes.

University Court Meeting - 8 December, 2017

The University Court in its meeting on 5 December, 2016 received the Annual Report on the working of the University for the period 1 April, 2015 to 31 March, 2016 with a statement of receipt and expenditure and statement of assets and liabilities as audited for the financial year 2015-2016 and also the budget for the financial year 2017 – 2018.

Executive Council

The Executive Council is the executive body and is inter alia vested with the powers to make appointments of the members of the faculty and other group 'A' officers on the recommendations of the Selection Committees, fix their emoluments and define their duties. The Executive Council is also vested with the powers to maintain discipline amongst the teaching and non-teaching employees in accordance with the provisions of Statutes and Ordinances and manage and regulate the finances, accounts and other administrative affairs of the University.

Executive Council Meetings

- **30 June, 2017**
- **18 September, 2017**
- **23 November, 2017**
- **15 December, 2017**
- **13 March, 2018**

During the year under review the Executive Council deliberated upon various administrative and academic matters and took important decisions. It also considered and approved action taken by the Vice-Chancellor on matters of urgent nature in exercise of the powers conferred upon him in terms of the Statutes/Organances. The Council also approved the action taken by the Vice-Chancellor in approving the recommendations of various Selection Committees for faculty and non-teaching appointments.

Academic Council

The Academic Council is the top academic body of the University and is inter alia vested with the powers to propose establishment of Departments, Special Centres and specialized laboratories to the Executive Council. The Academic Council is also vested with the powers to recommend to the Executive Council the creation and abolition of teaching posts, their classifications, draft ordinances on admissions and examinations, appointment of examiners and fixation of their fees, conferment of honorary degrees and proposals for instituting fellowships, scholarships etc. The Academic Council is further vested with the power to recognize diplomas and degrees of other Universities/Institutions, appoint Committees for admission to the University, make arrangements for the conduct of examinations, fixing dates for holding them and declaring results of various University exams etc.

Academic Council Meetings

- **9 May, 2017 (adjourned 16 June, 2017)**
- **1 December, 2017**

During the year under review, the Academic Council in its meetings co-opted members from various institutions, nominated faculty members/experts on the Boards of Studies/ Special Committees of various Schools / Special Centres and received factual data for admissions in 2016-2017.

FINANCE COMMITTEE

The Finance Committee is a statutory body of the University. It considers the Budget and Expenditure proposals, all proposals for new/additional posts, accounts of the University, the Audit Report and all other financial and accounting matters. Its recommendations go for approval of the Executive Council.

Finance Committee Meetings

- **27 June, 2017**
- **14 November, 2017**

In its meetings the Finance Committee approved the Revised Estimates of the University for 2017 – 2018 at the level of Rs. 36330.99/- lakhs net on "Maintenance Account".

THE LEGEND

ACADEMIC PROGRAMMES AND ADMISSIONS

UNIVERSITY BODIES

The Legend

A university stands for humanism, for tolerance, for reason, for the adventure of ideas and for the search of truth. It stands for the onward march of the human race towards ever higher objectives. If the universities discharge their duties adequately, then it is well with the Nation and the People.

This visionary statement by the first Prime Minister of Independent India on the occasion of the diamond jubilee celebration of Allahabad University on 13 December, 1947, reflects the great importance that Jawaharlal Nehru attached to university education in India. He firmly believed that universities could play a crucial role in shaping and strengthening the life of a nation by inculcating in their students the cardinal values in which he believed.

As a fitting tribute to his vision, Jawaharlal Nehru University was established in 1966 under the JNU Act, 1966 (53 of 1966). As a further mark of respect, the University was formally inaugurated by the late Sh. V. V. Giri, the then President of India, on the birthday of Panditji on 14 November 1969, which also coincided with the birth centenary year of Mahatma Gandhi.

The University's objectives are:

to disseminate and advance knowledge wisdom and understanding, by teaching and research; and by the example and influence of its corporate life to promote the study of the principles for which Jawaharlal Nehru worked during his life-time, namely national integration, social justice, secularism, democratic way of life, international understanding and a scientific approach to the problems of society.

The uniqueness of JNU is evident from its basic philosophy, policies and programmes which are spelt out and embodied in the University Act. Accordingly, the University has always striven to evolve such policies and programmes of study as would be a qualitative and distinct addition to the national resource base in higher education instead of reflecting mere quantitative expansions of the existing facilities. The University thus has been concentrating on programmes that are of relevance to national progress and development. In this regard, the University has taken the following initiatives:

- A conscious effort has been made to promote ideas of national integration, secularism, scientific outlook, cosmopolitan and humanistic approach towards life.
- The national character of the University has been maintained by selecting students and faculty from all regions of the country.
- An interdisciplinary approach to teaching and research has been promoted in recognition of the fact that knowledge is indivisible and, accordingly, a structure of Schools and Centres of teaching has been established.
- The emphasis on teaching and research in non-conventional areas has ensured that duplication of facilities available in other universities is avoided as far as possible.
- Care has been taken to establish a model School of Language Teaching and Research in Indian as well as foreign languages with well-equipped language laboratories and Centres, where the study of the literature, culture and civilization of the countries concerned becomes feasible and effective.
- A system has been evolved whereby main academic decisions, such as the courses to be taught, their content and the methods of evaluation, are taken by the teachers themselves.
- Admissions are made entirely on merit through an open all-India Entrance Examination, held at 80 centres across the country.
- In accordance with the policy of the Government of India, the University provides reservations in both students' admissions.
- There is a liberal provision for merit-cum-means scholarships/fellowships. Students as well as faculty members are provided with financial support to undertake field trips in connection with their research both within the country and abroad.
- Participation in exchange programmes with universities/institutes abroad is encouraged to promote international understanding. The University has signed Memoranda of Understanding with a large number of foreign universities and institutions.

- A Grievance Redressal Committee has been set up to promote cordial relations between the students and the University administration.
- The University has been organising successfully the combined Biotechnology Entrance Examination for admission to M.Sc. in Biotechnology, M.Sc. in Agriculture Biotechnology, M.V.Sc. (Animal) Biotechnology and M.Tech. programme in Biotechnology of 52 participating universities for a number of years. This entrance examination is conducted all over the country alongwith JNU.

The University was envisioned as essentially a post-graduate teaching and research institution. The Academic Advisory Committee had originally envisaged that the University would be broadly structured into thirteen Schools:

1. School of Arts and Aesthetics
2. School of Biotechnology
3. School of Computer and Systems Sciences
4. School of Computational and Integrative Sciences (earlier School of Information Technology)

ACADEMIC PROGRAMMES AND ADMISSIONS

PROGRAMMES OF STUDY

During the year under review, the University offered admissions in 76 Ph.D. 71 M. Phil./Ph.D. 5 M. Tech. 1 MPH, programmes.

JNU also offered M.Sc/MCA in 8 disciplines, M.A. in 29 disciplines; and under-graduate courses (in both 1st and 2nd years) in 10 foreign languages. In addition, it also offered Certificate, Diploma and Advanced Diploma courses in various languages.

The following programmes of study were offered by different Schools/ Centres during the year under review:

School of Arts & Aesthetics

- **Ph.D.:** The School offers Ph.D. programmes in three different streams - Visual Studies, Theatre and Performance Studies and Cinema Studies.
- **M.Phil./Ph.D.:** The School offers M.Phil./Ph.D. programmes in three different streams - Visual Studies, Theatre and Performance Studies and Cinema Studies
- **M.A. in Arts & Aesthetics:** The School offers M.A. programme with cross disciplinary study of the Visual, Cinematic and Theatre & Performance Studies.

School of Biotechnology

- **Ph.D.** in Biotechnology
- **M.SC.** in Biotechnology

School of Computational and Integrative Sciences

- **Ph.D.** in Computational Biology and Bioinformatics
- **Post Graduate Diploma** in Big Data Analytics (PGDE)
- **M.Sc** in Computational & Integrative Sciences

School of Computer and Systems Sciences

ADMISSION PROCESS

Admission to various programmes of study is regulated by policy and procedure approved by the Academic Council of the University from time to time.

The approximate number of seats available in each programme of study is decided by the Academic Council on the recommendations of the Centres/Schools concerned.

Reservation in admissions: The University provides (15% for SC and 7.50% for ST,) 27% for OBC category and 3% for the person with disability. Over and above the intake fixed for each programme, 15% of seats are also reserved for foreign nationals, (except M.Phil/Ph.D. and Ph.D. programme). Of this quota of 15%, upto 7.5% of seats are reserved for those appearing in the entrance examination and the remaining 7.5% for candidates applying from abroad whose cases are considered in Absentia. The ratio is interchangeable if necessary.

Admission Notice: The admission notification is published all over India through advertisements in leading newspapers and employment news.

Written test: The written test for admission to various programmes of study is held at various centres all over the country. A question paper of three hours duration is set for each programme or each set of programmes of study. The tests are spread over four days, with two sessions of three hours on each day. Admission is made purely on merit, taking into account the candidate's performance in the written examination and the viva-voce, wherever prescribed.

Eligibility requirements for appearing in the entrance test: The eligibility criteria (for both general and reserved category candidates) for appearing in the entrance examination are formulated as per the guidelines laid down by the University in this regard. Candidates who are appearing in their respective qualifying examinations are also permitted to appear in the entrance examination. In the event of selection, however, their admission is subject to their passing and securing the prescribed percentage of marks in the qualifying examination and submission of all documents, including the final marksheet of the qualifying examination at the time of admission. The last date for admission to any programme of study is 14 August and no admission is permitted thereafter.

Viva-voce examination: Candidates seeking admission to M.Phil./Ph.D./, M.Tech, Ph.D, MPH. programmes are required to appear for a viva-voce examination which is assigned 100% marks and MA programmes in foreign languages (other than English/B.A. (Hons) 2nd year & Part – Time Programmes) are required to appear for a viva-voce examination which is assigned 20% marks. For M.Phil./Ph.D. and Ph.D, all candidates who have secured a minimum of 50% marks in the written examination are invited for viva voce. For M.A., B.A. (Hons) 2nd Year and Part-time programmes where viva voce is prescribed, cut off of 25% for General Category, 22.50% marks for OBC Category, and 15% marks for SC/ST/PWD Category in the written test is the eligibility to be called for the viva-voce examination.

Selection of candidates: Separate merit lists are prepared for General Category, SC, ST, PWD and OBC candidates and foreign nationals for each course/programme of study. Final selection of candidates is made on the basis of their *inter se* merit in their respective categories based on their performance in the written test and viva-voce examination (wherever prescribed) and the score of deprivation points (wherever applicable).

Registration: The candidates who are selected for admission are required to complete all registration formalities within the time schedule drawn up by the university.

University Bodies

The University has certain regulatory bodies responsible for its functioning. These include the University Court, the Executive Council, the Academic Council and the Finance Committee.

SCHOOL OF ARTS AND AESTHETICS
(SA&A)

SCHOOL OF ARTS AND AESTHETICS

School of Arts and Aesthetics (SAA)

The School of Arts and Aesthetics offers post-graduate degree courses (MA, M Phil and Ph D) in the theoretical and critical study of cinema, visual and the performing arts. Unlike other schools of fine art, theatre, dance and media studies that teach the practice of the arts (painting, dancing, filmmaking) this is a Humanities School that offers rigorous and advanced- level training in history and criticism of the arts, producing a cadre of scholars, critics and historians of the arts. The MA course offered by the School is cross-disciplinary, with a range of core courses that offer an introduction to the visual, cinematic and performing arts. Optional courses allow for a more intense engagement within the MA with particular areas or methods. The M.Phil programme offers a specialized focus in each of the three disciplines viz. Cinema Studies, Theatre and Performance Studies, and Art History and Visual Studies.

The School's pedagogy and research takes into account new ways of thinking about culture using a wide array of critical and theoretical approaches. During the course of their studies, students are introduced to a range of research methods that combine archival, ethnographic, theoretical and cultural approaches and are encouraged to create theory-practice interface. The faculty also encourages students to visit museums, exhibitions, and monuments and to attend festivals of theatre, film, dance and music. The school frequently hosts interactive sessions with eminent scholars and practitioners from within the country as well as from overseas.

Over the years the School has also built up a valuable and expanding library and archive of photographs, audio and video recordings. The use of multi media in teaching helps students maintain live contact with performance, visual art and film. Students are encouraged to undertake field trips, learn documentation methods, to curate exhibitions in the art gallery, to organize film festivals on specific themes and observe performance practices. The School continues to enrich the cultural environment of the University and the larger cause of the art studies. Through its degree programmes, research output, conferences, seminars, popular and scholarly publications, curatorial and performative projects and its alumni who are working in innumerable arts institutions and centres of learning, the School of Arts and Aesthetics has made a mark in the fields both in India and abroad.

SCHOOL OF BIOTECHNOLOGY

School of Biotechnology (SBT)

Jawaharlal Nehru University (JNU), New Delhi was one of the first six Universities in India to initiate a Postgraduate teaching and research programme in the field of Biotechnology in 1985. Since 1985, it was running as the Special Centre for Biotechnology (CBT) under the joint sponsorship of the University Grants Commission (UGC) and the Department of Biotechnology (DBT), Ministry of Science & Technology, Govt. of India. To begin with, it was started to initiate Biotechnology education programme with an impetus to generate a workforce that could turn into a substantially trained pool to meet the country's demands. Considering the growth of Biotechnology at an international level, its applications in general spheres of life and the significant contributions made by the faculty of the Centre for Biotechnology, the Executive Council of JNU resolved to elevate the status of the Special Centre for Biotechnology to that of a School of Biotechnology (SBT) in 2006. Over the years, Biotechnology programme at JNU has established itself as a leading academic programme both from the teaching and research point of view. School of Biotechnology has ranked at number one position in the country consistently over many years by Bio-spectrum Bangalore and last year by Biotechnology Consortium India Ltd. (BCIL) New Delhi. The faculty of the School is internationally recognized for their contribution to basic and applied aspects of Biotechnology research.

Research Specializations Offered

- Molecular Biology of Infectious Diseases
- Immunology of the Infectious Diseases and Vaccine Development
- Functional Genomics of Complex Diseases (i.e. Type 2 Diabetes, Obesity, Dyslipidemia, etc).
- Oxygen Biology & Microenvironment
- Transcription Control and Gene Regulation
- Protein Stability, Conformation and Folding
- Protein Aggregation and Amyloid Fibril Formation
- Bioprocess Monitoring and Modelling of the Recombinant Cultures; Metabolic engineering and Scale-up of the Recombinant Proteins
- Molecular Biophysics, Structural and Computational Biology
- Biochemical Engineering (Bioprocess Simulation)
- Bio-organic and Bio-conjugate Chemistry
- Nan biotechnology, Micro fluidics and Biosensor Development
- Virus Mediated Signal Transduction
- Molecular Cell Biology
- Optogenetics, Cilia Biology and Ciliopathies
- Recombinant DNA Technology and Cell Biology of Genetic Disorders
- Metagenomics and Bioremediation
- Plant Molecular Biology and Plant Biotechnology
- Synthetic Biology and Genome Engineering

Research Facilities

The School has excellent state-of-the-art research facilities for training in the modern areas of biological sciences. These include:

- Central Instrumentation Facility (CIF)
- Computer Lab for Computational Biology, Simulations and Bioinformatics
- Biosafety Level 3 (BSL3) Facility
- Biosafety Level 2 (BSL2) Facility
- Recombinant Product Development Facility
- Protein Production, Purification and Characterization Facility
- Spectroscopic Facility
- Microcalorimetric Facility
- Microscopic Facility

- Animal Cell Culture Facility
- Plant Tissue Culture Facility
- Algal Culture Facility
- BD FACSAria Fusion Flow Cytometer and Sorter (4Laser, 16 Colors) for Cell Analysis

Seminars/Conferences Organised by the School (17)

- Dr. Ranjana Arya and Prof. Rupesh Chaturvedi organized National Science Day conference, 28 February, 2018
- Prof. Rupesh Chaturvedi and Prof. Deepak Gaur co-organized the 86th Annual Meeting of the Society of Biological Chemists, India (SBCI), 16 – 19 November, 2017
- Dr. Aseem Mishra, Chief Technology Officer (CTO) KIIT, University, Bhubaneswar, “Bioincubator and Biotech ignition grant (BIG)”, 15 June, 2017
- Dr. Malla R. Rao, Programme director, ICEMR & Deputy Branch chief, NIAID Parasitology and International Programmes Branch, NIH, USA, “Strategic Directions for Research on Vector Borne Diseases”, 27 July, 2017
- Dr. Subash Chandra Gupta, Department of Biochemistry, Institute of Science, Banaras Hindu University, Varanasi, “Molecular basis of breast cancer growth in acidic microenvironment”, 4 August, 2017
- Dr. Khushdeep Bandesh, CSIR – Institute of Genomics and Integrative Biology, “Long Non- Coding RNA and regulation of C-peptide levels”, 18 August, 2017
- Dr. Vinay Bansal, HYLASCO Biotechnology Pvt. Ltd. Hyderabad, India, “Animals for Drug Discovery: Friends or FOE”, 8 September, 2017
- Dr. Noman Siddiqi, Director (Research Operations), Department of Immunology & Infectious Diseases, Harvard School of Public Health, “Best Practices in Mycobacterium Tuberculosis Research”, 25 September, 2017
- Prof. William A. Cramer, Henry Koffler Distinguished Professor of Biological Sciences Department of Biological Sciences, Purdue University, West Lafayette, USA, “Why are membrane Proteins a “hot” topic in bio – molecular research?”, 6 November, 2017
- Dr. Arijit K. De, Department of Chemical Sciences, Indian Institute of Science Education and Research (IISER) Mohali, “Ultrafast dynamics of primary processes in photosynthesis: From quantum coherence to photo-protection”, 7 November, 2017
- Prof. Allen P. Minton, Laboratory of Biochemistry and Genetics, Physical Biochemistry Section, National Institute of Diabetes and Digestive and Kidney Diseases, National Institutes of Health, Bethesda, MD, USA, “What we know and what we do not know about molecular crowding”, 9 November, 2017
- Prof. Allen P. Minton, Laboratory of Biochemistry and Genetics, Physical Biochemistry Section, National Institute of Diabetes and Digestive and Kidney Diseases, National Institutes of Health, Bethesda, MD, USA, “Pushing and pulling: Synergistic effects of an inert”, solute and a native ligand upon functionally related equilibria in an enzyme and in a riboswitch”, 16 November, 2017
- Prof. Allen P. Minton, Laboratory of Biochemistry and Genetics, Physical Biochemistry Section, National Institute of Diabetes and Digestive and Kidney Diseases, National Institutes of Health, Bethesda, MD, USA, “Time-dependent crowding and the kinetics of protein aggregation: a simple model for the onset of age-related neurodegenerative disease”, 23 November, 2017
- Dr. Santosh Kumar Verma, Visiting Postdoctoral Fellow, National Institute of Health (NIH), USA, “Cell Fusion Stage in Osteoclast Formation”, 18 January, 2018
- Dr. Amitabh Sharma, Assistant professor of Medicine, Harvard medical School, Boston MA, “Network Medicine: From cellular network to human disease”, 27 February, 2018
- Prof. Paul Smith, director Oxford University Museum of Natural History, “The Co-evaluation of Life and Earth”, 28 February, 2018
- The first Indian Space Biology brainstorming meeting. JNU, 8 March, 2018

Student’s Achievements:

- **Sneha Roy**, Ph.D. scholar, SBT, was selected to be an Invited Speaker in the Gordon Research Seminars Conference on Proteins held at Holderness School, NH, USA, 17 – 23 June, 2017
- **Sneha Roy** also presented her research work in the 31st Protein Society Symposium held at Montreal, Canada, 17 – 23 June, 2017. The research work presented was on the use of small molecule modulators of human brain gamma-synuclein protein involved in neurodegeneration (Parkinson's disease) and cancer.

- **Sneha Roy** awarded highly competitive Carl Storm International Diversity (CSID) Award from Gordon Research Conferences and The Finn World and Protein Society Travel Award by The Protein Society, 24 – 27 July, 2017

List of Patent Filed by the SBT Faculty

- S. Balaji and Neha Dalal, E-2/342/2018/DEL, Application number 201711040249. Efficient and Selective N-Halo Acylation of Amines.
- S. Balaji and Neha Dalal, E-2/343/2018/DEL, Application number 201711040250. Efficient and Selective N-Halo Acylation of Amino Alcohols.
- R. Chaturvedi et al., Patent on Bio-engineered mesoporous dialysis nano-beads
- Jaydeep Bhattacharya, Ranjita Ghosh Moulick, Ashwathi Asha Madhavan, Subhavna Juneja, A Gold nanoparticle based colorimetric biosensor for the detection of Advanced Glycation End Products- Patent Application Number-201811014098 dated 12/04/20
- Jaydeep Bhattacharya, Ranjita Ghosh Moulick, Raj Kamal, Ashwathi, Asha Madhavan, A low cost point-of-care microfluidic device for DNA/RNA isolation, purification and amplification using Chip based PCR/ RT-PCR for the development of optical, Electrochemical, magnetic and other biosensing applications- Provisional Patent Application, Number-201811004666 dated 7/02/2018
- Jaydeep Bhattacharya, Rupesh Chaturvedi, and Ajita Jindal. Bio-Engineered mesoporous dialysis nano beads for specific removal of excess body toxins, water and ions from kidney failure patients. Provisional Patent No: 201711020373 dated 10-06-2017

School of Computational and Integrative Sciences (SC&IS)

The School of Computational and Integrative Sciences, Jawaharlal Nehru University, presently houses the Centre for Computational Biology and Bioinformatics, a Centre of Excellence of the Department of Biotechnology, Govt. of India. Additionally SCIS has initiated the Centre for Complex Systems, introduced and supported in the XII Plan by the UGC. The overarching objective of the School is to develop and apply computational methods in different disciplines. This mission is reflected in the diverse faculty profile of the school which comprises researchers from fields as varied as Genomics, Computational Biology, Plant Biology, Complex Systems, Bioenergy, Statistical Data Analysis and Modeling, Theoretical and Computational Chemistry, Petri nets and Graph Theory, Mathematical Biology, Computational Radio Frequency and Microwave, Antenna applications for Biomedical application.

Programmes of Study

- Ph.D. programme in Computational Biology and Bioinformatics/Complex Systems
- M.Sc. programme in Computational and Integrative Sciences
- Post-Graduate Diploma in Big Data Analytics

Teaching and research programmes in Computational and Systems Biology involve undertaking research, development, and application of computational tools and approaches for expanding the use of biological, agricultural, medical, behavioral or health data, including those to acquire, store, organize, archive, analyze, or visualize such data. In addition, research programs focus more on the development and application of data analytical and theoretical methods, mathematical modelling and computational simulation techniques to the study of biological, behavioral, and social systems.

The School has initiated a programme in Complex Systems which will study the behavior of mathematical, physical, living and social systems, identify patterns that underlie these inter-related systems, and examine properties such as emergence, evolution, network, structure and dynamics of these systems in a competitive environment.

Taking note of the data explosion and emerging scenario School started an ambitious Post Graduate Diploma in Big Data Analytics, human resource developers in this area is much needed now to keep pace with technological studies.

The teaching and research programmes are supported by good computational and communication infrastructure. The School manages a centralised facility for high-performance computers, consisting of computer clusters with multiprocessor nodes, large-memory nodes and GPUs to facilitate specialized research. The school takes pride in being among the country's best institutions in imparting high-value employability-related skills to its students such as in genomics data analytics, molecular simulations, data science and financial modelling and simulation.

We have set up a small-scale experimental facility to validate theoretical prediction and test innovative ideas as a small scale.

The School organized many seminars/symposiums regularly for the benefit of the academic community. School also have active collaboration and cooperation with Institutes within India and abroad.

Conferences organized by the School

- The Seminar-cum-Workshop entitled "Graphs, Networks & Application of Mathematics in Computation, Engineering, Bioinformatics & Social Sciences, organized by Dr. Gajendra Pratap Singh, SCIS jointly with the Commission for Scientific Technical Terminology, MHRD, Govt. of India, at the Convention Centre, JNU, 12 – 14 March, 2018
- The workshop on 'Big Data Analytics & Cloud Technology' is jointly conducted by SCIS, SCSS and CIS along with Oracle India, organized by Prof. Andrew M. Lynn, 23 February, 2018
- The Workshop: Introduction to computational tools for molecule design (Speaker : Dr Rae Lawrence), 27 November, 2017
- The Symposium : New Trends in Applied Mathematics: From Biology o Finance Speakers : Dr. Malay Banerjee, Dr. Anindya Chakrabarti, Prof. Sujoy Chakravarty, Dr. Sourish Das, Dr. Sapna Ratan Shah, Mr. Dipyaman Sanyal, Kiran Sharma organized by Anirban Chakraborti, 11 September, 2017

- The Panel Discussion on Big Data Science, Joint programme with Heidelberg University-SC&IS, JNU, 11 April, 2017
- The CCPM-7 Workshop Conducted jointly by IIIT-H and JNU Delhi (Physical and Online), 10 April, 2017

Visitors to the School/Centre

- **Dr. Pierre-André Cazade**, Computational Scientist, 12 Shreelane Road, Woodhaven Castletroy, Co. Limerick, Ireland, 8 March, 2018
- **Ulrich H.E. Hansmann**, Department of Chem. & Biochem., University of Oklahoma, Department of Chemistry and Biochemistry, Norman, OK 73019, USA, 1 March, 2018
- **Amitabh Sharma**, Network Medicine Laboratory, Channing Division of Medicine, Harvard Medical School, 27 February, 2018
- **Nitin S. Baliga**, Senior Vice President, Director and Professor, Baliga Lab, 23 – 24 February, 2018
- **Anoop K. Pal**, Chief Scientist, Americas Region at Izon Science Boston, USA, 23 January, 2018
- **Dr. (Ms.) Manan Vyas**, Assistant Professor, Fenómenos no lineales y complejidad, Instituto de Ciencias Físicas, Universidad Nacional Autónoma de México, Cuernavaca, Morelos, México, 3 January, 2018
- **Prof. Gerhard Hummer**, Department of Theoretical Biophysics, Max Planck Institute of Biophysics, Frankfurt am Main, Germany, 6 December, 2017
- **Prof. Allen Minton**, Laboratory of Biochemistry and Genetics, Physical Biochemistry Section, National Institute of Diabetes and Digestive and Kidney Diseases, National Institutes of Health, Bethesda, MD, USA, 24 November, 2017
- **Sreedhara R. Voleti**, Managing Director, INDRAS Private Limited, 18 November, 2017
- **Prof. R. Rajaraman**, Emeritus Professor, School of Physical Sciences, JNU, 10 November, 2017
- **Speaker: Prof. G.P.S. Raghava**, Indraprastha Institute of Information Technology – Delhi, 15 November, 2017
- **Dr. Prasenjit Mitra**, Dr. Reddy's Institute of Life Science, Hyderabad, 31 October, 2017
- **Prof. Devaki Bhaya**, Carnegie Institution for Science, California, 25 October, 2017
- **Prof. Benjamin Wolozin**, 13 October, 2017
- **Dr. S. Arumugham**, Director, n-CARDMATH, Adjunct Prof. Dept. of Computer Science, Ball State University, Muncie, Indiana, USA and Visiting Prof. at Liverpool University, UK, 11 October, 2017
- **Dr. Sameer Velankar**, Team Leader PDB, EMBL-EBI and Dr. Aleksandras Gutmanas, NMR Project Leader, EBI, 31 August, 2017
- **Dr. Glenn Mansfield KEENI**, President & CEO, Cyber Solutions Inc. Japan, 17 August, 2017
- **Mr. Vithal Madyalkar**, Country Manager, IBM Innovation Center for Education (ICE), 20 April, 2017

Accomplishment of Students

Ms. Kiran Sharma, a Ph.D. student of the School, attended an International Conference on RMT, Time Series and Many-Body Systems at Mexico and also visited the Centro Internal de Ciencias A.C. Cuernavaca, Mexico under exchange programme, 24 June, 2017 to 13 August, 2017

The following registered integrated M.Sc./Ph.D. student of the School participated in the 8 to 10 week long Scientific Winter School at Heidelberg University, Germany, from 29 January, 2018

- Mr. Sujeet Kumar Mishra
- Mr. Varun Aggarwal
- Mr. Kaushal Kumar
- Ms. Arfa Jabin

SCHOOL OF COMPUTER AND SYSTEM SCIENCES

School of Computer & Systems Sciences (SC&SS)

The School of Computer and Systems Sciences was established in 1975. It is among the first few institutions in the country to offer degree in Computer Science & Technology. The School offers Masters and Research programs leading to degrees in M.Tech., MCA in Computer Science and Technology and Ph.D. in the areas of Computer and Systems Sciences. The School attracts the very best and most talented students from all over the country. The large number of applicants for admissions to the research program of the School clearly indicates the prestige, reputation and popularity of the p offered by the school. This trend is also prevalent in the case of admission seekers from neighboring and other foreign countries. Besides the teaching and research programs of the School, the School has been engaging methods and ways to stimulate research further and enhance the learning skills of the students by organizing weekly research seminars and National Seminar-Cum-Technical Festival for students from across India.

New Courses Introduced

- The School has started M.Tech program in Statistical Computing in two streams – Data Science and Data Communication with the intake of 20 students (10 students in each stream).
- The School has introduced a new course Academic Ethics (CS-782) for M.Tech./M.Phil/ Ph.D. students of the University.

Seminars/Conferences Organised

- National Workshop on Emerging Challenges in Cyber Crimes in India (ECCCI), in association with NITTR Chandigarh, 9-10 October, 2017, with Prof. D K Lobiyal as the chairperson and Dr. Karan Singh and Dr. Sushil Kumar as coordinators of this event.
- GIAN Course entitled “Can Magnetic Microsystems/Nanomagnetics Enable Powering of Internet of Things?”, 7 – 12 December, 2017, with Prof. Saibal Roy is Research Professor to Department of Physics, University College Cork (UCC) and Head of Micropower Systems & Nanomagnetics in Tyndall National Institute, Ireland, co-ordinated by Dr. Poonam Agarwal.
- GIAN program on “Cloud Data Center Service Provisioning: Theoretical and Practical Approaches”, 29 January – 9 February, 2018 with Prof. Jemal H. Abawajy, Director, Distributed Systems and Security Cluster Faculty of Science, Engineering and Built Environment, Deakin University, Australia.

**SCHOOL OF ENVIRONMENTAL SCIENCES
(SES)**

SCHOOL OF ENVIRONMENTAL SCIENCES

School of Environmental Sciences (SES)

The School of Environmental Sciences, established in 1974, offers M.Sc. and M.Phil/Ph.D programs in Environmental Sciences and Undergraduate Course in Environmental Sciences. The School is truly multidisciplinary in character focusing on physical, chemical, geological and biological components of environment. The faculty (13 Professors, 5 Associate Professors and 5 Assistant Professors) have diverse interests and specializations required for understanding various earth, atmospheric and biological processes and their interactions affecting our environment. In addition to the regular faculty, Prof. C.K. Varshney and Prof. V. Rajamani are associated with the school as Emeritus Professor and Prof. Kasturi Datta and Prof. Sudha Bhattacharya are the Indian National Science Academy Senior Scientists.

New Courses

- **Agroecology and Sustainable Agriculture (ES121 Credit: 3)** for M.Sc. optional course. **Dr Usha Mina**, is responsible for teaching and developing curriculum.

Conferences organized by the School/Centre

- SES organised the National Indo-Bhutan Training/Workshop on “Hydrochemistry, Isotope Hydrology, Hydrograph Separation Model and Syllabus formulation meetings”. Professor A.L. Ramanathan, Dean SES and all faculty members of SES actively took part in this conference, 26 January, 2018
- Prof. S. Mukerjee of SES, organized “Google Earth Engine Technical Workshop”, regarding technical training on Google’s Earth Engine Platform, used by researchers in GIS and remote sensing for analysis and visualization of geographical datasets at ABD Seminar Hall, SES, JNU, IIIT, Hyderabad hosted by Dr. Nicholas Clinton from Google’s Headquarter. All faculty members and students of SES took active participation in this event held on 23 February, 2018
- SES organised a one-day National conference on “Recent Advances in Environmental Sciences” at ABD Seminar Hall, SES, JNU. Faculties and students of SES, faculty members other Schools and Centers of JNU and leading scientists across India took part in this conference, 22 March, 2018
- Indo- Swiss workshop funded by DST, GOI India on Himalayan Glaciers was organised where a number of students were trained. Prof. AL Ramanathan Chetterjee.

Visitors to the School/Centre (4)

- Prof. K.M. Venkat Narayan, Director, Emory Global Diabetes Research Centre & Director, Georgia Centre for Diabetes Translation Research, was invited to give a talk on “Mysteries of Type 2 diabetes in South Asians”, Amrita Devi Bishnoi Hall, SES, 3 April, 2017
- Prof. Fabio Iwashita, Assistant Professor, Geosciences Department, Universidad de los Andes, Bogota, Colombia, was invited to give a talk on “A Machine learning Geostatistical Hybrid approach for spatial continuity analysis and assessment of groundwater parameters”, Amrita Devi Bishnoi Hall, SES, 13 November, 2017
- Prof. Padmanava Dash, Assistant Professor, Department of Geosciences, Mississippi State University, Mississippi, was invited to give a talk on “Assessment of Water Quality using remote sensing technology”, Amrita Devi Bishnoi Hall, SES, 5 December, 2017
- Ramesh P. Singh, School of Life and Environmental Sciences, Schmid College of Science and Technology, One University Drive, California, USA, was invited to give a talk on “Earth Observing Systems to Understand Land Ocean Atmosphere coupling Associated with Natural Hazards”, Amrita Devi Bishnoi Hall, SES, 18 January, 2018

Accomplishment of Students

- Organized Earth Day event themed: *Sustainable Earth* on 22 April, 2017 ADB Seminar Room, SES, 22 April, 2017 Keynote address by Dr. Manoj Prasad, Scientist VI, NIPGR on ‘Global Food Security & Climate Change – Some Technological Interventions’. Special lecture delivered by Dr. Surya Prakash, Head, Hydrometeorology and Hazard, NIDM, New Delhi on ‘Natural Disasters & Risk Management in Hilly Terrains’.

- Special session on Exhibition- painting & photography by students of SES and panel discussion on the topic: Sustainable Earth by Prof. S. Mukherjee (Dean, SES), Prof. S. Bhattacharya (SES), Prof. M. Sharma (CSR/SSS, JNU) and Prof. P. N. Desai (CSSP/SSS, JNU).

Any Other Information

- Prof. Mohan Dinesh, Designed and developed a technology to find a sustainable solution to biomass burning by converting agricultural residues into biochar. This biochar can then be used simultaneously to enhance soil fertility, enhance soil biological activities, improve nutrient retention in soils, enhance water holding capacity, enhance soil organic matter in soil, carbon sequestration & crop growth.
- SES is conducting awareness programmes in Villages of NCR through ENVIS programme funded by MoEF& CC, GOI, New Delhi

- **Pareek Ashwani**, Hybrid-type Histidine Kinase Gene Isolated from Indica Rice IR64, and Clones Produced Thereby. Patent granted in China (ZL 2009 8 0131254.4)

Future Plans

- Development of biochars from agricultural residues and their applications in water, soil and climate change mitigation.
- Development of low cost adsorbents for aqueous arsenic and pharmaceuticals remediation.
- Sources, transport, transformation, dispersion and different processes of pollutants in the environments (also initiated).
- Remediation (chemical and biological) and recovery processes of pollutants (natural, inorganic and organic) in environment (also initiated).
- Evaluation of fate and detoxification processes of remediated pollutants by Life Cycle Assessment for safe removal from environment (also initiated).
- The study of aerosol-cloud interaction and its impact on hydrological cycle (also initiated).

School of International Studies (SIS)

The School of International Studies is engaged in teaching and research of international relations, international politics, international trade, and area studies. It offers three Masters level Courses, and an M.Phil/Ph.D programme. Students who choose to do the Masters programme are part of the School, while those who wish to pursue their M.Phil and Ph.D can join any of the thirteen centres within the School. Entrance to these programmes is based on a rigorous entrance test and selection process.

The School has a highly qualified faculty that specializes in the various fields associated with the School. The faculty draws its inspiration from the highest traditions of scholarship set by the School and JNU at large. Recently, the SIS has introduced new programmes like Energy Studies and Human Rights programmes.

The SIS was established in 1955 and is one of the oldest schools of the University. The School is highly multi-disciplinary in its approach. The SIS has been a pioneer in establishing international relations as a distinct academic discipline and advancing knowledge of other regions as part of Area Studies, to Indian and foreign students. The SIS has acquired national and international reputation as a centre of advanced learning.

In its very early years, the School focused exclusively on research with the PhD programme being at the core of its academic activities. However, subsequently after becoming a part of JNU in 1971-72, the School added M.Phil curriculum to its academic programme. Later in 1973-74, the School started offering a two-year MA (Politics: International Studies) programme, which was further strengthened by offering an MA programme in Economics (with specialization on World Economy) at the Economic Division of the Centre for Studies in Diplomacy, International Law & Economics in 1995-96. The School started offering two year MA (International Relations and Area Studies Programme) from Monsoon Semester 2015-16.

Over the years, admissions have become fiercely competitive with the School attracting the brightest minds from India and abroad. The School has, as on 31 March 2018 awarded 1563 Ph.Ds and 4141 M.Phil degrees.

Admissions to various academic programmes at the School are supplemented by financial assistance (details available at JNU website). Further, a number of our M.Phil/PhD students also qualify the UGC/JRF, RGF, MANF fellowships.

Presently, the School has 101 faculty members: 51 Professors, 23 Associate Professors and 27 Assistant Professors, 01 Prof. Emeritus, 01 Research Assistants and 01 Documentation Officers. The faculty strength is further supplemented by several prestigious Chairs being instituted at the School (Appadorai Chair, Nelson Mandela Chair (CAS), Jean Monet Chair in CES and Chairs in Environmental Law and Space Law). The faculty of the School, by advancing pedagogical and applied knowledge, have established global reputations in their respective areas of expertise. It is also a matter of pride that several of our faculties are members of important government and non-government bodies, while others constantly engage with public discourses and civil society issues.

The School also engages with issues of contemporary relevance by organizing regular national & international seminars, workshops and symposia on various aspects of area studies, bilateral relations and themes relating to study of international relations.

The School also publishes a refereed quarterly journal, *International Studies*, which publishes original research articles on international relations and area studies. The journal, from its inception in 1959, has been publishing original research articles and has received international recognition. The School is known for the large number of seminars and workshops that all the Centres organize on multiple issues and themes. A large number of dignitaries, academics and others visit the School regularly.

The School also has UGC sponsored/ funded Area Studies Programms like Gulf Studies in CWAS, Centre for Russian & Central Asian Area Studies Programme in CRCAS, European Area Studies Programme in CES, Francophone Area Studies Programme in CAS and Centre for Inner-Asian Studies in CIAS. Foreign languages like Arabic, Japanese, German, Russian and others are taught in the various Centres.

The School has thirteen Centres and two special programmes and offers the following M.Phil/Ph.D. programmes:

- Canadian, US and Latin American Studies
- European Studies
- International Legal Studies
- International Trade and Development
- Chinese, Japanese and Korean Studies
- International Politics, International Organization, Diplomatic and Disarmament Studies and Political Geography
- Comparative Politics and Political Theory
- Russian and Central Asian Studies
- South Asian Studies
- Indo Pacific Studies
- Inner Asian Studies
- West Asian Studies and
- African Studies

The profiles of the Centres contain a detailed description of the M.Phil/Ph.D programmes and other academic activities being undertaken at the respective Centres

- M.A. Politics (International Studies): The M.A. in Politics (with specialization in International Studies) at the School remains one of its flagship and most popular programmes, offering core and optional courses based on discipline and areas studies. Presently, with an intake capacity of 112 students [33 male and 70 female] and 09 casuals, the programme is being run by faculty from all the Centres of the School.
- M.A. Economics (with specialisation on World Economy): has a clear emphasis on emerging global issues like trade, technology, environment, national resources, development, regulation, information economics, which makes it unique and distinct from MA (Economics) programmes offered elsewhere in India. With 39 students [14 male and 25 female], this programme is run by the Centre for International Trade and Development (CITD). A detailed description of this programme of study is given under the profile of CITD.
- M.A. (International Relations and Area Studies) started from Academic Session 2017-18. Student admitted- Male: 07, Female: 40: Total: 47

This programme offers core courses in IR and Courses on Area Studies offered by all Centres/ programme of the School. This is the first full-fledged Area Studies Masters programme offered in India.

About the Centres:

Centre for International Politics, Organisation & Disarmament

The Centre for International Politics, Organization and Disarmament (CIPOD) comprises four distinct yet interlinked divisions:

- International Politics
- International Organization
- Diplomacy and Disarmament
- Political Geography

It is noteworthy that of the three original Divisions of the Centre, the two on International Organization and Disarmament were extremely innovative and remain rare in the university system of today. Soon afterwards, a separate division on Political Geography was also created in the Centre. In the latest restructuring of the School of International Studies in 2005, a new division of Diplomatic Studies (which was earlier part of another Centre) – was merged with CIPOD. The Diplomatic Studies division, since its inception in 1970, has been involved in teaching and research in historical and contemporary issues in diplomacy. In the year 2007, the Diplomatic Studies and Disarmament Studies have been merged into one Division, to be known as Diplomacy and Disarmament Studies Division (DAD).

In the reporting year, the Centre had 146 M.Phil and Ph.D. students: 33 in International Politics (INP), 37 in International Organization (ORG), 55 in Diplomacy and Disarmament Studies (DAD), and 21 in Political Geography (POG). During

the year, the Centre admitted into the Centre's M. Phil /Ph. D. Programme: 04 in INP, 10 in ORG, 13 in DAD and 08 in POG

Centre for African Studies

The Centre for African Studies is an interdisciplinary centre for study of Africa. It aims at promoting African studies as an academic discipline for advancing knowledge and understanding of African affairs through an inter-disciplinary perspective. It brings together scholars having an active interest in Africa from all over the country and abroad. The Centre has two major programme of studies- M. Phil. and Ph.D. It also offers courses for the M.A. programme offered by the School of International Studies. The teaching and research programme of the Centre has been designed to cover both the traditional as well the contemporary issues relating to the region.

The current academic curriculum of the Centre focuses on the following thrust areas: regional organizations, government and politics, state and civil societies, ideologies, governance, Diasporas, bilateral relations, issues of development and foreign policy of major African countries. Besides this the Centre has its own research focus on Asian engagement with Africa.

To facilitate the development of research, training and interaction with scholars from abroad, the Centre holds a Nelson Mandela Chair, funded by ICCR, through which visiting faculty from African countries are invited every semester. The visiting faculty participates in various programmes and activities of the Centre.

Seminars and conferences are organized regularly by the Centre in order to strengthen its academic programme by facilitating exchange of views among scholars. In pursuance of its aim, the Centre is involved in several academic outreach programmes on African affairs involving Indian academic institutions. It hosts the permanent secretariat of African Studies Association of India (www.africanstudies.in), which is an apex academic association of Indian Africanist coming from all disciplines and from all Indian Universities and academic institutions.

Centre for Canadian, US and Latin American Studies

The Centre for Canadian, US & Latin American Studies (CCUS&LAS), consists of three programmes viz - US, Canadian and Latin American Studies. The centre offers an integrated M.Phil/Ph.D. programme and also offers optional courses for the Masters' Programme of the School. The faculty are engaged in teaching, research guidance, participation in conferences and seminars both in India and abroad, organizing special lectures, round tables and discussions. The Centre has several activities involving the students: they initiate discussions on their Ph.D. themes with the rest of the Centre and defend their synopses; they also participate in relevant programmes of the University and assist the faculty in the course work. The research programmes of the Centre have rigorous curricula based courses following an inter-disciplinary and multi-disciplinary approach. Students are encouraged to develop independent research skills that would help them in their future careers in academia, Government service, research institutions and media amongst others. Currently, the Centre has 53 students enrolled in the M.Phil / Ph.D. programme.

The Centre routinely invites specialists, diplomats, media persons, librarians amongst others to interact with students on various themes relevant to the research programmes. The faculty also lectures at various government institutions, such as Foreign Services Institute, New Delhi, Army War College, Indore, and Academic Staff Colleges of various other universities in India. In addition, the faculty of the Centre publish regularly in various national and international journals. The Centre follows a rigorous academic schedule by holding regular classes, tutorials and examinations in order to equip the students in the subject. It maintains a cordial atmosphere by encouraging the students to initiate and take part in discussions and in project related research activities. The Centre encourages students to publish their work according to the rules of the UGC and guides them in pursuing a fruitful academic career. It maintains high level of subject competence through its faculty and research scholars by initiating research in contemporary issues and themes.

Centre for International Trade and Development

The Centre for International Trade and Development (CITD) was established as an independent centre in the School of International Studies, Jawaharlal Nehru University in July 2005. Prior to this the centre was known as the International Trade and Development (ITD) division as part of the erstwhile Indian School of International Studies, which integrated with the newly established Jawaharlal Nehru University in the early 1970s as the School of International Studies.

Over the last 50 years ITD has created a niche for itself in teaching and research in international economics and economic development. The first head of ITD was the renowned economist, the late Professor A K Dasgupta. He was succeeded by our distinguished colleague Professor Ashok Guha, who was the guiding force of ITD since 1963, until his retirement. He continues to be involved in the teaching programmes of the Centre. Former faculty include B.S. Minhas, Subimal Mukherji, Partha Dasgupta and others. Stalwarts like John Hicks, James Meade and Robert Baldwin have visited the division to deliver lecture-series.

Initially ITD was primarily geared towards research, running very successful MPhil and PhD programmes for several decades. In 1995, we introduced a unique MA programme in Economics (with specialisation in the world economy), keeping in mind the changing economic environment of India and its integration with the world economy. The curriculum has been designed with a clear emphasis on emerging global. This MA programme has proved to be highly successful, and is one of the most popular MA Economics programmes in the country.

CITD is perhaps the only economics department in the country that focuses exclusively on international economics and economic development as its main areas of teaching and research, specialising in areas like trade & investment, technology, environment & natural resources, health& nutrition, finance, law & economics, poverty, inequality, and education.

The centre is served by distinguished faculty trained at the top ranking universities of the world. Faculty strive to maintain the highest academic standards in teaching, and produce high quality, cutting-edge research and regularly publish articles in the leading academic journals of their field. Faculty members have been conferred with various honours, awards and distinctions for their academic and professional contributions.

Our graduates are well established in the academic world in India and abroad, holding positions of great responsibility in the government, international organizations and the corporate world.

The centre runs a discussion paper series for early dissemination of research results, which is recognised by Ideas/Repec. To expose students to recent developments in the discipline of economics and provide a stimulating research environment, the Centre also conducts weekly seminars and organizes Conferences on select themes.

The Centre received an endowment from the Ford Foundation in 1993. This enabled the centre to provide scholarships to students, to maintain its own well stocked library and to appoint a Ford Fellow from time to time, who participates in its teaching and research activities.

Centre for European Studies

The Centre for European Studies is a multi-disciplinary department in the School of International Studies which aims to promote teaching, research, and outreach activities that improve the understanding of Europe, the European Union and Indo-European/India-EU affairs. The Centre became functional in 2005. It was an outcome of the larger restructuring exercise initiated by the School in 2004 following which it came into existence by merging the West European Division of the erstwhile Centre for American and West European Studies (CAWES) and the East European Division of the erstwhile Centre for Russian, Central Asian and East European Studies (CRCA&EES). The Centre for European Studies aims to develop a pool of experts on Europe. Every year, the Centre admits about twelve to fifteen students in its M.Phil. Programme. Currently more than 60 students are on the rolls of the Centre for the MPhil/Ph.D. programme and are pursuing research on wide ranging issues of security, economy, European integration, society and politics. The main objective of the programme is to prepare candidates for inter-disciplinary doctoral research on Europe. The M.Phil./Ph.D. research in the Centre is of high-quality, both in academic rigour and relevance. Since the research in the Centre is interdisciplinary in nature, efforts are made to expose students to other social science subjects which go beyond their parent disciplines. Learning of at least one European language (apart from English) is a critical component of the research programme of the Centre. A one--year language course is compulsory for all students. From July 2014 the Centre has introduced a French language course in addition to German which had been offered since 2005. In the newly emerging globalizing international environment, emphasis is given to broad social science concepts along with specific European issues. Apart from empirical research on Europe, students are also encouraged to develop skills in broader theoretical research and analysis. The Centre has also identified the Nordic region as a focus area of research/teaching and a joint course on ***“Contemporary Issues in the Nordic Region”*** is being offered along with two new focus areas: the

Baltic region and the Mediterranean region. The Centre got further recognition in the year. Prof. Ummu Salma Bava was awarded the prestigious Jean Monnet Chair for the period 2017 – 2020. Dr. Sheetal Sharma was awarded the Jean Monnet Module 2017 – 2020.

Centre for Inner Asian Studies

The Centre for Inner Asian Studies became an independent Centre in August 2013. The Centre has three Professors, one Associate Professor, two Assistant Professors, one Research Associate and one Post-Doctoral Fellow. As on 31 March 2018 the total number of students was around 75. The faculty members of the Centre have contributed immensely to the Centre's academic pursuits through high quality publications in the form of books and research papers, both at the national and international level. One book and 19 chapters/ research articles in books and journals were published.

One faculty member (Prof. Sharad K. Soni) was conferred the Bharat Vikas Award from Institute of Self Reliance, Bhubaneswar on 19 November 2017 for loyalty, diligence and outstanding performance in the field of International Relations, and the Rashtriya Gaurav Award from India International Friendship Society (IIFS), New Delhi on 27 May 2017 for outstanding services, achievements and contributions to the field of education, Mongolian Studies in particular. Another faculty member (Prof. Sangeeta Thapliyal) visited York University, Canada on a fellowship under Shastri Mobility Programme in June-July 2017. Yet another faculty member (Dr. Mahesh Ranjan Debata) was appointed as Visiting Professor (June 2017 to June 2020) at the School of International Education, Yinchuan University of energy, Yinchuan, Ningxia, China.

The faculty members have participated in various national and international seminars, conferences and workshops, and presented papers, chaired sessions and acted as moderators. They have also occupied positions as members of national and international academic institutions, organizations etc. Almost all the faculty members have undertaken research projects on the thrust areas of the Centre and also undertaken field trips. Students of the Centre have been active in publishing research papers and participating in national and international seminars. The students have also started panel discussions organized and participated as by the students. The students, through the Student-Faculty Committee (SFC), have been active in giving inputs to the Centre.

In view of the growing importance of Inner Asian Studies in India, the University Grants Commission (UGC) has recognized the Centre for Inner Asian Studies as advance studies and research Centre on Inner Asian region and provided grant under its Area Studies Programme. In order to add more strength to the research activities of the Centre, students and faculty members are allowed to undertake field visits under the UGC-Area Studies Programme of the Centre. The Centre has thus made successful efforts to carry out the research and the academic mandate of the University.

Centre for East Asian Studies

The Centre for East Asian Studies is one of the thirteen Centres in the School of International Studies, Jawaharlal Nehru University, New Delhi. Initially, established as a Centre for Chinese and Japanese Studies, it subsequently grew to include Korean Studies as well.

The students of the Centre are drawn from various social sciences and humanities such as History, Political Science, Economics, Sociology, International Relations and Chinese, Japanese and Korean languages. The key objective is to impart an interdisciplinary knowledge and understanding of the foreign policy, government and politics, society and culture and political economy of the respective areas. Students can explore new and emerging themes such as East Asian regionalism, the evolving East Asian Community, the rise of China, resurgence of Japan and the prospects for reunification of the Korean peninsula. Additionally, the Centre lays great emphasis on enhancing language skills. The academic curriculum covers various dimensions of modern and contemporary East Asia -China, Japan and Korea – one of the most dynamic and significant regions of the world today. The M. Phil programme involves two semesters of classes followed by a dissertation over the next two semesters. A total number of 98 students are currently registered (about 57 in Chinese Studies, 28 in Japanese studies and 13 in Korean Studies) in the M. Phil and Ph. D. programmes.

There are eight faculty members in the Centre. Each faculty member specializes and teaches courses in an area of his/her interest in the region. Several distinguished faculty who taught and mentored the young research scholars include late Prof. Gargi Dutt, late Prof. P.A.N. Murthy, late Prof. G. P. Deshpande, late Prof. Naranarayan Das and late Prof. R.R. Krishnan, Prof. K.V. Kesavan, Dr. Madhu Bhalla Besides, Prof. Lalima Varma and Prof. H. S. Prabhakar, taught at the

Centre for Japanese Studies programme 1978 – 2018 (February). The faculty members of the Centre have supervised 95 Ph. D. theses, (Chinese Studies 53, Japanese Studies 39, and Korean Studies 3) and 315 M. Phil. dissertations (Chinese Studies 160, Japanese Studies 111 and Korean Studies 44) till date. In addition, Ms Kamlesh Jain and Dr. M. M. Kunju served as the Documentation Officers in Chinese and Japanese Studies respectively at the Centre and retired.

Several students of the Centre have been recipients of prestigious research fellowships awarded by Japan Foundation, Mombusho (Ministry of Education, Government of Japan), Saburo Okita Memorial fellowship, Nippon Foundation, Korea Foundation, Korean Government Scholarship (up to 4 years) under the India-Korea Cultural Cooperation Agreement, Academy of Korean Studies Scholarship, Nehru Memorial Fellowship, China Government Scholarship (up to 4 years) under the India-China Cultural Cooperation Agreement, and Fellowship from the Chinese and Taiwanese Governments. Besides, students from Japan receive fellowships from the Indian Council of Cultural Relations. Apart from the scholarships for higher studies and research available at the University level, offered by the University Grants Commission, (Government of India) the Rajiv Gandhi Foundation and the Nehru Memorial Fund, there are a number of scholarships that are available specifically for area studies research.

Centre for International Legal Studies

The Centre for International Legal Studies conducts advanced studies and research on a vast number of issues and challenges in the various sub-disciplines of public international law today: Theories of International Law, International Human Rights Law, International Humanitarian Law, International Criminal Law, International Refugee Law, International Environmental Law, International Dispute Settlement, International Courts and Tribunals, International Trade Law, International Economic Law, International Energy Law, Intellectual Property Rights, Law of the Sea, International Water Law, International Maritime Law, International Air and Space Law, International Institutional Law. Legal research at the Centre has contributed to the articulation of ‘Third World Approaches to International Law’ (TWAAIL). Through its critical engagement with mainstream scholarship and theoretical frameworks, the Centre aspires to contribute to a deeper understanding of the theoretical premises and biases of International Law today.

Centre for Comparative Politics & Political Theory

The Centre, which began as a programme with a faculty of two, was recognized as a full Centre for Comparative Politics & Political Theory, in the School of International Studies, in 2008. CCPPT currently has 8 faculty members – 3 professors, 1 Associate Professor and 4 Assistant Professors. The Centre offers four MA core courses – Indian Political System, Comparative Political Analysis, Political Thought I and Political Thought II and 2 optional MA courses - Critical Thought in the Global South and Political Economy of Science and Technology. The Centre offers one M.A. (IRAS) course titled Comparative Political Analysis, at the School of International Studies, JNU

At present 15 students are pursuing their Direct PhD in the centre. In 2016, CCPPT began an M.Phil. programme with 10 students. The M.Phil. courses offered are Comparing the Political: Concepts and Practices, Counter Hegemonic Thought in the Global South, Political Economy of the Modern Prison, Theorizing Politics beyond the Rational, Research Methodology and a Seminar Course.

Centre for South Asian Studies

The Centre for South Asian Studies is one of the oldest centres of the School of International Studies, Jawaharlal Nehru University (JNU), New Delhi, India. The importance of the centre is self-evident in the fact that it lies in the South Asian region. The centre has the privilege of having widely known faculty members. The centre also takes pride in the fact that it has directly participated in the foreign policy making exercise in the country as two of its former faculty members Late Prof Bimal Prasad and Prof Emeritus SukhDeo Muni served as Ambassadors to Nepal and Laos respectively. The centre has organised a range of national and international seminars, round tables, symposia and workshops with regional and international experts, policy makers, academicians and civil society members. The centre has hosted and conducted projects for various Ministries, Indian Council for Social Science Research, University Grants Commission, Asian Development Bank, Ford Foundation, International Development Research Centre, Regional Centre for Strategic Studies, USAID, United Nations High Commissioner for Refugees, UNESCAP and many other national and international bodies. The Centre for South Asian Studies covers studies and research on a range of aspects of 8 countries. All the academic activities including teaching and interdisciplinary research have been designed to objectively study and analyse history, politics, foreign policy, security, societies, economies, environment, regional cooperation/integration and contemporary

affairs in different regions/countries covered by the Centre. The Centre has focused on academic pursuits that have strong intellectual value, deeper social relevance and wider national and international utilities and policy dynamics. Its programme of studies has attracted bright students having diverse background from various parts of India and also from other countries. It has evolved into a full fledged institute of academic excellence, much admired by students, frequently consulted by the national governments and eagerly sought after by international organizations and other academic institutions. The profile of the students who have completed their studies from the Centre does show that a large number of them have joined premier academic and research institutions and equally large numbers are in the national and state civil services. Many of the students have done exceedingly well in media and non-governmental organizations, other tertiary sector activities and national and regional politics. The importance of the Centre has become more critical and vital both in the context of large scale transformation in the global scenario and also within the countries that have been traditionally covered and studied by the Centre. There are immense opportunities for academic inquiry triggered by these new developments.

Centre for Indo-Pacific Studies

The Centre for Indo-Pacific Studies (CIPS) is a new Centre created in 2013 keeping in view the profound shifts that are taking place around India and India's rapidly rising stakes in the Indian Ocean and East Asia. Equally, it is also a reflection of today's geopolitical realities. The Indo-Pacific as a region is emerging as the new template of reference since the confluence, interdependence and interface of the Indian and Pacific Oceans are getting strengthened not merely economically but geo-strategically as well. The Indo-Pacific, comprising a vast spatial continuum spread from the Indian Ocean all the way up to West Pacific, including the crucial regions such as Southeast Asia and South Pacific, also brings forth India's centrality and its relationship with regions in the Indo-Pacific quite distinctly. The primary areas the Centre focuses on Southeast Asia, the South Pacific and the Indian Ocean. First of its kind anywhere in the world, CIPS's intent is to break new ground by focusing its research and teaching on new frontiers of knowledge and bring out newer dimensions of a rapidly changing world. The programme is supported by a competent and dedicated team of faculty committed to high quality teaching and research. Plans are afoot to expand and develop it into a leading Centre of academic excellence.

Centre for West Asian Studies

The Centre for West Asian Studies conducts teaching and research programmes covering countries of West Asia and North Africa. It specializes in domestic politics, foreign policy and socio-economic issues pertaining to countries extending from Morocco in the west to Iran in the east. The Centre conducts M.Phil and Ph.D. programmes and actively participates in and offers courses for the M.A. programme of the School of International Studies. It organizes periodic national and international seminars on important themes concerning West Asia and North Africa. Weekly student-faculty meetings (on every Thursday) offer opportunities for academic presentations for students and faculty and to listen to many scholars from national and foreign universities and institutions. The Centre provides an active intellectual environment for an interdisciplinary understanding of this dynamic region.

The Gulf Studies Programme (GSP) of the Centre was established in March 1978. It has developed into a vibrant centre of activities organizing seminars, symposia and lectures besides teaching research and publications. Initially, the focus of its activities was confined to the Gulf Cooperation Countries, i.e. Saudi Arabia, Kuwait, UAE, Oman, Qatar and Bahrain, now, Iran, Iraq and Yemen are also covered. It has been promoting studies on issues of contemporary relevance and of academic importance. In promoting these studies, the focus is not only on the emerging political, economic and strategic dimension of bilateral relations but also on policy framework. Other areas include Religious Revivalism in the Gulf Region; Non-Resident Indian Entrepreneurs from the Gulf; Democratic Movements and Processes; Arms Race in the region and India; and the Gulf and India's Energy Security.

Centre for Russian and Central Asian Studies

The Centre for Russian and Central Asian Studies is engaged in teaching and research of the Eurasian region which includes Russia, the Central Asian Republics, states in south Caucasus, Baltic countries, Ukraine, Belarus and Moldova. The region is important because it lies in India's extended neighbourhood and has become strategically very important in recent time. India has strong ties with the states of the region historically, strategically and for economic and geopolitical interests. Hence the Centre is involved in research on a very significant area.

The Centre is recognised for advance research, knowledge and scholarship on the region not just in India but across South Asia, Central Asia, Russia and elsewhere. Faculty members and researchers from the Centre link with scholars from many countries as this report shows. Students from this Centre after finishing their research join academic and research related occupations and are known for their contribution in all parts of India and abroad.

This Centre, previously known as the Centre for Soviet and East European Studies, was the largest area studies centre in the country and was accorded great importance. The Centre is the premiere department in the country for research and teaching on Russia, Central Asia and other republics of the former Soviet Union. Since its inception in 1975, the primary aim of the Centre is to foster an interdisciplinary research and insight on issues pertaining to this region by bringing together scholars, trained in diverse social science disciplines. We have an excellent community of scholars who specialize in disciplines ranging from Political Science, International Relations, History, Economics and Sociology to Russian Language and Literature. The Centre encourages interdisciplinary thinking and promotes opportunities for meeting, interaction and exchange of views with scholars from India and abroad. In terms of facilitating academic interaction, the Centre regularly organizes international/national seminars, round table discussions, talks and lectures.

The Centre has a regular M.Phil/Ph.D programme and offers courses for the two M.A. programme of the School of International Studies. The number of seats available for M.Phil/Ph.D programme in the Centre is approximately 40 every year. Since 1978, the Centre has immensely benefited from the UGC Area Studies Programme in terms of faculty appointment, capacity-building, research based on primary sources and fieldwork, collaborative endeavours with scholars and institutions in former Soviet republics and interaction. Our international seminars bring large number of scholars from India and abroad to deliberate on issues of common interest. The Centre faculty has a large number of research publications that add to the generation of Indian perspectives on various issues relating to politics, society, economy and foreign policy of the states in the Eurasian region. It has fulfilled the original ideas inherent in the creation of Area Studies Programmes in the Country – interdisciplinary research, and to develop knowledge based on independent and in-depth research. The Ph. D research of scholars and the faculty reveal the breadth and depth of inter-disciplinary research done in the Centre. Through field-work and interaction with scholars and policy makers in post-Soviet countries, the faculty members and research scholars have provided different perspectives on various aspects of post-Soviet development.

The Centre has a library-cum-reading room funded entirely out of its own resources and that of individual faculty member's contributions and without any support from outside. It has a collection of about 1,200 books and journals, including some rare ones. Under the Area Studies grant, the Centre procure books written on various themes such as economy, political system, society, culture, energy security, terrorism, geo-politics, foreign policy etc. related to Russia and Central Asian Republics. These books have been kept in the reference section of the main library of the university.

The Centre invites as visiting faculty foreign scholars from post-Soviet countries, some of whom spent a month each as visiting professors, while others delivered lectures in the Centre.

Centre for Canadian, US & Latin American Studies

The Centre remains committed to upholding the highest standards of research. Faculty are engaged in constantly updating curriculum so as to provide relevant scholarly and policy materials through various programs. The Centre plans to

augment the faculty strength by involving visiting fellows and professors from the countries being studied by the Centre. Currently, the Centre has one US researcher under the Fulbright Programme, who would be joining this semester. Centre plans to organize a National / International Conference on relevant themes and invite high ranking officials, experts and policy makers to interact with students and faculty.

The Centre has decided to publish proceedings of the conference on “*Emerging Security Order in Indo-Pacific: Issues and Challenges*”, held on 14 – 15 July, 2018, the Centre is also exploring publication avenues for research scholars.

The Centre faculty is also engaged in research projects that would be completed in one years’ time. The faculty expects to engage with the media and other universities as subject experts and resource persons in order to engage public opinion.

Centre for East Asian Studies

The Centre plans to organize Seminars, Workshops and Conferences on East Asia besides the M.Phil/PhD presentations, synopsis and others as per the Academic Calendar of the Centre.

**SCHOOL OF LANGUAGE, LITERATURE &
CULTURE STUDIES
(SLL&CS)**

SCHOOL OF LANGUAGE LITRATURE AND CULTURAL STUDIES

School of Language, Literature and Culture Studies (SLL&CS)

Established in 1969, and thus one of the founding blocks of the University, the School of Language, Literature and Culture Studies (SLL&CS) is one of the premier institutions in the country in the field of learning languages and pursuing higher studies and research in linguistics, literatures in various languages, and culture studies. Its global reputation has earned it place as one of the five degree-awarding partners of the prestigious Erasmus Mundus Joint Doctorate in “Cultural Studies in Literary Interzones” of the European Union, and one of its constituents, the Centre for English Studies, has been repeatedly adjudged as one of the top 100 departments of literary studies in the world. Furthermore, all the Centres of the School, and the School itself, have active international collaborations with leading universities of the world through AoC-s and MoU-s.

SLL&CS has twelve centres: Centre of Arabic and African Studies (CAAS), Centre for Chinese and South-East Asian Studies (CCSEAS), Centre for English Studies (CES), Centre for French and Francophone Studies (CFFS), Centre of German Studies (CGS), Centre of Indian Languages (CIL), Centre for Japanese Studies (CJS), Centre for Korean Studies (CKS), Centre for Linguistics (CL), Centre of Persian and Central Asian Studies (CPCAS), Centre of Russian Studies (CRS), and Centre of Spanish, Portuguese, Italian and Latin American Studies (CSPILAS). Besides, the School also has a well-equipped Language Lab and Multimedia Complex (LLC).

The different units of the School offer a variety of programmes in diverse subjects. There are Certificate, Diploma, and Advanced Diploma of Proficiency programmes in foreign languages like Bahasa Indonesia, Italian (currently not on offer), Mongolian, Portuguese and Pushtu, and also in Urdu language and Mass Media in Urdu. The School offers BA (Hons.), MA and MPhil/PhD programmes in foreign languages like Arabic, Chinese, French, German, Japanese, Korean, Persian, Russian and Spanish. The School also offers MA and MPhil/PhD programmes in English, Hindi and Urdu literature, and in Linguistics. Apart from these, SLL&CS offers MPhil in Portuguese, and MPhil/PhD in Hindi Translation, and in Tamil. Besides, the School also offers optional courses in Greek, Hebrew and Turkish languages.

Over and above these existing programmes, the School has a Kannada Chair, and currently vacant professorial positions in Bengali, Assamese and Marathi, and there are concrete developments towards establishing a Chair of Odiya. Besides these formal programmes, a variety of Tool/Optional courses are offered within the School, which promote interdisciplinarity. The School also is at the spearhead of the highly successful Remedial Course in English under the Linguistic Empowerment Cell to all students of the University who need to increase their competence in the language for academic purposes.

Besides teaching and research activities, the School also publishes its own journal, *Journal of the School of Languages (JSL)*, which started publication in the seventies and has over the years published significant research on literatures, languages, culture studies, comparative studies, and translation that cut across language boundaries. Besides, some constituent units of the School have their own publications, like the CRS has its journal *Critic*, and the CSPILAS has its journal *Hispanic Horizon*.

SLL&CS produces the very best scholars in the fields of language teaching, linguistics, literature and culture studies, as well as internationally acclaimed translators and interpreters. Members of the School, while providing directions and visions to their respective Centres and the School in general, have also distinguished themselves nationally and internationally by the quality and range of their individual research, publications and other achievements.

About the Centres

Centre of Arabic and African Studies

The Centre of Arabic & African Studies offers BA (Hons.) MA and MPhil/PhD Programmes in Arabic. It also offers four tool courses on History and Culture of the Arab World and two optional courses on Modern Hebrew Language & optional courses in Arabic. The faculty members, apart from participating and presenting their valuable papers in national and international conferences and symposia, have extensively contributed articles to various leading magazines and journals of Arabic Studies and edited volumes being published in India and abroad. In addition to this, the Centre has produced a good number of M.Phil and Ph.D scholars. Most of the research works done by our scholars have been well appreciated by external experts and were recommended for publication.

In future, the Centre plans to introduce short-term certificate/diploma courses in Arabic, as well as certificate/ diploma courses in Hebrew, besides intensifying interaction with the academic institutions in the Arab world by inviting eminent scholars to deliver lectures and interact with our students and teachers.

Centre for Chinese and South-East Asian Studies

The CCSEAS offers BA (Hons.), MA and MPhil/PhD programmes in Chinese, and Certificate of Proficiency and Diploma of Proficiency in Bahasa Indonesia.

As for the future, the Centre plans to offer additional courses in Bahasa Indonesia, and a Tool Course on the socio-political, cultural and historical realities of China through the medium of English for the benefit of all the undergraduate students of the School.

Centre for English Studies

The CES offers MA and MPhil/PhD programmes in English. The programmes are interdisciplinary and transdisciplinary in nature, in which theoretical and comparative research is undertaken in a wide range of areas emanating from linguistic, literary and cultural studies. The Centre also offers Optional and Tool courses in English language and literature for undergraduate students of the School. The thrust areas of the Centre include British Literature, Literatures in Other Englishes, contemporary literary and cultural theory, folklore and popular culture studies, classical Indian poetics and grammatical tradition, and the theory and practice of translation.

Given the nature and range of academic engagements at CES, we envision becoming a Special Centre for English and Cultural Studies, with autonomous and interdisciplinary linkages with foreign and Indian languages as well as other disciplines in the humanities and social sciences.

We see the further strengthening of our research programmes as an important priority. Our plans include (a) organizing research workshops for MPhil and PhD students at regular intervals to introduce them to new areas and methods of research, and (b) creating a forum for regular presentations by PhD students to peers and faculty on their work in progress, to which specialists in their areas may be invited. This will give them valuable feedback and also allow them to share their work, and for the Centre to be apprised of the range of research being carried out.

We also look forward to further international collaborations with adequate students' mobility, so that our researchers can get exposed to the international best practices of research in their field. We also have future plans of promoting and subsidising students' publications through funds received by the Centre, to make the massive and pathbreaking research output of the Centre more visible.

Centre for French and Francophone Studies

The CFFS offers BA (Hons.), MA and MPhil/PhD programmes in French. It pursues multidisciplinary research on the cultural, socio-economic and political reality of France and Francophone (French-speaking) countries. Major thrust areas of the CFFS include language learning as well as research in French and Francophone Literature, Interpretation, Translation, Linguistics, Language Didactics, and Culture Studies.

In future, the Centre plans to develop further the sub-Saharan francophone component in the courses offered at Postgraduate level, as well as to introduce courses on subtitling & dubbing in films, besides developing a translation database in collaboration with the end users. Also, the CFFS continues to strive to promote interdisciplinary research at M Phil/PhD level in collaboration with other departments in the University and outside.

Centre of German Studies

The CGS offers BA (Hons.), MA and MPhil/PhD programmes in German. The focus of the Centre is on German Studies as an integrative part of Culture Studies. This includes comparative and contrastive studies between German speaking countries and India, in the areas of Culture, Translation, Methodology of teaching German as a foreign language, Applied Linguistics, as also in fields of inquiry emerging out of socio-cultural changes such as media studies, film studies, oral culture studies and aspects of Indo-European studies, etc.

The Centre has received generous assistance from governments and institutions of Germany, Austria and Switzerland, and the Centre will continue to cooperate with HSS Foundation and DAAD as both agencies will continue their support to research scholars from CGS.

Centre of Indian Languages

The Centre of Indian Languages was established in 1974 with a view to undertake socially relevant and intellectually sound research and higher studies in Indian Languages. An implicit benefit of having such a Centre was to promote the interdisciplinary approach and a comparative perspective in the study of Indian languages & literatures in accordance with the general orientation of JNU and SLL&CS. This perspective has been a motivation behind the course content, teaching methodology and academic orientation of the Centre over the last three decades. The acute limitation however had been the fact that the CIL had been forced to confine itself only to Hindi, Urdu and Hindi Translation for long, thus virtually reducing itself to a Centre of selective North Indian Languages. However, the situation has now improved with the inclusion of the Tamil programme, the establishment of chairs in Kannada and Odia, and the sanction of currently vacant positions in Assamese, Bangla, and Marathi. Efforts are on to establish chairs in other Indian languages too. The proposal of a School of Indian Languages, Literatures & Culture Studies has also been under the consideration of the Academic Council of the University which, if it comes through, will be a step in the right directions.

Presently, the Centre offers M.A. in Hindi & Urdu, M.Phil./Ph.D. in Hindi, Urdu, Hindi Translation, Tamil, lectures in Kannada and Odia, ADOP Mass Media (Urdu)/COP(Urdu)/Tool/Optional in Hindi/Urdu & Beginners courses I&II for foreign students; and altogether there are more than 600 students and research scholars registered under various programmes and courses offered by the Centre.

Centre for Japanese Studies

The CJS offers BA (Hons.), MA and MPhil/PhD programmes in Japanese.

The Centre has academic and cultural exchange programmes with various educational institutions, which include operational Agreements of Cooperation with Shinnyoen, Japan, and an MoU between JNU and MOKPO International University. The Centre also collaborates with Japan Foundation, Japanese Language Teachers Association of India (JALTAI), Mombusho Scholars Association of India (MOSAI), etc. in organizing seminars, conferences and workshops related to Japanese studies.

The Centre for Japanese Studies, in its endeavor to develop a variety of areas of research, has started courses on Folklore and Folk Culture at the Masters Level. In this regard, a field trip of selected meritorious students of M.A and M.Phil (accompanied by faculty) to a Japanese University is undertaken where the students get an opportunity to share their research with experts in the field. This is supported by the Japan Foundation.

Centre for Korean Studies

The Centre for Korean Studies went into its 5th year of existence as an independent Centre quite smoothly and organized various academic and cultural events throughout the year for the promotion of Korean Studies in India and South Asia. Future plans include consolidation of ongoing programmes and improvement in the research output of the Centre. Also, collaboration with foreign Institutions and Governments shall continue in an effort to enhance academic research as well as professional opportunities for the students.

Centre for Linguistics

The Centre for Linguistics offers MA and MPhil/PhD programmes in Linguistics as well as Optional courses in Linguistics for undergraduate students of the School.

It is one of the leading centres for linguistics and language studies in India and focuses on core areas such as phonetics, phonology, morphology and syntax, as well as on areas in interdisciplinary language studies such as psycholinguistics and sociolinguistics. The CL is also known for its expertise in Semiotics and in the Indian grammatical tradition. Some of

the other areas of research by the faculty include language typology and sign language, with bio-linguistics being an emerging area of common interest among the faculty.

Centre of Persian and Central Asian Studies

The CPCAS offers BA (Hons.), MA and MPhil/PhD programmes in Persian, and Certificate of Proficiency, Diploma of Proficiency, and Advanced Diploma of Proficiency in Pashto. The thrust areas of the Centre include modern and medieval Persian literature, translation from and into Persian and English, Indo-Iran relations, and Area Studies involving Iran, Afghanistan, Tajikistan and Uzbekistan.

The future plans of the Centre include introduction of MA in Pashto (from 2018-2019) and programmes in the Uzbek language.

Centre of Russian Studies

The CRS offers BA (Hons.), MA and MPhil/PhD programmes in Russian. It was founded in 1965 as an independent Institute of Russian Studies, and became a founding constituent of JNU in 1969. The thrust areas of the Centre include Russian philology, Russian literature, and Comparative Studies. The Centre also publishes its own journal, *Critic* and has a film club 'RUKI' (Russkoe kino). As throughout its long history, this year too the Centre has been actively engaged in strengthening its existing programmes of studies.

A complete overhaul of the syllabus is regularly undertaken in a bid to keep abreast of the everchanging scenario in the field of Russian education in general, and more and more emphasis is given to the use to the latest technologies in teaching. Future plans include a total revamp of the M.A. syllabus..

Centre of Spanish, Portuguese, Italian and Latin American Studies

The CSPILAS offers BA (Hons.), MA and MPhil/PhD programmes in Spanish, Certificate of Proficiency, Diploma of Proficiency, Advanced Diploma of Proficiency, and MPhil in Portuguese, and Certificate of Proficiency and Diploma of Proficiency in Italian. The Centre has state-of-the-art equipment and resources for studying Spanish, Portuguese, Italian and Latin American languages and cultures. The Centre publishes its own journal, *Hispanic Horizon*, and this year it also organized an International Conference in collaboration with CES, SLL&CS.

During the year under review, the four streams of academic disciplines continued to be strengthened in the ambit of their disciplines. Inputs from internal discussions and interaction with outside agencies/individuals have become a part of the Centre's vibrant academic performance, especially in the light of the application of the new compounds of the syllabus restricted in the recent past. Keeping in mind the technological advances and their impact on pedagogy under the e-PG-Pathshala initiative the Centre has successfully completed all the requisite 16 Papers in Spanish and they are being uploaded on the MHRD/UGC website.

Greek Chair and Turkish Chair

These two chairs, directly under the Dean, offer courses in Greek and Turkish languages, literature and culture..

Language Labs and Multimedia Complex

The Language Labs and Multimedia Complex (LLC) – housed in an acoustically treated, air-conditioned building adjacent to the SLLCS, and in the SLLCS Building itself – is one of the best developed complexes of its kind in Asia. It houses three Multimedia Language Labs, three Audio Active Language Labs, a Phonetics Lab, six AudioVisual Rooms, an Internet Room for students, an Auditorium with film projection facilities, and a state-of-the-art Conference Room with multi-channel simultaneous interpretation and video conferencing facilities. The LLC also has a Studio with recording, editing and duplication facilities for audio and video. All facilities of the LLC are extensively used for teaching and research from 9 am to 4 pm on all working days. In future, the LLC plans to upgrade its existing studio and transfer its rich software resources from analog to digital format.

New Courses

Centre for English Studies

One new course was introduced at the MA level. ES501E: Dissertation. This course offered students the option of working on a dissertation of 15,000 words under individual supervision instead of choosing one taught optional course. The aim was to inculcate a heightened awareness of the process of academic research and develop skills in academic research and writing. The course involved initial lectures on research methods and steps involved in the writing of a dissertation, the preparation of a research proposal, and the preparation of the dissertation under individual supervision. Nineteen fourth semester students opted for and successfully completed this course in 2017-18.

- In addition, several students of the Centre including Roshni Varma, Somrita Ganguly, Komal Agarwal, and Anindita Mukherjee published articles in academic journals. A large number of students from MA, MPhil and PhD programmes including Titas Bose, Huzaifa Omair Siddiqui, Shikha Singh, Ananya Saha, Komal Agarwal, Amrapali Saha, Sangeeta Kumari and Banani Barman presented papers in national and international conferences. Students have also been active in publishing creative writing and translation.

Centre of Persian and Central Asian Studies

- Number of students awarded major fellowships and scholarships (JRF&SRF/MANF/NF(OBC) and RJNF 50 out of 68 research scholars doing MPhil/PhD)

Centre of Russian Studies

- Students of CRS participated in Days of Russian Language, Literature and Culture - 2018: Competition Day organized by Russian Centre for Science & Culture, New Delhi, 9 February, 2018
- Students of CRS participated in the Quiz Contest: "Druzhba-Dosti 70", organized by Delhi University in Collaboration with the Embassy of Russia in India: dedicated to 70 years of establishment of diplomatic relations between India & Russia, 12 February, 2018
- An Interactive Session (through Skype) was organized between the students & faculty of CRS and of Togliatti State University (Russia), 22 March, 2018

Any other information

Centre for French and Francophone Studies

The Centre has been actively involved in collaborations with universities both in India as well as abroad. Among the ongoing foreign collaborations, the following may be cited:

- Collaboration with the Ministry of International Relations, Government of Quebec, Canada.
- Collaboration with the Wallonie Bruxelles International (WBI), Belgium for 5 years

Future Plans

Centre for English Studies

- Given the nature and range of academic engagements at CES, we envision becoming a Special Centre for English and Cultural Studies, with autonomous and interdisciplinary linkages with foreign and Indian languages as well as other disciplines in the humanities and social sciences.
- We see the further strengthening of our research programmes as an important priority. Our plans include (a) strengthening the dissertation component at the MA level through the introduction of courses and training modules in research methods and academic writing, (b) organizing research workshops for MPhil and PhD students at regular intervals to introduce them to new areas and methods of research, and (c) creating a forum for regular presentations by PhD students to peers and faculty on their work in progress, to which specialists in their areas may be invited. This will give them valuable feedback and also allow them to share their work, and for the Centre to be apprised of the range of research being carried out.
- We also look forward to further international collaborations with adequate students' mobility, so that our researchers can get exposed to the international best practices of research in their field. We have plans of supporting students' publications through funds received by the Centre, to make the path-breaking research output of the Centre more visible.

Centre for French and Francophone Studies

- To develop further the sub-Saharan francophone component in the courses offered at Postgraduate level.
- To develop courses on subtitling & dubbing in films.
- To promote interdisciplinary research at M. Phil/Ph. D level.
- To promote interdisciplinary research in collaboration with other departments in the University and outside.
- To develop a translation database in collaboration with the end users.
- To promote intercultural studies.

Centre of German Studies

- Continue AOC with the University of Wuppertal, Germany. A faculty member and two research scholars from CGS will be visiting the faculty at the University of Wuppertal in 2018 - as part of the academic exchange program - with fellowship/scholarship for a period of one to three months.
- A new AOC with the University of Freiburg, Germany, has been established. Under the GIP and Baden-Wuerttemberg scholarship programs, six students from M. A., M. Phil. and Ph. D. programs are at present studying and pursuing research at the Albert-Ludwigs University Freiburg for time periods varying from one to six months. One faculty member will also be availing the one month research fellowship offered under the AOC in June, 2018. A workshop has been planned in October, 2018 as a collaborative undertaking between the German Departments in University of Freiburg, University of Mumbai, Delhi University and JNU.
- Revived the academic cooperation with the University of Cologne, Germany. The first step in this direction was a Summer School on Graphic Novel, which was conducted jointly by CGS/JNU, Department of German, Doon University, and University of Cologne in September 2017. The School involved faculty from Cologne, Doon and JNU, whereas the participating students were from Doon University, University of Cologne, and the MA students of CGS/JNU. This cooperation and the summer school will continue in future.
- Possibilities of an AOC with the University of Bielefeld, Germany, are being explored. The first step in this direction was the visit of Prof Braungart, a renowned scholar, who visited CGS/JNU in April, 2017, to give three special lectures on German literature, and the award of three scholarships to the students of CGS/JNU to participate in the Summer School being organized by Prof Braungart in Bielefeld in September, 2017. Our students will participate in the summer school in 2018.
- CGS will continue to cooperate with Hanns Seidel Foundation foundation and the DAAD as both agencies will continue their support to research scholars from CGS.
- Possibilities of an academic collaboration with the University of Vienna, initiated by the renowned scholar Prof. Wolfgang Müller-Funk, are being explored. Two lectures have been planned in Monsoon Semester, 2018 by scholars from Vienna along with discussions regarding the modalities of an academic cooperation.

Centre for Japanese Studies

- Upgradation and development of new courses in process

Centre for Persian & Central Asian Studies

- The Centre plans to expand itself by introducing short-term certificate/diploma course in other languages of Central Asia. Online COP programme in Pashto is also in the pipeline.
- The Centre is introducing MA Integrated programme in Pashto language from academic year 2018.
- The Centre is initiating a programme in Uzbek language in collaboration with the Embassy of Uzbekistan.
- The Centre plans to intensify interaction with academic institutions in Asia, Europe and America and invite eminent scholars to deliver lectures and interact with our students and teachers.
- The Centre also plans to hold National/International conferences/workshops etc. to develop interactive as well as comparative studies.
- Pashto Chair: As approved by the MHRD and UGC respectively, Centre is all set to establish a Pashto Chair in the Centre.

Centre of Russian Studies

- Implementation of M.A. Syllabus, approved by BoS.
- Review of New B.A. Syllabus, already implemented.

Centre of Spanish, Portuguese, Italian and Latin American Studies

- The Centre has successfully completed 560 Modules for the e-PG-Pathshala for learning Spanish on-line, a server has been established in the Centre alongwith a customised and dedicated LMS (Learning Management System) specifically for Indian students. Out of the 70 Disciplines for e-PG-Pathshala, Spanish is one of the handful to have submitted the entire work on time. Our next stage of work is for the SWAYAM platform and 5 courses have been identified for offering under MOOC (Massive Open On-Line Courses). As digital education is the way forward to offer cheap equitable education for all, we in the centre are seriously pursuing the development of on-line courses and educational tools.

**SCHOOL OF LIFE SCIENCES
(SLS)**

SCHOOL OF LIFE SCIENCES

School of Life Sciences (SLS)

The School of Life Sciences (SLS) came into existence during 1970-71. Since its inception, it has been a premier department in the country undertaking inter-disciplinary research and teaching in Life Sciences. The School has been reaching out to all parts of the country to pick students and has tried all possible methods of communication with the students including class-room interactions, examinations, quizzing, seminar presentations, reading and summarizing of research papers, undertaking original research projects and conceptualizing and convening of conference on current topics in the field etc., in order to ensure maximal reception of information by the students. With the main focus on CELL AND MOLECULAR BIOLOGY, SLS has built reputed research programmes in the following areas:

- Regulation of Gene Expression
- Nucleic Acid Therapeutics
- Plant Genetics and Biotechnology
- Photobiology
- Human Genetics Dev. Biology
- Functional Genomics
- Microbial Pathogens
- Molecular Parasitology
- Molecular Biophysics and Structural Biology
- Immunology
- Radiation and Cancer Biology
- Neurophysiology
- Behaviour

The research pursuits employ microbes, plants and animals as model systems for these studies. The future plans and projections of the School are to develop centralized facilities for Genomics and Proteomics, Molecular Biophysics, Structural and Systems Biology. Facilities for intensive research and teaching on genetic technologies (transgenomics, genetic variability etc.) involving microbes, plants, animals and humans have to be strengthened. The School's Central Instrumentation Facility (CIF), which is providing the core support for research activities, is one of its kinds.

New Course Introduced

- **Dr. Amal Mondal** has developed an optional course in M.Phil (Cellular and Molecular Neurobiology) (Course No. LS 683).

Conferences/Events Organized (07)

- **The Summer Research Programme-2017** was successfully organized during summer vacation, from 29 May 2017 to 7 July 2017 as an education-outreach programme to motivate young students about science in general and basic as well as applied research in area of Life Sciences and Biotechnology in particular for 33 students.
- **Biosparks-2017**, a unique event of the School organized, managed and convened entirely by students, was a Symposium during "Biospark-2017" which was held in the School on April 14-15, 2017 bringing together current researches in Life Sciences.
- **Singh, Rana Pratap**, Co-organizer, international conference on "Cell Death in Cancer and Toxicology", IITR, Lucknow, , 20 – 22 February, 2018
- **Singh, Rana Pratap**, Organized, international symposium on "Cell Death Resistance in Cancer: Perspective on Cancer Stem Cells", at Jawaharlal Nehru University, New Delhi, India, 19 February, 2018
- **Singh, Rana Pratap**, Organized, international symposium on "Cancer Prevention and Treatment", at Jawaharlal Nehru University, New Delhi, 9 – 10 February, 2018
- **Natarajan, K.**, Organized the 10th Conference on "Yeast Biology", in the School of Life Sciences, JNU held at the Convention Centre, JNU and Amity University, Gurgaon, 8 – 11 February, 2018
- **Ramchiary, Nirala**, Organised national seminar on "Impact of climate change on Indian Agriculture and Plant Productivity", School of Life Sciences, JNU, 23 – 24 March, 2018.

Visitors to the School/Centre (13)

- Prof. Biswadip Das, Department of Life Science and Biotechnology, Jadavpur University, Kolkata was invited to give a talk on “Regulation of Unfolded Protein Response Pathway by Nuclear Exosome and DRN (Decay of RNA in the Nucleus) in *Saccharomyces cerevisiae*”, 12 May, 2017
- Dr. Neelam Dabas Sen, Ph.D. Laboratory of Gene Regulation and Development NICHD, National Institutes of Health was invited to give a talk on “Unraveling the interplay of DEAD-box RNA helicases in regulating translation initiation at genome-wide level”, 24 July, 2017
- Shreejata (Diya) Gupta, Ph.D., SERB National Post- Doctoral Fellow, Department of Environmental Biology and Wildlife Sciences, Cotton University, Guwahati, Assam was invited to give a talk on “Gestural communication in Bonnet macaques”, 23 August, 2017
- Dr. Smanla Tundup, School of Medicine, University of Virginia, Virginia, USA, was invited to give a talk on “Targeting viral tropism and inflammation in the host to improve H5N1/H1N1 induced virulence and mortality”, 16 August, 2017
- Dr. Arif Mohammad, Centre for Cellular and Molecular Biology, Hyderabad was invited to give a talk on “Identification & Characterization of ASH1 Methyltransferase complex in *Drosophila melanogaster*”, 26 September, 2017
- Prof. Girish Shah, Laval University and CHU de Quebec Hospital Research Centre, Quebec (Quebec), Canada was invited to give a talk on “Expanding Roles of PARP1 in DNA Repair and its Implication in Cancer Therapy”, 30 October, 2017
- Dr. Sudipta Biswas, Adjunct Faculty Biology, South Mountain Community College, Phoenix, AZ was invited to give a talk on “Studying Life Sciences in 21st Century”, 21 December, 2017
- Dr. Isha Raj, Post Doctoral fellow, Jovine lab, Department of Biosciences and Nutrition, Karolinska Institute, Stockholm was invited to give a talk on “Structural Basis of Egg Coat Sperm Recognition at Fertilization”, 8 December, 2017
- Dr. Niranjana Baisakh, Associate Professor, School of Plant, Environmental and Soil Sciences, Louisiana State University Agricultural Center, LA was invited to give a talk on, “Functional Genomics Approaches to Improving Abiotic Stress Tolerance in Rice”, , 14 December, 2017
- Prof. Govindjee, Dept. of Biochemistry, Dept. Plant Biology & Centre of Biophysics, University of Illinois at Urbana-Champaign, Urbana, IL USA, was invited to give a talk on “Artificial Photosynthesis”, 11 January, 2018
- Prof. Luis Carretie, Facultad de Psicología, Universidad Autónoma de Madrid, Spain, was invited to give a talk on , “Automatic attention to emotional stimuli: Insights from Human Neurosciences”, 16 February, 2018
- Prof. Dr. T. Rudel, Lehrstuhl für Mikrobiologie, Am Hubland, Würzburg, was invited to give a talk on “Life inside cells: Subversion strategies of intracellular pathogenic bacteria”, 20 February, 2018
- Dr. Jyoti Shah, Department of Biological Sciences and Bio-Discovery, Institute University of North Texas was invited to give a talk on “Abietane Diterpenoids: A New Twist to their Function in Plants”, 20 March, 2018

Accomplishments of Students

- **G. Prabu**, M J Narsimhan Commendation Award by the Indian Phytopathological Society, New Delhi, India, 2018
- **A. K. Singh**, Best poster award at the 86th Conference of Society of Biological Chemists - Emerging Discoveries in Health and Agricultural Sciences, New Delhi, 16 – 19 December, 2017
- **Deepika Kant**, Ph.D. student in Dr. Sushil Jha’s lab bestowed with “Budur Krishna Murthy Young Investigator Award” for her research work entitled ‘Compensatory contextual fear-conditioning and its influence on REM sleep’ in the international conference on “Sleep Medicine and Research (ISSR)”, Goa, 22 – 23 September, 2017
- **Deepika Kant**, Ph.D. student in Dr. Sushil Jha’s lab won the “B.S. Narasinga Rao Best Poster Award”, for her research work entitled “The compensatory contextual fear memory does not alter sleep architecture”, at 86th The Society of Biological Chemists (India) meeting, JNU, New Delhi, 16 – 19 November, 2017
- **Munazah Qureshi**, Ph.D. student in Dr. Sushil Jha’s lab was awarded with “Budur Krishna Murthy Travel Award”, in the international conference on “Sleep Medicine and Research (ISSR)”, Goa, 22 – 23 September, 2017
- **Anjali**, a Ph.D. student in Dr. Sushil Jha’s lab was awarded with “National Science Day Award for best poster”, for her research work on “Localized cancer treatment by magnetic hyperthermia using magnetic nanoparticles”, on National Science Day, JNU, New Delhi, 28 February, 2018

School of Physical Sciences (SPS)

The School of Physical Sciences (SPS) is highly recognized for its teaching and research activities both at the national and international level. The Physics M.Sc. and Ph.D. programs are in place for last few decades. Chemistry and Mathematics Ph.D. programs started in 2007 and 2010 respectively. Last year (2017) SPS has started M.Sc. program in Chemistry and plans to start M. Sc in Mathematics soon. The SPS faculty is quite reputed in their respective research areas and they have contributed significantly to the subject areas. The unique coexistence of three major subjects in SPS has truly facilitated collaborative and interdisciplinary research programs in the School. Almost all the labs are well equipped with state-of-the-art research instruments. SPS have well established computational research facilities which are highly recognized. In M.Sc programs, SPS not only offers traditional core courses in each subjects, in addition, focus is given to offer specialized courses to students as an elective course to enrich their knowledge. SPS offers well designed M.Sc laboratory courses including the traditional and modern experiments. Over the years, these have attracted good quality students in the respective programs. SPS has a well-established Library with good collection of books and journals in all the three subjects. In terms of research, SPS is one of the leading Schools where the faculties have made noteworthy contributions to the traditional disciplines of Physics, Chemistry and Mathematics, as well as to the areas at the interface of these subjects.

The faculties in SPS continue to publish the research papers in reputed journals and present works in conferences/seminars. During the last year, around 107 peer reviewed research papers and 10 chapters in books were published by SPS faculty and students. These were in the following areas of Physical, Chemical and Mathematical Sciences in which research works are being pursued actively: Algebra, Chemical Physics, Complex Fluids, Computational Physics, Condensed Matter Physics, Disordered Systems, Elliptic Curves, Ergodic Theory and Dynamical Systems, Granular Materials, High Energy Particle Physics, Magnetism, Material Science, Mathematical Physics, MOF and zeolite membranes, Nano-chemistry, Nano-particle Physics, Non-equilibrium Statistical Mechanics, Nonlinear Dynamics, Nonlinear Optics, Algebraic and Analytic Number Theory, Organic-Inorganic Hybrid Materials, Polymers, Operator Algebras, Probability Theory, Quantum Chaos, Quantum Optics, Semiconductors, Statistical Nuclear Physics, Spectroscopy, String Theory, Superconductivity, Supra-molecular Chemistry, Synthetic Organic Chemistry and Ultrafast Photo-physical Processes in Bio- and Nanomaterials.

A large number of eminent researchers across the country and world have visited the SPS and delivered many talks in concurrent subject areas of Physics, Chemistry and Mathematics. Last year, there were around 38 talks organized in School. SPS has received large amount of research funds from various funding agencies at national and international level.

New Courses

1. The following three new pre-Ph.D (Chemistry) courses have been introduced:-

Sl. No.	Name of the Course	Credits	Name of Faculty who prepared syllabus
1.	Concepts in Organic Chemistry	02	Dr. P. Mukhopadhyay/ Dr. D. Das
2.	Concepts in Inorganic Chemistry	02	Dr. P. K. Sasmal/Dr. S. Sabbani
3.	Concepts in Physical Chemistry	02	Dr. S. Sen/ Dr. M. Munde

2. The following pre-Ph.D course PS642M: Analysis (Credits: 03) has been revised by Dr. Ved Prakash Gupta.

Conference/Meeting organized by the School

- SPS March Meeting on “Responsive Molecules and Materials”, 16 -17 March, 2018
Organizers: Dr. Dinabandhu Das and Dr. Pijus Kumar Sasmal
- The School of Physical Sciences, JNU has a long standing tradition to organize a conference every year, known as March Meeting. This year, the meeting was held on the theme of “Responsive Molecules and Materials” during 16 -17 March, 2018.
- **Mehta, P.**, Coordinated GIAN course by Prof. Subir Sarkar, Oxford University and Neils Bohr Institute, Copenhagen on “Dark Matter: The Astroparticle Perspective”, held at JNU, 18 – 23 December, 2017

- **Patnaik S.**, Coordinated GAIN course by Prof. Chang-Beom Eom, University of Wisconsin-Madison USA on “Multifunctional complex oxide heterostructures by design”, held at JNU, 20 – 30 March, 2018

Visitors to the School/Centre (38)

Like every year, SPS invited many distinguished researchers as Visitor. During last year, a total of 38 eminent people visited SPS from subject areas of Mathematics, Chemistry and Physics (Mathematics 06, Chemistry 10, Physics 16 and interdisciplinary 06) and delivered talks. During 2017-2018, notable visitors were: Chemistry: Kari Rissanen, Kazuo Takatsuka Mathematics: Jean-Marc Deshouillers, Kumar Murty Physics: Sourendu Gupta, Subir Sachdev, etc.:

Accomplishment of Students

Research students in SPS are actively involved in academic programs where they regularly attend the conferences/workshops at the national and international level. Following is the list of conferences/workshops students attended over the year. Apart from this, Ph.D pass-out students are well placed in postdoctoral positions and regular jobs.

Post-doctoral positions

- **Dr. Bimla Danu**, former Ph D student of **Dr. Brijesh Kumar**, has since October 2017 joined EPFL (Federal Institute of Technology, Lausanne), Switzerland, as a Post-Doctoral Fellow.
- **Dr. Sudhir Kumar Keshri**: NIMS Post-Doctoral Fellowship, 2018.
- **Ms. Him Shweta**, Ph.D. student of Dr. Sobhan Sen, has been offered postdoctoral research fellowship in the School of Medicine, University of Pennsylvania, USA. She will be joining the postdoctoral position (with Prof. Yale E Goldman) tentatively in July, 2018.
- **Jogesh Rout**, Awarded a prestigious fellowship “Rajendran Raja Fellowship” to visit Fermilab, USA, January, 2018

Attending Conferences/Seminars/Workshops

- **Rahul Ranjan**, International conference on Neutron Scattering (ICNS) 2017, Daejeon Convention Center, Daejeon, Republic of Korea, 9 – 13 July, 2017
- **Khemchand Rawat**, International conference on Nanotechnology, Ideas, Innovations and Initiatives (ICN : 3I) held at IIT Roorkee, 6 – 8 December, 2017
- **Yogendra Kumar**, International symposium on “Macrocyclic and Supramolecular Chemistry (ISMSC) in conjunction with ISACS: Challenges in Organic Materials and Supramolecular Chemistry”, Cambridge Corn Exchange and Guildhall, UK, 2 – 6 July, 2017
- **Sakshi Gupta**, 1st International conference NFEST 2018, won 3rd prize in poster presentation, Delhi Technological University, New Delhi, 8 – 12 January, 2018
- **Ganesh Gurjar**, 62nd DAE Conference, BARC, Mumbai, 26 – 30 December, 2017
- **Ganesh Gurjar**, Gian Course on “Multifunctional Complex Oxide Thin Film Heterostructures by Design”, Jawaharlal Nehru University, New Delhi, 20 – 30 March, 2018
- **Amardeep Sagar**, 62nd DAE Conference, BARC, Mumbai, 26 – 30 December, 2017

- **Karn Singh Jat**, 62nd DAE Conference, BARC, Mumbai, 26 – 30 December, 2017
- **Prakriti Neha**, EUCAS (European Conference on Applied Superconductivity) held in Geneva, 17 – 21 September, 2017
- **Vipin Nagpal**, 62nd DAE Conference, BARC, Mumbai, 26 – 30 December, 2017
- **Vipin Nagpal**, GIAN Course on “Multifunctional Complex Oxide Thin Film Heterostructures by Design”, Jawaharlal Nehru University, New Delhi, 20 - 30 March, 2018
- **Meenakshi**, 62nd DAE Conference, BARC, Mumbai, 26 – 30 December, 2017
- **Meenakshi**, GIAN Course on “Multifunctional Complex Oxide Thin Film Heterostructures by Design”, Jawaharlal Nehru University, New Delhi, 20 - 30 March, 2018
- **Meenakshi**, 4th International conference on nanoscience and nanotechnology (ICONN-2017), Department of Physics and Nanotechnology, SRM University, Chennai, 9 – 11 August, 2017
- **Meenakshi**, International conference on nanotechnology: Ideas, Innovations & Initiatives (ICN: 3I 2017), Centre of Nanotechnology and Department of Mechanical & Industrial engineering, IIT Roorkee, 6 – 8 December, 2017
- **Meenakshi**, Workshop on “Field emission scanning electron microscopy based lithography (FESEM)”, organized jointly by AIRF-JNU & TESCAN Orsay Holding, AIRF, JNU, New Delhi, , 4 – 5 May, 2017
- **Amit Kumar**, 62nd DAE Conference, BARC, Mumbai, 26 – 30 December, 2017
- **Amit Kumar**, 4th International conference on Nanoscience and Nanotechnology (ICONN-2017), Department of Physics and Nanotechnology, SRM University, Chennai, 9 – 11 August, 2017
- **Amit Kumar**, International conference on “Materials Research and Technology”, Aggarwal College, Ballabgarh, India, 10 – 11 July, 2017
- **Amit Kumar**, Workshop on “Fundamentals of Combined Confocal Raman-AFM System”, AIRF, JNU, New Delhi, India, 30 June, 2017
- **Amit Kumar**, GIAN Course on “Multifunctional Complex Oxide Thin Film Heterostructures by Design”, Jawaharlal Nehru University, New Delhi, 20 – 30 March, 2018
- **Jogesh Rout**, Workshop on “WHEPP XV”, IISER Bhopal, 14 December, 2017
- **Jogesh Rout**, GIAN Course on “Dark matter: the astroparticle physics”, JNU, New Delhi, 18 – 23 December, 2017
- **Neetu**, International conference on “Trends in Biochemical and Biomedical Research: Advances and Challenges (TBBR-2018)”, Department of Biochemistry, Institutes of Science, Banaras Hindu University, Varanasi, 13 – 15 February, 2018
- **Pratyay Ghosh**, Autumn School on “Correlated Electrons: The Physics of Correlated Insulators, Metals, and Superconductors”, Forschungszentrum, Jülich, Germany, 25 – 29 September, 2017
- **Neha Tiwari**, 62nd Biophysical Society Meeting, San Francisco, California, USA, 17 – 21 February, 2018
- **Arpit Bansal**, Conference on “Algebraic Number Theory”, ISI, Bengaluru, 14 – 20 December, 2017
- **Arpit Bansal**, ATMW-Analytic Number Theory-2017 (Workshop), ISI, Kolkata, 26 – 30 December, 2017
- **Arpit Bansal**, Lecture series on “Probabilistic Number Theory”, by Prof. J.M. Deshouiller, IISc Chennai, 15 – 19 January, 2018
- **Irshad Ahmad**, International conference on “Nanobiotechnology”, Centre for Interdisciplinary Research in Basic Science, Jamia Millia Islamia, New Delhi, February, 2018
- **Irshad Ahmad**, Winter School- 2017 on “Frontiers Materials Science”, Jointly organized by International Centre for Materials Science, University of Cambridge and Sheikh Saqr Laboratory, Jawaharlal Nehru Centre for Advanced Scientific Research, Bengaluru, 4 – 8 December, 2017
- **Irshad Ahmad**, International conference on “Study of Nanomaterials and Scientific Development in 21st Century (ICSNSDC)”, Jiwaji University, Gwalior, 3 – 5 November, 2017
- **Irshad Ahmad**, International conference on “Nanoscience and Nanotechnology & NanoSciTech 2017 & quot”, Panjab University, Chandigarh, 8 – 10 November, 2017
- **Irshad Ahmad**, National conference on “Recent Advances in Environmental Sciences (Nraes-2018)”, Organized by School of Environmental Sciences, Jawaharlal Nehru University, New Delhi, India, 22 March, 2018
- **Irshad Ahmad**, A Joint International Conference Econophys – 2017 and Asia Pacific Econophysics Conference (APEC)-2017, Jointly organized by Jawaharlal Nehru University and Delhi University, New Delhi, 15 – 18 November, 2017
- **Irshad Ahmad**, Workshop on “Time Resolved Fluorescence Spectroscopy (TRFS), Femtosecond Fluorescence Up-conversion and their research applications”, organized jointly by AIRF & Specialize Instruments, 6 October, 2017

- **Sheeba Khawaja**, GIAN course on Dark matter: The astroparticle perspective, 18 – 23 December, 2018
- **Sheeba Khawaja**, Sangam @ HRI 2018: Instructional Workshop in Particle Physics, 5 – 9 March, 2018
- **Rajdip Palit**, Groups Geometry and Dynamics, ICTS Bangalore, 6 – 24 November, 2017
- **Rajdip Palit**, Advanced instructional school on Ergodic theory and dynamical systems, 4 – 23 December, 2017
- **Pragya**, MTIC 2017, NCL PUNE and IISER Pune, 11 – 14 December, 2017
- **Neeraj Kumar**, MTIC 2017, NCL PUNE and IISER Pune, 11 – 14 December, 2017
- **Renu Gupta**, 2nd International conference on “Condensed Matter and Applied Physics”, Govt. Engineering College, Bikaner, Rajasthan, 4 – 25 November, 2017
- **Renu Gupta**, International workshop on “Advanced Materials”, National Institute of Science and Technology (NIST), Berhampur, Odisha, 19 – 21 December, 2017

Any other information

As recognition of academic excellence of School in terms of teaching and research output, SPS has enjoyed continuous support from various funding agencies such as, UGC, DST. The SPS received prestigious DRS-COSIST and DSA research schemes from UGC since 1994. Further, SPS has received major funding from the DST under the FIST program in 2002, 2007 and 2013. It is also worth mentioning that SPS faculty members have received considerable amount of research projects at individual capacity from various national and international funding agencies such as, IFCPAR-CEFIPRA, CSIR, DST, DBT, UGC, etc.

Future plans

The School of Physical Sciences (SPS) has three major branches of science: Physics, Chemistry and Mathematics where the work culture in the School is truly collaborative and interdisciplinary in nature. To strengthen these existing academic programs, the immediate future plan would be to fill all the vacant faculty positions where focus will be paid that most of the subject areas in these three subjects are covered by the faculties. More instruments will be arranged for M.Sc. laboratories. The SPS has just started Chemistry M.Sc. program, and in future this program will be expanded. Similarly, efforts will be taken to start the Mathematics M.Sc. program at the earliest. Focus will be paid to apply for collective

research proposals as well as to submit the proposals to organize the seminars/conferences of national and international level aiming to strengthen the academic programs in School and to establish the collaborative research programs.

SCHOOL OF SANSKRIT AND INDIC STUDIES

School of Sanskrit and Indic Studies (SS&IS)

The **School of Sanskrit and Indic Studies (संस्कृत एवं प्राच्यविद्या अध्ययन संस्थान)** was created by upgrading the Special Centre for Sanskrit Studies to a full-fledged school on 18/12/2017. The earlier special centre was set up in 2001 with the following goals -

- Negotiate between, and bring together, through interactive projects, the traditional scholars/scholarship and the mainstream university scholars/scholarship
- Undertake maintenance and preservation of heritage texts and manuscripts
- Constitute and expound theoretical framework from the primary intellectual texts of the Sanskrit tradition, and
- Extend and validate the classical theories by applying them both to contemporary Indian reality (modern Indian languages, literature, etc.) and to contemporary European Languages and literature (to reverse the existing data-theory relationship between the Indian academy and the Western academy and to recover theory status for the Indian thought),
- Undertake comparative research in Indian and Western traditions of thought in linguistics, literary and cultural theory, philosophy including philosophy of language, metrics and prosody, sociological thought, polity, gender, and ethnic studies and culture.

The **School of Sanskrit and Indic Studies (SSIS)** currently has M.A., M.Phil., Ph.D. programmes and five Certificate of Proficiency (CoP) courses in Sanskrit, Pali, Sanskrit Computational Linguistics, Yoga Philosophy and Vedic Culture. The school is planning to start several new courses and programmes soon.

School of Social Sciences (SSS)

JNU has been known for its strength in social sciences. The school was founded in 1971. It consists of 13 centers and one program. There are many distinguished social scientists in the faculty, who traverse the whole gamut of ideological inclinations. All approaches and aspects of social sciences are covered in the research and teaching programs. All important social issues get addressed promptly. The major six centers of the school are receiving special grants from the UGC as Centers of Advanced Studies. The other centers are newer, smaller and inter-disciplinary in nature. They cover the emerging areas.

The total faculty strength is 161: Professors 71, Associate Professors 33 and Assistant Professors 57. There are 12 Emeritus Professors and 6 special chairs. During the past five years, the faculty has published 171 books, 839 chapters in edited books, 930 articles in peer reviewed journals, and 1182 articles in conference proceedings. During the same period the faculty has completed 225 research projects. There are 240 ongoing research projects. During the last five years, the faculty has received 102 international visiting fellowships and teaching assignments.

About the Centres

Centre for Economic Studies and Planning

CESP has been a premier centre for teaching and research in Economics in India since its inception in 1973. Its drive for excellence has been based on a conscious aim of providing an objective environment for education and research in the subject, straddling all major intellectual traditions. The Centre actively encourages critical and independent thinking, respect for facts, and logic. These have been combined with a recognition of the need to adopt a constructive approach to the development of the subject within each tradition, the need to represent alternative traditions in a faithful manner, and the need to be useful to society. There is continuous effort to combine theory, history, quantitative methods and field study, in the curricula.

The Centre's faculty actively engages in research both in the realms of abstract economic theory, development, and socio-economic history, and the formulation, evaluation and criticism of economic policy. Over the last four and half decades, the efforts of the faculty have been honoured with awards and recognition both from within the academic community and outside, in India and abroad. Yet the most eloquent testimonial to their efforts has been provided by the Centre's alumni, who have, by any yardstick of collective achievement, made meaningful and valuable contributions as part of a wide range of professions. Whether as members of faculty in some of the best known academic and research institutions in the country and abroad, as members of the administrative services and public sector organisations, as officers and economists in the financial and banking sector including the country's central bank and the World Bank, or as members of private sector organisations including research organisations and the media, and as leaders in the country's politics, our alumni continue to serve society at large, and provide the Centre with the motivation to build on its past achievements and scale even greater heights in the future.

Centre for the Study of Regional Development

The Centre for the Study of Regional Development was established in 1971 with a mandate to focus on interdisciplinary programme of studies for teaching and research, placed in an overall framework of regional development in India. Over the years, an interdisciplinary team of scholars has been engaged in realizing this dream.

The Centre offers M. A. (Geography) and M. Phil/Ph.D. programmes in three major fields: Geography Economics, and Population Studies. In keeping with the interdisciplinary tenor and focus of the Centre, these programmes interface socio-economic, human, institutional, technological, infrastructural and environmental factors with issues of regional development in multi-various and pluralistic manner. In doing so, research and teaching in the Centre over the years have evolved appropriate paradigms and tools of analyses including remote sensing and GIS.

The M. A. Geography curriculum in the Centre is unique in terms of a judicious mix of courses which combine the classical with the modern and the theoretical with the practical in response to emerging disciplinary challenges, particularly in the Indian context. In the classical traditions in geography, fieldwork occupies a prime place. The M. A. students are exposed to two compulsory courses that are exclusively based on physical and social field surveys. Apart from getting trained in specific methodologies and gaining first hand field observations -often in rural settings -

prolonged group living under spartan conditions helps students develop interpersonal skills and mutual interdependencies and team spirit.

In terms of students and faculty strength, the Centre for the Study of Regional Development is one of the largest centres in the School of Social Sciences in the University. The Centre presently has 17 Professors, 6 Associate Professors, 7 Assistant Professors and 1 Professors Emeritus. During the year under review, i.e., April 2017 to March 2018, the faculty has published 7 books, 74 articles in refereed journals, and contributed 32 papers as chapters in edited books. The Faculty has also contributed towards popular writing and lectures through various media, both national and regional. The faculty members are engaged in over two dozen projects (39 currently running) sponsored by different national and international agencies. Six projects are being supported by the university under UPE-II sheme. The Centre also organized 5 seminars and workshops besides one under the GIAN program.

During 2017-18, 40 M. A., 26 Ph.D and 31 M.Phil. Degrees were awarded. The research and post-graduate students in the Centre form an important academic hub of the Centre. Apart from supporting regular and remedial teaching programmes, as well as co-curricular activities of the Centre, research students have presented papers in a number of national and international conferences in India and abroad. They have also published in leading academic journals. Students of the Centre have visited the University of Kaiserslautern, Germany, under exchange programmes of the Centre. Students from these foreign universities, have in turn, visited the Centre and have benefited from its teaching programmes and other activities.

The Centre for the Study of Regional Development was granted the status of '*Centre of Advanced Studies*' (CAS) under the Special Assistance Program (SAP) of the UGC in April 2003. With this, the Centre became the first department in Geography in India to get this status. In view of the Centre having successfully completed the first phase, the support as CAS was renewed in April 2009 for a period of five years (2009-March 2014). Thrid phase of CAS is granted to the centre and money is received for the third phase. The CAS has enabled us to enhance our teaching and research activities in continuing as well as new research areas including building up of infrastructural facilities. The thrust areas identified for the current phase: Advanced Remote Sensing and GIS, Climate Change and Disaster Management, Natural Resource Management, Globalization/Urbanization/Population, and Regional Disparities and Social Exclusion. The Coordinator of the Program is Professor Sachidanand Sinha and the Deputy Coordinator is Professor Milap C Sharma.

The teaching and research activities of the Centre are supported by professional and technical staff and the centre is equipped with necessary infrastructure for this purpose. The Centre has a Documentation Centre and six laboratories. The Centre is maintaining the School's Computer Unit and has a laboratory for computer aided GIS and cartography.

Infrastructure

The Centre has a dedicated laboratory for Remote Sensing and Geographic Information System. And another lab for data analysis and housing database and software server with LAN network connectivity to faculties and to various labs. The laboratory has latest version of GIS, Image analysis and statistical analysis softwares along with scanning facility. Besides, the Centre has Geomorphology, Cartography, and Photogrammetry laboratories.

Computer Lab

The Centre has a computer laboratory with facilities for GIS. Over the years, the laboratory has acquired advanced software packages in GIS which are updated from time to time. The Centre maintains an automatic weather station through which weather data are made available online through JNU website. The information is automatically updated every five minutes.

Documentation Unit

The Documentation unit at the CSRD maintains books, journals, reports, as well Ph.D. and M.Phil thesis and dissertation. The reading material pertaining to the courses taught in each semester, if not available in the CSRD-Library, is borrowed from the Central Library of JNU for consultation. Multiple photocopies of relevant material/capters from books available in other libraries are also stored in the Unit. The Centre adds substantially to the existing stock annually as and when the funds become available under the CAS Programme. All documents have been accessioned, classified, catalogued, digitised and spined with class and book numbers and listed separately.

Centre for the Study of Social Systems

The Centre for the Study of Social Systems (CSSS) was established in 1971 with the objective of conducting teaching and research on problems related to the processes of social change in the context of development and modernization. From its very inception and in keeping with the mandate of the JNU Act there was an expressed concern to the question of national development and problems of special groups like the scheduled castes, scheduled tribes and other marginalized groups. This thrust has been a persistent feature of CSSS since and not surprisingly both its teaching and research have shown an engagement with pressing questions of development and marginalization, social movement and social justice.

The teaching and research programmes of the CSSS were aimed at developing systematic and comparative approach to the analysis of social phenomena. This it sought to do by drawing upon the extant social anthropological and sociological perspectives by combining it with an interdisciplinary orientation. The prospect for sociology in India was seen as resting on a continued tradition of research based on a variety of methods and intellectual orientations. This plurality of theoretical and methodological approaches remains a persisting and defining feature of CSSS. This made it possible for CSSS to respond more quickly to both critical social developments as well as new intellectual currents. The institutional flexibility of JNU and intellectual openness of CSSS made it possible for new areas such as gender studies, diasporic studies, tribal studies, Dalit studies to be incorporated more readily.

The Centre was set up with the idea that it should be a pioneering institution which was able to carry out the task of sociological analyses in a way which was not being done elsewhere. The frontiers of research were seen to be the study of the developmental processes/ modernization and social change, sociology of social movements, study of professions, sociology of politics and economic life. Apart from teaching courses in sociological theory and applied areas, the Centre emphasised on the training students in social science methodology and the techniques of social research, both qualitative and quantitative. Thus, an introduction to philosophy of social science was viewed as critical.

The applied courses to be taught at M.A level are designed to be India centric, while the M. Phil. courses have a comparative focus, looking toward other societies and generalising principles. Need for undertaking empirical research, using both quantitative and qualitative methods was underlined by the founders and continues to be a tradition with Ph.D. scholars and the faculty of the Centre today. While teaching was and is seen a primary obligation, individual scholars pursue long term research interests which are area specific and problem oriented.

From the time of its inception, the CSSS has actively tried to represent the diversities of Indian society in the profile of its faculty. This diversity continues to be a landmark of its students and faculty even today. The CSSS also pursues the principle of diversity and inter-disciplinarity in the way it has designed its teaching and research programmes. The interdisciplinary approach today is expanded further with increased optional courses which included culture studies, psychoanalysis, Indian social thought and gender-studies.

The Centre is one of the largest departments of sociology in India with faculty strength of 24 and a student body of around 400, of which 165 are pursuing doctoral degree and another around 80 M. Phil. degrees. The CSSS is recognized as a Centre for Advanced Studies in the discipline of sociology by the University Grants Commission. The Government of India funded Ambedkar Foundation has also housed a chair in the name of Dr B. R. Ambedkar in the Centre to study marginalized groups and minorities. We also have several collaborative research and teaching programmes with universities from different parts of the world. The most active of these has been the Global Studies Programme with Freiburg, Germany, Kwazulu Natal University and the University of Cape Town, South Africa.

Achievement: *During the year 2017-18 the Centre has been ranked in the top 200 among all sociology departments in the world by QS World rankings.*

Special Programmes

Centre for Advanced Studies

UGC-CAS Programme

The Centre for the Study of Social Systems was awarded the second phase of the CAS programme by the University Grants Commission (UGC) for a period of five years (1.4.2013 to 31.3.2018). It was sanctioned a grant of Rs.96.25 lakhs (Rs.21.25 lakhs for non-recurring expenditure and Rs. 75 lakhs for recurring expenses for five years to strengthen the infrastructure and other aspects of the Centre.

Grants under the CAS Programme were earmarked for: a) Equipments, b) Building-renovation, c) Contingency, d) Field Facilities/field trips/publication, f) Seminar/Conferences, g) Visiting Fellows, h) Books & Journals, i) Hiring charges, and j) Advisory Committee Meeting.

Grants were available for field work by faculty members of the Centre in the following thrust areas:

- i) Social Transformations as Processes: With focus on Interface of Society with Law, Conflict, Violence, Disaster, Urbanization, Inequalities, Disabilities, Youth, Gender, and Social Movements.
- ii) Institutions and Emerging Trends: With focus on globalization, state, civil society, activism, policy, international institutions, market and media
- iii) Profession, curricula and Practice of Sociology:
 - (a) Evolving curricula for teaching of sociology
 - (b) Engaging with conceptual and theoretical questions of our times
 - (c) Identifying alternative modes of engaging with emerging social realities and developing comparative perspectives.

Global Studies Programme

The Global Studies Programme (GSP) enters the sixteenth year in 2018 and the Centre for the Study of Social Systems has been a founding member of this inter cultural MA programme that spans 5 continents. The programme has succeeded in blending the autonomy of participating institutions within a broad curricular structure.

The GSP has now two partners in Germany - one in Freiburg and another in Berlin. The GSP has grown from an MA programme into a full-fledged research programme with a Ph.D. involving global joint supervision facility and joint research projects and publications among the faculty in partner institutions. The GSP has a fully peer-reviewed journal called 'Transcience' that was launched in 2010 by the participating institutions. The journals' mission is to contribute to global studies by publishing ongoing research by research clusters in the GSP programme and other allied institutions. Transcience is an open access journal and is freely available without charge to the reader.

GSP 2017-2018 Activities

The following are the activities carried out during 2017-18 by GSP at JNU.

I. Orientation Programme

The Global Studies Programme organized an Orientations Programme on 15th January 2018 for students.

II. GSP- Albert Ludwig University (Freiburg) and Humboldt University (Berlin)

The 2017-18 batch of GSP consisting of 31 students arrived in January 2018. They come from 16 different countries such as Greece, Germany, China, USA, UK, Cyprus, Italy, India, China, Brazil, Poland, Canada, Spain, Ecuador, Mexico and Vietnam.

Dr. Ambedkar Chair

Dr. Ambedkar Chair was set up in the year 1995 by Dr. Ambedkar Foundation, Ministry of Social Justice & Empowerment, Government of India, and New Delhi. The main objective of the Chair is to understand, assess and disseminate the ideas and thoughts of Dr. B. R. Ambedkar, and to undertake research, teaching and other academic activities such as seminars, symposia, workshops etc. on issues concerning the socio-economic and cultural life of the marginalized communities and other weaker sections of the society.

During the year 2017-18, the Chair could organise only one programme on **‘Diversity and Inclusion in the University: A Dialogue between JNU and University of Massachusetts, Amherst, U.S.A.’** on 16th February 2018. The key speakers in the programme were Prof. Sangeeta Kamat (UMASS), Prof. Vivek Kumar (JNU), Prof. Anna Brabch (UMASS), Prof. Ximena Zuniga (UMASS) , Prof. Sylvia Hurtado (UCLA), Dr. Harish Wankhede (JNU), Dr. G. Srinivas (JNU) and, Prof. Ajay Kumar (JNU).

During the year, the Chair made efforts to prepare a MoU and get it signed between the University and Dr. Ambedkar Foundation. Finally, the MoU has now been signed by the Vice Chancellor and the Registrar of the University, and sent to Dr. Ambedkar Foundation in the first week of April 2018.

Centre for Historical Studies

The Centre for Historical Studies offers M.A. and M.Phil/Ph.D. programmes in three different period-specialization: Ancient, Medieval and Modern History. The centre also conducts teaching and research in Contemporary History. An innovation that has been introduced in recent years is to allow students to choose thematic specialization as well, by doing a minimum of four courses on the theme chosen. Themes offered at the moment are economic history, social and popular movements, state and power, and ideology, culture and society. While period specialization is compulsory, theme specialization is not.

Within the broad spectrum of socio-economic history, the CHS shows a predilection toward the neglected areas of popular protest movements, or of life at the lower end of society comprising the mass of Indian society peasants, artisans, workers etc. If these aspects claimed a considerable share of the CHS faculty's and research scholars attention, explorations are also being made into several other themes: the history of ideas, histories of technology, histories of art and literature. Now research and teaching has expanded into still wider areas: histories of law and power, histories of crime and punishment, histories of gender, histories of caste and communities, histories of mobility and migration, histories of identity and culture, histories of environment, histories of power and legitimacy.

One of the objectives of the J.N.U. has been that research should be inter-disciplinary in nature, drawing the best from many disciplines. The CHS has generally followed the principle that no historian can remain a true researcher without basic interest in other disciplines related to his/her concern e.g. either as an economic or social historian drawing from anthropology or ethnography to interpret data, are as a historian of culture drawing from literary and culture studies.

The expanding frontiers of history have made it imperative that the historian's efforts should be directed towards incorporating within historical practice the insights from other disciplines. A more explicit stimulus to interdisciplinary study of history is provided by the option, available to the students, of taking courses in other disciplines i.e. economics, political science in the other Centres of the Schools of Social Sciences – with relevance to the set of courses done by them in their own specializations in the CHS. Students with no background in history but with knowledge of other social and physical sciences have also been admitted to all the post-graduate programmes.

Centre for Political Studies

Founded in 1971, the Centre for Political Studies in the School of Social Sciences has an outstanding reputation for academic excellence. In the first year of its coming into existence, the Centre launched the M Phil/PhD programme with 15 students. The MA programme was launched in the following academic year. In keeping with the spirit of the JNU Act of 1966, the Centre for Political Studies incorporated and sustained a strong emphasis on interdisciplinarity in the structure and design of its syllabi. The Centre has become one of the largest centers of the School of Social Sciences drawing students from all parts of the country and abroad.

Drawing on a variety of philosophical, historical and interdisciplinary approaches, the academic programme of the centre is distinguished by certain characteristics which set it apart from other departments specializing in Political Science in the country. Since its inception, it has gathered a group of faculty internationally recognized for their significant contributions in the field of politics. Our faculty explains, interprets and evaluates those assumptions that undergird political life. The assessment is done by several methods such as performance in classrooms, home assignments, tutorials, seminars, term papers, student presentations, and mid-semester tests, besides the end-semester examination. In this way the centre is uniquely positioned to offer students and researchers invaluable insights for the study of politics in India. Over the years our students have participated in and presented papers in international conferences, seminars and workshops in the country and abroad. The courses and research activities equip students to become high-performing creative leaders who are ready to make a meaningful difference to their institutions and society.

The Centre for Political Studies has become the leading institution of teaching and research in the field of Political Philosophy and Indian Government and Politics and a major centre for research programmes in M.A and M Phil/Ph D in Politics. The M.A. programme of the centre encourages students to develop their skills and dispositions to actively participate in all aspects of democratic life that include the ability to think critically and to have commitment to some core democratic values. The M Phil program is primarily research oriented and functions as a first step towards the doctoral programme. Students at this stage have ideally acquired specialized knowledge of political science and the skills and rigor to conduct research.

Centre of Social Medicine and Community Health

The Centre of Social Medicine and Community Health had academically a successful year. The process for restructuring of courses has made considerable progress. The proposal to introduce a new course i.e. DrPH has been placed before the UGC for notification. All faculty members have published in leading international and national journals. Their papers have been accepted in prestigious peer reviewed conferences. Several faculty members have lectured extensively outside the University. The AROYGAM collaboration has facilitated exchange of students and faculty between its partners University i.e. Achutha Menon Centre for Health Services Studies at the Shri Chitra Tirunal Institute for Medical Sciences and Technology, Trivandrum; the School of Social and Political Science, University of Edinburgh; and the Südasiens-Institut - Ruprecht-Karls-Universität Heidelberg. Several students have published their work, participated in conferences and were selected for exchange programmes. Besides the regular teaching and research activities, collaborations with other universities and research projects were undertaken by the faculty. Several students' publications appeared in journals and books. The Centre's Documentation Unit was upgraded, with substantial addition of books and automation.

Centre for Studies in Science Policy

The Centre for Studies in Science Policy (CSSP) is unique to the Indian University system. Designed as a combined teaching and research effort, the CSSP explores various dimensions of the science-technology-society interface. Though oriented principally as an academic programme, the CSSP is committed to engaging with contemporary policy challenges. Research themes that currently comprise faculty and student concerns involve: science, technology and innovation policies; university- industry relations; intellectual property rights; gender relations in science and technology; globalisation of innovation; internationalisation of R&D; technology and environment; scientists in organisations and technology futures studies.

The Centre is open to students for admission from a variety of social and natural sciences, technology studies, engineering, medicine, law and management disciplines. The current focus of teaching and research at the Centre is on science and technology policy analyses including innovation policies; sociology of science and technology; social history of science and technology; economics of technological change and innovation studies; technology futures studies; science and technology for development; international affairs in science and technology and management of intellectual property rights.

The Centre offers M.Phil./ Ph.D. and direct Ph.D. programmes. The M.Phil. programme requires completion of 24 credits in four semesters. Direct Ph.D. programme is open to scholars who have completed an M.Phil. degree in one of the social or natural science disciplines or demonstrated their research capability by way of equivalent published work in science policy studies. The Centre strongly recommends such direct Ph.D. scholars to audit courses at the M.Phil. level for two semesters while pursuing research.

Centre for Philosophy

The Centre for Philosophy has been growing since the time we started our M.A. programme in 2013. In 2017-2018 we received the fifth batch of M.A. students. The Centre has already been effectively running its M.Phil/Ph.D. research programs since 2005-06. We have been able to consolidate our teaching program further by adding more optional courses for the students to choose from and thereby enabling them to build up their specialization in area of study of their choice. The programs of the Study have been so designed that they focus on engaging with problems and concerns of philosophy cutting across traditional and narrow disciplinary boundaries. There is a special emphasis on the methodological interface for generating new knowledge whether basic or applied. Besides Metaphysics, Epistemology, Ethics and Logic, we have introduced courses on Culture and Multiculturalism, Justice, Philosophy of Mind, Philosophy of Language, Philosophy of Social Sciences, Phenomenology, Social & Political Philosophy, Cognitive Science and Contemporary Indian Philosophy. We have had several visiting faculties in the Centre, who have contributed immensely to the academic activities of the Centre. In the last academic session, there were 10 foreign scholars who visited the centre. The chairperson of the centre, Professor Bindu Puri convened a meeting with Dr. Mandez de Penedo, Vice President (Academic) of Rafael Landivar University on 6 November, 2017.

In the reporting year, the centre has organized a large number of talks by renowned scholars of both national and international. The Centre has been endeavoring to promote teaching and research in philosophy with its distinct position as a foundational discipline keeping a close connection with other disciplines in the Humanities and the Social Sciences.

Centre for Women's Studies

The Centre was introduced in 2000 as a Programme of the School of Social Sciences and became a full Centre in 2013. In this period, the Centre for Women's Studies has grown academically, and offers two degree programmes (a Direct Ph.D and an MPhil/PhD), and several MPhil and MA level courses. Other than its academic teaching, supervision and other related activities, the Centre has a very active calendar of seminars and workshops through the year. In addition, the Centre has grown infrastructurally, and now has a small, but very well used library and resource centre and some computing facilities for students.

Centre for Media Studies

The Centre for Media Studies (CMS) is an inter-disciplinary centre for the study of media, its history, and its interface with contemporary society, polity, economy and culture.

The Centre has four faculty members (including one Concurrent faculty): Professor Heeraman Tiwari (Chairperson and Concurrent Faculty), Dr. Rakesh Batabyal (Associate Professor), Dr. Chitralekha (Assistant Professor) and Dr. Sujith Kumar Parayil (Assistant Professor). And Honorary Visiting Faculty Dr. Swapan Dasgupta.

Centre for the Study of Social Systems

- The Global Studies Programme (GSP) enters the sixteenth year in 2018 and the Centre for the Study of Social Systems has been a founding member of this inter cultural MA programme that spans 5 continents. The programme has succeeded in blending the autonomy of participating institutions within a broad curricular structure.

- The GSP has now two partners in Germany - one in Freiburg and another in Berlin. The GSP has grown from an MA programme into a full-fledged research programme with a Ph.D. involving global joint supervision facility and joint research projects and publications among the faculty in partner institutions. The GSP has a fully peer-reviewed journal called “Transcience” that was launched in 2010 by the participating institutions. The journals’ mission is to contribute to global studies by publishing ongoing research by research clusters in the GSP programme and other allied institutions. Transcience is an open access journal and is freely available without charge to the reader.
- The Prof. T.K. Oommen cash award of Rs.5000/- and a certificate is conferred by the Centre to the highest ranked student in the M.A. Sociology programme every year. This award was instituted in 2003 by Prof. T.K. Oommen, Professor Emeritus. This year Sakshi Jerath secured the highest CGPA and the award has been conferred on her.

Centre for Historical Studies

- CHS brings out an internationally, acclaimed journal *Studies in History*, published by SAGE. *Studies in History*, a peer-reviewed journal, aims to publish original works with information, arguments and insights that contribute significantly to the field of historical research. The journal reflects the considerable expansion and diversification that has occurred in historical research in India in recent years. The preoccupation with political history has been integrated into a broader framework which places equal emphasis on social, economic and cultural history. Newer approaches and themes that seek to advance the scope and significance of the discipline are promoted.

- The Centre is listed as one of the *Top Science and Technology Think Tanks* in “2017 Global Go To ThinkTank Index Report” (of the TTCSP, University of Pennsylvania, USA). CSSP secured 111h global rank in the category of Top S&T Think Tanks in 2017. CSSP also secured 66 rank in the category of Best Use of Social Media and Networks, and 68th rank in the category of Best University Affiliated Think Tanks.

Future Plans

Centre for Economic Studies and Planning

- CESP has established itself as a premier centre for teaching and research in Economics. In the coming years, the Centre plans to further strengthen its teaching and research programmes.
- CESP has been recognised as a Centre for Advanced Studies by the UGC under its SAP/DSA scheme. The CAS funds are used for purchase of books and databases, for obtaining technical services, for fieldwork, for holding conferences and seminars, and for upgrading infrastructure.
- CESP currently maintains a data repository. While datasets from major official sources like the Census, NSS and CSO are included in the repository, there are significant gaps. Also, subscription to other important databases for international trade and finance, corporate affairs etc, some of which are commercial databases, need to be obtained. All of this would require considerable resources.
- Finally, in an increasingly integrated world, it is important to forge ties with other universities to facilitate programmes of research collaboration and faculty/student exchange. CESP has already initiated the process and hopes to accelerate progress on this front.

Centre for Historical Studies

Preservation of endangered records/manuscripts of pre-modern period

- Identifying endangered archival records, manuscripts, rare printed texts possessed by individuals, families, religious institutions
- Facilitating transfer of these collections to local archives, libraries, etc
- Digitalizing these records and manuscripts and making them available to researchers worldwide.

Documenting and preserving oral histories

- Recording, interviewing and preserving oral histories and testimonies
- Creating an oral history archives

Documentation and Digitization of Archaeological Material

- Classification and documentation of artefacts and ceramics
- Creation of a photo archive of surveyed and excavated material
- Digitization of archaeological field work records: survey forms, context sheets, ceramic and artefact forms
- Creation of a database of the archaeological material surveyed and excavated by CHS

Digitalization of rare documents/texts

- Digitalization of rare documents available in CHS and JNU Central library
- Digitalization of rare texts of historians, CHS faculties
- Creating a digital section in CHS library

Translation Projects

- Upon availability of funds, CHS will undertake translation projects in a range of Indian classical and vernacular languages, helping thereby to preserve and promote the rich and diverse but often endangered languages and literatures of the country

Public Archaeology

- Field trips exposing students to the numerous sites of ancient, medieval and modern history
- Inculcating sense of heritage and practices of conservation and community outreach
- Bridging the gap between academic practices and community or local imaginations and understandings of the material past
- Creating an interface between archaeology and the public within a department/university museum through exhibitions and films

Centre for Political Studies

Building on its historical strength, the Centre is today a leader in teaching and research in contemporary politics on India. The graduate program, which has entered into an exciting period of expansion, offers several new perspectives alongside more traditional instruction in the study of politics. Long considered one of the top departments in the country, we have now one of the largest and most intellectually diverse political science programs in the world. Our faculty includes 21 scholars whose research and interests span multiple thematic areas in the discipline.

The Centre is in the process capacity of strengthening its research and teaching programmes by including new courses. The M Phil/PhD programme in particular is being given special attention to make it reflective of the transformations in the discipline. In addition new optional courses are being designed to give the students the tools to think creatively and acquire a leading edge in conducting research in the emerging area in the field.

Centre of Social Medicine and Community Health

- Restructuring the MPhil and MPH programme. Working on two new courses
- An expansion of the eligibility base for our MPH programme
- Exploring Master level Programme in Health Studies
- CSMCH is working towards introducing the DrPH program, which will be the first of its kind in the country.

Zakir Husain Centre for Educational Studies

The Centre is planning to organize a special lecture series on the broad theme identified under CAS as a research area, “Globalization, Inter-disciplinarity and Education” and bring out occasional papers with support from CAS. International seminars and researches will be carried out on the specific thrust areas mentioned above leading to publication of edited Vol.s.

The Centre has recently constituted a committee to work on the proposed M. A. programme in Educational Studies. The committee is now working on the basic structure of this M.A. programme.

The Centre has also decided to offer regular refresher and orientation course for the education faculty from different universities and institutes of India.

The Centre has identified the following interdisciplinary areas under CAS for future research:

- Social History and Cultures of Knowledge
- Mapping Transformations in Urban Society and Education in India
- Globalization, Multilinguality and Cognitive Flexibility
- Community Art, Knowledge and Creativity
- Historical, Social and Psychological Perspectives on School Education
- International Education and High Skill Migration
- Reforms in Higher Education: Institutional Diversity, Governance and Disciplinary Practices

Centre for Studies in Science Policy

- The collaborative research in the areas of Responsible Research and Innovation (RRI) Framework, Sustainability Studies, UN Agenda 2030 (Sustainable Development Goals), has been given priority to align with the international research agendas
- The Centre is planning to establish an Infographics Laboratory to promote information visualization and research data analytics; and also to undertake advanced research in the areas of Scientometrics, Altmetrics, and new age research evaluation metrics. This Infographics Laboratory will be very unique within the Indian higher educational institutions. We are also very keen to collaborate with research institutions and research networks in the Global South to make use of this Lab for preparing various reports. The scientometric and altmetric studies will also be undertaken to measure national and regional progress in different branches of STEM (science, technology, engineering and mathematics) subjects as these are the foundations of the industrial and corporate world

Centre for Philosophy

- The Centre for Philosophy plans to apply for the UGC Special Assistance Program (SAP) with a thrust in contemporary Indian Philosophy.
- Centre also plans to set up International collaborations with universities abroad in order to facilitate student and faculty exchange programs.
- With relation to development of syllabi the centre for philosophy plans to introduce new courses especially in the areas like Classical & Contemporary Indian Philosophy and Applied Philosophy which are not adequately represented in the Centre at present.
- The centre plans to explore possibilities of collaborations with Management and health care Institutes with special reference to Moral Philosophy & Applied Ethics.

Centre for Informal Sector and Labour Studies

- To introduce integrated M.Phil/ Ph.D Programme.
- To initiate collaboration with other University and trade unionist.
- To initiate internship programs for students.
- Training programs and capacity building for workers organizations
- Policy dialogues with and inputs for government.

North East India Studies Programme

- Develop NEISP into a Centre of Excellence and Resource Hub. Initial steps have been taken in this direction, including developing its Archival and Documentation centre
- Through institutional collaborations with other Centres within Jawaharlal Nehru University, as well as Universities and Research Institutions located in North East India, and in other parts of India and abroad, NEISP seeks to explore and engage with scholars and institutions working on North East India and its neighbouring areas

Centre for Women's Studies

- The Centre hopes to develop an interdisciplinary M.A. programme that introduces students to both theoretical and empirical concepts in the field of study.
- Building the infrastructure of the Centre, and become a Resource Centre in the field of books and films.
- Offer Refresher Course in Women's Studies
- Nodal Centre and Networking as a part of JNU, the CWS is very well placed for developing linkages and providing resources to colleagues in the city, but also within the northern region.

**CENTRE FOR THE STUDY OF LAW &
GOVERNANCE
(CSLG)**

CENTRE FOR THE STUDY OF LAW AND GOVERNANCE

Centre for the Study of Law and Governance (CSL&G)

The Centre for the Study of Law and Governance (CSLG) adopts a multidisciplinary approach to framing research and teaching on the relationship between law and governance. The study of governance, in its various forms and at different sites, is central to several contemporary issues: reform of public institutions and public law; the creation and establishment of procedures and rules that lead to greater efficiency, transparency, and accountability; and the challenge of making governance more inclusive and participatory through the strengthening of democracy and civil society. The programme's interdisciplinary focus is distinct from mainstream social science approaches to governance or law in its attempt to explore how practices of law and governance are embedded in political, economic, social and historical processes; how practices of governance are dispersed over various sites ranging from the government, bureaucracy, judiciary, community and family; the socio-legal processes that deter or provide access to justice; and notions of governmentality, sovereignty and rights in specific politico-jural regimes.

While the Centre's academic programme produces scholarly research on law and governance, it also seeks to translate theory into practices of governance by initiating debate, sharing research and encouraging dialogue between the academia, government, civil society and NGOs at the local, national and global levels. In the decade since it came into existence, CSLG has developed at least three attributes that make it a distinctive part of the intellectual landscape. First, the Centre is explicitly inter-disciplinary. Second, the Centre has developed a reputation as a location where academic rigour can be meshed with reflection on policy and advocacy. Third, the Centre has become a focal point for understanding the links between the formal legal framework and governance in practice.

Since its inception, CSLG has initiated a renewed interest in looking at how practices of governance get stabilized through law and how these practices open law to further contestation. CSLG is the only academic space in India, and possibly one of the few academic spaces in the world, to have directed intellectual energy towards bringing together an inter-disciplinary focus on the relationship between law and governance.

The agenda of public policy through an examination of doctrinal law remains incomplete without interrogating the socio-legal processes that embed the practices of governance. CSLG has moved away from the conventional methods of looking at black letter law to using economic and sociological approaches to law in order to redress lacunae in legal research per se in India. The manifold agendas of legal reform and public policy in India remain impoverished in the absence of substantial socio-legal research in many areas of law that impact the everyday life of Indian citizens.

**SPECIAL CENTRE FOR DISASTER RESEARCH
(SCDR)**

Special Centre for Disaster Research (SCDR)

The coming up of this Special Centre for Disaster Research addresses an increasing need for transdisciplinarity in social science research. It was approved in the 143rd Academic Council Meeting in May 2017. The Centre had been functional as an incubation programme of transdisciplinary disaster research since 2013 to design a meaningful curriculum, objective research, and sustainable collaborations with government, public sector undertakings and community-based organizations. It aims to obtain and build upon a high level specialized decision-making capacity through a holistic and deep understanding of diverse communities and people, habitat vulnerability and carrying capacities of institutions, populations and their habitats. It studies institutions of governance during emergencies and crisis, legal procedures and bureaucratic accountability and finally issues of justice for human and nonhuman lives. Since the Hyogo Declaration of 2005 leading to the Sendai Framework of 2015 governments have a direction and institutions have guidance. The Centre addresses issues of implementation, accountability and responsible governance. The pedagogy of disaster studies would most appropriately focus upon the deontology or the moral rightness of doing one's duty towards the social system and communitarian traditions which we live in.

Programmes Proposed (2)

The Centre plans to start two programmes in Disaster Studies (2) (MA and PhD). The MA in Disaster Studies would be higher to existing MA programmes in the university and would be equivalent to an LLM programme in its aptitude building in research, robust training in situational analysis and comparative data analytics. A series of books from the centre attempt to assemble experience, spawn community initiatives and highlight the gaps in the implementation processes which throw communities into recurrent disasters.

The four rubrics around which all courses would be structured are:

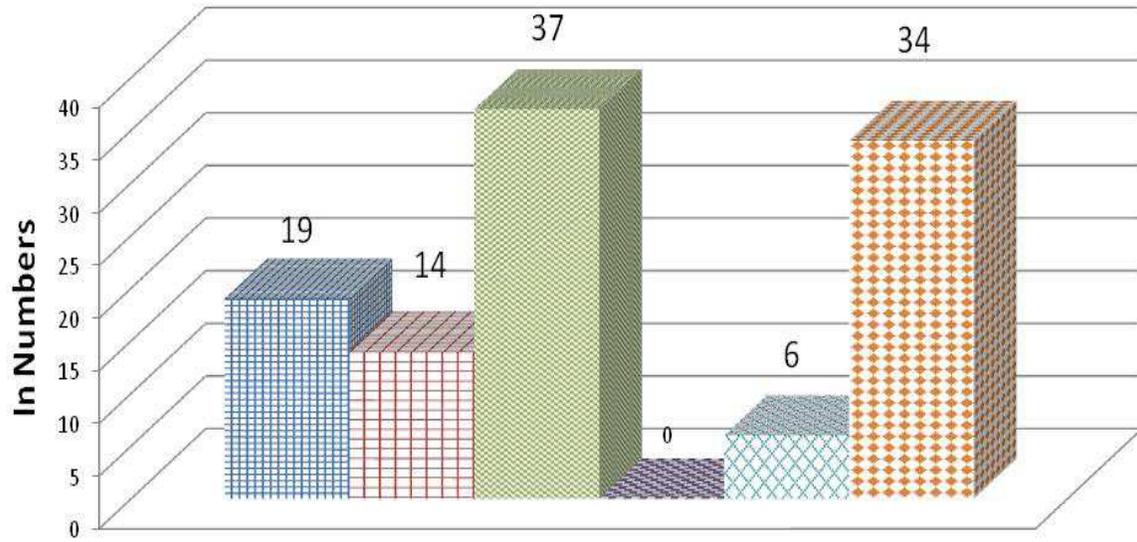

- Governance and Legal Framework for Disaster Management
- Anthropology of Disasters and Resilience of Communities
- GIS Technology, Computational Intelligence (AI) & Machine Learning
- Disaster Economics, Livelihood and Insurance

Seminars/Conferences/Workshops Organized (5)

- College Cluster Initiative for Micro-Level neighbourhood mapping programme (2016-17) in collaboration with three colleges of Delhi University - Lady Sri Ram College for Women, Miranda House and Kamla Nehru Collage with the aim to sensitise the youth by involving them in a participatory, February, 2016 – June, 2017.
- Two -day Conference on “Development, Disasters and Community Resilience in the Northeastern states of India”. The Hon’ble Minister of State for Home Affairs Shri Kiren Rijiju formally launched the Special Centre for Disaster Research in a ceremony at the Convention Centre, JNU, 26 – 27 October, 2017.
- Key Collaborator at the Third World Congress on Disaster Management at Vishakhapatnam, 6 – 10 November, 2017.
- Conducted a two-week ICSSR sponsored Capacity Building Workshop for faculty of all universities and colleges in the country and sponsored participants from NGOs and Government on “Social Sciences Approach to Disaster Research” -It was attended by thirty institutions across the country, 5 – 18 February, 2018.
- Organized an International Conference in collaboration with the Crisis Leadership Centre, Kennedy School of Governance, Harvard University and Experts from International Network of Disaster Research on “Reinforcing Institutional Decision Making in Disaster Preparedness and Mitigation”, 16 – 18 February, 2018.

Special Centre for Molecular Medicine (SCMM)

Molecular medicine is an emerging area within biomedical sciences that aims to understand the molecular determinants of health and disease with the ultimate goal of applying this knowledge for the prevention, diagnosis and treatment of diseases. The Special Centre for Molecular Medicine (SCMM) at JNU has pioneered research and education in this field in India and is imparting Ph.D. level training in this field. The centre aims to accomplish its goal through innovative and collaborative basic and clinical research programs and has initiated many collaborative research activities with reputed national and international medical research institutes.

The objective of SCMM is to foster teaching and research activities in the study of human diseases using advanced tools of molecular and cell biology. SCMM conducts academic programs for the training of young scientists (clinical and non-clinical) who are keen to pursue a career in basic medical research. The academic programs have been designed for non-clinical biologists/chemists, with sufficient knowledge to deal with medical problems, to enable them to deliver product/processes to society and clinicians with a basic clinical degree, who understand modern biology and chemistry at the molecular level to enable them to apply this knowledge to drug development. For successful implementation of these objectives, SCMM offers the following programs of study.

To encourage students from basic sciences and medical graduates, the centre offers Ph.D. Programs in Molecular Medicine and is pursuing teaching & research activities in the following thrust areas:

- Metabolic disorders such as cardiovascular diseases, role of iron in insulin resistance related pathogenesis, neurodegenerative disorders like Parkinson and Alzheimer diseases, and endocrine-related cancers.
- Nuclear receptors in health and diseases: to study underlying molecular mechanisms of nuclear receptors functions with specific reference to PXR, RXR, CAR, SHP. Involvement of PXR in drug metabolism and hepatic cancer.
- Diseases associated with cell-cell junctions and modulation of cell-cell junctions by pathogens.
- Infectious and non-infectious diseases: hepatitis C, Leishmaniasis, Helicobacter pathogenesis, Candidiasis, Inflammatory Bowel Disease, Pathobiology of innate immune dysfunction, DNA replication and cell cycle regulation of medically important pathogens: *Helicobacter pylori* and *Plasmodium falciparum*, application of codon-shuffling against *Mycobacterium tuberculosis* and *Plasmodium falciparum*, Mycobacterium tuberculosis and drug resistance.
- Chemical biology, radiation biology and cell signaling; development of novel synthetic methodology for drug development and study of their mechanism of action based on genomics and proteomics against radiotherapy; cancer; development of antibiotics for gyrase resistant strains targeting topoisomerase 1A gene in bacteria.
- Synthetic organic chemistry: Synthesis of biologically active heterocycles using novel methodology with transition metal catalyst.
- Designing /Discovering codon shuffled de-novo peptide/protein inhibitors against essential/crucial proteins of pathogens. To study crucial host-pathogen interactions by designing codon shuffled de-novo peptide/protein inhibitors. Synthesis and selection of novel drugs like de-novo peptide binders by codon shuffling method that may inhibit crucial host-pathogen interactions in Malaria and Tuberculosis diseases.
- Diagnostics and medical proteomics, and mass spectrometry based metabolomics.

Selected students will have the option to choose their research area depending on their merit/aptitude and according to the vacancy available.

SCMM also offers **M.Sc. Programme in Molecular Medicine**. The goal of this program is to train students in modern areas and techniques of cell, molecular biology and organic chemistry in relation to human health and disease and the subsequent application of this training to identify new targets for the diagnosis and therapy of different diseases. The completion of the Human Genome project and various other genomes including pathogenic organisms has opened new opportunities for the understanding of the molecular mechanisms of diseases both from the host as well as pathogen's perspectives. Students will be trained to use the tools of modern biology including bioinformatics so as to understand, retrieve and exploit the wealth of information provided in the Genome projects to design modern and personalized medicines.

New Courses

One optional course for Ph.D. Programme in “Molecular Medicine” By Dr. Shailja Singh, Associate Professor
CM616: “Host pathogen interactions and therapeutic intervention strategies” (3 credits) (to be commenced from academic year 2018-19)

Visitors to the School/Centre:

- **Dr. Franklin Peter**, from M/s GE Healthcare, London, UK visited the centre and delivered a lecture entitled “Technical talk on super resolution imaging technologies”, 2 November, 2017
- **Dr. Jeremy N. Burrows**, Head of Drug Discovery Medicines for Malaria Venture, Geneva, Switzerland visited the Centre and delivered a lecture entitled “Discovery towards the next generation of antimalarials”, 6 December, 2017
- **Dr. Sutapa Agrawal**, from CCCI, Public Health Foundation of India, Gurgaon, visited the Centre and delivered a lecture entitled “Analysis of Epidemiological Studies using Secondary Data”, 22 February, 2018
- **Dr. Sudip Sen**, from AIIMS visited the Centre and delivered a lecture entitled “Degenerative diseases and stem cell therapy”, 22 February, 2018
- **Prof. Mariko Okada**, from Institute for Protein Research, Osaka University, Osaka, Japan, visited the Centre and delivered a lecture entitled “Systems biology of signaling network”, 7 March, 2018
- **Prof. Amit Dinda**, from AIIMS visited the Centre and delivered a lecture entitled “Pathobiology of Renal Diseases”, 7 March, 2018
- **Dr. Ravinder Goswami**, from AIIMS, New Delhi visited the Centre and delivered a lecture entitled “Vitamin D Deficiency and Hypoparathyroidism”, 8 March, 2018
- **Dr. Mary D’Souza**, from Wilmot Cancer Center Strong Hospital, University of Rochester, New York, USA visited the Centre and delivered a lecture entitled “Hepatocellular miRNA Profiling from formaldehyde fixed paraffin embedded human liver tumor tissue”, 19 March, 2018
- **Dr. Jayanth Kumar**, from AIIMS, New Delhi visited the centre and delivered a lecture entitled “Cancer and the Immune System”, 20 March, 2018
- **Dr. Praloy Chakraborty**, from Vardhman Mahavir Medical College & Safdarjung Hospital, New Delhi, visited the Centre and delivered a lecture entitled “Sudden Cardiac arrest (SCA)”, 21 March, 2018

Future Plans:

Research: Special Centre for Molecular Medicine is planning to expand its scope in the frontier areas of ‘*Infectious Diseases, Metabolic Disorders, Radiation Biology, Cancer Biology, Drug Design and Drug Discovery*’ with an approach towards studies on *Molecular targets, Molecular Diagnostics and Translational Research*’.

Teaching: We have moved to our new building with ample laboratory and class room space, and are in the process of expanding our infra structure and teaching faculty. The first batch of Integrated M.Sc.-Ph.D. Programme in 'Molecular Medicine' was started from academic year 2015-16. The course contents have now been finalized and approved by Academic Council, Jawaharlal Nehru University.

SCMM has ten faculties and recently one more faculty will be joining the center. Our faculties are excelling in the different area of research and all of us collaborating with different research institutions and hospitals in the area of several major human diseases such as malaria, cancer, AIDS, Tuberculosis, Gastritis.

Students’ Participation in Conferences/Meetings/Workshops/Symposiums

- **Ms. Sandhya**, a Ph.D. student, attended an international conference entitled “6th World Congress on Leishmaniasis” held at Toledo, Spain, 16 – 21 May, 2017
- **Mr. Raja Singh**, a Ph.D. student, attended EMBO workshop at Eurotel Victoria, Les Diablerets, Switzerland, 16 – 21 September, 2017
- Ph.D. students **Ms. Kirti Pagarware, Mohd. Imran Ansari** presented a poster entitled “*Use of Fluorescent molecules to study cell adhesion*” in the Open day organized by JNU, New Delhi, 27 October, 2017

- Ph.D. students **Ms. Kirti Pagarware**, **Ms. Swati Sharma**, **Mohd. Imran Ansari** and **Mr. Anupam Mandal** and M.Sc. student **Mr. Pangertoshi Walling**, presented a poster entitled “Mechanism of Tight Junction disruption by the Enteropathogenic *E. coli* effector protein EspF” in the 86th Annual Conference of the Society of Biological Chemists held at JNU, New Delhi, 16 – 19 November, 2017
- Ph.D. student **Mr. Yende Ashutosh Shyam**, attended the annual 86th SBC conference on “Emerging Discoveries in Health and Agricultural Sciences” held at School of Life Sciences, Jawaharlal Nehru University, New Delhi, 16 – 19 November, 2017
- **Ms. Pragya Namdev**, a Ph.D. student, attended International Vaccine Conference – 2017, held at International Centre for Genetic Engineering and Biotechnology (ICGEB), New Delhi, 27 – 29 November, 2017
- **Ms. Bhumika Sharma**, a Ph.D. student, attended a meeting of the American Society for cell biology /European molecular biology organization (ASCB|EMBO) annual meeting 2017, held at Philadelphia, PA, USA, 2 – 6 December, 2017
- **Ms. Bhumika Sharma**, a Ph.D. student, was awarded American Society for Cell Biology (ASCB) International Travel Award to attend the above conference.
- Ph.D. students **Ms. Kirti Pagarware**, **Ms. Swati Sharma**, **Mohd. Imran Ansari**, **Mr. Anupam Mandal**, and M.Sc. Student **Pangertoshi Walling** presented a poster entitled “Functional analysis of diarrheagenic Enteropathogenic *E. coli* (EPEC) effectors in assembly and disruption of Tight Junctions” in the International Congress of Cell Biology held at Hyderabad, India, 27 – 31 January, 2018
- Ph.D. Students **Ms. Pratibha**, **Mr. Yende Ashutosh Shyam**, and **Mr. Sudhir Kumar** attended the International Congress of Cell Biology 2018 “The Dynamic Cell: Molecules and Networks to Form and Function” held at CSIR-Centre for Cellular & Molecular Biology, Hyderabad, 27 – 31 January, 2018
- Ph.D. Students, **Ms. Kirti Pagarware**, **Ms. Swati Sharma**, **Mohd. Imran Ansari**, and **Mr. Anupam Mandal**, and M.Sc. Student **Mr. Pangertoshi Walling** presented a poster entitled “Functional Analysis of the Role of the Enteropathogenic *E. coli* Effectors in the Assembly and Disruption of Tight Junctions” in the National Science Day held at JNU, New Delhi, 28 February, 2018
- Ph.D. students **Mr. Shashi Prakash Singh** and **Ms. Varsha Rawat** attended the GIAN Course in Immunology “Molecular Dissection of Host-Pathogen Interaction --The basic translational Immunology” held at IISER, Bhopal, 17 – 28 February, 2018
- **Mr. Amit Kumar Dash**, a Ph.D. student, attended an international conference on “New Roles for Nuclear Receptors in Development, Health and Disease” held at the Fiesta Americana Condesa, Cancun, Mexico, 27 January – 2 February, 2018
- **Mr. Krishanu Bhowmick** attended and presented a poster at the International Congress of Cell Biology (ICCB), Hyderabad, India. The topic of the conference was “The Dynamic Cell, from Molecules and Networks to Form and Function”, 27 – 31 January, 2018
- **Dr. Paramita Saha**, attended the ‘Group Monitoring Workshop’ for the Young Scientist Scheme (SERB), held at University of Agricultural Sciences, Bangaluru, 20 – 21 July, 2017
- **Dr. Paramita Saha**, attended the workshop on ‘Intellectual Property Rights (IPR)’, organized by CWEI, held at JNU, 29 November, 2017
- **Dr. Sourav Singha Roy**, a D.S. Kothari Fellow under supervision of Prof. Suman K. Dhar, presented poster “Intrinsically Disordered Proteins: Forms, Functions and Diseases 2017” at IISER Mohali, 9 – 12 December, 2017

Any other Information

- **Dr. Paramita Saha** has been carrying out her research as Young Scientist (Start-up Research Grant, SERB, DST) under the joint mentorships of Prof. Rakesh K. Tyagi and Adjunct Prof. Kasturi Datta on the project entitled “An Insight into the Molecular Dynamics of Polycystic Ovarian Syndrome (PCOS) in Conjunction to Autophagy and HABP1 Expression”. During her project duration she published following two research publications:

Special Centre for Nano Sciences (SCNS)

SCNS is an inter-disciplinary research and teaching centre at JNU. The Nanosciences related research topics pursued currently include nanoscale interface, bio-sensors, spintronics, ferromagnetic nano-elements, ferroelectric materials, nano-composites, hybrid nanomaterials to name a few. The Centre has faculty members with background in Physics, Electronics, Biology, Materials Sciences, etc.

The research agenda of SCNS involves synthesis, characterization and device development of nanomaterials. These include (i) magnetic nanostructures (nanowires and nanoparticles) and nanodevices (microwave monolithic nanodevices and magnetic sensors), (ii) magnetic nano-particles for target specific drug delivery, (iii) semiconductor quantum dots, nanoparticles and nanocomposites for solar cells and biosensors, (iv) multiferroic and ferroelectric nanomaterials for capacitors, UV sensors, wireless actuators, infra-red detectors, micro-electro-mechanical system (MEMS) devices, piezoelectric devices, ferroelectric nonvolatile random access memories (FeRAMs). The fabricated signal processing devices are on-chip, light weight and hand held type use.

Sensors and biosensor are demanding for the clinical diagnosis and environmental contaminants detection. Different types of biosensors based on transducers and recognition elements can be fabricated for the desire analytes (mycotoxins cholesterol, glucose, LDL, urea, etc) detection. Electrochemical biosensors are promising techniques for early detection of diseases like cancer that can detect very low concentration (pg) of biomarkers. Microfluidic biosensors also have increasing interest to integrate advanced biosensors into lab-on-a chip for multi-analytes detection. Besides this different nanomaterials are being used for water pollutants, pathogen detection and remediation of the heavy metals ions (lead and chromium) present in aqueous solution.

The central theme of thin-film and electron microscopy research group is “Nanostructure - Physical property correlation in technologically important nanostructures using Transmission Electron Microscopy (TEM) and Scanning Electron Microscopy (SEM)”. Thin-film and electron microscopy laboratory has installed an RF-DC magnetron sputtering system in September 2016. In addition, thin-films and bulk materials of functional oxides are being synthesized using sol-gel spin coating and solid state synthesis methods. Lead-free ferroelectrics and antibiofilms are currently being investigated. TEM investigations are an integral part of the research which is carried out at AIRF of the university. Ion milling machine for preparing TEM samples has been installed at AIRF in November of 2016.

Jawaharlal Nehru Institute of Advanced Studies (JNIAS)

The Jawaharlal Nehru Institute of Advanced Studies (JNIAS) was set up nearly sixteen years ago and it is unique that for the first time in India, such an institute has been incorporated as part of a public university. As JNIAS completes over 16 years to expand its outreach and visibility and emerges as a distinct Institute at a global level, we note with pride that around 202 scholars from all over the world have come to the Institute as Fellows.

The fellows are selected by the JNIAS and are integrated into the academic community of the University. The JNIAS has also collaborated in organizing a number of workshops and seminars.

The current Director of the JNIAS is Professor Ajay Kumar Dubey.

During the reporting period 11 Fellows joined from all over the world.

UGC - Human Resource Development Centre (HRDC)

The Human Resource Development Centre (formerly Academic Staff College), JNU is India's premier institution for the up gradation of knowledge and skills of college and university teachers. An intellectual nerve centre, the UGC - Human Resource Development Centre at the Jawaharlal Nehru University was started in the year 1989. It has successfully completed 29 years and has emerged as a major meeting ground of teachers in the country.

Drawing upon the faculty of JNU as well as other prestigious institutions in and around Delhi, the HRDC and JNU brings to its participants the cream of Indian scholarship as resource faculty.

The following main target groups have been identified for capacity building, knowledge enhancement and similar other programmes with the objective of a holistic approach focused on transformation of our institutions of higher education to a more facilitating academic environment conducive to innovations, creativity and quality advanced learning and research.

- Faculty members in institutions of higher learning engaged in teaching and research
- Teacher Educators
- Key non-academic functionaries in institutions of higher learning for better governance and to facilitate efficient use of various fast growing ICT resources and applications
- Research scholars

Web link: <http://www.jnu.ac.in/HRDC>

We receive nearly 600 applications for each Orientation Programme and more than 100 applications for each refresher as well as short term course. The selection of participants for the various courses is thoroughly done by the screening committee for equitable representation from every State, reaching different segments of the society and the deserving individuals.

Inaugural and valedictory programmes are organised for every course by inviting renowned personalities, Vice chancellors, Rector, Directors of Institutes, etc.

Interactive sessions with the Faculty trainees are done throughout the course to get their feedback and suggestions on their needs and changes incorporated in the curriculum accordingly.

The UGC-HRDC, JNU organizes yoga classes thrice a week for the participants.

We provide hostel accommodations to all outstation participants. HRDC hostel has 49 rooms and 8 fully furnished guest rooms for the participants and resource faculties.

Coordinators and Resource Persons for 2017 - 2018

The HRDC, JNU has been fortunate in having the support and willing participation of some of the most distinguished scholars and public intellectuals of the country in all the programmes. Most of those who were invited have responded to our request to share their expertise with the participants. It is through their valuable cooperation that has made the HRDC, JNU, a very stimulating place for academic exchange. Apart from the different Schools and Centres of JNU, the HRDC, JNU gets its support from a number of institutions that cooperate with us by sending their distinguished scholars as resources persons. The academic environment and standard maintained by the HRDC, JNU attract the scholars in various fields to continue interactions with its participants.

Equal Opportunity Office

Jawaharlal Nehru University has been established by an Act of Parliament (53 of 1966). In order to ensure equal opportunity, the University has an Equal Opportunity Office (EOO), which was set up, perhaps, as the first of its kind in the country to aid and advise the students belonging to marginalized sections including the scheduled castes, scheduled tribes, other backward communities, minority communities, persons with disabilities, etc. pursuing various programmes of study at the University.

The terms of reference wherein the Equal Opportunity Office at the University may undertake activities are *inter alia* as under:

- To work out suitable programmes/schemes, including Remedial Courses, for improving performance of students from marginalized sections (whether at undergraduate, postgraduate, M.Phil, Ph.D. or other levels) and/ or to monitor the implementation of such programmes/schemes;
- To establish co-ordination with Government and other funding agencies (including Public Sector Undertakings/ Public Sector Banks) with a view to mobilizing financial and other resources required for educational empowerment of the students from marginalized sections;
- To provide information and act as a counseling-cum-guidance centre for students belonging to the marginalized sections, especially with regard to academic, financial and other matters;
- To help and create a socially conducive atmosphere for the growth of healthy inter-personal relations among students from marginalized sections and from various social backgrounds;
- To help and develop cordial inter-personal relationships between teachers and the students from marginalized sections for academic interaction and extra-curricular activities;
- To extend help/support to the students from marginalized sections to overcome problems and barriers emanating from discrimination at any level within its mandate;
- To organize or conduct seminars/ symposia/workshops/conferences/exhibitions, etc. from time-to-time on issues of contemporary significance for empowering, educationally and culturally, students belonging to the marginalized sections.

Access – Audit for Barrier Free Campus

An Access Audit of the entire campus had been carried out so as to make the academic, administrative and residential buildings and public places in the University campus accessible for the wheel-chair users and the visually impaired persons.

The University has been identified as a model higher education institution by the Department of Disability Affairs, Ministry of Social Justice and Empowerment, Government of India under the Scheme for Implementation of Persons with Disabilities Act (SIPDA) along with a grant-in-aid of Rs 8.51 Crores approx. for the execution of the first phase of work for creating a barrier-free environment, facilitating the University to make the requisite structural and other changes on the campus. Wherever possible, the Equal Opportunity Office has been assisting the University in the activities which are underway for creating such changes.

Steps Towards creation of a Barrier – Free Environment

Though certain measures (such as putting special ramps, disabled-friendly toilets, etc.) have been taken earlier in order to facilitate persons with disabilities, there were areas which necessitate further attention and improvement to make the University accessible for disabled persons. The ongoing activity under SIPDA to make the campus barrier-free is a major effort in this direction, making facilities for persons with disabilities which *inter alia* includes the following:

Ramps

- Ramps have been provided in following hostels for physically challenged students:

a	Kaveri	b	Godavari
c	Periyar	d	Jhelum
e	Sutlej	f	Ganga
g	Koyna	h	Shipra
i	Brahmaputra		

- Ramps with tactile paving have been provided for physically challenged students:
 - a. In all academic complex, School Buildings, Kaveri, Godavari, Periyar Hostels,
 - b. Pavement from North Gate to Admin. T-Point
 - c. Aravali Guest House, Aravali International Guest House, 24X7 Dhaba, Main Shopping Complex, Health Centre etc.

Lifts

Lifts have already been installed in various buildings of the University for facilitating the independence and mobility of the persons with disabilities. While certain measures have been taken in the past to make the lifts accessible to persons with disabilities, further steps, such as, installation of Braille Systems, voice systems, etc., were undertaken to make the lifts more disabled friendly.

Installation of lift(s):

- (i) Lift installation completed in:
Admin building, SSS-I, SSS-II, SSS-III, SES, SIS-I and SIS-II, SLL&CS-I, SLL&CS-II, Library Building, SLS, SC&SS
- (ii) Lift installation work in progress in:
Kaveri hostel, Godavari hostel, Periyar hostel, School of Physical Sciences, Centre for Law and Governance, Centre for Sanskrit Studies
- (iii) Lifts proposed:
HRDC (Old Academic Staff College) and JNIAS New Building

Toilets

A special measure has been taken to provide adequate lights in the toilets in the Schools and the Library to assist the students with low vision. Construction was carried out in the toilets on the ground floors in Koyna and Shipra hostels to make them more disabled-friendly. However, certain problems which are still being faced by students have been identified and efforts are underway to rectify such problems under the SIPDA scheme. Structural modifications in toilets in other areas of the campus are also underway for improved accessibility to persons with disabilities.

Construction of specially designed toilets for physically challenged students:

i.	Kaveri Hostel	ii.	Godavari Hostel
iii.	Periyar Hostel	iv.	Brahmaputra Hostel
v.	School of Life Sciences (East & West Wing)	vi.	Admin. Building
vii.	Social Science-I & III	viii.	SES Building
ix.	SLL&CS-I, II & III	x.	SIS- I & II
xi.	Centre for Sanskrit	xii.	Centre for Law and Governance
xiii.	SC&IS	xiv.	SPS
xv.	SCMM	xvi.	JNIAS New Building

ATMs

Two ATMs, touted as the State Bank of India's first 'real' disabled-friendly ATMs, have been installed at the University; one in the Poorvanchal Complex and the other near the Dr. B. R. Ambedkar Central Library building.

Most of ATMs are available with Ramp in this the campus.

Work in progress

- Creation of Barrier free Campus including installation of barrier free lifts in Academic & Hostel Buildings.
- Construction of tactile footpath on right hand side from East Gate to Admin. Block at JNU.
- Construction of footpaths and repair of all the roads in the Campus.

Wheelchairs

Wheel Chairs are provide by Equal Opportunity Office to required students.

Blind Sticks for Visually Impaired Students

A significant proportion of visually impaired students pursuing various programs of studies at the University suffer from total blindness. As visually impaired students typically use blind-sticks for their mobility on the campus and in negotiating their way outside the campus, the Equal Opportunity Office purchased fifty good quality blind-sticks from Ramakrishna Mission (Kolkata) and were distributed to the needy students (Visually impaired) of the University.

Mini Bus for Physically Challenged Students

Equal Opportunity Office has purchased a disabled friendly AC mini bus from M/s. Samson Motor, Vasai under Corporate Social Responsibility (CSR), duly funded by Bharat Heavy Electrical Limited (BHEL)

Laptop Customized Software for VH Students

Equal Opportunity Office and Project Implementation Committee (PIC) to implement the initiative of Rural Electrification Corporation Ltd. (RECL), New Delhi supporting JNU generous donations under its CSR activity, purchased 50 laptops with customized software for the visually impaired students of JNU and 26 Laptops have been distributed to Visually impaired students on 31.3.2016. Presently redistributed to required students.

Dr. B.R. Ambedkar Central Library & Helen Keller Unit

To meet the special needs of the visually impaired students the following facilities have been put in place at the Dr. B.R. Ambedkar Central Library of the University in collaboration with the Equal Opportunity Office.

- a. A Unit named after Helen Keller (Equipped with 20 Desktop installed with screen reading software, CD Rack & Book Rack) is instituted at the ground floor of the Central Library building. It also provides special services using assistive technologies to the visually impaired students/ researchers of the university by providing E-Books, E-journals, Online Databases, Books, apart from providing scanning facilities on demand. The MAGIC software has also been installed on 5 Desktops for the low vision students/ researchers. Two Braille Embossers are capable of printing Hindi, English text, graphics and maps into Braille.
- b. The Helen Keller Unit is equipped with the following assistive technologies:
- **Desktop Computers** **30**
 - **JAWS** **30 on each computer**
 - **Kurzweil 1000** **30 on each computer**
 - **Computer headphones** **30 to each Computer**
 - **HP flatbed scanners** **20 to each computer**
 - **LexCam Scanners** **02**
 - **Refreshable Braille Display** **02**
 - **Braille Embossors** **02**

This unit has been extended to different Schools/ Centres like. SSS-I, SSS-II, SIS, CSL&G and Sanskrit Centre. These software support features enabling the user to hear the e-text in different European languages, English and Hindi Language. The EOO has been working in collaboration with the Central Library to provide further support to the facilities at the library.

Certain additional facilities are made available to Visually Impaired students include the following:

- Angle Daisy Player 90 to all Visually Impaired Students
- Laptops 90 to all Visually Impaired Students
- Wheelchairs 15 (for Physically challenged students)

Locker facility to all visually / physically challenged students on demand

The library organizes training and orientation programmes on the uses of assistive technology for the benefit of students to encourage the use of the technologies in day to day studies. The library is also a member of the Daisy Forum of India (DFI) and Bookshare.org to provide the e-text facilities to visually impaired students of the University.

Remedial Classes

The Centres/Schools conduct Remedial Classes for SC/ST/OBC (NC) minority community students as per UGC Scheme. The Centres/Schools have designated conveners. Students who need Remedial Classes are identified by conveners. The main objective of these classes is to make up the deficiency in the core subjects and optional subjects; improve academic skills; raise level of comprehension of basic subjects as well as to provide stronger foundation for further academic work; to strengthen their knowledge' skills attitudes in such subjects where quantitative and qualitative and laboratory activities are involved, so that the necessary guidance and training provided under the programme may enable the students to come up to the level necessary for pursuing higher studies efficiently and to reduce their failure and dropout rate. Time table for Remedial Classes is displayed on the notice Boards of Centres/Schools from time to time.

Welfare activities for students

Besides this, Equal Opportunity has purchased many books for the students, preparing for civil services, staff selection commission and UGC NET examination etc.

Equal Opportunity Office provide the space facility for SC/ST/OBC disable person for free coaching/lectures facility in SC&IS building from 5 pm to 9 pm as per rule.

Equal Opportunity Office as Complaints Redressal Mechanism

The Equal Opportunity Office has been committed to fulfilling its mandate of maintaining social harmony among various sections of the University community. Whenever any case of social discrimination is brought before the Equal Opportunity Office, it is thoroughly investigated and examined and suitable action is recommended. Addressing of issues related to any social discrimination faced by students or staff at any level is amongst the principal objectives of the Equal Opportunity Office.

The Equal Opportunity Office wishes success to all the members of the University and is always available for assistance.

Complaints: During the period under report 05 had been received by Equal Opportunity Office which are currently under process.

University Level Anti-Discrimination Committee

In order to further strengthen the mechanism of ensuring equal opportunity and to check cases of discrimination, the University has constituted the following committee.

1. Rector-I	Chairperson
2. Dean, School of Environmental Science	Member
3. Dean, School of International Studies	Member
4. Chairperson, Special Centre for Molecular Medicine	Member
5. Prof. Narendra Kumar, Centre for Political Studies/SSS	Member
6. Chief Advisor, Equal Opportunity Office	Special Invitee
7. Assistant Registrar (Academic)	Member Secretary

Anti-Discrimination Officer

The Chairperson of the Anti Discrimination Committee as shown above also act as Anti- Discrimination Officer.

Prof. G. K. Chadha Memorial Fellowship for Differently Abled Students

The University has created an endowment fund of Rs. 5 lakhs donated by the family of the late Prof. G. K. Chadha, former Vice-Chancellor of JNU, for award of 2-3 fellowships to Master's level students with the highest percentage of marks.

It is requested to bring this to the notice of all faculty, students & staff for wider publicity.

Linguistic Empowerment Cell (LEC)

Linguistic Empowerment Cell (LEC) is a unique capacity building system evolved by JNU to empower the students, a very heterogeneous population, coming from different sections of the society and remote regions of the country who get admission with deprivation points system of JNU. It caters to the linguistic needs of these students who may find it hard to cope with their regular programs in their respective schools and centers primarily for reasons of language. LEC runs courses in English, Hindi and Sanskrit Languages to the Indian and foreign students. Indian Sign Language is again a new and notable programme offered by LEC. And now, LEC is all set to offer 'English Language Training for Foreign diplomats and professionals under ITEC-MEA programme' from the next academic session sponsored by Ministry of External Affairs, Government of India.

Institutional Ethics Review Board (IERB)

Institutional Ethics Review Board, functioning since September 2008, offers assistance and guidance to researchers of JNU who need to work on Human Subjects and apply for ethical clearance for the same. The JNU – IERB is one of those regulatory mechanisms which builds capacities for a more meaningful interaction on the ground and facilitates international standards in research and publications. In fact, IERB, its constituent elements and all the panelists are aware of the fact that for the advancement of knowledge, real life experimentation- based research must go on, which may on most occasions involves living beings both human and non-human. It is both an individual as well as an institutional responsibility to protect the biosphere, cause no harm through experimentations to any of its constituents, be it a human being or any other form of life, or even the fine balance of the ecosystem. Besides this, the Constitution of the country has set up many institutions which have established laws and Codes on data collection, data sharing, and information dissemination to protect national interests, intellectual property rights, creative copyrights and human dignity of marginalized and vulnerable communities and people. It is a collective responsibility of the researcher and the institution to balance the risk against benefits, try and minimize risk and maximize benefits through appropriate study design and appropriate research procedures and tools. This is where the institutional ethical committees play a critical role, more as an advisory body with a multi-sectorial, multidisciplinary body of experts rather than just another administrative hurdle for the young enthusiastic scientists.

The Constitution of IERB for the year:

- Chairperson: Prof. Dr. Shiv K. Sarin, Director, ILBS, (2011 – continuing)
- Co-Chairperson: Prof. Dr. S.C. Malik, Former Professor of Psychiatry, LHMC, (2011 – continuing)
- Member Secretary: Prof. Amita Singh (Centre for the Study of Law and Governance, JNU), (2015 – continuing)
- Co-Member Secretary: Dr. Sushil K. Jha, (School of Life Sciences, JNU), (2015 – continuing)

Conferences and participation in Meetings/Workshops (3)

National Conference on ‘Ethics in Public Service’, 13 September 2017

The conference held on 13 September, 2017 was organized with the objective of initiating a dialogue with Indian Council of Social Science Research to initiate a sensitization process of social scientists in research and subsequently coming up with a Code of Ethics which incorporates the language, terminologies and processes unique to social science research alongside the ICMR Code of Ethics. Ethics is a universally applicable idea and is indivisible and unsegmented which transcends narrow boundaries of disciplinary researches. Even in top universities which have very high ratings through accreditation authorities such as NAAC and AICTE, much social science research is conducted (Both MPhil/PhD and faculty proposals) without an ethical review. Most institutions have not even set up their Institutional Ethical Review Boards and JNU takes pride in this exemplary institution. Notwithstanding the IERB in JNU there is still an enormous lack of sensitivity amongst social science researchers towards ethical reviews. While plagiarism is scientifically checked through softwares, the socio-psychological impact of the self-constructed biased procedures in data collection are never accounted for in the quality of research. Only very few social scientists in JNU approach IERB as it is still not mandatory to get IERB clearance for research.

The conference was inaugurated by Prof. M. Jagadesh Kumar, Vice Chancellor, JNU who welcomed the Chief Guest, Dr. Brij Bihari Kumar, Chairman ICSSR and Guest of Honor Prof. Virender Kumar Malhotra, Member Secretary, ICSSR. The opening session was Chaired by Prof. Dr. Shiv K. Sarin, Chairperson, IERB & Director of Institute of Liver and Biliary Sciences. The Vice Chancellor and the Chief Guest released the book “Ethics in Governance in India” (Routledge) by Prof. Bidyut Chakrabarty, Political Science Department, Delhi University. The experts and panellists of IERB, from JNU and outside who spoke included Prof. SC Malik, Prof. Madhuri Behari, Prof. Vaishna Narang, Prof. Ravinder Gargesh, Dr. Sushil Kumar Jha, Dr. Paul Raj, Dr. Madhav Govind, Ms. Vibhuti Sharma, Dr. Tripti Khanna, Dr. Sunil Mittal, Prof. Manu Mittal, Prof. Minati Panda, Prof. Bhupinder Zutshi, and Advocate Rukhsana Chowdhary

The conference had the following insightful critically analyzed sessions:

- Ethics as primordial or regulatory
- Special dialogue between ICSSR and ILBS on “Where did we go wrong?”
- Legal and psychological care givers in a disturbing social ethos

Consultative Meeting at the National Center for Disease Informatics and Research (NCDIR), Bangalore on Pilot testing the ICMR-THSTI forms for use by Ethics Committees, 6 – 7 September, 2017

The IERB was represented by Dr. Sushil Jha, Co-Member Secretary IERB. JNU-IERB was invited to share concerns on draft IERB forms. The Sree Chitra Tirunal Institute for Medical Sciences and Technology (SCTIMST), Trivandrum and National Centre for Disease Informatics and Research (NCDIR), Bengaluru proposed to pilot test the draft common forms. These forms were prepared by the NCDIR, ICMR and Translational Health Science and Technology Institute (THSTI). The key members of the committee alongside JNU-IERB were Mala Ramanathan, Professor, Achutha Menon Centre for Health Science Studies (AMCHSS), Sree Chitra Tirunal Institute for Medical Sciences and Technology (SCTIMST), Dr. Roli Mathur, Scientist E and Head, ICMR Bioethics Unit, National Centre for Disease Informatics and Research (NCDIR, Bengaluru. Dr. Biju George Professor and Member Secretary (Institutional Review Board) Department of Haematology, Christian Medical College, Vellore, Dr. Medha Rajappa Member-Secretary, JIPMER ethics committee and Sarbani Ghosh Laskar, Tata Memorial Hospital, Mumbai. The consultative meeting was funded by the Translational Health Science and Technology Institute (THSTI), Dept of Biotechnology, Ministry of Science and Technology, Government of India.

Public Relations Office

The Public Relations Office of the University issued a number of press releases on various activities, forwarded press clippings and other reports/information pertaining to JNU appearing in the press, as feedback to the University authorities. It also responded to public queries relating to academic as well as administrative matters and received important visitors and delegations to the University. Replies to written queries were sent to those who sought information regarding various aspects of the University functioning.

A bi-monthly journal ‘JNU News’, is brought out by the Public Relations Officer. It is edited and published by the PRO on behalf of the University. The journal serves to bridge the information gap and tries to initiate and encourage a constant dialogue between various constituents of the University community as well as with the rest of the academic world. The Annual Report of the University was also prepared and published both in English and Hindi by the PRO Office.

During the year under review, the PRO office assisted the University in organizing the functions regarding felicitation of the retired employees, faculty, and organizing various Lectures of the University.

Guest House

JNU’s three guest houses Gomti; Aravali and Aravali International provided accommodation to approximately 3916 guests during the year under review. They included teachers and research scholars from various universities and educational institution in India and abroad for collection of research material or other academic pursuits. Official guests of the University, guests of faculty/staff, parents of students and UGC guests were also provided with accommodation varying short periods.

Rajbhasha Cell

There is established a Rajbhasha Cell for Translation and various Hindi related services in JNU. It is headed by Assistant Director (OL) and assisted by Senior Translator, Junior Translator, Stenographer, Computer Operator and so on. Rajbhasha Cell acts under the administrative control of the Administration of JNU. It keeps on monitoring the implementation and the progressive use of official language of the union in the University & facilitates various schools/centres/sections/departments of the university to do office work in Hindi.

During the year under report, Rajbhasha Cell of the university undertook the following assignments/activities:

- **Quarterly Hindi Meetings:-** Rajbhasha Cell convened three Rajbhasha implementation committee meetings. During the year the 1st meeting was convened on 25 April, 2017. The meeting was presided over, as usual, by its Chairperson Prof. Chintamani Mahapatra, Rector-I. Various important decisions regarding implementation and progressive use of Hindi were taken in the meeting.

The 2nd meeting of the Official Language implementation Committee (OLIC) was convened on 12 July, 2017. It was presided over by its Chairperson. Top level officers of the university are its members. Assistant Director (OL) is the member secretary of this meeting. A number of important decisions were taken in the meeting to propagate the use and implementation of official language Hindi in the working of the university.

Officials of MHRD and Regional implementation Office (RIO), Department of Official Language, MHA are also invited to attend these meetings. However, no such officer attended the above meetings in the year 2017-18.

The Third meeting of the Official Language Implementation Committee (OLIC) was convened on 26 March, 2018. The meeting was presided over by the Registrar of the University. Top level officers are its members. A number of important decisions were taken in the meeting to propagate the use and implementation of official language Hindi.

JNU is also the member of Town Official Language implementation committee (TOLIC) TOLIC meetings are regularly attended by the Head of the university or his nominee. Half yearly progress report of Hindi in respect of the University is regularly sent to TOLIC secretariat. The said committee has nominated Assistant Director (OL) of the university as Nodal Officer for reviewing the quarterly progress report of Hindi relating to the member offices of TOLIC.

- **Hindi Workshops/Seminars/Trainings:-** Rajbhasha Cell of the university conducted the 1st Hindi Workshop of the year under report on 3 – 4 May, 2017. It was a one-day workshop. A total of 26 employees participated in it. The workshop was meant for Section Officers. They were imparted training in connection with Hindi noting/drafting and use of Hindi in Information Technology (IT). The faculty/Trainers/Speakers are invited from the Central Hindi Training Institute, New Delhi and other offices.

2nd Hindi workshop was conducted on 28 September, 2017. It was a one day workshop. A total of 12 officials (Senior Assistant) took part in the workshop. They were imparted training on the use of Hindi in computers (Unicode and various Hindi softwares).

Hindi Training Classes for non-teaching officials of the university are also conducted at JNU itself. The classes are meant for the officials who do not possess working knowledge of Hindi. An official (Hindi Pradhyapak) from CHTI, DOL conducts weekly visits to teach such employees. During the period under report, Hindi course namely Hindi Parangat was run in the JNU Campus itself.

- **Hindi Fortnight Celebration:-** Hindi Fortnight was celebrated in the university from 1 – 14 September, 2017. Various Hindi Competitions were organized for the employees of the university. A total of 06 Hindi Competitions were organized for the employees during the Hindi fortnight. There were First, Second, Third and consolation prizes. The winners were distributed the prizes and a citation on the occasion of Hindi Day Celebration. All the participants got benefitted from the same.
- **Hindi Day Celebration:-** Hindi Divas was celebrated on 27 September, 2017 in the University with Mrs. Suniti Sharma, Director (OL), MHRD, as Chief Guest and Dr. Mohan, as Special Guest and Three Hindi Kavis were also invited to the programme. Prof. S.C. Garkoti, Rector-2 presided over the function. Prof. Devendra Kumar Choube, Hindi Advisor and Dr. Pramod Kumar, Registrar also addressed the audience. Dr. Ganga Sahay Meena, Associate Professor anchored the programme. Many awards were also distributed to the winners among Hindi Competitions during the function. A lot of faculty members, students, officers and staff members of the university attended the function. The poets enthralled the audience.

- **Celebration of Memorial Lecture:- 5th Gunakar Mule Memorial Lecture** was celebrated with full fervor in the university on 8 March, 2018, Prof. Chandan Choube was available as Chief Guest and Prof. Nand Kishore Pandey, Director, Central Hindi Training Institute, Agra was available as special Guest they delivered the **Gunakar Mule Memorial Lecture** on this occasion. A total of 04 Hindi Competitions were organized for the students of the university. The competitions got a good response. Numerous participants came forward to take part in these competitions. A debate competition for the students of JNU was also organized during the function itself. The celebration was a grand success.
- **Miscellaneous Actitives:-** JNU, being a TOLIC member, was assigned the task of organizing of **Hindi Essay Competition** for the employees to TOLIC member offices. Hence, an Essay writing competition was organized for the target group on 8 February, 2018. A total of 51 employees from different offices participated in the above competition. The winners were awarded a cash prize of Rs. 5000/- (First Prize), Rs. 3000/- (Second Prize), Rs. 2000/- (Third Prize) and Rs. 1000/- (Consolation Prize each). In addition, Rajbhasha Cell helps to organize Flag Hoisting Ceremony in the University Campus. It makes the arrangements for the KV children to present Patriotic songs and other activities on the occasion of Independence Day (15 August) and Republic Day (26 January).
- Apart from the above, Rajbhasha Cell constantly strives to propagate official language Hindi among the staff members of the university. It collects the **Quarterly Progress Report** of Hindi from the various sections/schools/centres/ departments of the university and arranges to send the compiled report to the MHRD, UGC and Regional implementation office (RIO) of the Department of Official Language. The above report is filled in online on the platform of DOL, MHA.
- Rajbhasha Cell undertakes various Hindi translation works in respect of Annual Report of JNU, Annual Accounts, Audit Report, Academic Ordinance, Court Meeting Agenda and Minutes, Tender Notices, Admission Notices, advertisement for recruitment and other purposes and all the documents covered under section 3(3) of the Official Language Act i.e. routine orders, Circulars, Notices memoranda etc. Hindi Translation is the main job-work of the cell. Rajbhasha Cell also offers help to facilitate use of Hindi on computers and E-Office.

Chief Proctor

Statue 32 of the University deals with maintenance of discipline among students of the University; all powers relating to discipline and disciplinary action in relation to students shall vest in the Vice-Chancellor. Statue 10 (3) (a) states that there shall be a Chief Proctor appointed by the Executive Council of the University.

The Chief Proctor's Office has been in existence since 1986. The Proctorial Team consists at present of one Chief Proctor assisted by five (of which two are women Proctors). The Chief Proctor's office is responsible for maintaining discipline among the students of the University. In the execution of its duty of maintaining peace and harmony on the campus, it relies, by and large, on the philosophy of taking reformatory measures rather than punitive steps. In cases involving violation of disciplinary norms, however, appropriate disciplinary action is taken.

Legal Cell

The Legal Cell came into being sometimes in the year 2007 and before that the existing cases against the University were being dealt with by their respective concerned branches. There were no inter-linkages among the departments *vis-à-vis* the legal issues. After the formation of the Legal Cell, all the pending legal issues/cases with different sections were clubbed together, thereby dealing with the cases pertaining to different branches of the University, through the empanelled legal counsels of the University. This has proved become very smooth and hindrance-free exercise.

The Legal Cell has been assisting all the stake-holders, viz. faculty, staff and students in the legal issues faced by them from time to time *vis-à-vis* providing legal advisory work like vetting of legal documents, draft agreements, MoUs, Tender documents and interpreting matters having potential of legal repercussions. The number of court cases dealt with by the Cell from its inception are as under:-

S. No.	Particulars		
1.	Total cases listed	-	278
2.	No of cases Disposed off	-	197
3.	No of cases Pending	-	81

During the period under report, the number of fresh cases received and disposed off were as under:-

From 01.04.2017 TO 31.03.2018

S. No.	Particulars		
1.	Total cases listed	-	45
2.	No. of cases Disposed off	-	22
3	No. of cases Pending	-	23

The 81 number of cases are pending in the court as on 31.03.2018 including the 23 cases for the period 01-04-2017 to 31-03-2018.

The Legal Cell has been continuously monitoring the court cases and liaising with various departments of the University and legal counsels those connected with such cases for compliance. It also continues to exercise constant liaisoning with Standing/Additional Standing Counsels of the University for feedback and compliance in matters of court cases and other issues also concerning interest of the University.

Security Department

During the period under review, the following important steps were taken by the Security Department for strengthening the Security system in the JNU Campus:

- Successful control & extinguishing of 21 nos. fires at different locations in the campus.
- Successful conduct of a practical fire training and Mock drill at schools and hostels.

JNU UNESCO Club

Meet with NGO. The UNESCO club of Jawaharlal Nehru University organised a visit to Combined Action for Progress, an NGO that aims to serve the society in an inclusive manner while promoting peace, equity, participation, awareness, good governance and inclusive growth. The objective of the visit was to understand the ground reality regarding the degree of awareness for education among the children living in slum areas, 12 April, 2017.

JNU Clubs & SPICMACAY

The university recently collaborated with SPIC MACAY and organized a SPIC MACAY orientation programme on 18th August 2017. This event did not only lay the foundation of SPIC MACAY JNU Chapter but can also be seen as a major milestone on the university's way to cultural rejuvenation on the campus. It marked a welcome to all the freshers on the campus & encouraged them to participate in the cultural enhancement of themselves. Presentation by JNU cultural clubs' & SPIC MACAY along with a beautiful Koodiyattam performance marked the event, 18 August, 2017.

The JNU Nature and wildlife club organized a heritage walk to the Sanjay van, 18 August, 2017.

JNU Clubs & SPICMACAY

The Cultural Clubs, Dean of Students Welfare, IHA in collaboration with SPIC MACAY organized Hindustani Classical Vocal Recital by World Renowned artists Pt. Rajan and Sajan Mishra Chaurasiaji at the Convention Centre, Jawaharlal Nehru University. The program was attended by the Vice – Chancellor, JNU, Prof. M. Jagadesh Kumar along with Rector I and II, Prof. Chintamani Mahapatra and Prof. S. C. Garkoti, 31 August, 2017.

JNU Clubs & SPICMACAY

That is how JNU-SPIC MACAY chapter has come into being. After inviting many eminent artists to the campus, the university organised a week-long program “**VIRASAT 2017**”, which is dedicated to artists like Sayeeduddin Dagar, M Balmuralikrishna, Kishori Amonkar, Rehmat Khan Langa and certain others in recognition of their invaluable contribution to further enrich the country's intangible heritage, 9 – 14 October, 2017.

JNU Clubs & CRS

The Centre of Russian Studies organised a cultural festival “Days of Russia in India” to mark 70 years of Diplomatic ties between India and Russia, 12 October, 2017.

The event focused on providing a platform to undergraduate as well as postgraduate students to highlight their abilities in various fields. They got an opportunity to test their knowledge of the subjects studied – grammar, translation, literature and culture.

IHA and JNU Nature and Wildlife club conducted a nature trek to kheerganga, parvatti valley, Himachal Pradesh, 18 – 20 October, 2017.

Cultural Committee, Office of Dean of Students, IHA, JNU

The cultural committee, office of the Dean, IHA, and JNU organized the annual cultural fest this year, “JNU Mélange” which was a great success. As the name suggests, it was an amalgamation of both the national and international cultural activities. The Fest was organized under the guidance of Dean of Students, Prof. Umesh Ashok Kadam and the Cultural Coordinator, JNU Prof. Meeta Narain along with the other members of the cultural committee and students conveners of the various clubs on the campus, 18 February, 2018.

The program was divided into two parts – the morning sessions consisted of various events like the photography workshop, the Open mic session, art exhibition, an interactive session with the members of the NGO, “MUSKAN” which works on Drug de-addiction and many international performances. Also the program was followed by a number music and dance programs performed by the students of music and dance club.

JNU is one place that has been known for its space of freedom and rationality. We in JNU believe in a culture that provides a proper space to express oneself. JNU MELANGE has been the perfect example of the different cultures of our nation as well as of the other countries such as Korea, Russia, Spain and many more.

JNU Cultural Committee & SPICMACAY

JNU had the pleasure of having “Bombay Jayashree” amongst us in association with the JNU Spic Macay chapter on 24 February, 2018. Her magical voice was really a boon to hear. We witnessed a huge crowd for this musical evening. The academy award nominated vocalist made us realize, how soothing her voice can be, 24 February, 2018.

“Bombay” Jayashree Ramnath is an Academy Award nominated, Indian Carnatic music vocalist and music composer. She is a disciple of violin maestro Lalgudi Jayaraman. She has performed at various festivals and venues all across India and in over twenty different countries. Jayashree worked with Ang Lee on his motion picture, Life of Pi. She performed the lyrics for “Pi’s Lullaby”, which was nominated for the 2012 Oscars in the Best Original Song category. She has also composed music for actor Revathi’s films Verukku Neer and Kerala Cafe.

Literary Club

JNU Literary Club successfully completed its proposed 'Public Lecture' in 2 sessions titled 'Human Trafficking in India & State-Civil Society Interface' and 'Political Activities and Associated Violation of Human Rights' in association with National Human Rights & Crime Control Bureau, 19 March, 2018.

The panel in the first session had representation from all 3- State, Civil Society and Academics. Whereas Prof Mondira threw light upon the theoretical aspects of Human Trafficking, Dr. Meeran Borwankar spoke of the real life hurdles that she had to face while being a law enforcer. Shri Rakesh Sinha ji, in the 2nd session, spoke of the necessity to decolonize Indian mind, micro narrative and inclusiveness.

Nature & Wildlife Club

JNU Nature & Wildlife Club in association with IHA successfully organised the poster making competition to observe the International water Day. The main objective of the event was to raise awareness regarding environmental protection, especially water among the university students and to seek their view point. Students from different schools of the university participated and made beautiful posters. After finishing, Professor incharge of the Club, Dr. Sudesh Yadav with his speech threw light on world water Day. It was then followed up by prize distribution by Prof. Meeta Narain, Cultural club coordinator and Dr. Sudesh Yadav. The JNU Nature & Club would like to sincerely thank IHA and Cultural club coordinator for the sheer cooperation and support which made the event a success, 22 March, 2018.

University Science Instrumentation Centre

During the period of report the centre executed total 187 jobs related to the design, fabrication and repair of scientific equipment/ instruments of various science schools. Most of these jobs were of mechanical, electrical, carpentry in nature and very few were in electronics.

Fabrication of Instruments

The facility of design and fabrication of USIC was used by the researchers of various science schools and a number of instrument parts and attachments of equipment were fabricated. But this remained confined to not so sophisticated designs. The number of job requests for fabrication and repairs has diminished considerably after decentralization of purchases and repairs to the schools and centers. Some of the technical staff of the USIC not having adequate work can be redeployed to the engineering branch and other schools and centers.

Invited Talks/ Guest lectures by the Faculty

Prof. Shatendra K. Sharma, Director USIC delivered the following talks during the year of report

- **Sharma Shatendra K**, Delivered an invited talk on “Science and Technology in Ancient India” at Zakir Hussain College Delhi, 20 April, 2017
- **Sharma Shatendra K**, Delivered a Guest lecture on “How to innovate and Invent” at a National Training Programme for Chemistry P G Teachers at Kendriya Vidyalaya Pattom Thiruvananthapuram Kerala, 18 May, 2017
- **Sharma Shatendra K**, Delivered an invited talk on “Characterization of Nano-Structures” at the International Conference on Advances in Applied Sciences, Engineering and Technology AASET2017, KRMangalam University Gurugram (India), 17 – 18 August, 2017
- **Sharma Shatendra K**, A guest lecture on “X-ray Fluorescence Spectroscopy” at CSIO CSIR NPL complex New Delhi to the participants of CSIR International workshop, 16 February, 2018

Memberships of Boards/ Committees (Outside JNU)

- **Sharma Shatendra K**, Worked as Subject Expert in the field of Physics and Nuclear Engineering in the panel of Recruitment and Assessment Centre DRDO, Ministry of Defence; Worked as subject Expert on the UPSC, govt of India panel in Physics/ GeoPhysics; and Member, Board of Studies in Physics Utrakhnad Open University Haldwani (Uttarakhand)

Advanced Instrumentation Research Facility (AIRF)

Advanced Instrumentation Research Facility (AIRF) is a specialized research facility which now houses about 30 sophisticated state-of-the-art instruments with various supporting/ basic facilities. AIRF activities started from year 2008 onwards. It caters to the inter-disciplinary applications in research to all the JNU science schools which includes the School of Biotechnology, School of Environmental Sciences, School of Information Technology, School of Life Sciences, School of Physical Sciences, Special Centre for Molecular Medicine and Special Centre for Nanosciences of JNU, as well as other academic research institutes and private companies/ industries within and outside Delhi. This research facility serves as an academic, research and scientific service provider and facilitator. It also supports inter-disciplinary academic and research activities by conducting regular workshops and training programmes. AIRF is presently headed by the Director - Prof. Dinesh Mohan, School of Environmental Science, JNU.

Highlights of AIRF

- To become an internationally recognized centre for Excellence in Quality and Innovative Scientific Service Solutions in the field of inter-disciplinary research & development using state-of-the-art cutting edge scientific instrumentation.
- To generate highly skilled manpower at undergraduate /postgraduate/doctorate level on high-end analytical instruments through peer interaction and direct instrument usages.
- To be a source of ideas, innovation, research and development in the field of different high-end instrumentation techniques.
- To organize short, intensive courses, conferences and seminars on sophisticated analytical equipment to develop the skills related to different instrumentation techniques which will benefit the scientific community.

During last year (April, 2017 – March, 2018) *Seven workshops and training programmes* have been conducted which created awareness among the research community for the effective utilization of research facility leading to the substantial increase in the number of efficient users. The workshops and training programmes are conducted to provide efficient and trained professionals to maintain a pace in the development of research in the country. The increased manpower has helped in maintaining the smooth functioning of the facilities. During the past year the number of publications as well as the quality of the research publications have improved substantially. The support through DBT-fund towards the maintenance of the sophisticated instruments has brought about a marked reduction in down time of the instruments and has hence substantially boosted the qualitative use of the facility. These efforts have motivated researchers to explore the facility and get benefitted by it.

Major Equipments/Laboratory Facilities Housed at AIRF

- Transmission Electron Microscope (TEM)
- Scanning Electron Microscope (SEM)
- Gas Chromatograph Mass Spectrometer (GCMS) with Thermal Desorption System
- Laser Confocal Microscope with Fluorescence Correlation Spectroscopy (FCS)
- Time Resolved Fluorescence Spectrometer (TRFS)
- Flow Cytometer and Cell Sorter
- Circular Dichroism (CD) Spectrometer with Stop Flow
- FT-IR/ Raman Spectrometer with Microscope
- Wavelength Dispersive X-ray Fluorescence (WDXRF) Spectrometer
- Energy Dispersive X-ray Fluorescence (EDXRF) Spectrometer
- X-ray Diffraction (XRD) System for Powder/ Thin Films with low temperature attachment
- X-ray Diffractometer (XRD) for Macromolecules & Protein Crystallography
- Surface Plasmon Resonance (SPR) Spectrometer and Potentiostat Galvanostat
- Capillary Electrophoresis System
- Liquid Nitrogen Plant
- 500 MHz Nuclear Magnetic Resonance (NMR) Spectrometer with solid state attachment (CP-MAS)
- Liquid Chromatography Mass Spectrometry (LCMS) with 2D nano ACQUITY System
- MALDI MS TOF/ TOF System with LC-MALDI

- Bio Analyzer
- Off gel Fractionator
- FPLC
- Real Time Laser Scanning Confocal Microscope with motorized inverted microscope having Live Cell and Spectral Imaging
- Fully Motorized Laser Total Internal Reflection Fluorescence (TIRF) Microscope, Integrated Live Cell Imaging Set-up
- Trinocular Research Microscope (anti-fungus type) for bright field, phase contrast, DIC, polarizing and digital camera attachment
- Physical Property Measurement System (PPMS) Closed Cycle based Cryogen free System
- Femtosecond Laser Laboratory: Femtosecond Laser Source (MaiTaiHP) with Fluorescence Up-conversion Spectrometer
- Electron Paramagnetic Resonance (EPR) Spectrometer
- FESEM with FIB and EBL
- Combined Confocal Raman - Atomic Force Microscope (AFM)

Minor Equipments/Laboratory Facilities

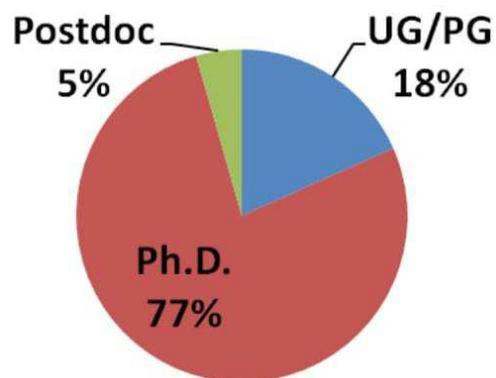

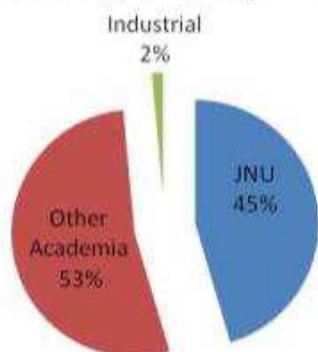

- TEM & SEM Sample Preparation Laboratory
- Inverted Research Fluorescence Microscope
- Two Sample Preparation Laboratories with some basic facilities equipped with refrigerated and non-refrigerated, micro-centrifuges, pH meters, weighing balances, ice machines, vortex mixers, etc.
- Manual Hydraulic Press for FTIR
- Semi Automatic 40Ton Hydraulic Press for XRF sample preparation
- Muffle Furnace (1400 °C working temperature)
- Critical Point Dryer
- Turbo Freeze Dryer with liquid nitrogen -fed cold stage
- -80°C Deep Freezer
- -20°C Deep Freezer
- MQ Plant
- Incubator and Shakers
- Laminar flow benches
- Chemical hoods
- Speed Vac
- Sputter Coater
- Sonicator/Ultrasonic Water Bath
- Column Washing Pump (Isocratic HPLC Pump)

The existing state - of - the art instrumentation facilities at AIRF can be availed at nominal user charges. The details on the instrumentation facilities, contact person details and user charges etc. are available on JNU website at www.jnu.ac.in/AIRF.

Achievements of AIRF

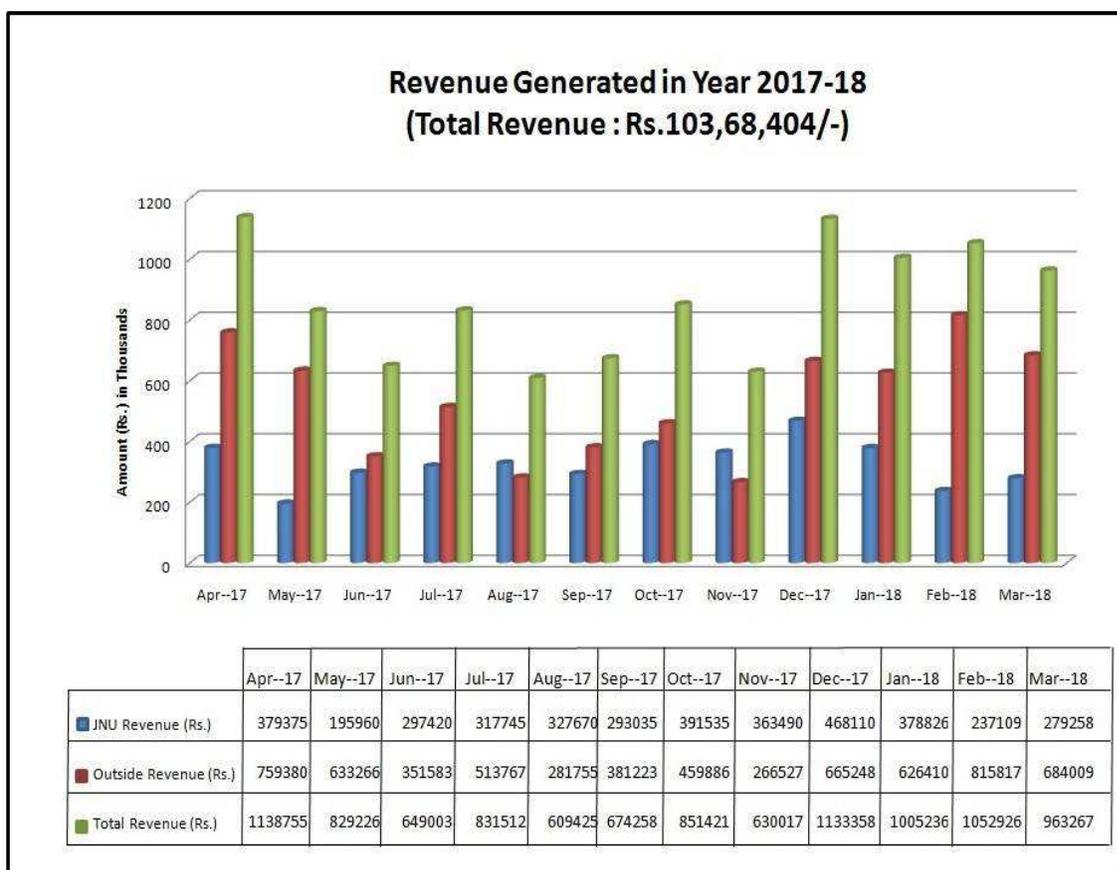

- AIRF now has more than 3,000 users across India.
- AIRF is involved in assisting the research activities of ~600 researchers/students from different science schools of JNU and outside.
- Approximately Rs. 1 crore revenue was generated in the last fiscal year.
- Seven Workshops and Training programmes have been conducted.
- AIRF Profile Booklet was released by the Vice-Chancellor during the Advisory Committee meeting held in the month of December, 2017.

Revenue (Aprox.) Share 2017-2018

Details of participants attended workshops/training held at AIRF

Total No. of participants	:	140
From JNU	:	100
Outside JNU	:	40

Training Programmes/Workshops organized during April 2017-March 2018.

S. No.	Workshop Title	Dates
1	Gas Chromatography - Mass Spectrometry : Principles and Applications	28 April, 2017
2	Field Emission Scanning Electron Microscopy Based Lithography	4 – 5 May, 2017
3	Combined Confocal Raman - AFM System	30 June, 2017
4	Energy Dispersive X-Ray Fluorescence Spectrometer (EDXRF) and its applications	12 July, 2017
5	Lecture and Demonstration on “Emerging Applications on Potentiostat-Galvanostat”	8 August, 2017
6	Time Resolved Fluorescence Spectroscopy & Applications	6 October, 2017
7	Circular Dichroism Spectroscopy and it’s Research Applications	24 November, 2017

Details of Workshops (April 2017-March 2018)

S. No.	Title	Speakers	Participants	Topics covered
1.	Workshop on GC-MS 28 April, 2017	1. Dr. Sudesh Yadav, SES, JNU 2. Mr. Subodh Kumar Budakoti, Shimadzu 3. Dr. Ajai Kumar, AIRF, JNU	20 Research Scholars from India	1. Fundamentals of GC-MS 2. Introduction to Gas Chromatography with Mass Spectrometry and its applications” 3. Overview / Demonstration / Sample Preparation of GC-MS. 4. Data acquisition, Analysis and Interpretation
2.	Workshop on FE-SEM based Lithography 4 – 5 May, 2017	1. Dr. Hana Tesařová, Tescan, Brno 2. Prof. Aravindan. S, IIT Delhi 3. Dr. Nirat Ray, SPS, JNU 4. Dr. Ruchita Pal, AIRF, JNU 5. MR. Saroj Kumar Jha, AIRF, JNU 6. Dr. Gajender Saini, AIRF, JNU	20 Research Scholars from India	1. Lecture on Conventional Electron Microscope and difference with FE based Scanning electron Microscope. 2. Lecture on Focussed Ion Beam and it’s applications 3. Lecture on Lithography 4. Demonstration on Electron and ion Beam Lithography 5. Demonstration of Electron and ion Beam Lithography using FESEM 6. Lecture on Analytical Potential (3D/EDS/EBS, TOF-SIMS).
3.	Workshop Combined Confocal Raman AFM, 30 June, 2017	1. Mr. Satheesh Kumar, Witec , India 2. Mr. Saroj Kumar Jha , AIRF, JNU 3. Dr. Neetu Singh, AIRF, JNU 4. Mr. Plabon Borah, AIRF, JNU	20 Research Scholars from India	1. Lecture on ‘Design Criteria for Raman Spectroscopic System, Co-Related Raman & PL’ Research Applications 2. Lecture on ‘Atomic Force Microscope’ 3. Lecture on ‘Project Four Analysis software’ 4. Demonstration of Raman and PL System. 5. Demonstration of AFM System.

4.	Workshop on EDXRF 12 July, 2017	1. Dr. B.N. Srivastava, PANalytical India 2. Dr. Manoj Pratap Singh, AIRF, JNU 3. Mr. Sandeep Sarpal, AIRF, JNU	20 Research Scholars from India	1. Lecture on 'Basics of EDXRF' 2. Analysis using high power polarized EDXRF 3. Demonstration and Hands-on of EDXRF equipment 4. Technical discussion on EDXRF equipment
5.	Lecture on Potentiostat & Galvanostat 8 August, 2017	1. Dr. Daniel Martin, Dropsens Spain 2. Mr. Santosh Kulkarni, Metrohm 3. Mr. Manu Vashisht, AIRF, JNU	20 Research Scholars from India	1. Lecture on Raman Spectro electrochemistry; new development and demonstration 2. Lecture on Energy applications using Autolab mainly Solar cell & Battery application
6.	Workshop on TRFS 6 October, 2017	1. Prof. S. S. Komath, SLS, JNU 2. Dr. Sobhan Sen, SPS, JNU 3. Dr. Pramit Kumar Chaudhary, IITD 4. Mr. Atul Kumar, Specialise Instruments 5. Dr. Neetu Singh, AIRF, JNU 6. Mr. Saroj Kumar Jha, AIRF, JNU	20 Research Scholars from India	1. Lecture on 'Basics of Fluorescence Spectroscopy and Anisotropy' 2. Lecture on 'Basics of Time-Correlated Single Photon Counting and its Applications' 3. Lecture on 'Time Resolved Fluorescence and Fluorescence up-Conversion' 4. Demonstration of TRFS 5. Demonstration of Femtosecond Fluorescence Up-Conversion Spectroscopy
7.	Workshop on Circular Dichroism Spectroscopy 24 November, 2017	1. Prof. S. S. Komath, SLS, JNU 2. Prof. Rajiv Bhat, SBT, JNU 3. Dr. Manish Kumar, AIRF, JNU 4. Dr. Gajender Saini, AIRF, JNU	20 Research Scholars from India	1. Basics of Circular Dichroism Spectroscopy 2. Data Analysis and Applications 3. Demonstration of CD System

Visitors

AIRF was visited by many delegates from India and abroad who appreciated this advanced facility at JNU.

- Dr. Mona Sharma, Department of Environmental Sciences, Central University of Haryana, Jant-Pali, Mahendergarh, Haryana, 24 April, 2017.
- Dr Shaili Srivastava Nigam, academic visit of masters students of environmental science, Amity University, Gurugram Haryana, 28 April, 2017.
- Dr. Ghazala Parveen, IGNOU, 25 May, 2017.
- Participants of 2nd Refresher Course in Life Sciences & Biotechnology organized by UGC HRDC, JNU, 20 October, 2016.
- Navrinder Kaur, Ph.D., Convenor, Biomedical Sciences, Deen Dayal Upadhyay KAUSHAL Kendra, Central University of Haryana, Mahendergarh, Haryana, students of B.Voc. Biomedical Sciences, 3 August, 2017.
- Iran delegation with Prof. Ashwani Pareek, SLS, 4 August, 2017.
- Visit of Chancellor, JNU, 9 August, 2017.
- African delegation of ITEC- Capacity Building Programme, 11 September, 2017.
- NAAC Peer Team, 10 October, 2017.
- Master's Student from SCMM, 6 November, 2017.
- Dr Suneel Onteru, ICAR-National Dairy Research Institute (Deemed University), Karnal, 19 December, 2017.
- Peter Fule, Northern Arizona University, USA, 21 December, 2017.

- International participants under ITEC Programme of Ministry of External Affairs (MEA), Govt. of India. CSIR-CSIO Delhi centre (A Regional centre under CSIR-Central Scientific Instruments Organisation, Ministry of Science and Technology, Govt. of India), 22 December, 2017.
- Sarita Saraswati, CNIC, Madrid, Spain, 11 January, 2018.
- 20 delegates from 4 countries under Himalayan University Consortium (HUC), 1 February, 2018.
- Delegates from Mississippi State University, USA, 27 February, 2018.
- Pre PhD students from SBT, 22 March, 2018
- Delegates from Amity University, Haryana, 23 March, 2018.

2017-18	Four	One	One

Other Contributions:

- **Prasad, Tulika,** Academic duties as Concurrent Faculty of Special Centre for Nano Sciences (SCNS), JNU.

Research Student Participation of Dr. Kavita Arora

- Two students participated in Science Day Celebration at JNU, 28 February, 2018.

- Two students participated in International Conference on “Applied Nanotechnology and Nano Science” ICANN-2017 at Tuljaram Chaturchand College of Arts, Science and Commerce, Baramati, Pune, and Nano and Molecular Society India, 7 – 9 December, 2017.
- One student participated in international conference on Study of Nanomaterials and Scientific Development in 21st Century (ICSNSDC) and IVth Annual Meeting of “Academy of Microscope Science & Technology (AMST), India (ICSNSDC & AMST 2017) held at Jiwaji University, Gwalior, 3 – 5 November, 2017.
- One student sent to GIAN course for advanced electron microscopy for material science at JNIAS building, JNU, 13 – 22 March, 2018.
- One student sent to “Women for science and science for women” conference held at ARSD College, University of Delhi, 9 February, 2018, at Vivekananda College and Lakshmbai College, 22 – 23 February, 2018 and JNU, 8 March, 2018.
- One student sent to 11th Symposium on Frontiers in Biomedical Research with the theme “*Challenges in Human Health: Prevention, Diagnosis and Cure*”, ACBR, University of Delhi, 19 – 21 February, 2018.
- One student sent to IPR workshop by Consortium of Women Entrepreneurs of India (CWEI) and JNU, 19 January, 2018.

Number of students awarded Degrees under supervision:

PhD Students: completed Viva in May 2017

Ongoing: 5

M Tech Interns and Trainees Supervised: 2

Conferences/symposiums Organized (1)

- **Arora Kavita**, Organizing and advisory team for international conference on “Applied Nanotechnology and Nano Science” ICANN-2017 at Tuljaram Chaturchand College of Arts, Science and Commerce, Baramati, Pune, and Nano and Molecular Society India, 7 – 9 December, 2017.

Participation in National/ International Conferences/ Meetings/ Workshops (9)

- **Prasad, Tulika**, National Science Day Festival at Jawaharlal Nehru University, New Delhi, India, 28 February, 2017
- **Prasad , Tulika**, International Conference on Applied Nanotechnology and Nanoscience (ICANN-2017) held in Tuljaram Chaturchand College of Arts, Science and Commerce, Baramati, Pune, India, 7 – 9 December, 2017

Faculty Research Projects

School of Arts and Aesthetics: (17)

- **Bhaskar, Ira**, Principal Investigator for UGC's UPE II Project, "Global Transactions and Transnationality: Art Historical, Cinematic and Performance Practices," awarded jointly to Fifteen faculty members of the School of Arts & Aesthetics for the period 2014 – 2019
- **Mazumdar, Ranjani**, Globalization and the Transactions of Culture: Histories, Theories and Practices, part of UPE II Project, "Global Transactions and Transnationality: Art Historical, Cinematic and Performance Practices," awarded jointly to Fifteen faculty members of the School of Arts & Aesthetics for the period 2014 – 2019
- **Choudhury, Soumyabrata**, Under UPOE Project on "Globalization and the Transactions of Culture: Histories, Theories and Practices", School of Arts and Aesthetics, JNU Organised DE-TEXT, a workshop-festival of philosophy and performance in collaboration with Philosophy Unbound, 9 - 10 March, 2018 (Friday and Saturday)
- **Bhaumik, Kaushik**, UPOE Project on "Globalization and the Transactions of Culture: Histories, Theories and Practices", at Cinema Studies, School of Arts and Aesthetics, JNU, 2014 - 2019
- **Hariharan, Veena**, UPOE Project on "Globalization and the Transactions of Culture: Histories, Theories and Practices", at Cinema Studies, School of Arts and Aesthetics, JNU, 2014 - 2019
- **Jhingan, Shikha**, UPOE Project on Globalization and the Transactions of Culture: Histories, Theories and Practices at Cinema Studies, School of Arts and Aesthetics, JNU, 2014 – 2019
- **Sarkar Munsu Urmimala**, "Cultures of Left Performance and Manifestations" (JNU and Warwick University Project funded by British Academy)
- **Sarkar Munsu Urmimala**, Project on Modern Dance and Intercultural negotiations, as a part of UPE (April, 2017 – ongoing)
- **Sarkar Munsu Urmimala**, Project on "Crisis of Democracy", a joint project by Trinity College Dublin, CHCI Mellon Global Humanities Institute and JNU, 2017 – 2018
- **Bharucha, Rustom**, Constructions and Re-inventions of the Ramayana: Performative Perspectives in the Here and Now, a research project on diverse performance traditions of the Ramayana, including traditions of Nangiarkoothu, Kattaikkuttu, Yakshagana, Sattriya, the Mewati Jogi oral narrative tradition, contemporary Indian theatre.
- **Parameswaran, Ameet**, Part of the project titled "Cultures of the Left: Manifestations and Performance", a collaborative project between JNU and the University of Warwick, funded by British Academy., 2017 – 2018
- **Dutt Bishnupriya**, Cultures of the Left: Performance and Manifestations, collaborative project with School of Theatre, Performance and Cultural Policy Studies, University of Warwick, by British Academy, 2016 – 2019
- **Dutt Bishnupriya**, (Chief Project Investigator), Theatre and Cultural Studies, Area Studies, emphasis on European Studies and University Management.), Indo-German Higher Education Project, by DAAD and UGC, 2016 – 2020
- **Prakash, Brahma**, UGC Major Project on Reimagining Banaras: Plurality of Spaces and Performances in Banaras, a collaborative project with the CSRD, SSS, JNU; Ref: MRP-MAJOR-GEOS-2013-25205, 2015 – 2018
- **Prakash, Brahma**, UPOE-II, JNU project on Global Transactions, Transnationality and Performance Practices, JNU, New Delhi, 2014 – 2019
- **Prakash, Brahma**, British Academy project on Cultures of the Left: Performance and Manifestation, British Academy, UK, 2016 – 2021
- **Sawant, Shukla**, UPE: Globalization and the Transactions of Culture: Histories, Theories and Practices: Undertook field work in Europe. Traveled to Kassel to see the Documenta, Venice to see the Biennale and other historical sites such as Ravenna etc. 10 – 23 July, 2017. This translated into a public lecture at the BDL museum and a panel discussion at the Italian Embassy Cultural Centre

- **Tandon R.**, (PI), To study the Role of *H. pylori* Driven Inflammatory Responses in the Setting of HIV Infection; Department of Biotechnology (Rs. 35 Lakh; 2018-2021).
- **Kushwaha, H.R.**, DST Inspire Research Grant, Sponsored by DST, 2012 – 2017.

Research Projects Given by University under UPE Grant:

- **P. K. Dhar and B.S. Balaji**, Design, synthesis and application of artificial enzymes derived from non-coding DNA towards therapeutic purposes, 2015 – 2020 (23 Lakhs)
- **Bhatnagar, R.**, Understanding Physiology of *B.anthraxis* using a genomics, proteomics and system Biology approach; by UPOE-II, 2014 – 2019 (11 Lakhs)
- **Uttam Pati**, Study of p53 – HIF a interrelation in hypoxia & Re – oxygenation, 2014 – 2018 (11 Lakhs)
- **Aparna Dixit, D. Choudhury & Swati Tiwari**, Enzymatic glycomics and its role in regulation of mammalian cell dynamics, 2014 – 2019 (34.50 Lakhs)
- **Rajiv Bhat**, Investigating aggregation and folding of human brain α - Synuclein, an intrinsically disordered protein of human proteome involved in Parkinson’s disease, and identifying inhibitors for preventing its misfolding and aggregation, 2014 – 2019 (11Laks)
- **K. J. Mukherjee**, Using Ómics’ technologies and system level perspectives to design host platforms for protein and metabolite overproduction, 2014 – 2019 (11 Lakhs)
- **D. Bharadwaj**, Study of genetic polymorphisms in chromatin remodeling genes involved with respect to type 2 diabetes etiology in Indo-Europeans, (11 Lakhs)
- **S. S. Maitra**, Isolation of terephthalic acid degrading bacteria/gene cluster from MSW leachate, 2014 – 2018 (11 Lakhs)
- **Rupesh Chaturvedi & Abhinav Grover**, Genomic, proteomic, and functional Characterization of secreted exosomes of *H. pylori*-Infected Gastric Epithelial Cells, 2014 – 2019 (23 Lakhs)
- **Deepak Gaur**, Elucidating the key protein-protein interactions (interactome) involved during erythrocyte invasion by the malaria parasite, *Plasmodium falciparum*, 2014 – 2019 (11 Lakhs)
- **S.M. Rajala**, Modulation of host cell glycolysis by influenza A viraln (swine flu) nucleoprotein.
- **Ranjana Arya**, Effect of altering sialic acid metabolism on cell function, 2014 – 2019 (11 Lakhs)
- **Rajesh Mishra**, Novel fluorescent probes for detection of conformational changes involved in protein aggregation related diseases. Funding : University Potential of Excellence-II, JNU, 11.0 Lakh (2015-2020)

- **Manoj K. Sharma**, Identification of key targets involved in sugar transport and storage in stalks of sweet sorghum. (funded by UPOEII grant of JNU) 2015-2019. (Ongoing) (11 Lakhs)
- **Ravi Tandon** (PI), Mechanism of Aging and HIV -1 Driven Inflammation in the Development of non-AIDS Morbidities, UPOE-II (Rs. 11 Lakh,)(2014-2019)
- **Bhattacharya, J.** ,Label-free detection multiple analytes on a single platform of nanostructured micro electrode array for medical diagnosis, 2014 – 2019 (24 Lakhs)
- **Kateriya, S.**, Optogenetic controlled modulation of cAMP, activation of protein kinaseA (PKA) and regulation of phosphorylation of CREB (cAMP response element-binding protein) in human cell (HEK-293) line. 11 Lakhs UPE-II, JNU, New Delhi-India
- **Kushwaha, H.R.**, Whole genome analysis of gene families playing crucial role in carbon and nitrogen assimilation in *Synechococcus* WH5701, 2017 – 2019 (3.5 Lakhs)

Un-sponsored Research Projects:

- **A. Dixit**, Differentiation inducing ability of *M. charantia*.
- **A. Dixit**, To understand the regulation of *c-jun* gene expression in normal and proliferating liver cells. Purification and characterization of transcription factor(s) involved in regulating the expression of *c-jun* gene in regenerating rat liver and cloning of their genes.
- **A. Dixit**, Studies on Napin-like gene from *M. charantia*.
- **A. Dixit**, Vaccine development against *Aeromonas hydrophila*, *Clostridium perfringens* and *Vibrio parahaemolyticus*.
- **R. Bhat**, Stability, folding, and aggregation studies of recombinant human α -, β -, and γ -sunucleins and the effect of polyphenols and neurotransmitters on their aggregation and amyloid formation.
- **R. Bhat**, Prevention of amyloid fibril formation in proteins by using structure stabilizing compounds using hen white and human recombinant lysozyme.
- **S.M. Rajala**, Host cellular nucleolin and virus nucleoprotein interplay in influenza A virus replication
- **S.M. Rajala**, Role of influenza A virus structural proteins in the regulation of host cell glucose metabolism
- **S.M. Rajala**, Oncolytic potential of recombinant measles virus
- **Tiwari, S.** Mutagenesis of human UDP-Galactose 4-epimerase and its effects on mammalian cell survival and proliferation
- **Tiwari, S.** Exploring linker structures between two ordered domains of the tumor-suppressor retinoblastoma protein (jointly with Prof. Indira Ghosh, SCIS, JNU)
- **Tiwari, S.** Role of an ERAD E2 in phagocytosis by mammalian macrophages

- **Arunima G.**, *Sacred Geographies, Hybrid Iconography: Faith Practices and Idioms of Malayali Religious Identity*, I am engaged in a study of the history of early modern Kerala from the perspective of its four different religious groups (Hindus, Christians, Muslims and Jews). By locating Kerala within a wider social geography of the Indian Ocean, I problematise the idea of “region”, as indeed many of the other categories that we consider stable by the 20th century, like religious community, language, or ethnicity. This study investigates not simply such categories but also hopes, by focusing on religious histories and faith practices, to shift the theoretical paradigms utilized to study the subcontinent, thereby altering our understanding of modern Indian history
- **Arunima G.**, *Gender, Photography, and Visual Practices in Contemporary India*, I have been researching and writing on contemporary visual practice, focusing mainly on painting and photography, in India for the past several years. Emerging from this work, I am working on a monograph on women artists and photographs in India, that addresses questions of gender, aesthetics and visibility. Here I read the work of women artists alongside other subaltern visualities, like that of queer and Dalit artists to understand issues of aesthetics and politics, and their relationship to cultural production and circulation

- **Mokkil Navaneetha**, Principal Investigator. UPE Project. “Contemporary Formations of Gender: Political and Aesthetic Imaginations of India.”
- **Mokkil Navaneetha**, Current research: “Bodies in Public: Gender, Media and Doing Politics”, This project brings into conversation the two fields of media studies and gender studies, and intervenes in them, in order to investigate how the central paradigms of feminism—autonomy, visibility and agency—are re-envisioned when we take into account how the performance of politics is affective, shaped by the tactile workings of visual technologies. By engaging with the constitutive links between of media technologies and political protests I aim to arrive at a new understanding of gender, body and collectivity

- **Solanki, Pratima R.,** Invited talk on “Potential of Nanostructured Materials for Biomedical Applications”, in 9th International C+NANO Convergence Technology Symposium (10th ICTS) organized by Department of Nanoscience and Engineering, Inje University, South Korea, 16 – 17 January, 2018
- Pramod, K. Gupta (Student) and **Solanki, Pratima R.,** Delivered talk entitled “Alumina Stabilized Tetragonal Zirconia Based Highly Sensitive Immunosensor for Detection of Ochratoxin A”, in 6th International conference on “Nanostructures, Nanomaterials and Nanoengineering 2017 (ICNNN 2017)”, organized by Tokyo University of Science, at Tokyo, Japan, 26 – 29 October, 2017
- Yana Babgi (Student), and **Solanki Pratima R.,** Delivered talk on “Synthesis and use of functionalized magnetic nanoparticles for the removal of heavy metals (Pb²⁺) from water”, in 6th International conference on “Nanostructures, Nanomaterials and Nanoengineering 2017 (ICNNN 2017)”, organized by Tokyo University of Science, at Tokyo, Japan, 26 – 29 October, 2017
- Pramod K. Gupta, (Student), **Solanki Pratima R.,** A poster presentation entitled “N-doped Graphene Quantum Dots Functionalized Zirconia Based Immunosensing platform for Ochratoxin A Detection”, in 10th Annual international workshop on “Advanced Materials”, organized by Ras Al Khaimiah Center for Advanced Materials, 18 – 20 February, 2018
- **Prasad Tulika,** Keynote lecture titled “Nanomedicine for Infectious Diseases”, for the Theme “Developing the Synergy between Pharmaceuticals and Medicinal Chemistry to Deliver Better Drugs”, in “16th Annual Medicinal and Pharmaceutical Sciences Congress” held at Seoul, South Korea, 16 – 17 October, 2017
- **Prasad Tulika,** Poster presentation entitled “*In vitro* studies on oxidative stress independent, Ag-nanoparticles induced cell toxicity of *Candida albicans*, an opportunistic pathogen”, selected in Late Breaker Abstracts at ASM Microbe 2017 at New Orleans, USA, 1 – 5 June, 2017

National: (17)

- **Solanki, Pratima R.,** Invited talk on “Potential of Nanomaterials towards Clinical Diagnostics”, in SYSCON 2017-2018, Bridging the Gap: Basic and clinical research from Bench to Bedside organized by The society of Young Scientists, AIIMS, New Delhi, 11 – 12 January, 2018
- **Solanki, Pratima R.,** Invited talk on “Surface Chemistry of Nanostructured Materials and their Applications”, in 86th Annual Conference of Society of Biological Chemists (SBC-2017) on “Emerging Discoveries in Health and Agricultural Sciences organized by School of Life Sciences, JNU, New Delhi, 16 – 19 November, 2017
- **Solanki, Pratima R.,** Invited talk on “Functionalized Nanostructured Materials and their Applications”, in BioTikos, 2017 national conference, on “ Trends in Nanobiotechnology at Teri University, Vasant Kunj, New Delhi, 28 – 29 September, 2017

- **Solanki, Pratima R.**, Poster presentation on “Cystein capped gold nanoparticles based biosensing platform for invasive IL-8 detection”, in Nanobiotech 2017, 2nd Annual Conference of Indian Society of Nanomedicine (ISNM) at IISER Thiruvananthapuram in partner with AIIMS, New Delhi, 6 – 8 December, 2017
- **Solanki, Pratima R.**, Invited talk on “Functionalized Nanostructured Materials and their Biomedical application”, in international conference on “Nanobiotechnology”, at Jamia Millia Islamia, New Delhi, 5 – 6 February, 2018
- **Solanki, Pratima R.**, Invited talk in international conference on “Advances in Applied Sciences, Engineering and Technology”, organized by School of Basic and Applied Sciences and School of Engineering and Technology at K.R. Mangalam University, Gurugram in association with JNU, New Delhi, 18 August, 2017
- **Solanki, Pratima R.**, Poster presented on “Prospect of Cancer Biomarkers detection using Electrochemical Technique”, in international symposium on “Cancer Prevention and Treatment”, organized by Cancer Research and Care Academy, SLS, JNU, 9 – 10 February, 2018
- **Prasad, Tulika**, Invited lecture titled “Synergistic potential of Ag-nanoparticles and inhibition of drug efflux pumps in pathogenic yeast, *Candida albicans*”, in international conference on “Applied Nanotechnology and Nanoscience (ICANN-2017)”, held in Tuljaram Chaturchand College of Arts, Science and Commerce, Baramati, Pune, India, 7 – 9 December, 2017
- Radhakrishnan, V.S., (research scholar), **Prasad, Tulika**, Poster titled “Combating multidrug resistance (MDR) in pathogenic fungi, *Candida*: A nano-based approach”, in National Science Day Festival held at JNU, New Delhi, 28 February, 2018
- Preeti, (Student) and **Prasad, Tulika**, Poster entitled “Physicochemical characterization of synthesized Zinc Oxide nanoparticles and their antimicrobial efficacy”, in National Science Day Festival held at JNU, New Delhi, 28 February, 2018
- Radhakrishnan V.S., (research scholar) and **Prasad Tulika**, Poster presentation entitled “Nano-based approach for combating multidrug resistance (MDR) in pathogen fungi, *Candida*”, at 86th Conference of Society of Biological Chemists on Emerging Discoveries in Health and Agricultural Sciences held in JNU, New Delhi, India 16 – 19 November, 2017
- Preeti, (Student), **Prasad Tulika**, Poster presentation entitled “Synthesis and Physicochemical characterization of Zinc Oxide nanoparticles and their antimicrobial efficacy over bulk ZnO”, at 86th Conference of Society of Biological Chemists on Emerging Discoveries in Health and Agricultural Sciences held in Jawaharlal Nehru University, New Delhi, India, 16 – 19 November, 2017
- Radhakrishnan V.S. and Preeti, (Student) and **Prasad, Tulika**, Poster titled “Nanomedicine for Infectious Diseases to develop better drugs”, in 2nd Annual Open Day “*Jan Jan JNU*”, held at JNU, New Delhi, 27 October, 2017
- Rajender Tiwari and **Birajdar Balaji**, Poster presentation entitled “Microstructure of 0.9(KNbO₃)-0.1(BaNi_{0.5}Nb_{0.5}O_{3-□}) Solid solution”, at international conference on “Electron Microscopy and allied techniques EMSI-2017”, held at Mahabalipuram, Tamilnadu, India, organized by IGCAR Kalpakkam, IIT Madras and EMSI, 17 – 19 July 2017
- Singh Inderjeet, and **Birajdar, Balaji.**, Poster presentation entitled “Photocatalytic degradation of methyl orange dye over Na doped TiO₂ nano-powder prepared via non-aqueous solvent controlled sol-gel route”, at international conference on “Nanobiotechnology”, ICN-2018, held at New Delhi, India, organised by Jamia Millia Islamia New Delhi, 5 – 6 February, 2018
- Tiwari Rajender Prasad, and **Birajdar Balaji**, Poster presentation entitled “Ferroelectric, Magnetic and Optical Properties of Ba and Sc co-doped KNbO₃”, at international conference on 62nd DAE-Solid State Physics Symposium”, held at DAE Convention Centre, Bhabha Atomic Research Centre, Anushaktinagar, Mumbai, India, organized by Board of Research in Nuclear Sciences (BRNS) , 26 – 30 December, 2017
- **Singh, Satyendra**, Invited talk on “Ferroelectric Materials for Future Electrocaloric Refrigeration Applications”, Science Day, at JNU, New Delhi, 28 February, 2018

- **Ahuja, Naman P.**, Panel discussion on “The Art, Arms and Armour of Rajasthan”, with Robert Elgood, BN Goswamy, Rima Hooja, Yashaswini Chandra, in conversation with William Dalrymple at the Jaipur Literature Festival 2018, 26 January, 2018
- **Ahuja, Naman P.**, Conversation with Stephanie Schrader, “Rembrandt and the Mughals”, at the Jaipur Literature Festival 2018, 27 January, 2018
- **Ahuja, Naman P.**, Public lecture: “An Extraordinary Painting by Johann Zoffany”, at Lucknow, at the Mahindra Sanatkada Lucknow Festival, supported by Sadbhavana Trust, 4 February, 2018
- **Ahuja, Naman P.**, Keynote address: “Visual Lexicons and Iconographic Vocabularies: The Need for Art History in a Digital Age”, organised by Kalpana 2018- a Tata Trusts initiated event, at CSMVS Mumbai, 12 February, 2018
- **Ahuja, Naman P.**, Moderator at the book launch, “The Jewish Heritage of Western India”, published by the Deccan Heritage Foundation, Mumbai in conversation with George Michell and Pushkar Sohoni, in Mumbai, 23 February, 2018
- **Ahuja, Naman P.**, Conference paper: “Curating Indian Art: Challenges and Narratives”, paper presented at “Archives and Museums: Old Routes, New Journeys”, a conference organised by India Foundation for the Arts at Max Mueller Bhavan, Delhi, 8 March, 2018
- **Ahuja, Naman P.**, India and the World: A History in Nine stories, a collaboration between the CSMVS, Mumbai, the National Museum, Delhi and the British Museum, London. Showcased at the CSMVS, Mumbai, 10 November, 2017 – 18 February, 2018
- **Shivaprakash H.S.**, Inaugural Speech, Rashtrakoota Festival, Malkhed, Karnataka, 7 March, 2018
- **Shivaprakash H.S.**, “Contemporary Drama and Theatre”, workshop on Indian Theatre, NSD Theatre Olympics, Bangalore, 28 February, 2018
- **Shivaprakash H.S.**, “The Role of Translation in India Today”, Brahmaputra Festival, Guwahati, 11 February, 2018
- **Shivaprakash H.S.**, “Evolution of Religious and Poetic Imagination in South Indian Literary Cultures”, Royal Asiatic Society, Kolkata, 2 January, 2018
- **Shivaprakash H.S.**, Inaugural Speech at Assamese Sahitya Sammelan, Dibrugarh Assam, 26 December, 2017
- **Shivaprakash H.S.**, Inaugural Speech, Under the Sal Tree Theatre Festival, Rampura, Assam, 16 December, 2017
- **Shivaprakash H.S.**, The keynote address, conference on “Significance of Basavanna Now”, Dept of Kannada, Mumbai University, 14 October, 2017
- **Sawant, Shukla**, On curatorial intent: the Documenta and the Venice Biennale, Bhau Daji Lad Museum, Mumbai, 2 September, 2017
- **Sawant, Shukla**, “The Long Exposure: Painting and Photography in Early Twentieth Century Mysore”, Dr. Bhau Daji Lad Museum, Mumbai, 3 June, 2017
- **Sawant, Shukla**, Lectures for the Post-Graduate Diploma in Modern and Contemporary Indian Art and Curatorial Studies at the Dr. Bhau Daji Lad Museum:
 - “Modern movements in West and South India in the 1930s/40s: An Overview [Specifically Bombay, Kolhapur, Baroda and Lahore in the West, and Mysore and Bangalore in the South]”, (3 Lectures) 2 – 4 June, 2017
 - “19th and 20th Century European Art Movements”, (3 Lectures) 3 – 4 March, 2018
- **Sawant, Shukla**, Special lectures for Critical Theory, Aesthetics, and Practice organized by Jnanapravaha, Mumbai:
 - Lecture 1- Modernism: theories and debates, 13 September, 2017
 - Lecture 2- Modernism: key formal and conceptual concerns, 13 September, 2017
 - Lecture 3 -19th and early 20th century modernist manifestation in India, 14 September, 2017
 - Lecture 4 -Art, Autonomy and Collective Practice, 14 September, 2017
- **Alone Y. S.**, Invited to deliver lecture at Seminar/Conference Hall, Zakir Hussain College (evening), New Delhi on “Understanding Indian Art traditions and Its Technological Aspects”, 19 April, 2017
- **Alone Y. S.**, Invited to deliver lecture on “Buddhism and Art in Ancient India”, at IIT-Gandhinagar, Gujrat for India-Ki-Khoj lecture programme, 16 December, 2017
- **Alone Y. S.**, Invited to deliver lecture at Indira Gandhi National Centres for the Arts, New Delhi on “Buddhist Stupas and Pillars”, 19 February, 2018

- **Alone Y. S.**, Invited to deliver lecture at Indira Gandhi National Centres for the Arts , New Delhi, on “Visual Narratives of Life of Buddha”, 20 February, 2018
- **Alone Y. S.**, Invited to deliver lecture at Indira Gandhi National Centres for the Arts , New Delhi, on “Jatakas in Buddhist Art”, 21 February, 2018
- **Alone Y. S.**, Invited to deliver lecture at Indira Gandhi National Centres for the Arts , New Delhi, on “Buddhist Development of Chaityas and Viharas in early Buddhist Caves of western India”, 22 – 23 February, 2018
- **Alone Y. S.**, Invited to deliver lecture at Indira Gandhi National Centres for the Arts , New Delhi, on “Ajanta Caves and Paintings”, 26 February, 2018
- **Alone Y. S.**, Invited to deliver lecture at Indira Gandhi National Centres for the Arts , New Delhi on “Development of Buddha images”, 27 February, 2018
- **Alone Y. S.**, Invited to deliver lecture at Indira Gandhi National Centres for the Arts “New Delhi on Bodhisattva Images in Buddhist Art”, 28 February, 2018
- **Alone Y. S.**, Invited to deliver lecture at Indira Gandhi National Centres for the Arts o, New Delhi n “Later Buddhist Iconography”, 1 March, 2018
- **Prakash, Brahma**, 6 Invited lectures on “Living Traditions”, in the National School of Drama, New Delhi, 20 – 23 October, 2017
- **Prakash, Brahma**, 2 Invited lectures on “Theatre and Performance Studies”, at the Department of Dramatics Arts, Mahatma Gandhi Antarsahtri Hindi Vishwavidyalaya, Wardha, 16 February, 2018
- **Rajarajan, R.K.K.**, “Leela An Exhibition on the Ramayana Tradition”, at Indira Gandhi National Centre for the Arts, New Delhi, Paper presented: Reading the *Rāmāyana* visually through Comparative Literature: Old wine-Vālmiki in Medieval vial-Kampan, 7 December, 2017
