## International Faculty Staff

Definition ()

History ()

Messages ()

Notes ()

Number of academic faculty staff who contributes to academic teaching or research or both at your university for a minimum period of at least three months and who are of foreign nationality.

The term 'international' is hereby determined by citizenship.

For EU countries, this includes all foreign nationals, even if from another EU state. In Hong Kong, this includes professors from Mainland China.

Inclusion and exclusion mirrors those for academic faculty staff.

It is important to note that visiting international faculty staff who are of foreign origin but members of a university other than yours should NOT be counted under this category.

In case of dual citizenship, the 'deciding' criteria should be 'citizenship obtained through birth', basically first passport obtained.
