ADMINISTRATION

No. 01/Admin./Corona (COVID-19)/Misc./2020-21/

Date: 16.04.2021

ADVISORY

The massive surge in the number of COVID-19 cases in India is alarming. Delhi has become the worst sufferer among the cities in India. As per available information, more than 322 COVID-19 positive cases have been reported in the JNU campus since March 2020. Presently, there are 64 COVID-19 positive cases in JNU, including 11 positive cases detected today. As of now, an unfortunate total of five COVID-19 related deaths in the university community have occurred.

The predicament of students and research scholars to pursue and complete their academic assignments is understandable. However, the library, hostel messes and eateries in the campus may be super spreaders. Health should be the top priority for all of us, particularly in the face of highly infectious virus with evolving mutants. There is no place better than home for getting a safe environment and, if required, for care for the unfortunate potential victims of the pandemic.

Therefore, keeping in mind, the well-being and safety of students and all campus residents, it is advisable, where feasible, for the students to leave for their native places in order to stay safe, and also help curb the virulent spread of COVID-19 virus.

This issues with the approval of the Competent Authority.
