

## **Call for Exchange Programme, Fall Semester, 2026, Sciences Po, Paris.**

We are delighted to write today for the **Fall semester 2026 exchange programme nomination campaign, which opens on 3 March 2026.**

### **About the procedure :**

1. All exchange students must be **nominated online** by their home university (we do not accept nominations by email). Please respect our exchange agreement specificities, in particular with regards to campus and programme nomination.

### **Choices**

- Undergraduate applicants will be required to select two campuses.
- Graduate applicants will be required to select two Master's programmes.
- This new process does not apply in the case of agreements that are specific to a single programme. However, it does apply in the case of agreements that are specific to several programmes.

### **Our regional campuses**

As you may know, the Sciences Po Undergraduate College is comprised of seven campuses, where all students study the same core courses in the humanities and social sciences. Our regional campuses are located in Menton, Dijon, Nancy, Poitiers, Reims, Le Havre, in addition of course to our flagship campus in Paris. Each regional campus offers a specific geographical minor: Sub-Saharan Africa (Reims), Asia (Le Havre), Europe (Dijon), Latin America (Poitiers), Mediterranean and Middle-East countries (Menton), and North America (Reims).

We are confident that Sciences Po's programme on our regional campuses will respond to many of your students' academic projects and aspirations. It will allow them to benefit from a solid and multidisciplinary academic training in the social sciences and the humanities, while enabling them to be immersed in a highly diverse and vibrant student community, with approximately 50% of international students coming from a wide range of countries. We would appreciate if you could help us promote this opportunity to your students and remain at your disposal should you have any further questions on studying on our regional campuses.

2. You should only nominate students intending to study at Sciences Po in **September 2026 (Fall semester) for one or two semesters of study**. Students intending to take part in the exchange programme beginning in January 2027 can only be nominated online from September 2026.

3. Successfully nominated students will receive an email advising them to complete and submit their application online and **upload supporting documents**. Now, we accept also the Duolingo test (score 130) to justify an English level.

4. Confirmations of admission will be sent directly to the students from **4 May 2026**.

Best wishes from Sciences Po,  
Student Exchanges Team
