

# AI for Viksit Bharat: Transforming Ideas into Innovations

*organized under the aegis of IndiaAI mission*

A presentation event is being organized under the aegis of the IndiaAI Mission, a Government of India initiative aimed at strengthening an inclusive and innovation-driven artificial intelligence ecosystem. The mission supports research enablement, capacity building, responsible AI adoption, and collaboration among academia, industry, and society, with the aim of enabling scalable and impactful AI-led innovation.

**Calling Young Visionaries:** We invite scholars and researchers to submit the abstracts of their innovative ideas and present their work demonstrating how AI can address national and societal priorities.

## Theme

- AI for Environmental Sciences
- AI for Health, Biology and Life Sciences
- AI for Physical Science and Engineering
- AI for Language, Linguistics, Literature and Cultural Studies
- AI for Society and Social Systems

**Note:** The scope is not limited to the above mentioned topics only.
